Program Background, Objectives, and Goals:

The Office of Insular Affairs (OIA) is requesting proposals for Fiscal Year 2022 for its Coral Reef & Natural Resources (CRNR) Initiative. The CRNR Initiative provides grant funding for management and protection of coral reefs and to combat invasive species in the U.S. insular areas. The goal of the CRNR Initiative is to improve the health of coral reef ecosystems, to improve coastal resilience, and to protect other natural resources in the U.S. insular areas for their long-term economic and social benefit. Priority will be given to projects that help the insular areas address a variety of threats to coral reef ecosystems and to **eradicating** aquatic and terrestrial plant, insect, and animal invasive species.

The U.S. insular areas include the United States territories of the Virgin Islands, Guam, the Commonwealth of the Mariana Islands, and American Samoa, as well as the independent Freely Associated States of the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

The recipient is responsible for notifying the Financial Assistance Officer in writing of any conflicts of interest that may arise during the life of the award, including those that have been reported by sub recipients.

(c) Restrictions on lobbying. Non-Federal entities are strictly prohibited from using funds under a grant or cooperative agreement for lobbying activities and must provide the required certifications and disclosures pursuant to [43 CFR §18](#) and [31 USC §1352](#).

(d) Review procedures. The Financial Assistance Officer will examine each conflict of interest disclosure on the basis of its particular facts and the nature of the proposed grant or cooperative agreement, and will determine whether a significant potential conflict exists and, if it does, develop an appropriate means for resolving it.

(e) Enforcement. Failure to resolve conflicts of interest in a manner that satisfies the government may be cause for termination of the award. Failure to make required disclosures may result in any of the remedies described in [2 CFR §200.339](#), Remedies for noncompliance, including suspension or debarment (see also [2 CFR §180](#)).

Uniform Audit Reporting Statement

All U.S. states, local governments, federally recognized Indian tribes, institutions of higher education, and non-profit organizations expending \$750,000 USD or more in Federal award funds in the applicant's fiscal year must submit a Single Audit report for that year through the

The statement and the description of overlap or duplication, when applicable, may be provided within the proposal or as a separate attachment to the application. If at any time a proposal is awarded funds that would be overlapping or duplicative of the funding requested from NPS, the applicant must immediately notify the NPS point of contact. Any overlap or duplication of funding between the proposed project and other active or anticipated projects may impact selection and/or funding amount.

D3. Unique Entity Identifier and System for Award Management (SAM)

Identifier and System for Award Management (SAM.gov) Registration

This requirement does not apply to individuals applying for funds as an individual (i.e., unrelated to any business or nonprofit organization you may own, operate, or work within), or any entity with an exception to bypass SAM.gov registration with prior approval from the funding bureau or office in accordance with bureau or office policy. All other applicants are required to register in SAM.gov prior to submitting a Federal award application and obtain a [Unique Entity Identifier \(UEI\)](#) which will replace Data Universal Numbering System (DUNS) number from Dun & Bradstreet in April 2022. A Federal award may not be made to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the program is ready to make an award, the program may determine the applicant is not qualified to receive an award. Applicants registering in SAM.gov prior to April 2022 may still be required to obtain a DUNS number prior to completing the

registration process within SAM.gov. Federal award recipients must also continue to maintain an active SAM.gov registration with current information through the life of their Federal award(s). See the “Submission Requirements” section of this document below for more information on SAM.gov registration. **There is no cost to register with Dun & Bradstreet or SAM.gov.** There are third-party vendors who will charge a fee in exchange for registering entities with Dun & Bradstreet and SAM.gov; **please be aware you can register and request help for free.**

Obtain a DUNS Number

In April 2022, the Federal Government will stop requiring DUNS numbers. At that point, entities doing business with the government will use the Unique Entity Identifier (UEI) created in SAM.gov in place of a DUNS number. A UEI will be assigned to entities upon registering with SAM.

If an entity is applying for federal financial assistance prior to April 2022, a DUNS number may still be required as part of the SAM registration process. A DUNS Number can be requested through the Dun & Bradstreet website. The official website address is <http://fedgov.dnb.com/webform>. For technical difficulties, go to www.dnb.com/govtduns. The Grants.gov “Obtain a DUNS Number” webpage also provides detailed instructions. Once assigned a DUNS number, your organization must maintain up-to-date information with Dun & Bradstreet. Applicants must enter their DUNS number in the “Organizational DUNS” field on the SF-424, Application for Federal Assistance form (version 3).

Register with the System for Award Management (SAM)

Applicants can register on the SAM.gov website. The “Help” tab on the website contains User Guides and other information to assist you with registration. The Grants.gov “[Register with SAM](#)” page also provides detailed instructions. Applicants can contact the supporting Federal Service Desk for help registering in SAM. Once registered in SAM, entities must renew and revalidate their SAM registration at least once every 12 months from the date previously registered. Entities are strongly encouraged to revalidate their registration as often as needed to ensure their information is up to date and reflects changes that may have been made to the entity’s IRS information. If applicable, foreign entities who want to receive payment directly to a U.S. bank account must enter and maintain valid, current banking information in SAM.

D4. Submission Dates and Times

Due Date for Applications

04/01/2022

Application Due Date Explanation

Electronically submitted applications must be submitted no later than 5:00 p.m., ET, on the listed application due date.

D5. Intergovernmental Review

An intergovernmental review may be required for applications submissions from a U.S. state or local government prior to submission. Applicants must contact their State's Single Point of Contact (SPOC) to comply with the state's process under [Executive Order 12372](#).

D6. Funding Restrictions

The Federal awarding agency that provides the largest amount of direct funding to your organization is your cognizant agency for indirect costs, unless otherwise assigned by the White House Office of Management and Budget (OMB). If the Department of the Interior is your organization's cognizant agency, the Interior Business Center will negotiate your indirect cost rate. Contact the Interior Business Center by phone 916-930-3803 or using the [IBC Email Submission Form](#). See the [IBC Website](https://www.doi.gov/ibc/services/finance/indirect-cost-services) <https://www.doi.gov/ibc/services/finance/indirect-cost-services> for more information.

Organizations must have an active Federal award before they can submit an indirect cost rate proposal to their cognizant agency. Failure to establish an approved rate during the award period renders all costs otherwise allocable as indirect costs unallowable under the award. Recipients must have prior written approval from the OIA to use amounts budgeted for direct costs to satisfy cost-share or match requirements or to cover unallowable indirect costs. Recipients shall not shift unallowable indirect costs to another Federal award unless specifically authorized to do so by legislation.

Required Indirect Cost Statement to be submitted with Application

All organizations must include the applicable statement from the following list in their application, and attach to their application any documentation identified in the applicable statement:

We are:

- A U.S. state, territorial or local government entity receiving more than \$35 million in direct Federal funding each year with an indirect cost rate of [insert rate]. We submit our indirect cost rate proposals to our cognizant agency. Attached is a copy of our most recently approved rate agreement/certification.
- A U.S. state, territorial or local government entity receiving less than \$35 million in direct Federal funding with an indirect cost rate of [insert rate]. We have prepared and will retain for audit an indirect cost rate proposal and related documentation.
- A [insert your organization type; U.S. states, territories and local governments, do not use this statement] that has previously negotiated or currently has an approved indirect cost rate with our cognizant agency. Our indirect cost rate is [insert rate]. [Insert either: "Attached is a copy of our most recently approved but expired rate agreement. In the event an award is made, we will submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after the award is made." *or* "Attached is a copy of our current negotiated indirect cost rate agreement."]
- A [insert your organization type] that has never submitted an indirect cost rate proposal to our cognizant agency. Our indirect cost rate is [insert rate]. If we receive an award, we

will submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after the award date.

- A [insert your organization type] that has never submitted an indirect cost rate proposal to our cognizant agency and has an indirect cost rate that is lower than 10%. Our indirect cost rate is [insert rate; must be lower than 10%]. However, if we receive an award we will not be able to meet the requirement to submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after award. We request as a condition of award to charge a flat indirect cost rate of [insert rate; must be lower than 10%] against [insert a clear description of the direct cost base against which your rate is charged (e.g., salaries; salaries and fringe benefits; or modified total direct costs)]. However, please note that your organization cannot charge indirect costs in excess of the indirect costs that would be recovered if applied against modified total direct costs as defined in [§2 CFR 200.68](#). We understand that we must notify the OIA in writing if we establish an approved rate with our cognizant agency at any point during the award period.
- A [insert your organization type] that has never submitted an indirect cost rate proposal to our cognizant agency and has an indirect cost rate that is 10% or higher. Our indirect cost rate is [insert your organization's indirect rate; must be 10% or higher]. However, if we receive an award we will not be able to meet the requirement to submit an indirect cost rate proposal to our cognizant agency within 90 calendar days after award. We request as a condition of award to charge a flat *de minimis* indirect cost rate of 10% to be charged against modified total direct project costs as defined in [2 CFR §200.68](#). We understand that we must notify the OIA in writing if we establish a negotiated rate with our cognizant agency at any point during the award period. We understand that additional Federal funds may not be available to support an unexpected increase in indirect costs during the project period and that such changes are subject to review, negotiation, and prior approval by OIA
- A [insert your organization type] that will charge all costs directly.

Application Restrictions

Applications should not include requests to fund force accounts:

Force Accounts: A force account refers to a grantee's own (existing) personnel being charged to the grant. In general, OIA is opposed to funding force accounts with its grants, however, outside expertise and consultant services will be considered if detailed in the project narrative and budget.

IF YOU HAVE NOT RECEIVED DISCRETIONARY FUNDING FROM OIA IN THE LAST FIVE (5) YEARS, please ensure that the following questions are answered on your application:

- a. Does your organization have independent financial capabilities that can comply with the financial management and accounting requirements detailed in 2 CFR 200 (see below)?

Radio buttons with options: Yes, No or N/A

- b. Does your organization have a financial unit? If so, please describe the staffing and structure (such as the number of CPAs, utilization of accounting software etc.)

Radio buttons with options: Yes, No or N/A

- c. Has your organization received and managed federal grant funding before?

Radio buttons with options: Yes, No or N/A

- d. Does your organization undergo an annual financial audit?

Radio buttons with options: Yes, No or N/A

- e. Has your organization ever completed a single audit?

Radio buttons with options: Yes, No or N/A

D7. Other Submission Requirements

Submission Deadline: The submission deadline is April 1, 2022.

Decision Timeframe: Decisions on funding of project proposals will be made within 120 days of the deadline for applications.

All applicants, but especially first time applicants, are strongly encouraged to review Code of Federal Regulations Title 2, Part 200 (2 CFR 200) in order to familiarize themselves with the Department of the Interior's administrative requirements, particularly the financial management requirements, associated with managing federal grant funding. 2 CFR 200 can be viewed using the following link: http://www.ecfr.gov/cgi-bin/text-idx?tpl=/ecfrbrowse/Title02/2cfr200_main_02.tpl

E2. Review and Selection Process

Prior to award, the program will review any applicant statement regarding potential overlap or duplication between the project to be funded and any other funded or proposed project in terms of activities, funding, or time commitment of key personnel. Depending on the circumstances, the program may request modification to the application, other pending applications, or an active award, as needed to eliminate any duplication of effort, or the Bureau may choose not to fund the selected project.

The program may not make a Federal award to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the Bureau is ready to make an award, the program may determine that the applicant is not qualified to receive an award. The program can use that determination as a basis for making an award to another applicant.

Prior to award, the program will evaluate the risk posed by applicants as required in 2 CFR 200.205. Programs document applicant risk evaluations using the Bureau’s “Financial Assistance Recipient Risk Assessment” form. Prior to approving awards for Federal funding in excess of the simplified acquisition threshold (currently \$250,000), the Bureau is required to review and consider any information about or from the applicant found in the Federal Awardee Performance and Integrity Information System. The Bureau will consider this information when completing the risk review. The Bureau uses the results of the risk evaluation to establish monitoring plans, recipient reporting frequency requirements, and to determine if one or more of the specific award conditions in 2 CFR 200.207 should be applied the award.

The CRNR Review Committee will review and evaluate all eligible applications. The Review Committee will provide recommendations to the Assistant Secretary for Insular and International Affairs for final project selection. The Assistant Secretary will select the successful proposals. The Assistant Secretary and/or designated official will consider the merit review, as well as the amount of funds available and the following program policy factors when making recommendations for funding:

1. Geographic distribution of funding
2. Emergency Situations

All applications for funding will be considered using the criteria outlined above. In order to comply with financial assistance regulations, 2 CFR 200 "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards," past performance information will be recognized during the selection process. Scores will be provided to the applicant if requested.

E3. CFR – Regulatory Information

See the Office of Insular Affairs's Award Terms and Conditions for the general administrative and national policy requirements applicable to Service awards. OIA will communicate any other program- or project-specific special terms and conditions to recipients in their notices of award.

E4. Anticipated Announcement and Federal Award Dates

Discussions and Award: The Government may enter into discussions with a selected applicant for any reason deemed necessary, including, but not limited to: (1) only a portion of the application is selected for award; (2) OIA needs additional information to determine that the recipient is capable of complying with the requirements of DOI Financial Assistance Regulations and/or (3) special terms and conditions are required. Failure to resolve satisfactorily the issues identified by OIA will preclude award to the applicant.

Application reviews will be conducted once OIA receives full year TAP appropriations. OIA will act on applications in as timely a manner as possible, however, outside factors such as the Congressional appropriations cycle, may delay the review process. Generally, OIA TAP reviews and awards take place during the spring and summer. OIA anticipates that grant recipients and projects will be selected in the spring and summer of 2022. Applicants will be notified of the final determination on their applications, generally via email or via Grant Solutions, by the end of the fiscal year.

F3. Reporting

Financial Reports

All recipients must use the [SF-425, Federal Financial Report](#) form for financial reporting. At a minimum, all recipients must submit a **final** financial report. Final reports are due no later than 120 calendar days after the award period of performance end date or termination date. For awards with periods of performance longer than 12 months, recipients are required to submit **interim** financial reports on the frequency established in the Notice of Award. The only exception to the interim financial reporting requirement is if the recipient is required to use the SF 270/271 to request payment and requests payment at least once annually through the entire award period of performance. We will describe all financial reporting requirements in the Notice of Award.

The standard grant reporting requirements are listed below:

- An SF-425 Federal Financial Report will be due semi-annually for the periods beginning January 1 and ending June 30 and beginning July 1 and ending December 31.
- Reports are due within 30 days of the end of the period (i.e. January 31 and July 31). Final reports are due 90 days after the expiration or termination of the award.

These standard reporting requirements will apply to all awards unless otherwise indicated in the Terms and Conditions section of the award. Additional requirements are assigned on a case-by-case basis and may also be found in the Terms and Conditions section of the award.

Performance Reports

Performance reports must contain a comparison of actual accomplishments with the established goals and objectives of the award; a description of reasons why established goals were not met, if appropriate; and any other pertinent information relevant to the project results. Final reports are

due no later than 120 calendar days after the award period of performance end date or termination date. For awards with periods of performance longer than 12 months, recipients are required to submit **interim** financial reports on the frequency established in the Notice of Award.

The standard grant reporting requirements are listed below:

- A narrative project status report will be due semi-annually for the periods beginning January 1 and ending June 30 and beginning July 1 and ending December 31.
- Reports are due within 30 days of the end of the period (i.e. January 31 and July 31). Final reports are due 90 days after the expiration or termination of the award.

These standard reporting requirements will apply to all awards unless otherwise indicated in the Terms and Conditions section of the award. Additional requirements are assigned on a case-by-case basis and may also be found in the Terms and Conditions section of the award.

Significant Development Reports

Events may occur between the scheduled performance reporting dates which have significant impact upon the supported activity. In such cases, recipients are required to notify the Bureau in writing as soon as the recipient becomes aware of any problems, delays, or adverse conditions that will materially impair the ability to meet the objective of the Federal award. This disclosure must include a statement of any corrective action(s) taken or contemplated, and any assistance needed to resolve the situation. The recipient should also notify OIA in writing of any favorable developments that enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more or different beneficial results than originally planned.

Real Property Reports

Recipients and subrecipients are required to submit status reports on the status of real property acquired under the award in which the Federal government retains an interest. The required frequency of these reports will depend on the anticipated length of the Federal interest period. The Bureau will include recipient-specific real property reporting requirements, including the required data elements, reporting frequency, and report due dates, in the Notice of Award when applicable.

Conflict of Interest Disclosures

Recipients must notify the program immediately in writing of any conflict of interest that arise during the life of their Federal award, including those reported to them by any subrecipient under the award. Recipients must notify the program in writing if any employees, including subrecipient and contractor personnel, are related to, married to, or have a close personal relationship with any Federal employee in the Federal funding program or who otherwise may have been involved in the review and selection of the award. The term employee means any individual engaged in the performance of work pursuant to the Federal award.

Recipients may not have a former Federal employee as a key project official, or in any other substantial role related to their award, whose participation put them out of compliance with the legal authorities addressing post-Government employment restrictions. See the [U.S. Office of Government Ethics website](#) for more information on these restrictions. The Service will examine each conflict of interest disclosure based on its particular facts and the nature of the project and will determine if a significant potential conflict exists. If it does, the Service will work with the recipient to determine an appropriate resolution. Failure to disclose and resolve conflicts of

interest in a manner that satisfies the Service may result in any of the remedies described in [2 CFR 200.339](#) Remedies for Noncompliance, including termination of the award.

Other Mandatory Disclosures

The Non-Federal entity or applicant for a Federal award must disclose, in a timely manner, in writing to the Federal awarding agency or pass-through entity all violations of Federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the Federal award. Non-Federal entities that receive a Federal award including the terms and conditions outlined in 2 CFR 200, Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters are required to report certain civil, criminal, or administrative proceedings to SAM. Failure to make required disclosures can result in any of the remedies described in 2 CFR 200.338 Remedies for Noncompliance, including suspension or debarment.

Reporting Matters Related to Recipient Integrity and Performance

If the total value of your currently active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of this Federal award, then you as the recipient during that period of time must maintain the currency of information reported to the System for Award Management (SAM) that is made available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS)) about civil, criminal, or administrative proceedings in accordance with Appendix XII to 2 CFR 200.
