# YUKON AREA GILLNET CLOSURE IN SUBDISTRICT 4-BC AND KOYUKUK RIVER

## EMERGENCY SPECIAL ACTION

Under Authority of: 36 CFR 242.10 and .19  
43 CFR 51.10 and .19

**Emergency Special Action No: 03-KS-11-26**

Issued at: Fairbanks, Alaska, June 22, 2026

Effective Date: Monday, June 29, 2026, 8:00 p.m. for Subdistrict 4-BC and Koyukuk River drainage

Expiration Date: Thursday, July 16, 2026, 8:00 p.m. for Subdistrict 4-BC and Koyukuk River drainage, unless superseded by subsequent special action

### **EXPLANATION:**

This Emergency Special Action closes all gillnets for all users in the Federal public waters in Yukon fishing subdistrict 4-BC and the Koyukuk River drainage. This action protects the Chinook and summer chum salmon runs. All gillnets must be completely removed from the water. Temporary Special Action **03-KS-04-26**, which previously closed Chinook and summer chum salmon fishing, still allowed use of 4-inch and smaller mesh gillnets to target nonsalmon species. This action removes all gillnets to reduce incidental harvest of salmon during peak passage of Chinook salmon in each area. When this Emergency Special Action expires, fishing for species not closed to harvest may resume with gillnets limited to 4-inch mesh or smaller and 60 feet maximum length, operated as a set net near shore.

During the gillnet closure, fishermen may use selective gear such as, dip nets, beach seines, and hook and line gear for nonsalmon species. If Chinook and summer chum salmon are accidentally caught, they should be released alive.

### **REGULATION:**

Pursuant to **03-KS-04-26**, Chinook and summer chum salmon fishing is currently closed to all users, and gillnets of 4-inch and smaller may be used to target other species.

36 CFR 242.27(e)(3) and 43 CFR 51.27(e)(3) Subsistence taking of fish—Yukon-Northern Area is amended to read:

§ \_\_.27(e)(3)(ii) *In Federal public waters of the following Yukon River Drainage areas:*

**Subdistrict 4-BC, which includes Galena and Ruby; and Koyukuk River drainage, which includes Huslia:**

**Effective 8 p.m. Monday, June 29 until 8 p.m. Thursday, July 16, gillnet use is closed for all users. All gillnets must be completely removed from the water.**

## **JUSTIFICATION:**

The drainage-wide Chinook salmon outlook is for a run size of about 64,000 fish, and the Canadian-origin Chinook salmon outlook is about 27,000 fish. Escapement goals are unlikely to be met for Chinook salmon and closures will be required for the duration of their migration. Pursuant to the Alaska National Interest Lands Conservation Act, this Emergency Special Action **(03-KS-11-26)** closes all gillnet use in Federal public waters of the Yukon River subdistrict 4-BC and Koyukuk River drainage during peak passage of the Chinook salmon run, due to concerns about the viability of the population. These complete gillnet closures will ensure no incidental salmon harvest occurs in lethal gillnets between the first quarter point and third quarter point of the Chinook salmon run. These closures will be implemented upriver based on migration timing.

## **CONSULTATION AND OUTREACH:**

The Yukon River salmon outlooks and management strategies were discussed at a Federal public hearing; the Eastern Interior, Western Interior, and Yukon Kuskokwim Delta Regional Advisory Council meetings; the Yukon River Drainage Fisheries Association preseason meeting; at the Yukon River Panel and at the Yukon River Inter-Tribal Fish Commission annual meeting. The Federal manager offered formal Government-to-Government Tribal Consultation meetings with Yukon River drainage Tribal Governments upon request. The Federal fishery outlook and management strategy was sent to all Yukon Tribal and City governments on April 7. Approximately 3,500 copies of the Preseason Outlook flier were mailed to Yukon River fishing households in May.

This action was taken in coordination with the Alaska Department of Fish and Game (ADF&G) and USFWS fishery managers. The fishing schedules announced here match those issued concurrently by the ADF&G in State waters (**Summer Fishery Advisory Announcement #16**). The Federal Subsistence Regional Advisory Council Chairs for the Yukon-Kuskokwim Delta, Eastern Interior, Western Interior, and Seward Peninsula Regional Advisory Councils were notified as was the Chair and Executive Director of the Yukon River Inter-Tribal Fish Commission. Review was provided by the Office of Subsistence Management.

**See below for a detailed area map of federal public waters in the Yukon River Drainage:**  
Communities and streams adjacent to the boundary of Federal lands are part of Federal waters, even on the opposite side of the river.

**Yukon River District 4 and Koyukuk River Drainage**

- Fishing Districts
- Closed to Subsistence
- Federal Public Waters Jurisdiction

Within the mainstem Yukon River in District 4, Grayling, Kaltag, Nulato, Koyukuk, Galena, and Ruby are in Federal waters and Anvik and the Anvik River are in State waters. Within the Koyukuk River, Huslia falls within Federal waters and Hughes, Alatna, Allakaket, Bettles, Evansville, Coldfoot, and Wiseman are in State waters.

**DISTRIBUTION:**

Anthony Christianson, Chair, Federal Subsistence Board  
Sara Boario, Alaska Regional Director, USFWS  
Jackie Cleveland, Chair, Yukon-Kuskokwim Delta Subsistence Regional Advisory Council  
Jack Reakoff, Chair, Western Interior Subsistence Regional Advisory Council  
Charlie Wright, Chair, Eastern Interior Subsistence Regional Advisory Council and Yukon River Intertribal Fish Commission  
Louis Green Jr, Chair, Seward Peninsula Subsistence Regional Advisory Council  
Phet Souphanya, Assistant Special Agent in Charge, LE Division, USFWS  
Crystal Leonetti, Director, Office of Subsistence Management  
Scott Ayers, Deputy Director, Office of Subsistence Management  
Justin Koller, Supervisory Regulations Specialist, Office of Subsistence Management  
Vivian Korthius, Executive Director, Association of Village Council Presidents  
Dorothea Adams, Executive Director, Council of Athabascan Tribal Governments  
Bruce Thomas, Director, Natural Resources Council of Athabascan Tribal Governments  
Ben Mulligan, Deputy-Commissioner, ADF&G  
Aaron Poetter, Fish and Game Coordinator, Wildlife Conservation, ADF&G  
Jill Klein, Alaska Regional Subsistence Coordinator, USFWS  
Boyd Blihovde, Refuge Supervisor, USFWS  
Diloola Erickson, Tanana Chiefs Conference  
Deena Jallen, Summer Area Management Biologist, ADF&G  
Matthew Olson, Fall Area Management Biologist, ADF&G  
Eva Patton, Regional Subsistence Program Manager, National Park Service  
Kevin Pendergast, State Director, Bureau of Land Management

**Also distributed to Tribal and City governments and any interested parties. If you did not receive this directly and want to, please contact Keith Herron.**
