

Federal Wildlife Proposal

Proponent: Northwest Arctic Regional Advisory Council

Issue:

Extend the trapping season to match the State regulations for mink and weasel in Unit 23

Existing Federal Regulation:

Unit 23— Mink and Weasel

Unit 23— No limit.

Nov. 1-Jan. 31

Proposed Federal Regulation:

Unit 23— Mink and Weasel

Unit 23— No limit.

*Nov. 1-**April 15.***

Why Should this regulation be changed?

Aligning the Federal season to match the State season will help reduce confusion and increase opportunity. Trappers have indicated increased mink and weasel populations in Unit 23.
