			This is a request under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, to the Department of the Interior ("DOI"), on my own behalf as an academic researcher at Tulane University. Requested Records I request all agency records from January 1, 2025 through the date this request is processed, reflecting prompts, queries, instructions, system-level prompts, or other inputs submitted to generative artificial intelligence ("generative AI") systems by Secretary Doug Burgum personally, as well as any outputs, summaries, analyses, or drafts generated by those systems in response to such inputs ("Requested Records"). I believe the Requested Records are located, inter alia, within DOI headquarters, in email records, in document management systems, in logs maintained by third-party AI platforms, and in any internal AI governance or compliance records maintained pursuant to applicable OMB policy. The Requested Records include, but are not limited to: 1.Prompts and outputs. I urge DOI to process this request consistent with "a general philosophy of full agency disclosure [under FOIA] unless information is exempted under clearly delineated statutory language," United States Dep't of Def. v. Fed. Labor Relations Auth., 510 U.S. 487, 494 (1994), and the Justice Department's policy directing a presumption of disclosure. Definition of "Generative AI Systems" For purposes of this request, "generative AI systems" means any software system, application, platform, or service — whether commercial, government-developed, or provided through an interagency agreement — that generates text, images, code, audio, video, structured data, or analytical outputs in response to user prompts or system instructions, including but not limited to: -OpenAI ChatGPT and GPT-series models; OpenAI for Government -Microsoft Copilot (including Microsoft 365 Copilot, Bing Chat Enterprise, and Azure OpenAI Service) -Google Gemini (including Gemini for Workspace and Google Agentspace) -Anthropic Claude -xAI Grok; Grok for Government All information. I am familiar with the facts recited in the certificate of title. I'm the implied surety, grantee absolute of the birth certificate and I'm one of the owners of it. DOI-2026-004954	Parshley, Lois	-	Dear FOIA Officer: On behalf of Public Citizen, and pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, we request copies of all records relating to DOI Secretary Douglas Burgum's travel to Venezuela in March 2026, specifically: All travel authorizations, itineraries, and flight manifests for Secretary Burgum and any DOI staff, U.S. government personnel, or private individuals traveling with him in any capacity All attendee lists, delegation rosters, or participant lists for any meetings, briefings, or events held during the trip, including the names, titles, and organizational affiliations of all private-sector participants All records identifying any oil, mining, energy, or commodities industry executives who traveled with or met with Secretary Burgum in Venezuela in any official or semi-official capacity All hotel, logistical, or security arrangements that identify trip participants by name Any records of meetings held with Venezuelan government officials, including officials of Petróleos de Venezuela S.A. (PDVSA), Minervén (Empresa Nacional Aurífera, C.A.), or the Banco Central de Venezuela, and lists of attendees at those meetings. The records requested here — travel manifests, flight logs, attendee lists, delegation rosters, and meeting participant records — are purely factual in nature. They record who was present, not what was deliberated. To the extent DOI withholds any portion of responsive records under Exemption 5, I request a Vaughn index identifying each withheld document, the specific privilege claimed, and a particularized explanation — not a boilerplate assertion — of why the specific record qualifies. Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973). Any purchase, transfer, importation, exportation, financing, brokerage, or facilitation of Venezuelan-origin gold, including transactions involving Empresa Nacional Aurífera, C.A. (PDVSA) or Minervén, whether formalized, contingent, or under discussion. ?Any discussion, proposal, or agreement involving the modification, suspension, or adjustment of U.S. sanctions on Venezuela; the issuance, scope, or application of general or specific licenses authorizing transactions with Venezuelan entities; the release or transfer of Venezuelan sovereign or state-owned assets; or any arrangement in which commodities (including oil, gold, or refined products) were exchanged, pledged, or contemplated in connection with diplomatic, political, or financial considerations. ?Any communication, agreement, or record reflecting actual or proposed commercial arrangements involving Trafigura Group Pte. Secretary Douglas Burgum's official daily calendars, scheduling records, and appointment logs for the period February 1, 2026 through March 26, 2026, that reference or relate to "Venezuela," "gold," "Trafigura," "Minervén," "PDVSA", or any Venezuelan government official or state entity; (see request for full details)	Complex	Complex	03/27/2026	03/30/2026	-	-

		Department of the Interior	Dear FOIA Officer: On behalf of Public Citizen, and pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, we request copies of the following: All records, including but not limited to emails, memoranda, briefing materials, contracts, draft agreements, term sheets, licenses, internal analyses, and communications including attachments, created, received, or maintained by the The Office of the Secretary, including the Chief of Staff, and all senior advisors, schedulers, and staff responsible for travel, policy, and external engagement that relate to or reflect any of the following activities occurring during, in preparation for, or as a result of Secretary Burgum's March 2026 travel to Venezuela: Any purchase, transfer, importation, exportation, financing, brokerage, or facilitation of Venezuelan-origin gold, including transactions involving Empresa Nacional Aurifera, C.A. (Minerven), the Banco Central de Venezuela, or any intermediary or financial institution, including records reflecting compliance with or reliance upon any license, authorization, or guidance issued by the U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC). Any actual or proposed agreement, negotiation, or arrangement involving oil, gas, mining, or other natural resources between the United States government and the Government of Venezuela or any Venezuelan state-owned entity, including Petróleos de Venezuela, S.A. (PDVSA) or Minerven, whether formalized, contingent, or under discussion. Any discussion, proposal, or agreement involving the modification, suspension, or adjustment of U.S. sanctions on Venezuela; the issuance, scope, or application of general or specific licenses authorizing transactions with Venezuelan entities; the release or transfer of Venezuelan sovereign or state-owned assets; or any arrangement in which commodities (including oil, gold, or refined products) were exchanged, pledged, or contemplated in connection with diplomatic, political, or financial considerations. Any communication, agreement, or record reflecting actual or proposed commercial arrangements involving Trafigura Group Pte. Ltd., or any parent, subsidiary, or affiliate thereof, relating to Venezuelan commodities. Exemption 5's deliberative process privilege does not protect final agency decisions or actions. A signed or executed agreement — or any document that has reached the stage of a near-final exchanged draft — is not predecisional. Even genuinely predecisional documents lose Exemption 5 protection when the agency has adopted their contents as a final policy or action. Secretary Burgum has publicly announced that a gold shipment was received — meaning any agreement underlying that transaction has been acted upon and is no longer merely deliberative. The deliberative process privilege exists to protect the quality of agency decision-making, not to shield from public scrutiny the terms of commercial arrangements with foreign state-owned entities in sanctioned countries. Allowing DOI to withhold the terms of any agreement reached during this trip under a deliberative process claim would stretch Exemption 5 far beyond its intended scope and directly contradict FOIA's core purpose. Even if DOI withholds deliberative portions of any draft, all purely factual content — including the identities of parties, the subject matter of any agreement. Dear FOIA Officer: On behalf of Public Citizen, and pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552, we request copies of the following records: Secretary Douglas Burgum's official daily calendars, scheduling records, and appointment logs for the period February 1, 2026 through March 26, 2026, that reference or relate to "Venezuela," "gold," "Trafigura," "Minerven," "PDVSA", or any Venezuelan government official or state entity; All briefing books, briefing memoranda, talking points, read-ahead materials, or situation memoranda prepared for Secretary Burgum in connection with his March 2026 travel to Venezuela, including any materials identifying the private-sector participants in the trip All post-trip readout memoranda, trip reports, after-action summaries, or debriefs prepared by DOI staff following Secretary Burgum's return from Venezuela All records reflecting communications between Secretary Burgum's scheduling office and any private-sector party regarding the Venezuela trip, including any requests by private individuals or companies to join the delegation Cabinet secretary calendars are routinely released under FOIA and are not protected by Exemption 5. They are neither predecisional nor deliberative — they are administrative records of who met with whom and when. Any Exemption 5 claim over a calendar entry would be inconsistent with established agency practice and case law. Factual content within briefing materials — including the names of trip participants, the identity of foreign counterparts, and the subject matter of planned meetings — is not deliberative and must be segregated and disclosed. The privilege protects opinions and recommendations, not facts. Any records created after a decision has been made and that describe or implement that decision are also not protected by the deliberative process privilege even if they contain some evaluative content. An after-action report describing what happened in Caracas, what agreements were reached, and who was present, describes a completed decision and completed events. It is not deliberative. Communications between DOI and private parties fall entirely outside Exemption 5's threshold requirement of inter- or intra-agency memoranda. Any scheduling communication between DOI staff and a private-sector executive regarding the Venezuela trip is not privileged under Exemption 5 on any theory. To the extent any requested record is withheld in whole or in part, please provide a Vaughn index with particularized, document-by-document justification. A blanket or categorical assertion of Exemption 5 over briefing materials or calendars will be contested on appeal. Search and production We request that any records produced in response to this request be provided in electronic form wherever possible. We request that communications records be provided in machine-readable PDF format where possible. We request that any data be provided in CSV (comma-separated variable) format.
