

## Disclosure Requirements and Standardization

It is the goal of DOI to provide clarity regarding disclosure requirements (e.g., who discloses what, relevant limitations and exclusions), disclosure process (e.g., updates, corrections, certification, and provision of supporting documentation), and expected degree of cross-agency uniformity.

The disclosure of information indicated in the table below will be required across all DOI bureaus and offices that fund R&D projects, in accordance with the role of the participant in the R&D enterprise.

*General NSPM-33 disclosure requirements for Tier I and Tier II participants.*
