The Great American Outdoors Act National Parks and Public Land Legacy Restoration Fund (GAOA LRF) is a commitment to protecting and sustaining our public lands.

Established on August 4, 2020, GAOA LRF allocates over \$1.6 billion annually from fiscal years (FY) 2021 through 2025 to the Department of the Interior (Interior) to address priority deferred maintenance and repair needs on public lands and Bureau of Indian Education-funded schools. With all five years of GAOA LRF funding, Interior bureaus will:

- Fund 396 projects across 50 states, the District of Columbia, and multiple territories
- Address nearly \$5.9 billion in deferred maintenance and repair
- Improve the condition of over 3,800 Interior assets

GAOA LRF Impacts Across America*

Repairing over **1,000** recreational and visitor experience assets

Improving ADA accessibility in nearly **50%** of GAOA LRF projects

Each year of GAOA LRF funding is estimated to support an average of **17,000** jobs and contribute **\$1.9 billion** to the U.S. economy

Improving facilities used by nearly **2,300** students and faculty at BIE-funded schools each year

Deferred Maintenance and Repair in Kansas

In Kansas, the total deferred maintenance and repair (DM&R) backlog for the four Interior GAOA LRF bureaus is \$103,232,000**.

Bureau	DM&R**
Bureau of Indian Education (BIE)	\$44,126,000
Bureau of Land Management (BLM)	\$0
National Park Service (NPS)	\$10,879,000
U.S. Fish and Wildlife Service (FWS)	\$48,226,000

GAOA LRF in Kansas

With the full five years of funding, GAOA LRF will invest nearly **\$17.8 million** towards improving **10** assets across **2** projects in Kansas.

As of March 2025, Maintenance Action Teams have completed work at **1** NPS location and **2** FWS locations in Kansas.

Assets improved in Kansas:

Transportation Assets

Operational Buildings

Housing Assets

● GAOA LRF Projects ● Completed Maintenance Action Team Activities

* These numbers are estimates and include FY21 - FY25 GAOA LRF-funded projects.
** DM&R estimates represent a point in time, reported as of 9/30/2024, rounded to the nearest thousand. DM&R is calculated based on asset repair needs in FRPP, which does not include assets with a status indicator of Report of Excess Submitted, Report of Excess Accepted, Determination to Dispose, Disposed, Cannot Currently be Disposed, or Surplus.

FY21-25 Projects, Locations, and Funding in Kansas

Bureau	Unit Name	Project Title	Funding [†] as of Mar. 2025
FWS	Quivira National Wildlife Refuge	Rehabilitation of the Great Plains Nature Center & Deferred Maintenance Retirement at Quivira NWR	\$11,450,000
NPS	Tallgrass Prairie National Preserve	Rehabilitate Lantry Area and Spring Hill Barn	\$6,300,000

[†] Rounded to thousands

Rehabilitation of the Great Plains Nature Center & Deferred Maintenance Retirement at Quivira NWR

Quivira National Wildlife Refuge

The Great Plains Nature Center (GPNC) is an education center in Wichita promoting environmental stewardship and providing opportunities for the public to appreciate wildlife. The GPNC building has foundation issues and aging lighting and audio systems that impact public safety, limit educational programs, and make operations inefficient. This project will rehabilitate and repair the entire building, so it is able to support the group's mission. Quivira National Wildlife Refuge (NWR) is a Wetland of Global Importance and provides and protects vital habitat for migratory waterfowl. This project will also address aging infrastructure at Quivira NWR, making repairs to access roads, levees, trails, bridges, water control structures, and replacing or rehabilitating staff housing.

Rehabilitate Lantry Area and Spring Hill Barn

Tallgrass Prairie National Preserve

The 1882 historic Spring Hill limestone barn.

Tallgrass Prairie National Preserve protects a nationally significant remnant of the once vast tallgrass prairie ecosystem, while preserving a unique collection of cultural resources from prehistoric times through the ranching era. The Lantry Area historic buildings and Spring Hill Ranch Barn have not been rehabilitated since the park was established in 1996 and are deteriorated due to the elements and age. This project will rehabilitate these buildings including repairing foundations, walls, wooden support structures, beams, doors, windows, dormers, and cupolas. Additionally, project work will replace roofs and create an accessible path from the parking area to the Spring Hill Ranch Barn. This project will protect and improve the historic site and provide a safe and enjoyable experience for visitors and staff.
