# YUKON AREA FALL SALMON CLOSURE AND NON-SALMON SCHEDULE IN THE TANANA RIVER (DISTRICT 6)

## TEMPORARY SPECIAL ACTION

Under Authority of: 36 CFR 242.10 and .19  
50 CFR 100.10 and .19

---

**Temporary Special Action No: 2-FC-05-25**

Issued at: Fairbanks, Alaska, August 4, 2025

Effective Date: Wednesday, August 6, 2025, 12:01 a.m. fall chum and coho salmon closures for Subdistrict 6-A and Upper Tanana  
Sunday, August 10, 2025, 12:00 p.m. gillnet and manned fishwheel schedule for Subdistrict 6-A

Expiration Date: Wednesday, December 31, 2025, 8:00 a.m., unless superseded by subsequent special action

### EXPLANATION:

This **Temporary Special Action closes the harvest of fall chum and coho salmon for all users** in Federal public waters of the Tanana River in Yukon Area District 6.

Temporary Special action **2-KS-09-25** is still in effect, which closed District 6 to the harvest of Chinook and summer chum salmon and restricted all gillnets to 4-inch or smaller mesh, limited to 60 feet in length, operated as a set net near shore. **This Temporary Special action, 2-FC-05-25, adds a non-salmon fishing schedule with gillnets (4-inch and smaller) and manned fishwheels in Subdistrict 6-A** in order to reduce the incidental harvest of salmon.

### REGULATION:

In Federal public waters of the following areas, subsistence salmon fishing for Chinook and summer chum salmon is currently closed to all users, and gillnets of 4-inch and smaller may be used to target non-salmon 24 hours per day, 7 days per week.

50 CFR 100.27(e)(3) Subsistence taking of fish—Yukon-Northern Area is further amended to read:

(ii) **In Federal public waters of the Tanana River Drainage:**

**Subdistrict 6-A** (including waters in Denali National Park)

**Effective 12:01 a.m. on Wednesday, August 6, subsistence fishing for fall chum and coho salmon will close to all users.** Chinook, chum, and coho salmon must be released alive immediately from nonlethal gear types.

**Effective 12:00 p.m. (noon) Sunday, August 10, all gillnets must be removed from the water.**

**Effective 12:00 p.m. (noon) Thursday, August 14, fishing with 4-inch or smaller mesh gillnets and manned fishwheels for non-salmon will only be allowed on a weekly schedule from noon Thursdays until noon Sundays.**

**Upper Tanana** (including waters in Tetlin National Wildlife Refuge and Wrangell-St. Elias National Park and Preserve):

**Effective 12:01 a.m. on Wednesday, August 6, subsistence fishing for fall chum and coho salmon will close to all users.** Chinook, chum, and coho salmon must be released alive immediately from nonlethal gear types.

Fishing with other non-salmon gears, including hook and line with a rod or pole, hand line, longline, fyke net, dip net, and beach seine, is open 24 hours a day, 7 days per week. Chinook, chum and coho salmon must be released alive from non-salmon gear types. If salmon are caught while fishing for non-salmon with gillnets, they should be released alive when possible but may be legally retained if dead.

#### **JUSTIFICATION:**

The inseason Chinook and summer chum salmon runs are very poor, and escapement goals are unlikely to be met, therefore no retention of these species is warranted. The preseason forecasts for fall chum and coho salmon also indicate no escapement goals will be met for these species, and no surplus will be available for harvest. Pursuant to Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA), this Temporary Special Action **(2-FC-05-25)** prohibits all chum and coho salmon retention in the Federal public waters of the Tanana River Drainage in Yukon River District 6 due to concerns about the viability of these populations. This Temporary Special Action also places non-salmon fishing with 4-inch and smaller mesh gillnets and manned fishwheels on a schedule in Subdistrict 6-A in order to reduce the incidental harvest of Chinook, chum, and coho salmon. The Upper Tanana River drainage is not being placed on a schedule because there is not concerns for incidental harvest of salmon like other areas. Because there is no conservation concern for non-salmon species, fishing for non-salmon is not limited to federally qualified subsistence users.

#### **CONSULTATION AND OUTREACH:**

The Yukon River salmon outlooks and management strategies were discussed at a public hearing; the Eastern Interior, Western Interior, and Yukon Kuskokwim Delta Regional Advisory Council meetings; the Yukon River Drainage Fisheries Association (YRDFA) annual Preseason Fisheries Meeting; at the Yukon River Panel and at the Yukon River Intertribal Fish commission meeting. The Federal manager offered formal Government-to-Government Tribal Consultation meetings with Yukon River drainage Tribal Governments upon request. The Federal fishery outlook and management strategy was sent to all Yukon Tribal and City governments on May 23. Approximately 3,500 copies of the ADF&G and USFWS Preseason Outlook flier were mailed to Yukon River fishing households in May.

This action was taken following coordination with the ADF&G fishery managers. The fishing schedules and/or restrictions announced here match those issued concurrently by the ADF&G in state waters (Fall Fishery Advisory Announcement #7). The Federal Subsistence Regional Advisory Council Chairs for the Yukon-Kuskokwim Delta, Eastern Interior, Western Interior, and Seward Peninsula Regional Advisory Councils were notified as was the Chair and vice-chair of the Yukon River Intertribal Fish Commission. Review was provided by the Office of Subsistence Management.

**See Below for Detailed Maps of Federal Public Waters in the Yukon River Drainage:**

Communities and streams adjacent to the boundary of Federal lands are part of Federal waters, even on the opposite side of the river.

In District 6 (Tanana River), Northway, Nabesna and Chisana are in Federal waters. Manley, Minto, Nenana, Fairbanks, North Pole, Delta Junction, Dot Lake, Tanacross, Tok, and Tetlin are in State waters.

### **DISTRIBUTION:**

Anthony Christianson, Chair, Federal Subsistence Board

Sara Boario, Alaska Regional Director, USFWS

Jackie Cleveland, Chair, Yukon-Kuskokwim Delta Subsistence Regional Advisory Council

Jack Reakoff, Chair, Western Interior Subsistence Regional Advisory Council

Charlie Wright, Chair, Eastern Interior Subsistence Regional Advisory Council and chair of Yukon River Intertribal Fish Commission

Louis Green Jr, Chair, Seward Peninsula Subsistence Regional Advisory Council

Phet Souphanya, Assistant Special Agent in Charge, LE Division, USFWS

Crystal Leonetti, Director, Office of Subsistence Management

Scott Ayers, Deputy Director, Office of Subsistence Management

Justin Koller, Supervisory Regulations Specialist, Office of Subsistence Management

Vivian Korthius, Executive Director, Association of Village Council Presidents

Dorothea Adams, Executive Director, Council of Athabascan Tribal Governments  
Bruce Thomas, Director, Natural Resources Council of Athabascan Tribal Governments  
Ben Mulligan, Deputy-Commissioner, Alaska Department of Fish and Game  
Mark Burch, Asst. Director, Wildlife Conservation, Alaska Department of Fish and Game  
Jill Klein, Alaska Regional Subsistence Coordinator, USFWS  
Boyd Blihovde, Refuge Supervisor, USFWS  
Diloolo Erickson, Tanana Chiefs Conference  
Deena Jallen, Summer Area Management Biologist, Alaska Department of Fish and Game  
Matthew Olson, Fall Area Management Biologist, Alaska Department of Fish and Game  
Eva Patton, Regional Subsistence Program Manager, National Park Service  
Kevin Pendergast, State Director, Bureau of Land Management

**Also distributed to Tribal and City Governments and any interested parties. If you didn't receive this directly and want to, please reach out to Keith Herron.**
