**Updated:** Agenda attached!

#### **PURPOSE**

Discuss the National Environmental Policy Act (NEPA) and the coordination of sound and efficient environmental reviews for Federal decisions and investments. This will be a higher-level discussion featuring a brief update on our ongoing efforts and discussion of the ways in which NEPA can be deployed to address President Biden's multi-faceted priorities including building resilient infrastructure and transitioning to a clean energy economy, while ensuring reason-based decision-making and community engagement. In that vein, we hope to hear any particularly NEPA-related challenges you are facing in moving forward on Administration priorities as well as opportunities you see that will enable delivery of environmentally beneficial outcomes in a timely manner.

#### **BACKGROUND**

As you know, the President has asked the Council on Environmental Quality to review the 2020 NEPA regulations, promulgated by the previous administration, and to consider whether and how to update guidance to Federal agencies on considering greenhouse gas emissions during in NEPA analyses. CEQ and the Office of Management and Budget are also, consistent with direction in EOs 13990 and 14008, considering whether to recommend that the President issue a new executive order to assist with the coordination of permitting and review processes.

CEQ's NEPA staff has been meeting with the NEPA contacts in your agencies since the Biden Administration took office. At the meeting on July 23, we are structuring a higher-level discussion. I would like to provide a brief update on our ongoing efforts and but focus on discussing the ways in which NEPA can be deployed to address President Biden's multi-faceted priorities including building resilient infrastructure and transitioning to a clean energy economy, while ensuring reason based decision-making and community engagement. In that vein, we hope to hear any particular NEPA-related challenges you are facing now in moving forward on Administration priorities as well as opportunities you see that will enable delivery of environmentally beneficial outcomes in a timely manner.

We are requesting that Deputy Secretaries and one additional senior staff member from your agency attend this meeting.

Holding this time each week to coordinate on land & water conservation, climate, and jobs actions outlined in the early EOs. We likely won't need the full hour each week but blocking the time in case. Hoping to keep the group relatively small: 1-3 key people per agency/office.

Thanks,  
Matt
