

AVIATION SUPPORT

IBC is responsible for the acquisition of a full suite of commercial aviation services supporting Department of the Interior bureaus as well as external customers.

WHAT WE OFFER

Services include but are not limited to aircraft purchase; maintenance of fleet aircraft; pilot service contracts; multiple award, indefinite delivery, indefinite quantity (IDIQ) contracts for rotary and fixed wing aircraft (On Call contracts); single award, IDIQ type contracts for rotary and fixed wing aircraft (Exclusive Use contracts); contracts for the purchase of unmanned aircraft (UAS); and multiple award, IDIQ contracts for UAS services.

KEY FEATURES

- Available to all federal and state agencies, as well as universities.
- Multiple and Single award IDIQ contracts for both fixed and rotary wing aircraft.
- Task orders are Fixed Price with EPA and T&M contract line items.
- DOI Office of Aviation Services can provide aviation expertise in the areas of technical specifications, safety and training if desired (mandatory for DOI customers).

GETTING STARTED

The IBC aviation website, ibc.doi.gov/aviation, provides both DOI and non-DOI customers with information and instructions on how to engage acquisition services personnel, as well as details regarding the types of contracts we currently have in place and how to initiate a new contract action.

SERVICE AREAS

AIRCRAFT PURCHASE: IBC can buy fleet aircraft.

FLEET MAINTENANCE: IBC has multiple award IDIQ contracts and Blanket Purchase Agreements with vendors to provide maintenance on fleet aircraft in Alaska and the Lower 48.

PILOT SERVICE CONTRACTS: IBC is able to contract on a temporary basis for pilot services when government pilots are not available to operate fleet aircraft.

ON CALL CONTRACTS: IBC has multiple award IDIQ type contracts for both rotary and fixed wing aircraft in Alaska, Hawaii, and the Lower 48. The scope of these contracts includes both project work, as well as fire suppression and search and rescue efforts.

EXCLUSIVE USE CONTRACTS: IBC is capable of contracting for vendor-provided aircraft on an exclusive use basis. These contracts can cover whatever scope is required by the customer.

UAS: IBC can contract for the purchase of fleet UAS, as well as for vendor provided UAS services (Fire suppression services only).

IBC provides assisted acquisition support from project inception through contract closeout. We support contracting projects that range from professional and information technology products and services to aviation support.
