Other Information

Airstrip is an established packed-gravel mining airstrip with 2 WRST maintained public use cabins on site. Airstrip is oriented east/west.

WRST fleet pilot and OAS vendor Wrangell Mountain Air frequently uses airstrip to supply backpackers, packrafters, rangers, and cabin users. Airstrip was constructed with bulldozers by area miners prior to the park's establishment.

Given familiarity/frequency of use and acceptable safety margins, WRST fleet pilot requests Peavine Bar Airstrip to be added to Designated Airport Directory.

Airstrip is packed gravel with no slope.
