Great American Outdoors Act

National Parks and Public Land Legacy Restoration Fund

The Great American Outdoors Act National Parks and Public Land Legacy Restoration Fund (GAOA LRF) is a commitment to protecting and sustaining our public lands.

Established on August 4, 2020, GAOA LRF allocates over \$1.6 billion annually from fiscal years (FY) 2021 through 2025 to the Department of the Interior (Interior) to address priority deferred maintenance and repair needs on public lands and Bureau of Indian Education-funded schools. With all five years of GAOA LRF funding, Interior bureaus will:

- Fund 396 projects across 50 states, the District of Columbia, and multiple territories
- Address nearly \$5.9 billion in deferred maintenance and repair
- Improve the condition of over 3,800 Interior assets

GAOA LRF Impacts Across America*

Repairing over **1,000** recreational and visitor experience assets

Improving ADA accessibility in nearly **50%** of GAOA LRF projects

Each year of GAOA LRF funding is estimated to support an average of **17,000** jobs and contribute **\$1.9 billion** to the U.S. economy

Improving facilities used by nearly **2,300** students and faculty at BIE-funded schools each year

Deferred Maintenance and Repair in Alaska

In Alaska, the total deferred maintenance and repair (DM&R) backlog for the four Interior GAOA LRF bureaus is \$373,071,000**.

Bureau	DM&R**
Bureau of Indian Education (BIE)	\$0
Bureau of Land Management (BLM)	\$61,105,000
National Park Service (NPS)	\$242,195,000
U.S. Fish and Wildlife Service (FWS)	\$69,770,000

GAOA LRF in Alaska

With the full five years of funding, GAOA LRF will invest nearly **\$106.3 million** towards improving over **60** assets across **18** projects in Alaska.

As of March 2025, Maintenance Action Teams have completed work at **1** FWS location and **1** NPS location in Alaska.

● GAOA LRF Projects ● Completed Maintenance Action Team Activities

Assets improved in Alaska:

Operational Buildings

Housing Assets

Recreational and Visitor Experience Assets

* These numbers are estimates and include FY21 - FY25 GAOA LRF-funded projects.

**DM&R estimates represent a point in time, reported as of 9/30/2024, rounded to the nearest thousand. DM&R is calculated based on asset repair needs in FRPP, which does not include assets with a status indicator of Report of Excess Submitted, Report of Excess Accepted, Determination to Dispose, Disposed, Cannot Currently be Disposed, or Surplus.

FY21-25 Projects, Locations, and Funding in Alaska

Bureau	Unit Name	Project Title	Funding [†] as of Mar. 2025
BLM	Anchorage District	Campbell Creek Science Center Access Repairs	\$3,500,000
BLM	Anchorage District	Campbell Creek Science Center Access Repairs–Phase II	\$2,100,000
BLM	Anchorage District	Campbell Tract Recreation Access Repair	\$100,000
BLM	Anchorage District	Glennallen Log Bunkhouse	\$276,000
BLM	Anchorage District	Glennallen Warehouse Consolidation	\$4,706,000
BLM	Anchorage District	Glennallen Warehouse Consolidation–Phase II	\$2,200,000
BLM	Anchorage District	Sourdough Campground Bridge Replacement	\$1,900,000
BLM	Fairbanks District	Fort Egbert National Historic Landmark Repairs	\$440,000
BLM	Fairbanks District	White Mountains National Recreation Area Access Repairs	\$10,700,000
BLM	Fire and Aviation, Galena Zone	Alaska Fire Service Galena Joint Administrative Office Replacement with FWS	\$8,300,000
FWS	Alaska Peninsula/Becharof NWR	Replacement & Rehabilitation of Refuge Buildings	\$7,000,000
FWS	Izembek National Wildlife Refuge	Modernize Facilities and Repair Seismic Issues– Phase I - Design	\$636,000
FWS	Izembek National Wildlife Refuge	Modernize Facilities and Repair Seismic Issues–Phase II - Construction	\$12,336,000
FWS	Kenai National Wildlife Refuge	Modernize Outdoor Recreational Facilities and Address Public Safety Issues	\$13,540,000
FWS	Koyukuk/Nowitna/Innoko National Wildlife Refuges	Replacement of the Galena Headquarters with BLM	\$8,000,000
NPS	Denali National Park and Preserve	Replace Ghiglione Bridge	\$3,349,000
NPS	Glacier Bay National Park & Preserve	Replace Concessioner Housing Units	\$19,268,000
NPS	Katmai National Park & Preserve	Replace Water Filtration System at King Salmon	\$7,938,000

[†]Rounded to thousands

GAOA LRF Project Spotlights in Alaska

Replace Concessioner Housing Units

Glacier Bay National Park and Preserve

Current housing at Glacier Bay National Park & Preserve. Photo Credit: NPS

Glacier Bay National Park and Preserve encompasses 3.3 million acres of rugged mountains, dynamic glaciers, temperate rainforest, wild coastlines, and deep sheltered fjords in Alaska's Inside Passage. The park's apartments for staff were undersized and in such poor condition that they were slated for demolition and replacement in 2005. Staff overflow had been living in the Glacier Bay Historic Lodge in rooms intended for guest rental. This project demolished and replaced the apartment buildings and the buried fuel and propane lines that were at risk of leakage. The new buildings will house more employees, leaving the existing Lodge units available for guest rental.

Modernize Outdoor Recreational Facilities and Address Public Safety Issues

Kenai National Wildlife Refuge

Construction at Kenai National Wildlife Refuge. Photo Credit: USFWS

Kenai National Wildlife Refuge is a highly visited refuge in Alaska known for its diverse ecosystems including ice fields, glaciers, tundra, forests, and coastal wetlands. Recreational facilities and transportation assets had deteriorated, threatening recreational opportunities and visitor access. This project is rehabilitating the site's cabins, outdoor education facilities, trails, campgrounds, fishing platforms, boat launches, roads, and parking areas.

Sourdough Campground Bridge Replacement

Anchorage District

New Sourdough Campground Bridge. Photo Credit: Curt Fortenberry

Sourdough Campground in Alaska is the end point for travels on the Gulkana Wild and Scenic River, one of the most popular rivers in the state for its abundant wildlife and water-based recreational activities. This project replaced the Sourdough Campground bridge because the previous bridge was functionally obsolete, structurally deficient, and restricted as it could not carry highway legal loads. The new replacement bridge prevented bridge failure and restored sole access to the boat launch that is the take-out for fishing on an isolated portion of the river.
