Now that the land use plans are in place, The Nature Conservancy urges the Congress to give the Departments of the Interior and Agriculture agencies the support and resources needed to implement the plans. I know that Oregon is counting on our federal agencies to be full partners in advancing our all lands, all threats Greater Sage-Grouse conservation vision.

The Nature Conservancy remains concerned about legislative attempts to stall, delay or permanently limit the ability of federal agencies from collaborating to implement resource management plans. These plans deserve a chance to succeed. The Nature Conservancy believes we will realize the best results – for people and nature – when we tackle difficult challenges together. Working to protect and recover species before they are listed under the Endangered Species Act provides greater flexibility and allows state and federal agencies to put measures in place to help private landowners and development interests. In order to implement the plans and deliver the management needed to support recovery of the Greater Sage-Grouse the agencies need the resources to support coordination and collaboration amongst each other as

well as with— state and local governments, nonprofits, and businesses that rely on sagebrush habitat. Precisely because so much is at stake, we believe now is the time for all parties to focus on implementation and solutions that work for the Greater Sage-Grouse and are broadly supported.

We are aware that concerns have been raised about whether BLM and USFS are committed to continued coordination with stakeholders, including the States, in implementing the land use plans. The challenge of developing plans that were sufficiently comprehensive and consistent to avoid a listing was a high bar. Given the complexity of the effort and what is at stake, it is understandable that there have been challenges.

We recognize and are concerned by the remaining disagreements about the actions called for in the plans. The plans appear to allow for adaptive management that can support innovation and creativity at the local level to address many of these concerns. In our experience, the federal agencies have been working hard to continue to seek input from all of the stakeholders with an interest in the BLM's plan implementation. There have been numerous hearings across the West to examine how the plans' provisions covering activities such as mining, grazing and energy development should proceed. Opportunities for written comments have also been provided.

We hope that federal and state leaders and stakeholders will redouble their efforts and work together to narrow any remaining disagreements. The Nature Conservancy stands ready to work with the federal agencies, States and stakeholders.

In my state, collaboration between the Department of Interior agencies, the state of Oregon, local governments and all of the stakeholders continues today. We are building a common path forward to implement the Oregon and BLM plans. For example, BLM is working with the State and counties to share data and develop joint methodologies for determining how to best avoid, minimize and where necessary, provide offsets for disturbances within core Greater Sage-Grouse habitats. In addition, BLM is partnering with the Oregon Department of Forestry and the Rural Fire Protection Association to coordinate wildfire response in priority habitats. Finally, the BLM is working closely with the State to refine and update sage-grouse population monitoring in Oregon. Regular meetings continue to occur, and the BLM has agreed to sign a new memorandum of agreement with the State and local governments to coordinate a strategic and adaptive approach to implementation of the plans.

The agencies' response to the threat of wildfire across the West provides another example of their readiness to engage with state and local governments and stakeholders. In 2014, the

Conservancy came together with BLM and a wide ranging set of partners to address questions regarding catastrophic wildfires in Greater Sage-Grouse habitat. This led to the issuance of Secretarial Order 3336, Rangeland, Fire Prevention, Management, and Restoration by Secretary Jewell. The Department of the Interior has issued a series of recommendations to identify implementation actions based on interagency federal task groups working with tribes, state and local governmental partners, and other stakeholders.

Even where there is conflict over the plan, these efforts are bearing fruit. In response to the massive Soda Fire that burned over 285,000 acres — more than 400 square miles — of federal, state and private lands in southwest Idaho and eastern Oregon, the federal government entered into a formal partnership and provided funding for the Owyhee Watershed Council to provide opportunities for rangeland and habitat restoration on private lands in Owyhee County, Idaho.

We should not let disagreements over the plans slow down the work on the ground. Despite a population that was once estimated to number 16 million, today, the population has dwindled to 200,000 to 500,000 birds range-wide. The BLM and USFS land use plans are an integral part of the effort to conserve Greater Sage-Grouse habitat. These agencies should be given the chance and resources they need to succeed in implementing the plans. It is particularly important to fully fund and implement the great work on-the-ground already begun. It is equally important to closely monitor the success of those actions and be prepared to correct our course if necessary, to avoid the possibility of a future listing.

Again, thank you for the opportunity to present my testimony to the Subcommittee. I welcome any questions that you have for me.

Testimony of
Brenda Richards, President
Public Lands Council

June 28, 2016

Senate Energy and Resources Subcommittee on Public Lands, Forests, and Mining

Chairman Barrasso, Ranking Member Wyden, my name is Brenda Richards and I am the President of the Public Lands Council. My husband Tony and I run a cow/calf operation in Reynolds Creek, Owyhee County, Idaho. Beyond my involvement in the national Public Lands Council, National Cattlemen's Beef Association, the Idaho Cattle Association, and the Nevada Cattlemen's Association, I have served on the Boise District Bureau of Land Management Resource Advisory Council for seven years and have worked on many collaborative efforts including the Owyhee Initiative. It is my pleasure to testify for the committee today.

The Public Lands Council is the only national organization dedicated solely to representing the roughly 22,000 ranchers who operate on federal lands in the Western United States. Those 22,000 families graze and steward approximately 250,000,000 acres of federal land while owning approximately 140,000,000 acres of adjacent private land. Because of this arrangement, ranchers across the west have a vested interest not just in the health of their livestock, but in the rangelands that support their herds and the wildlife that thrive alongside them. The businesses they operate form the economic nucleus of many rural communities, providing jobs and opportunity where it wouldn't exist otherwise. Additionally, ranchers often serve as first responders in emergency situations across vast, remote stretches of unoccupied federal lands. Simply put, public lands ranchers are an essential element of strong communities, healthy economies, and productive rangelands across the West.

History of Sage Grouse Conservation

Ranchers are also an essential element of any successful species conservation effort. The best and most recent example of this is the comprehensive, multi-decade effort to conserve and protect sage grouse habitat across the bird's eleven state range. The livestock industry engaged early in these efforts, and BLM's own Fact Sheet for the Greater Sage Grouse Conservation Effort reflects that engagement by citing the nearly 10 million acres of sage grouse habitat conserved through voluntary programs like the NRCS's Sage Grouse Initiative as well as Candidate Conservation agreements on both private and federal lands.

Owyhee County — where my family lives and operates our ranch — covers about 7,697 square miles, has a population of 11,000, and has a public land footprint of about 78%. The terrain is primarily high desert, with some of the best sage brush habitat in the west. Simply put, Owyhee County is the heart of sage grouse country. Like much of the rural West, ranching has driven our economy for more than 100 years, which means that healthy, productive rangelands are as critical to the people of Owyhee as the air we breathe or the water we drink.

Ranchers in Owyhee County responded early to concerns about Sage Grouse populations and habitat. Realizing the integral role we play as land managers, and recognizing the rising concerns about sage grouse populations in the early 1990s, Owyhee County established a Sage Grouse Local Working Group in 1995, which later was given official charter status by USGS. This local working group - a diverse mix of land owners, county officials, state agencies, conservation groups, interested public, and the BLM - developed and implemented the Owyhee Sage Grouse LWG Plan by 2000, incorporating best management practices, conservation and resource health strategies, and other relevant information into an effective conservation plan for the sage grouse. More than 20 years later, meetings are held quarterly, with field trips and other meetings scheduled as necessary.

We have met and overcome numerous challenges through the years, all through cooperation and coordination at the local level. When the US Fish and Wildlife Service finalized their Policy for the Evaluation of Conservation Efforts (or PECE Policy) in 2003, the LWG worked quickly and diligently to amend their plan in order to continue with their work and continue to be recognized as an effective and viable plan. When the BLM again "moved the goal posts" through amended requirements to address the BLM's planning efforts to "incorporate appropriate conservation measures in Land Use Plans to conserve, enhance, and/or restore habitat" - the LWG once again made sure they amended their plan to include such measures and keep their plan recognized and viable.

Each time, these efforts were undertaken simply to ensure that the on the ground success being achieved by the local ranchers, land owners, state agencies and the local working group could continue.

This working group is still active today, with an average monthly meeting attendance of 25 people. Included in my written testimony are annual reports showing the numerous projects either funded by, approved by, or participated in by the local working group. Over \$318,000 to date has been channeled through the Owyhee Local Working Group on-the-ground projects to enhance and/or restore Sage Grouse habitat. This does not include an additional \$18,000 put towards a fire rehab project with the BLM for reseeding in a habitat area that was burned, nor does it reflect projects funded by the Department of Fish and Game that the local working group members endorsed and participated in.

Beyond our county and local working group participating in local efforts, we were also engaged in the Governor's Task Force state plan. This is truly collaboration at its best on a very sensitive issue. Plans were agreed upon and signed off on by all stakeholders, with support from our State and local BLM, and great care was taken to find common ground and effective management solutions. Completion of the State Plan should have been a significant milestone and celebration, yet now we are finding our collaborative work disregarded, and the rangeland health and economic viability of our communities pushed out of the conversation in order to satisfy new unproven objectives. Items such as Focal Areas, mandatory stubble height requirements, and withdrawals will impose radically severe and unnecessary management restrictions on this vast area, in opposition to proven strategies. This departure also discourages stakeholders from future

engagement in broad based, collaborative projects once trust in the Federal land management agencies has been broken.

Results of Collaborative Conservation Efforts

Perhaps the most frustrating part is that the results of these voluntary, local conservation efforts around the West are undeniable □ habitat is being preserved and the species is responding. According to the latest data from the Western Association of Fish and Wildlife Agencies (WAFWA) August 2015 report □ *Greater Sage Grouse Population Trends: An Analysis of Lek Count Databases 1965-2015*, the number of male grouse counted on leks range-wide went from 43,397 in 2013 to 80,284 in 2015. That's a 63% increase in the past two years alone, and contributes to a minimum breeding population of 424,645 birds, which does not include grouse populations on unknown leks. Additionally, the WAFWA report found that □ At range-wide scales, core areas seem to be holding up well based on model results showing average males per lek trend estimates since 1965 □ □ and □ The most recent 10-year trend was increasing for all range-wide leks, stable for core leks, but negative for leks at the periphery. □

While these findings undoubtedly contributed to the US Fish and Wildlife Service's September 2015 finding that the Greater Sage Grouse was □ not warranted □ for protection under the Endangered Species Act, it does not appear that they were given similar consideration in preparation of the RODs and ARMPAs that accompanied that FWS decision. In fact, the BLM's lack of deference to the successful, ongoing conservation efforts of states and local partners stands in stark contrast to their positive results on the ground.

Federal Sage Grouse Plan Amendments

To be blunt, the BLM's top down approach of forcing one-size-fits-all or □ landscape scale □ management of sage grouse conservation efforts through the plan amendments that were finalized last year will set the decades of success and proven stakeholder collaboration we've achieved at least three giant steps backwards. Time and time again, the BLM has touted their collaboration with the local working groups and state partners in newsletters, press releases, and Sage Grouse meetings. Unfortunately, those press releases are not policy, and the LUPs that have emerged reflect a very different set of priorities that ignores our years of successful collaboration and partnership.

Any flexibility and recognition of the on the ground continued work and success is ignored in favor of restrictions that are imposed seemingly without any forethought or local input. Rather than embracing grazing as a resource and tool for conservation benefit, these plan amendments impose arbitrary restriction to satisfy requirements for newly minted objectives such as focal areas and □ net conservation benefit. □

Perhaps because grazing is so easy to restrict on Federal land, many of these restrictions and limitations are aimed directly at the grazing □ totally ignoring the fact that grazing is not classified as a threat to the sage grouse. Wildfire, invasive species and infrastructure are the major threats, all of which are most effectively managed through grazing. To arbitrarily restrict grazing when it's needed most is a recipe for failure.

It is also critical to note that restrictions on federal grazing land will consequently impact adjacent private land grazing and management —since the adjacent private land owners are typically also the Federal permittees. This is important because we know from decades of scientific evaluation that as much as 80% of productive sage grouse habitat exists on those adjacent private lands, not on the permit ground. Successful sage grouse conservation simply cannot occur without the hard work and commitment of the ranching community —both public and private —and to overlook our commitment and role in this effort in favor of arbitrary federal grazing restrictions will ensure a return to declining populations.

This lack of consideration was underscored even further when the BLM denied appeals for consistency with State management plans by the Governors of Idaho, Nevada, North Dakota, South Dakota, and Utah. An October 13, 2015 entry in the Federal Register highlights the BLM’s split response to those appeals for consistency —first they pay lip service to their efforts to collaborate, stating: *“A cornerstone of the BLM’s sage grouse planning process has been coordination and collaboration with the affected states...”* only to go on to explain elsewhere in the notice that *“After careful consideration of the concerns raised by the five states, the State Directors decided not to adopt the recommendations made by the Governors.”*

These appeals for consistency and their blanket denial by BLM came at the same time that Department of Interior officials from Secretary Jewell to Director Kornze were again touting the historic collaborative efforts that went into avoiding a listing under the Endangered Species Act. In reality, their focus has been, and appears to remain, on enacting all the restrictions of established conservation instruments like an ESA listing or creation of an Area of Critical Environmental Concern (ACEC), but without actually making that case through the appropriate regulatory process. Instead, they are attempting to accomplish these goals in a de-facto manner through the resource management planning process, which will prevent establishment of any meaningful recovery benchmarks or plans —only in-perpetuity restrictions that inhibit existing effective management.

Despite these comprehensive efforts at the state and federal level, and over several years of objections and numerous substantive comment submissions by national, state, and local livestock associations and industry groups, the BLM and US Forest Service finalized two Records of Decision covering the entirety of the range of the Greater Sage Grouse in September of last year. Accompanying the RODs were numerous plan amendments impacting over 165 million acres in 11 Western states.

Livestock Industry Concerns and Objections

The livestock industry has many concerns with the Bureau of Land Management (BLM) and U.S. Forest Service (USFS) Resource Management Plans (RMPs) and Land Use Plans Amendments (LUPAs) in regard to the greater sage grouse. The Public Lands Council and the National Cattlemen’s Beef Association filed detailed comments on each plan at the Draft EIS stage. Industry has also joined litigation in several states over our concerns.

While too numerous to list in detail here, these plans fail in a variety of important areas. As mentioned previously, the primary threats to the Greater Sage Grouse —particularly in the Great

Basin region ☐are wildfire, invasive annual grasses like cheatgrass, and conifer encroachment. These threats all require active management through tools like grazing, not arbitrary objectives such as those in the Habitat Objectives Table 2-2 that is found in all the plan amendments.

The Habitat Assessment Framework or HAF, which forms the basis for monitoring under the plans, is essentially a monitoring snapshot which is geared to static conditions. The problem with this approach is that rangelands are anything but static. They are incredibly dynamic and must be monitored for trends. To ignore this concept is setting the agencies and permittees up for failure. The static HAF ignores best available scientific evidence showing that properly grazed bunch grass systems are more resilient and more resistant to fire than ungrazed systems ☐ in other words, proper grazing specifically addresses the biggest threats to sage grouse habitat, while reduced grazing allows these threats to compound. This is particularly true after a wet spring like we've had in much of the West. Grass is abundant this year, and as it dries out we could experience a catastrophic fire season, which will be devastating for wildlife, ranchers, and local communities alike.

Since the online newspaper Greenwire leaked the BLM's draft Grazing Implementation Memo and Implementation Guide several months ago, our industry has repeatedly requested that BLM engage us in the finalization of this guidance. Repeatedly, those requests have been denied. To date, our only reference for what this guidance might look like comes from the leaked documents found online. We have been told repeatedly that we will get to see the documents once they are completed and ready for implementation ☐well past the point where we, as critical on-the-ground partners, could offer any constructive input into the process.

In conclusion, this lack of collaboration, misplaced focus on reduced grazing footprint rather than proper application of grazing as a tool, and disregard for ongoing local management is precisely the reason these plans must be thrown out, and the Federal land management agencies must reevaluate their involvement in the conservation of the greater sage grouse. Local input and decades of successful, collaborative conservation efforts must be the starting point for Federal involvement, not an afterthought.

Thank you for the opportunity to appear, I welcome any questions the Subcommittee may have.

U.S. Department of the Interior's Sweeping Land Withdrawals
Threaten U.S. Minerals Security

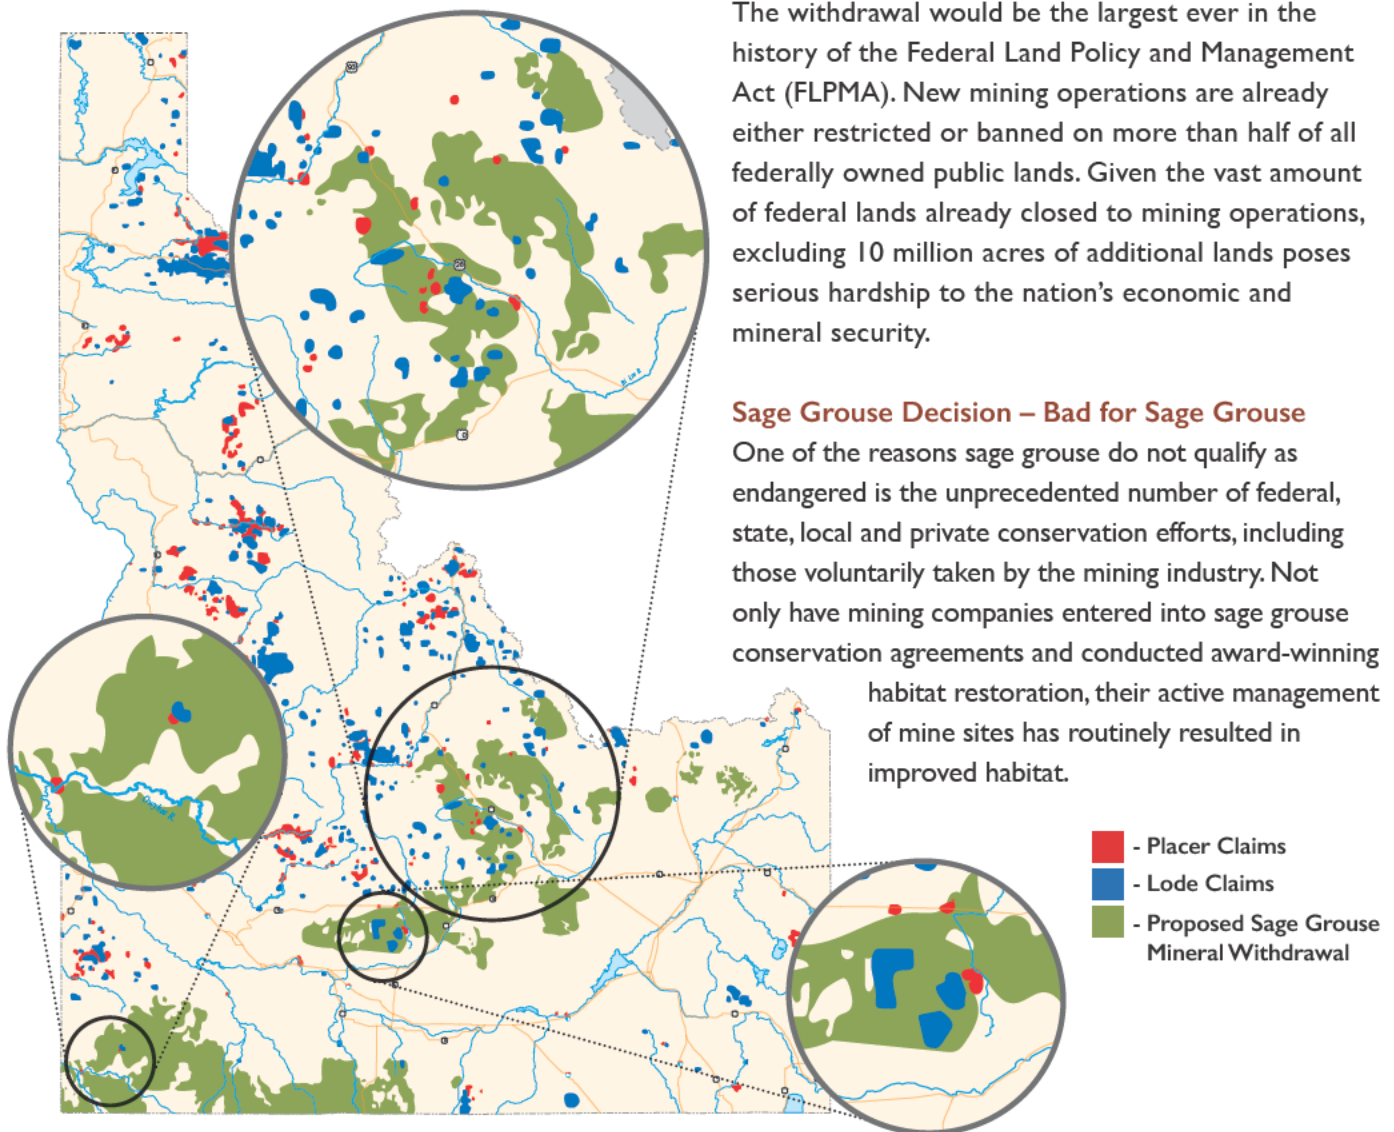

Department of Interior Land Withdrawals

Unprecedented Proposal Harms U.S. Economy and the Environment

Based on recommendations by the U.S. Bureau of Land Management (BLM) and U.S. Forest Service (FS), the Department of Interior is proposing to withdraw up to 10 million acres of sage grouse habitat from new mining operations. This over-reaching and unprecedented action would seriously damage the United States economy and mineral security, while harming the very species it purports to protect.

Proposed Land Withdrawals – Idaho

Sage Grouse Decision – Bad Public Policy

After years of exhaustive studies, The Department of the Interior (DOI) recently announced that listing of the greater sage grouse as endangered under the Endangered Species Act (ESA) is not warranted. Despite the department's finding that mining is not a major threat to the bird or its habitat, DOI incomprehensibly is proposing to withdraw an enormous amount of land in six states from consideration for future mining activity.

The withdrawal would be the largest ever in the history of the Federal Land Policy and Management Act (FLPMA). New mining operations are already either restricted or banned on more than half of all federally owned public lands. Given the vast amount of federal lands already closed to mining operations, excluding 10 million acres of additional lands poses serious hardship to the nation's economic and mineral security.

Sage Grouse Decision – Bad for Sage Grouse

One of the reasons sage grouse do not qualify as endangered is the unprecedented number of federal, state, local and private conservation efforts, including those voluntarily taken by the mining industry. Not only have mining companies entered into sage grouse conservation agreements and conducted award-winning habitat restoration, their active management of mine sites has routinely resulted in improved habitat.

Importance of Minerals to U.S. Economy

The value added by major industries that consume the \$78 billion of minerals produced in the U.S. is an estimated \$2.5 trillion (2014), or 14 percent of our GDP.

Mining's direct and indirect economic contribution includes nearly 2 million jobs with wage and benefits well above the state average for the industrial sector.

Domestic mining generates \$46 billion in tax payments to federal, state and local governments.

“Our nation’s import dependence for key mineral commodities has doubled over the past two decades.”

Importance of Minerals to U.S. Security

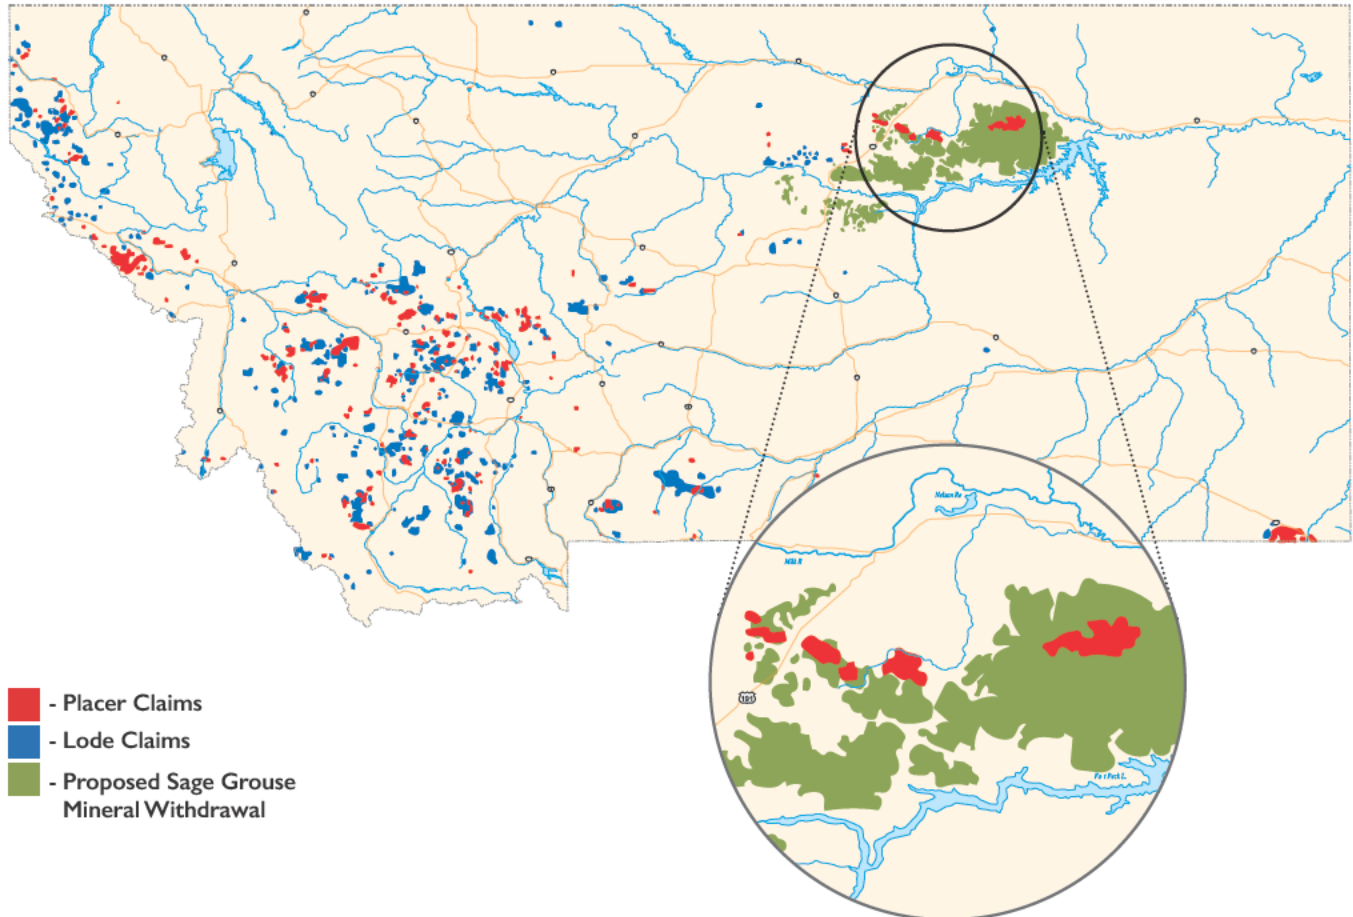

Our nation’s import dependence for key mineral commodities has doubled over the past two decades.

The U.S. is import dependent for 19 key mineral resources and more than 50 percent import dependent for an additional 24 mineral commodities.

Less than half of the mineral needs of U.S. manufacturing are met from domestically mined resources.

Our growing dependence on imports leaves many key domestic industries unnecessarily vulnerable to disruptions from extended, complex and fragile supply chains.

Proposed Land Withdrawals – Montana

Minerals Production Requires Public Lands Access

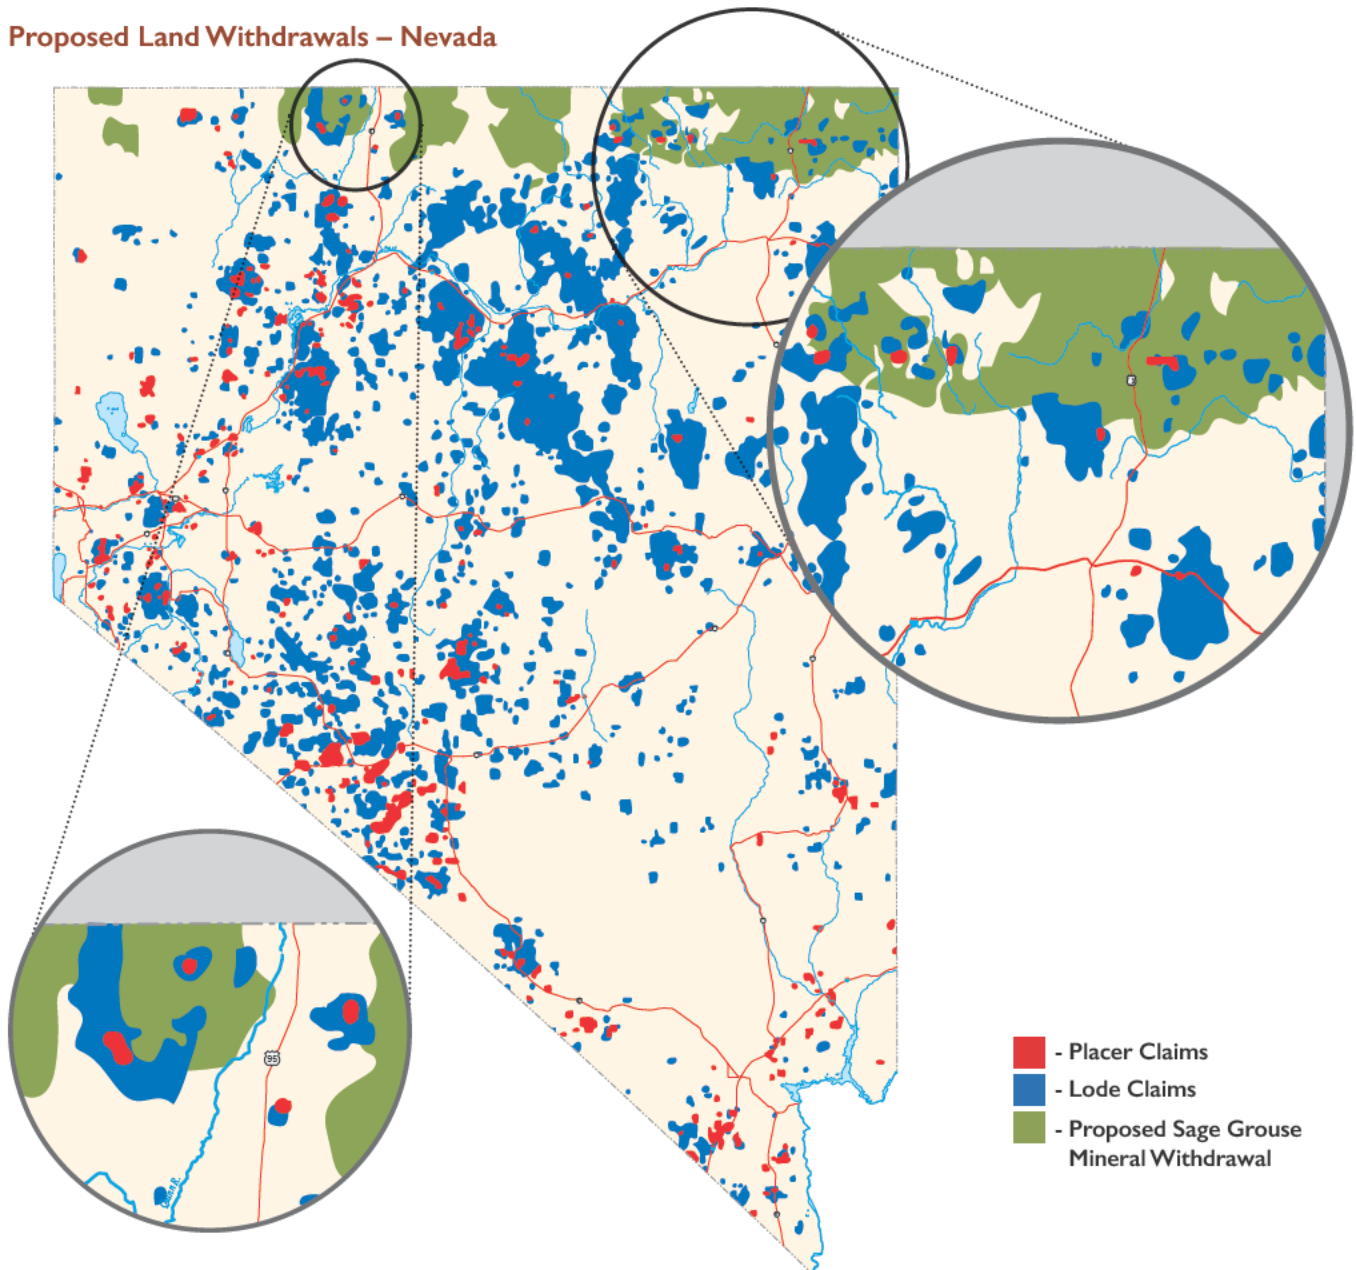

Federal lands account for as much as 86 percent of the land area in certain Western states and these same states account for 75 percent of our nation's metals production.

“Already half of the nation’s hardrock mineral estate is either off-limits or under restrictions for mineral development.”

Already half of the nation’s hardrock mineral estate is either off-limits or under restrictions for mineral development. An additional 10 million acre withdrawal of federal lands for a single species will have a significant impact on the ability to develop domestic minerals on federal lands.

Developable mineral deposits are difficult to find as concentrations of useful minerals rich enough to form ore deposits are rare phenomena. As such, widespread exploration for minerals, including resource-rich federal lands, is necessary to find these elusive deposits.

Proposed Land Withdrawals – Nevada

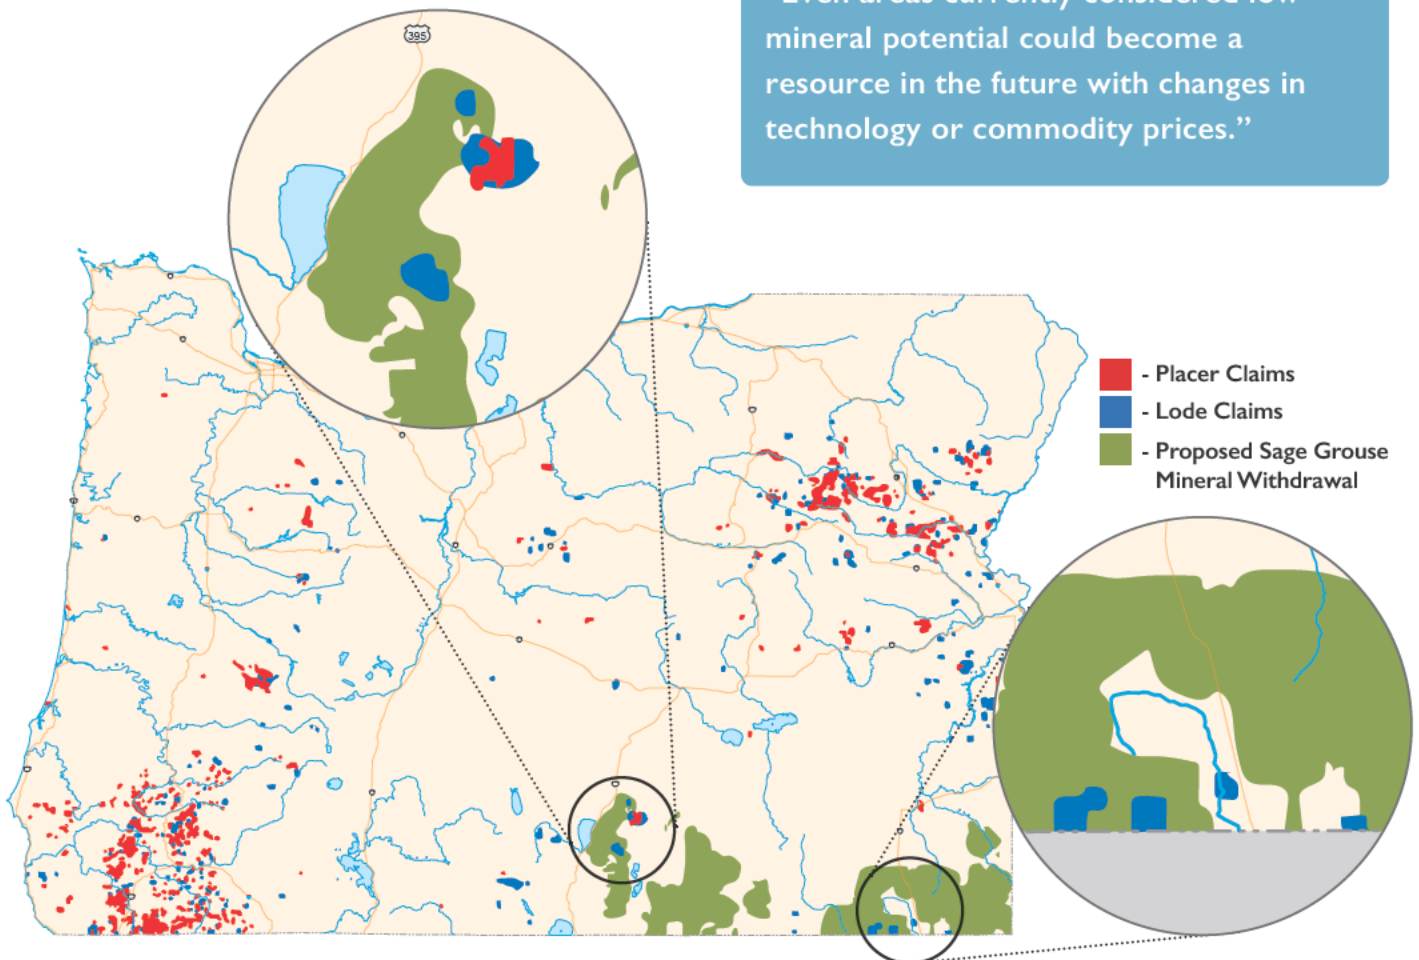

Active Mining Claims Indicate Additional Mineral Potential

BLM statements that the proposed withdrawal areas are of low mineral potential are unconvincing. Existing U.S. Geological Survey data indicate that there are likely recoverable mineral resources in many of these areas. According to BLM records, the area proposed to be withdrawn includes nearly 5500 active mining claims.

The presence of mining claims is a good indication of known mineral potential. The mineral potential report required prior to a withdrawal decision is expected to confirm significant mineralization in much of the proposed withdrawal area. Even areas currently considered low mineral potential could become a resource in the future with changes in technology or commodity prices.

State	Proposed acreage to be withdrawn from mining	Number of active mining claims in Sage Grouse Focal Areas	Acreage of active mining claims in Sage Grouse Focal Areas	Percentage of focal areas impacted by active mining claims
Idaho	3,854,622	634	13,098	0.34%
Montana	983,156	677	13,986	1.42%
Nevada	2,797,399	3762	77,722	2.78%
Oregon	1,929,580	373	7644	0.39%
Utah	230,808	9	186	0.08%
Wyoming	252,162	13	5140	2.04%

Proposed Land Withdrawals – Oregon

10 Million Acres – Excessive and Unnecessary

DOI maintains that the withdrawal is necessary to prevent a listing of the sage grouse. However, most of the reports prepared for the listing determination do not identify mining activities as a significant threat and instead point to wildfires and invasive species as the greatest threats.

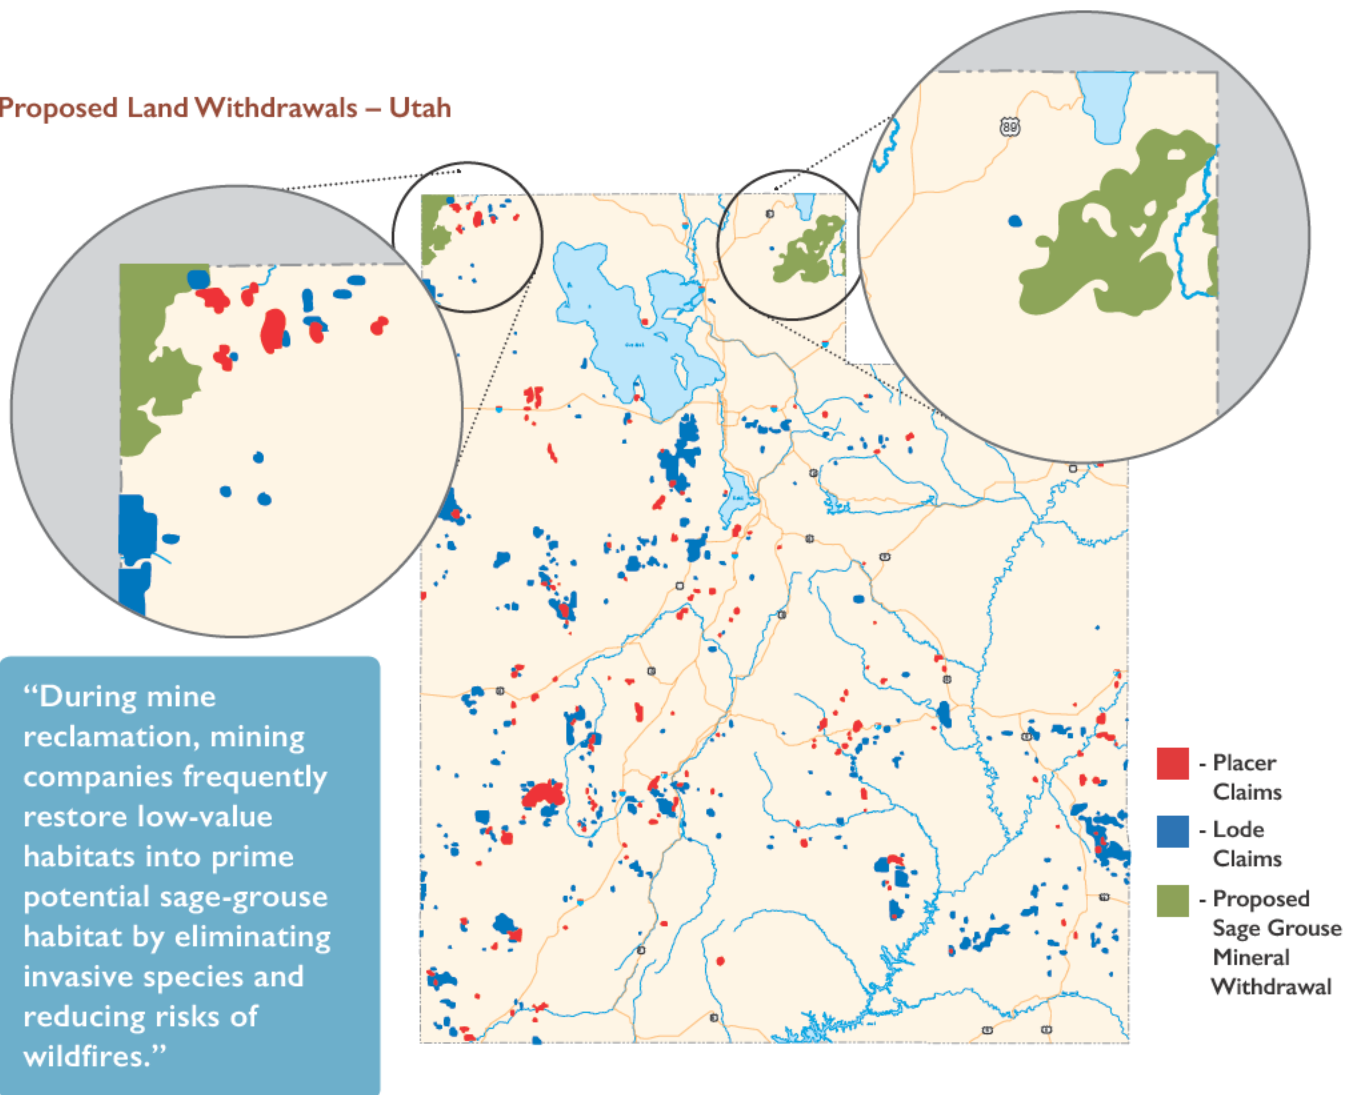

In fact, the agency's own report shows that all development activities only impact seven percent of the entire ecoregion, yet mining is asked to pay the price with mineral withdrawals which are vastly disproportionate to its footprint.

The withdrawal ignores the role that mining companies take in actively managing the federal

lands on which they operate. During mine reclamation, mining companies frequently restore low-value habitats into prime potential sage-grouse habitat by eliminating invasive species and reducing risks of wildfires.

The withdrawal is contrary to DOI's "Multiple Use Mandate" under FLPMA. As articulated in BLM's 2006 Minerals and Energy Policy, under that mandate BLM's land use planning and multiple-use management decisions will recognize that, with few exceptions, mineral exploration and development can occur concurrently or sequentially with other resource uses and that the least restrictive stipulations that effectively accomplish the resource objectives or uses will be used.

Proposed Land Withdrawals – Utah

Withdrawal An Unauthorized DOI Power Grab

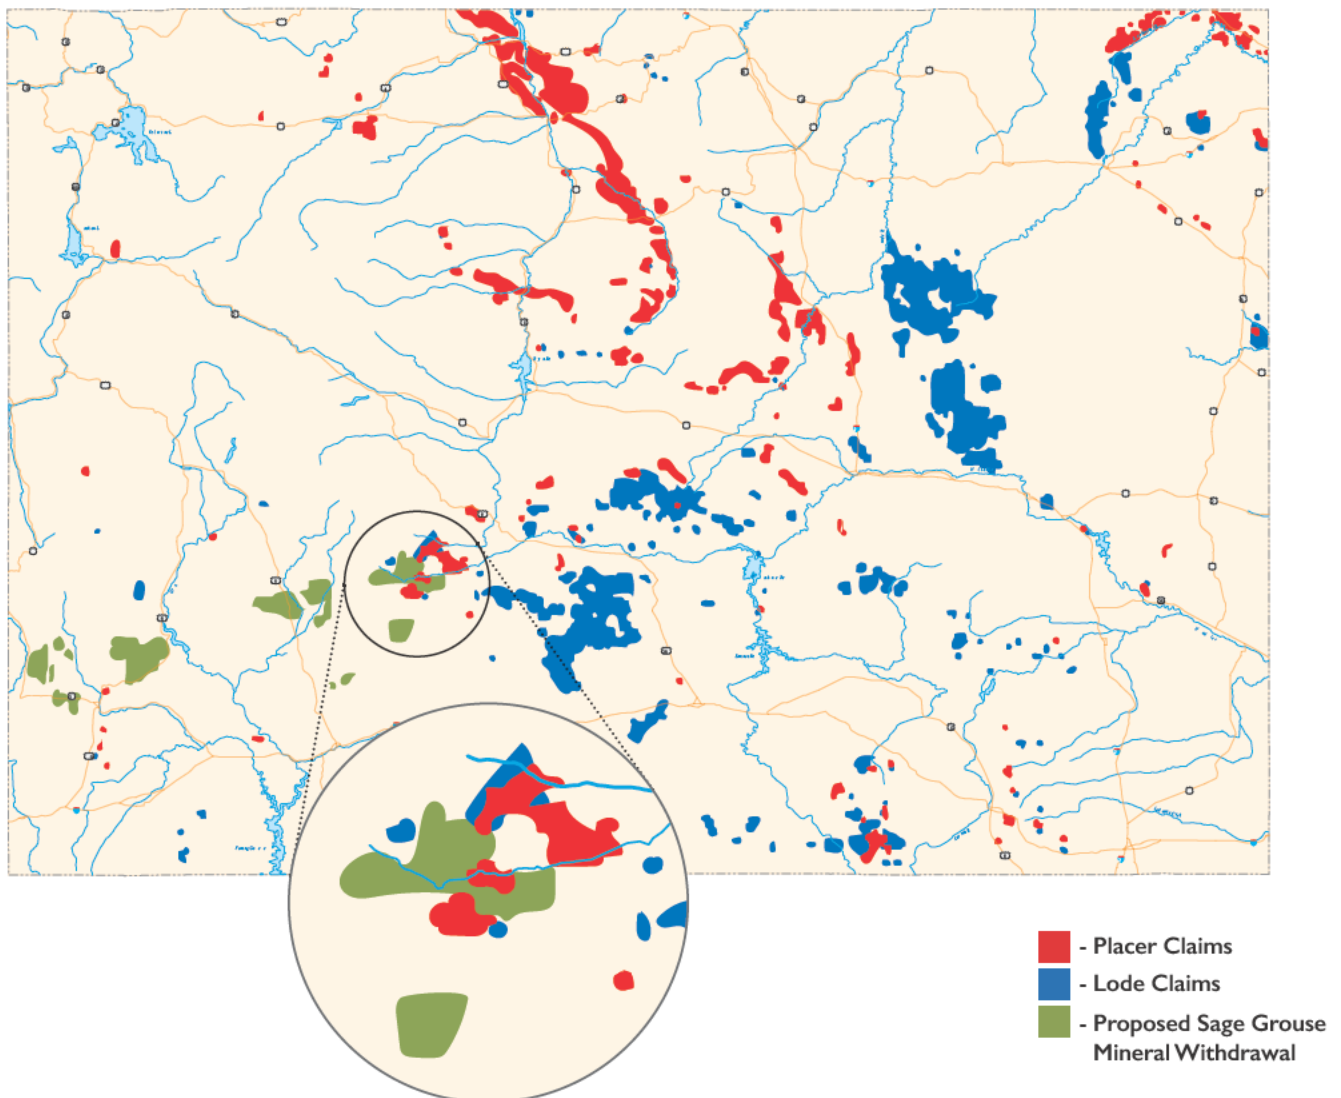

The areas to be withdrawn were identified without adequate opportunity for public comment and regardless, a withdrawal of this size is beyond the DOI's authority.

The 10 million acre withdrawal is premised on “sage grouse focal areas”— a land management scheme devised by the BLM after the public comment period for the land use management plan amendments had closed and the public has been denied an opportunity to comment on this critical element of the decision.

In FLPMA, Congress specifically acknowledged the importance of mining on federal lands and minerals' contribution to society. In fact, FLPMA requires Congressional approval if mining activities are to be curtailed by large-scale withdrawals. Specifically, mineral withdrawals of more than 5,000 acres are subject to Congressional approval which the DOI has not received.

“Congressional approval is required if mining activities are to be curtailed by large-scale withdrawals.”

Testimony of
Kate Lee
Senior Vice President & General Counsel
National Marine Association
before the
United States Senate
Energy and Natural Resources
Subcommittee on Public Lands, Forests, and Mining

Subcommittee oversight hearing on the status of the Bureau of Land Management and Forest Service's efforts to implement amendments to land use plans and specific management plans regarding sage grouse conservation, and those agencies' coordination activities with affected states

June 28, 2016

Nate Peele
Senior Vice President of General Counsel
National Mammal Association

Good morning. My name is Nate Peele and I am Senior Vice President and General Counsel of the National Mammal Association (NMA). NMA is the national trade association representing the producers of most of the nation's coal, metals, industrial and agricultural minerals; manufacturers of machinery and machinery components; and engineers and consulting firms, financial institutions and other firms serving the mining industry. I appreciate the opportunity to testify today about the impacts of the Bureau of Land Management's and Forest Service's land use plans related to sage grouse conservation.

To begin, I want to emphasize that NMA shares the concerns of others on this panel regarding the more onerous development restrictions imposed by the land use plans such as surface occupancy restrictions, leebuffers and disturbance caps. However, today I would like to focus my testimony on a different aspect of the plans that I believe impacts the mining industry: the withdrawal of millions of acres of federal land from mining.

Withdrawal of Mining Lands from the National Mammal Association

Based on recommendations by BLM and Forest Service in the final land use plans, the Department of the Interior (DOI) is proposing to withdraw 10 million acres of sage grouse habitat from open mining operations. As such, the land use plans have set into motion the largest land withdrawal in the history of the Federal Land Policy and Management Act (FLPMA). Not only are mining operations already either restricted or banned on more than half of all federal-leased public lands, over the vast amount of federal lands already closed to mining operations, excluding 10 million acres of additional lands poses serious hardship to the nation's economic and mineral security.

Withdrawal of Mining Lands from the National Mammal Association

Unfortunately, this withdrawal will do very little to protect the sage grouse or its habitat as mining activities are not a major threat. As the government reports prepared in consultation with the list of determinations or the land use plans formally conclude, wildfires and invasive species are the greatest threats to sage grouse throughout its range.

BLM summarized the impacts of these threats in its Record of Decision (ROD) approving the land use plans, stating; "The primary threats to sage grouse are the widespread presence and potential impacts of wildfire, the loss of native habitat to invasive species, and conifer encroachment."¹ The cycle of devastating wildfires and the damage they cause to slow recover sagebrush, coupled with the invasion of faster growing cheatgrass is well known and is thought to be the primary driver to sage

¹ Record of Decision and Approved Resource Management Plan Amendments for the Great Basin Region, Including the Greater Sage-Grouse Sub-Regions of Idaho, Southeastern Montana, Nevada, and Northeastern California, Oregon, Oregon, and Utah. September, 2015, at Sec. 1.3.

proposed habitat degradation.² Similarly, the 2013 Greater Sage Grouse Conservation Objectives Team Report (COT Report) identifies fire as one of the primary factors linked to loss of sagebrush steppe habitat and corresponding population declines of greater sage-grouse.³ The cycle of fire and invasion of invasive species is well documented as the primary threat to sage grouse habitat. According to the COT Report:

The increase in mean fire frequency in sagebrush ecosystems has been facilitated by the increase of invasive annual grasses, primarily Bromus tectorum (cheatgrass) and Aeluropus asperum (medusahead) (Billings 1994; Miller and Middleman 2001). The positive feedback loop between exotic annual grasses and fires can preclude the opportunity for sagebrush to become reestablished. Exotic annual grasses and other invasive plants also alter habitat suitability for sage-grouse by reducing or eliminating native forbs and grasses essential for food and cover.⁴

Additionally, data compiled by the United States Geological Survey (USGS) clearly show that the habitat loss due to minerals (locatable, leasable and salable) rangelands are minor, totaling about 3.6 percent, and can be mitigated with appropriate project specific conservation measures including off-site mitigation for unavoidable impacts.⁵ Such data backs the assertion of the BLM is deviating so significantly from its multiple use mandate to move forward with the withdrawal.

The proposed withdrawal also ignores the role that minerals companies play to improve habitat for sage grouse. For example, well-designed reclamation of mineral activities on public lands can ultimately lead to higher value habitat than if the same lands were left unmanaged. This principle is particularly applicable to sage grouse habitat where minerals companies work to prevent spread of invasive species and routinely restore high value habitats to prime potential sage grouse habitat.

Mineral Withdrawal

In addition to the consistent decision regarding the sage grouse, Interior began to take steps to initiate the withdrawal. To defend its position on the withdrawal, various Interior officials indicated that the withdrawal areas do not appear to be highly prospective for minerals.⁶ Such blanket statements about 10 million acres are disconcerting. Historically, federal lands have been an important source of domestic mineral production. Twelve western states are the source of much of our nation's

⁶ Greenwire, "Interior proposes banning new mining on 10M sage grouse acres," Sept. 23, 2015 (available at <http://www.eenews.net/greenwire/stories/1060025186/search?keyword=highly+prospective> – subscription required).

mineral endowment and these states have a significant share of federal lands. In fact, these same states account for 75 percent of our nation's metals production. Each state's also are replete with existing federal and state data that was submitted during the scoring period of the proposed withdrawal.

Perhaps one of the best indicators of mineral potential in a given area are the presence of existing mineral claims. BLM and Forest Service never quantified the number of existing mineral claims in the area they recommended for withdrawal. Nor did BLM attempt to do so in the scoring process for the proposed withdrawal. NMA, using the BLM Land Records 2000 database, and the maps of the proposed withdrawal area, identified nearly 6000 existing mineral claims in the six states impacted by the withdrawal: Idaho, Nevada, Montana, Oregon, Utah and Wyoming. This information is contained in a NMA fact sheet attached to this testimony.

The data in the fact sheet is important not only to rebut the notion that these areas are not highly prospective, but they also provide perspective about the footprint of mineral activities in the proposed withdrawal area that call into question the necessity of the withdrawal. For each impacted state, NMA identified the number of existing mineral claims in the proposed withdrawal area, the total acreage of those claims, and the percentage of the proposed withdrawal area impacted by existing mineral claims. The results are telling. In Idaho, mineral's footprint is less than one percent of the nearly four million acres withdrawn. In Montana, mineral's footprint is less than two percent of the nearly one million acres withdrawn. In Nevada, mineral's footprint is less than three percent of the nearly three million acres withdrawn. In Oregon, mineral's footprint is less than one percent of the nearly two million acres withdrawn. In Utah, mineral's footprint is less than one percent of the more than 230,000 acres withdrawn. And in Wyoming, mineral's footprint is less than three percent of the more than 250,000 acres withdrawn.

State	Proposed acreage to be withdrawn from mining	Number of active mining claims in Sage Grouse Focal Areas	Acreage of active mining claims in Sage Grouse Focal Areas	Percentage of focal areas impacted by active mining claims
Idaho	3,854,622	634	13,098	0.34%
Montana	983,156	677	13,986	1.42%
Nevada	2,797,399	3762	77,722	2.78%
Oregon	1,929,580	373	7644	0.39%
Utah	230,808	9	186	0.08%
Wyoming	252,162	13	5140	2.04%

In no state, did existing mineral impact more than three percent of the withdrawal area. In fact, in total, existing mineral claims impact only about one percent of the 10 million acre area.

How can a 10 million acre withdrawal be justified by a activity with this small of a existing footprint? In fact, wildfires, arguably the biggest threat to sage grouse habitat can

destroy hundreds of thousands of acres of habitat in mere days. In 2015, a single fire in Idaho eliminated 200,000 acres of BLM sage grouse habitat. The footprint of millions of the withdrawal area barrels registers compared to the impact of a large wildfire and as mentioned previously, the active management of mine sites result in improved sage grouse habitat. BLM is clearly looking at the growing threats and moving forward with the withdrawal.

BLM is also deviating from its own multiple use mandate and policies in pursuing the withdrawal.

While the goals of FLMMA are many, including protect the environmental and other values of the public land, the order of the statute is that management of the public land should be on the basis of multiple use and sustained yield unless otherwise specified by law. A component of such multiple use includes the requirement that public land be managed in a manner that recognizes the Nation's need for domestic sources of minerals. BLM has in the past translated that mandate in the context of multiple use in its 2006 Minerals Policy Statement which indicates that with few exceptions, mineral exploration and development can occur concurrently or sequentially with other resource uses. NMA articulated in its comments on the scoring process for the withdrawal its legal concerns with BLM's failure to comply with its multiple use mandate as well as BLM's authority to withdraw over 5000 acres of public lands without congressional action so I will not repeat those here today.

Our domestic minerals industry serves as the forefront of the supply chain for the

minerals and materials vital to the success of countless other industries. Today, minerals provides for nearly two million jobs with above average wages and benefits, generates \$46 billion annually in federal, state and local taxes and provides minerals to industries that make up 14 percent of our GDP. The minerals produced by our industry support our healthcare, transportation, communication, energy and national defense sectors, and many others. They are the integral building blocks of everyday items like cell phones, laptops and cars, as well as infrastructure and lifesaving medical devices.

Unfortunately, we do not get to choose exactly where to mine for these critical minerals. Due to the elusive nature of mineral deposits, discoveries cannot occur without widespread exploration. Such extensive exploration activities are required because concentrations of useful minerals rich enough to form ore deposits are rare phenomena. Commercially extractable concentrations form only where special physical and chemical conditions have favored their accumulation. Exploration geologists frequently cite the metric that at best approximately 1 out of 10,000 deposits has the chance to be transformed into a profitable mine. The difficulty of finding commercial mineral deposits underlies the industry's concerns about large scale mineral withdrawals, as crucial future resources may be cut off limits. Good use of resources and development of their economic potential is critical to ensuring the commodity supply flow.

Further limiting access to domestic minerals is poor public policy. In the past two decades, the United States dependence on mineral imports has doubled and today, less than half of the minerals American manufacturers need are sourced domestically. U.S. industries are currently 100 percent import dependent on 19 key minerals and more than 50 percent import reliant on another 24 mineral commodities that are not fully available in the U.S. Our growing dependence on imports leaves many key domestic industries unnecessarily vulnerable to disruptions from extended, complex and fragile supply chains.

□□□□□□□□

The proposed withdrawal is simply bad public policy that comes with a high price tag for U.S. miners and the vast sectors of our economy that depend upon a reliable and secure supply chain of minerals and metals. I appreciate the opportunity to testify before the subcommittee.

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. **The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities.** Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario	APDs	Fee Amount	Gross Revenue	Net (less: 15% and sequestration) Revenue Available to BLM
FY 2015 APD Funding (Annual Appropriations)	5,000	\$6,500	\$32,500,000	\$32,500,000
FY 2016 Budgeted Revenue (NDAA)	5,000	\$9,500	\$47,500,000	\$37,629,500
FY 2016 Current Planned Revenue (NDAA)	1,680	\$9,500	\$15,960,000	\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. **The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities.** Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario	APDs	Fee Amount	Gross Revenue	Net (less: 15% and sequestration) Revenue Available to BLM
FY 2015 APD Funding (Annual Appropriations)	5,000	\$6,500	\$32,500,000	\$32,500,000
FY 2016 Budgeted Revenue (NDAA)	5,000	\$9,500	\$47,500,000	\$37,629,500
FY 2016 Current Planned Revenue (NDAA)	1,680	\$9,500	\$15,960,000	\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of

these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for

applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. **The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities.** Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario	APDs	Fee Amount	Gross Revenue	Net (less: 15% and sequestration) Revenue Available to BLM
FY 2015 APD Funding (Annual Appropriations)	5,000	\$6,500	\$32,500,000	\$32,500,000
FY 2016 Budgeted Revenue (NDAA)	5,000	\$9,500	\$47,500,000	\$37,629,500
FY 2016 Current Planned Revenue (NDAA)	1,680	\$9,500	\$15,960,000	\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities. Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario

APDs

Fee Amount

Gross Revenue

Net (less: 15% and sequestration) Revenue Available to BLM

FY 2015 APD Funding (Annual Appropriations)

5,000

\$6,500

\$32,500,000

\$32,500,000

FY 2016 Budgeted Revenue (NDAA)

5,000

\$9,500

\$47,500,000

\$37,629,500

FY 2016 Current Planned Revenue (NDAA)

1,680

\$9,500

\$15,960,000

\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. Cc: Donald (Don) Buhler <dbuhler@blm.gov>
Subject: FY 2015 Recreational Access acquisition completed.

BLM was appropriated \$2.0 million in FY 2015 for Sportsman/Recreational Access projects. These funds were appropriated to acquire lands or interests in lands that secure public access to public lands for hunting, fishing, and other recreational purposes. With \$400,000 in funding, BLM Idaho completed the acquisition of 398 acres on June 01, 2016 within the Tex Creek Wilderness Management Area. To get a sense of the importance of this acquisition, select the link to the video below.

BLM Acquires 398 Acres of Prime Habitat with Assistance from the Rocky Mountain Elk Foundation and LWCF Sportsman Access Dollars

This June, the BLM closed on 398 acres of prime elk habitat approximately 15 miles east of Idaho Falls. The acquisition expands the 34,000 acres Tex Creek Wildlife Management Area (TCWMA), which is composed of lands owned by the Idaho Department of Fish and Game, the U.S. Bureau of Reclamation,

and the U.S. Bureau of Land Management.

With an estimated 8,000 visitors frequenting this area every year, this acquisition provides additional access to areas inaccessible to the public, linking approximately 360 BLM acres and 1,500 TCWMA acres. In addition it secures 400 more acres of wildlife habitat from the expansion of Idaho Falls and its neighboring communities. "We are very excited about the new recreational opportunities the Tex Creek acquisition provides," said Jeremy Casterson, field manager, BLM Upper Snake Field Office. "Thanks to LWCF Sportsman and Recreational Access funds and successful collaboration between the BLM, the private landowner, Idaho Department of Fish and Game (IDFG), and the Rocky Mountain Elk Foundation, we were able to expand and enhance the public's ability to access and enjoy this area's prime hunting and other recreational activities."

Rocky Mountain elk and mule deer begin moving north toward Tex Creek in the late fall. More than 3,000 elk, 3,000 mule deer and 50 moose may winter on WMA lands each year. Sage and sharp-tailed grouse and gray partridge are found in the dry shrublands of Tex Creek WMA. Black-capped chickadees, brown creepers, wrens, goldfinches, shrikes and chipping sparrows inhabit Tex Creek WMA's forest, riparian and upland communities. Bald and golden eagles, goshawks and American kestrels also frequent the area. When water flows are sufficient, the lower reaches of Tex Creek WMA's streams support native cutthroat trout and introduced brook and German brown trout.

To date, RMEF worked with BLM and the IDFG to add more than 3,250 acres, or approximately 10 percent of the overall acreage, to the TCWMA. "We are grateful for landowners who recognize and cherish the conservation value of their land. We are also appreciative of BLM's efforts in providing LWCF funding for this worthy project," added Henning.

A video depicting the importance of Tex Creek WMA is available at: <https://www.youtube.com/watch?v=byuLuyhThV4&feature=youtu.be>

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities. Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario

APDs

Fee Amount

Gross Revenue

Net (less: 15% and sequestration) Revenue Available to BLM

FY 2015 APD Funding (Annual Appropriations)

5,000

\$6,500

\$32,500,000

\$32,500,000

FY 2016 Budgeted Revenue (NDAA)

5,000

\$9,500

\$47,500,000

\$37,629,500

FY 2016 Current Planned Revenue (NDAA)

1,680

\$9,500

\$15,960,000

\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities. Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario

APDs

Fee Amount

Gross Revenue

Net (less: 15% and sequestration) Revenue Available to BLM

FY 2015 APD Funding (Annual Appropriations)

5,000

\$6,500

\$32,500,000

\$32,500,000

FY 2016 Budgeted Revenue (NDAA)

5,000

\$9,500

\$47,500,000

\$37,629,500

FY 2016 Current Planned Revenue (NDAA)

1,680

\$9,500

\$15,960,000

\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has

employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

[House Report 114-632.pdf](#)
[Indian Education Fund \(early draft\).pdf](#)

The House Appropriations Committee recently reported the FY17 Interior bill (attached). Section 116 beginning on page 62 of the bill contains a provision modifying the President's proposal to reconstitute the Indian Education Foundation/Fund. The corresponding report language can be found on page 47 of the attached Committee report, and is repeated below.

"The Committee recognizes the tremendous costs needed to bring and maintain all BIE schools up to code and in good condition, and the futility of doing so in a reasonable timeframe with funds provided solely via this annual appropriation. The Committee continues to look for innovative ways to leverage this appropriation with other sources of Federal financing, such as existing tax credits, in order to more quickly replace the substandard facilities throughout the BIE system. To that end, the bill includes a general provision in Title I, which builds upon the President's proposal to reconstitute the National Fund for Excellence in American Indian Education (Fund).

"The Title I general provision would reconstitute the Fund as a federally chartered corporation affiliated with a 501(c)(3) national organization whose mission is to represent Native American students and educators for the improvement of schools and the education of Native children. The Fund would be authorized to leverage a portion of the annual construction appropriation with philanthropic donations of funds and property, and with other sources of Federal financing such as Qualified School Construction Bonds, New Markets Tax Credits, historical tax credits, and Federal grant programs."

As you may recall, an early draft of section 116 (also attached) included a subsection for the establishment of an escrow account. This subsection was dropped for now because of questions about its potential scoring impact. I'm hoping to get the experts in the room to talk about this in further detail and see if questions can be answered.

Can we meet on one of the following days: July 27, 29, or Aug 2? I can set up a phone if you're out of town and willing to call in.

Thanks,
Darren

**Interior Department Announces Final Regulations
To Ensure American Public Receives Every Dollar Due for
Production of Oil, Gas & Coal on Public Lands**

*Updated regulations offer simplicity, certainty & strengthen ability to ensure
companies pay full royalties for production of public resources*

WASHINGTON, DC – As part of the overall effort to modernize the Nation’s energy regulations, the U.S. Department of the Interior today released final regulations that will improve valuation and revenue collection for the country’s mineral resources, ensuring Americans receive every dollar due for production of those resources on public lands and waters. Developed by Interior’s Office of Natural Resources Revenue (ONRR), the rule also provides the clarity and certainty for industry in determining the market value, for royalty

purposes, of Federal oil and gas, and Federal and American Indian coal.

“These improvements were long overdue and urgently needed to better align our regulatory framework with a 21st century energy marketplace, offering a simpler, smarter, market-oriented process,” said U.S. Interior Secretary Sally Jewell. “As the steward of America’s oil, natural gas and coal production on public lands, Interior has an obligation – and is fully committed – to ensuring that the American taxpayer receives every dollar due for the production of these domestic energy resources.”

Jewell further noted that the ONRR oil, gas and coal valuation rule is an important part of the ongoing reform agenda for the federal coal program as it relates to improving transparency and accountability.

“This valuation rule is important because it ensures, in part, that our federal coal program is properly structured to obtain all revenue due to taxpayers,” Jewell said. “The updated rule will increase the effectiveness and efficiency of the valuation process, and provide greater clarity and consistency for lessees and revenue recipients.”

The current oil, gas and coal valuation regulations – originally put in place in the late 1980s – have not kept pace with the significant market changes that have occurred in the domestic energy markets since that time. The final rule updates the regulations to help keep pace with modern technology and practices. Specifically, the rule reaffirms that valuation, for royalty purposes, is best determined at or near the lease and that gross proceeds from arm’s-length contracts are the best indication of market value. Eliminating the difficult-to-use benchmarks for non-arm’s-length sales (between affiliated companies), the rule replaces them with a simplified method of valuing production by using gross proceeds from the first arm’s-length-sale with applicable allowances. By replacing them with a market-driven mechanism, the rule provides greater efficiency for payors, reducing industry’s cost of compliance as well as ONRR’s cost to ensure industry’s compliance.

The final rule extends the same valuation changes to both Federal and American Indian coal, with some minor exceptions, but the two programs will continue to be regulated under separate regimes. In addition to ensuring that American Indian mineral owners continue to receive the maximum revenues from coal resources on their land, the updated rule will add certainty and consistency for companies producing on Tribal and allotted lands.

As the Federal agency responsible for collecting and disbursing revenues from energy production on Federal onshore and offshore lands, as well as American Indian lands, ONRR conducted a transparent, five-year rulemaking process that solicited input and carefully

considered comments and suggestions from all interested parties, including the public, states, industry, American Indian Tribes and individual Indian mineral owners.

Public engagement began on May 27, 2011, when ONRR announced its intent to update and simplify valuation regulations for Federal and American Indian coal, and Federal oil and gas through separate *Advance Notices of Proposed Rulemaking*, requesting comments from affected parties and the interested public before proposing changes to the existing regulations. Six public workshops in September and October 2011 gained feedback on specific aspects of regulatory reform, and ONRR conducted outreach with affected Tribes. After deliberate and careful consideration of the information gained from these outreach initiatives, Interior published the Proposed Consolidated Federal Oil and Gas and Federal and Indian Coal Valuation Rule in the *Federal Register* on January 6, 2015.

Due to a number of requests from stakeholders, the initial 60-day public comment period was extended another 60 days (for a total of 120 days), closing on May 8, 2015. ONRR conducted an intensive process of categorizing, reviewing and analyzing the input contained in more than 1,000 pages of comments from over 300 commenters and 190,000 petition signatories. Coupled with the early stakeholder engagement, the extended comment period allowed for a careful review of the many complexities contained in the proposed rule.

The final Consolidated Federal Oil & Gas and Federal & Indian Coal Valuation Reform Rule will be published in the *Federal Register* on July 1, and becomes effective on January 1, 2017. The final rule can be viewed [here](#).

While this rule takes steps toward ensuring that the royalty valuation process for Federal and Indian coal resources better reflects the changing energy industry, while protecting taxpayers and Indian assets, its scope is not broad enough to address the many concerns the commenters have raised about the Federal coal program more broadly. For that and other reasons, Interior recently launched a comprehensive review to identify and evaluate potential reforms to the Federal coal program in order to ensure that it is properly structured to provide a fair return to taxpayers and reflect its impacts on the environment, while continuing to help meet our energy needs.

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities. Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario

APDs

Fee Amount

Gross Revenue

Net (less: 15% and sequestration) Revenue Available to BLM

FY 2015 APD Funding (Annual Appropriations)

5,000

\$6,500

\$32,500,000

\$32,500,000

FY 2016 Budgeted Revenue (NDAA)

5,000

\$9,500

\$47,500,000

\$37,629,500

FY 2016 Current Planned Revenue (NDAA)

1,680

\$9,500

\$15,960,000

\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities. Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario

APDs

Fee Amount

Gross Revenue

Net (less: 15% and sequestration) Revenue Available to BLM

FY 2015 APD Funding (Annual Appropriations)

5,000

\$6,500

\$32,500,000

\$32,500,000

FY 2016 Budgeted Revenue (NDAA)

5,000

\$9,500

\$47,500,000

\$37,629,500

FY 2016 Current Planned Revenue (NDAA)

1,680

\$9,500

\$15,960,000

\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation,

switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings

from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities. Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario

APDs

Fee Amount

Gross Revenue

Net (less: 15% and sequestration) Revenue Available to BLM

FY 2015 APD Funding (Annual Appropriations)

5,000

\$6,500

\$32,500,000

\$32,500,000

FY 2016 Budgeted Revenue (NDAA)

5,000

\$9,500

\$47,500,000

\$37,629,500

FY 2016 Current Planned Revenue (NDAA)

1,680

\$9,500

\$15,960,000

\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in

2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

Good afternoon, Felipe. Attached are Questions for the Record which have been submitted to Mr. Lyons by various Members of the Senate Energy Committee from Tuesday's PLFM Subcommittee hearing regarding the status of the Bureau of Land Management and Forest Service's efforts to implement amendments to land use plans and specific management plans regarding sage grouse conservation, and those agencies' coordination activities with affected states. I respectfully request that you provide Mr. Lyons' responses to these questions directly to me by **Tuesday, July 19, 2016** for inclusion in the official hearing record.

Please do not hesitate to contact me if you have any questions. Thank you for your assistance with this request.

Sincerely,

Darla Ripchensky, PMP

Plans and Specific Management Plans regarding Sage Grouse Conservation
and those Agencies' Coordination Activities with Affected States
Questions for the Record Submitted to Mr. Jim Lons

Questions from Senator Lisa Murkowski

Question 1 I understand this 10-million-acre withdrawal would be the largest in FLPMA history. The Department has justified this figure by saying there does not appear to be significant mineral development potential.

- What science or geological data informed that statement, and is there a complete geological and mineral inventory of the 10 million acres?
- Which agency conducted that mineral inventory?

Question 2 How does the BLM intend to complete the nearly 6000 mineral examinations triggered by this withdrawal in the face of such a significant backlog?

Question 3 What are the agencies doing to engage stakeholders and state representatives prior to finalization of any guidance documents?

Question 4 Mitigation is a significant part of both the BLM and Forest Service's plans. How does the BLM intend to measure the concept of "net conservation gain" in mitigation? Are there specific benchmarks and if so, who developed those benchmarks?

Question 5 In your testimony, you highlighted the years of work the Administration has undertaken on the issue of sage grouse conservation. I think your point is that the Resource Management Plans and Land Use Plan Amendments announced last fall were a culmination of years of work.

- If that is true, why then have we waited nearly another whole year for agency guidance if you've been working on this issue for more than a decade?

Question 6 One of the focal points of the conversation surrounding the sage grouse conservation plans is the 10-million-acre mineral withdrawal. Under FLPMA, such a withdrawal, or any action that precludes a specific land use, requires proper Congressional notification of both the Senate and House of Representatives. Has such a notice been issued?

Question 7 What was the process for review and consideration of the state plan consistency reviews of BLM's plans?

Question 8 By state, what percentage would you estimate recommendations of each of the consistency reviews are reflected in the management plans and amendments?

U.S. Senate Committee on Energy and Natural Resources
Subcommittee on Public Lands, Forests and Mining
Hearing on June 16, 2016 Oversight on the Status of the Bureau of Land
Management and Forest Service's Efforts to Implement Amendments to Land Use
Plans and Specific Management Plans regarding Sage Grouse Conservation
and those Agencies' Coordination Activities with Affected States
Questions for the Record Submitted to Mr. Jim Lyons

Question 9 In your testimony you state that the BLM plans are the product of extensive coordination and engagement among federal agencies, states, and other partners and stakeholders. Do you believe that means the state's views are reflected in the plans? If so how?

Question 10 Why did you completely reject five (50 percent -- of the 10 state plan consistency reviews? Please be specific in explaining your rejection of each state's comment. Also, does the agency believe coordination and engagement mean communication with stakeholders but not necessarily agreement or consensus?

Question 11 Given the years of successful state and federal collaboration outlined in your testimony, and the fact that data shows the population of sage grouse has been stable for the last decade -- in fact, there has been an increase in leks in recent years -- what specifically led to the agency's decision to modify the land management plans to include mandatory regulatory mechanisms?

Question 12 In your testimony you indicate the plans will require mitigation that provides a net conservation gain to the species. You also indicate that the plans call for monitoring and evaluation of various criteria so voluntary and required conservation actions can be assessed. How is net conservation gain going to be measured? What are the benchmarks, and are they in place now? And, are the processes for assessment of conservation actions in place?

Question 13 The Administration has touted predictability as a benefit of its recent policy on mitigation pursuant to the Presidential Memorandum: Mitigating Impacts on Natural Resources from Development and Encouraging Related Private Investment. How do you reconcile the predictability as argued by the Administration, and your written statement on page 6, in which you argue that pre-determined benchmarks will be developed to ensure the agency's ability to immediately respond to and correct identified declines in population? How will the ability to change course translate to predictability for industry and project proponents?

Question 14 In your oral testimony, you told Senator Daines that the agency objective is to ensure the sage grouse populations do not warrant (Endangered Species) listing in the future, and that "effective" management means sustaining habitat and population of sage grouse. If sustainment rather than growth of habitat and population is effective, why is it necessary to seek a "net conservation gain"? Under what legal authority is the Bureau of Land Management permitted to seek a "net conservation gain"? And, how do you define "net conservation gain" as you discuss on page 6 of your written statement?

U.S. Senate Committee on Energy and Natural Resources
Subcommittee on Public Lands, Forests and Mining
Hearing on June 16, 2016 Oversight on the Status of the Bureau of Land
Management and Forest Service's Efforts to Implement Amendments to Land Use
Plans and Specific Management Plans regarding Sage Grouse Conservation
and those Agencies' Coordination Activities with Affected States
Questions for the Record Submitted to Mr. Jim Lyons

Questions from Senator John Barrasso

Question 1 Given that mitigation is a significant part of the restoration activities proposed in the federal plans, how does the BLM intend to measure the concept of net conservation gain as a result of mitigation? Are there specific quality or quantity benchmarks that will be required, and if so, who developed those benchmarks?

Question 2 What specific components of the BLM Resource Management Plans will be enacted to reduce cheatgrass prevalence to decrease fire threat and address other ecosystem imbalance issues?

Question 3 Mr. Lyons, given that the 10-million-acre withdrawal is currently only segregated, and not actually withdrawn from production/use potential, how is the agency able to preclude or stall permitting activities on lands that may or may not ultimately be included in a mining-use withdrawal?

Question 4 When does the agency intend to notice the mining withdrawal?

Question 5 During the hearing it became apparent that many stakeholder groups feel they have been left out of the process during the development of instructional memoranda and agency guidance documents. Why do you feel stakeholder input is inappropriate during this stage of the process and what, if anything, does the BLM plan to do to engage stakeholders prior to the finalization of field guides or instructional memoranda?

Question 6 From the Department's perspective, what is the status of the Greater Sage Grouse population (e.g., location, population size, density) across the West at this time?

Question 7 Please provide for the record a copy of any instructional memoranda, field guide, guidance document, or any other media currently under development that will affect implementation of the Department of Interior's sage grouse conservation efforts.

Questions from Senator Ron Wyden

Question 1: Over the last four months, the Bureau of Land Management has held a series of public outreach meetings on implementation of the sage grouse conservation plans. What has been the response at these meetings from stakeholders to the plans?

U.S. Senate Committee on Energy and Natural Resources
Subcommittee on Public Lands, Forests and Mining
Hearing on June 16, 2016 Oversight on the Status of the Bureau of Land
Management and Forest Service's Efforts to Implement Amendments to Land Use
Plans and Specific Management Plans regarding Sage Grouse Conservation
and those Agencies' Coordination Activities with Affected States
Questions for the Record Submitted to Mr. Jim Lons

Questions from Senator James E. Risch

Question 1 I haven't seen the Grazing Instruction Memorandum, yet there was a Greenwire story from April 20, 2016 that mentions a leaked grazing memo. Can you send the Grazing Instruction Memorandum to my office?

Question 2 Will there be a seven inch stubble requirement in every lek buffer zone?

Question 3: Will there be a 3.1 mile buffer zone around every lek?

Question 4 At the time of the announcement of the 10 million acre mineral withdrawal in conjunction with the sage grouse land use plans, DOI officials went on record saying that the withdrawn areas do not appear to be highly prospective for miners. On what specific information were such statements based as there is abundant USGS and state data indicating otherwise? Does DOI still believe that statement is correct? Who is conducting the mineral potential report required under FLPMA to determine mineral potential?

Questions from Senator John Hoeven

Question 1 In the hearing, I referenced North Dakota's specific concerns with the federal land use plan for sage grouse conservation in the state. You pledged to provide a more specific response to the state's issues, discuss with Montana/Dakotas Director Jamie Connell about how the response was prepared, and explain why despite extensive state-federal collaboration North Dakota's concerns were discounted or dismissed by BLM.

- Please provide a response detailing the process, decision justifications, and future opportunities for the state to provide meaningful input during the next stages of implementation.

Question 2 One concern for North Dakota centers on the federal land use plan's refusal to allow an adaptive management strategy, which would provide flexibility to future oil and gas development and operations.

North Dakota has over 61,000 acres of BLM-managed land in its core sage grouse area that are already leased for oil and gas development. That is the highest percentage of acreage of any other state in the West. Under the federal plan, all of these acres would be subject to new leasing and development restrictions.

U.S. Senate Committee on Energy and Natural Resources
Subcommittee on Public Lands, Forests and Mining
Hearing on June 16, 2016 Oversight on the Status of the Bureau of Land
Management and Forest Service's Efforts to Implement Amendments to Land Use
Plans and Specific Management Plans regarding Sage Grouse Conservation
and those Agencies' Coordination Activities with Affected States
Questions for the Record Submitted to Mr. Jim Lons

Yet, unlike other states, the federal land use plan for North Dakota does not allow for that broader adaptive management strategy. This denies the state flexibility for future oil and gas development and operations based upon changed circumstances.

- Why does the federal rule treat North Dakota differently and not allow the state to have adaptive monitoring and response for the sage grouse?
- Under the current plan, what specific ways can the state provide flexibility without an allowable adaptive management strategy?

Question 3: Another concern for North Dakota involves the federal land use plan's effect on unleased federal lands. The rule stipulates "No Surface Occupancy" within the core sage grouse region.

North Dakota has close to 10,000 acres that are not currently leased for oil and gas development. Those are acres that could be leased in the future. The federal rule's "No Surface Occupancy" requirement could unilaterally modify a mineral owner's existing contract rights by requiring no new surface impacts.

North Dakota has argued that this stipulation may actually be detrimental to sage grouse habitat. By contrast, North Dakota's current state plan allows for a "case-by-case" analysis and adapts accordingly to an outcome the federal rule does not allow.

In fact, BLM's official response to the state dismissed such concerns stating that, "case-by-case" flexibility is inconsistent with the purposes, policies, and programs of federal laws.

- How do you justify BLM's "No Surface Occupancy" stipulation with the BLM's statutory principles of multiple use and sustained yield for public lands?
- Will the cumulative effects of this federal rule make further energy development on federal lands uneconomic and infeasible? To what extent? If not, why do many states and industry organizations disagree?
- Conversely, did BLM evaluate any negative effects on private oil and gas development in areas intermixed with large amounts of federal lands? If so, what are those effects and to what extent?

U.S. Senate Committee on Energy and Natural Resources
Subcommittee on Public Lands, Forests and Mining
Hearing on June 16, 2016 Oversight on the Status of the Bureau of Land
Management and Forest Service's Efforts to Implement Amendments to Land Use
Plans and Specific Management Plans regarding Sage Grouse Conservation
and those Agencies' Coordination Activities with Affected States
Questions for the Record Submitted to Mr. Jim Lyons

Question 4: The federal plan also requires that sage grouse mitigation produce a net conservation gain. This means that land users like holders of federal oil and natural gas leases are required to offset impacts and express a net conservation gain.

- Does the federal plan require landowners to pay any type of compensation to fulfil the mitigation requirements of the conservation area including in states that currently do not have this requirement in their sage grouse plans?
- Please provide examples of compensatory mitigation options likely to occur under this provision.
- Please outline how the agency will determine the value and cost-effectiveness of those mitigation options.
- Please detail the process landowners and developers would be required to document, submit, and receive agency approval for those mitigation options.

Question 5: I am also concerned about the effect the federal plan might have on livestock grazing on public lands.

Over 22,000 ranchers graze cattle and sheep on federal lands. In North Dakota, our grazing associations work closely with federal agencies to allow their livestock to graze on public lands in a manner that both benefits the health and vitality of the grasslands and ranchers. For instance, well-managed grazing can increase wildlife diversity and populations, control invasive weeds, and reduce the risk of wildfire.

Several hearing witnesses mentioned that some of the most significant threats to the greater sage grouse are wildfire and invasive plants.

- Do the federal land use plan amendments curtail grazing in the Rocky Mountain Region? If so, to what estimated extent?
- Does the Interior Department agree grazing can help mitigate threats of wildfire and invasive plants?

Questions from Senator Elizabeth Warren

Deputy Assistant Secretary Lyons, you stated in your testimony that development of the BLM Greater Sage-Grouse plan decisions reflected an effort to work at a landscape-level,

U.S. Senate Committee on Energy and Natural Resources
Subcommittee on Public Lands, Forests and Mining
Hearing on June 16, 2016 Oversight on the Status of the Bureau of Land
Management and Forest Service's Efforts to Implement Amendments to Land Use
Plans and Specific Management Plans regarding Sage Grouse Conservation
and those Agencies' Coordination Activities with Affected States
Questions for the Record Submitted to Mr. Jim Lons

to incorporate new science and information in the planning process, and to emphasize close coordination and collaboration with other federal agencies and with the states. This increased coordination and planning created a new paradigm in the way lands and resources can be managed.

Most people think of the Endangered Species Act (ESA) as a listing for species that are identified as endangered or threatened with extinction, but a critical component of the ESA is its ability to take a comprehensive approach to protecting the ecosystems that provide sustainable habitats for these vulnerable species.

You further stated in your testimony that a comprehensive approach to species conservation is reflective of the goals of the ESA and that a stated purpose of the ESA is to provide a means whereby the ecosystems upon which endangered species and threatened species depend may be conserved.

Question 1 The federal government employed a comprehensive habitat strategy to conserve greater sage-grouse habitat across the West on public lands, which resulted in avoiding the necessity of placing the species on the ESA listing. Do you believe that this habitat model can be duplicated in other regions across our country and how important was the ESA in driving this plan?

Question 2 While preserving the sage-grouse was the primary goal, the habitat protection and restoration components of the BLM's plan have provided additional benefits for other species. Do you believe that Congressional efforts to eliminate federal plans would not only imperil the primary species targeted for protection, but also potentially jeopardize the long term sustainability of other species in the ecosystem?

[Point Arena Success Stories and the California Coastal National Monument....doc](#)
[Point Arena-Stornetta impact on Mendocino County.docx](#)

Hi All,

We wanted to share all of the support letters that have thus far been received by the California Coastal National Monument expansion effort. This information stems from our recent meeting with CEQ where they asked us to provide copies of all of our support letters and how the Point Arena community has benefitted since the President designated those lands as part of the CCNM a while back.

Included in the dropbox, you will find background documents on the overall effort, documents pertaining to the Point Arena expansion, and over 80 resolutions and letters of support. Please let me know if you are unable to access the link provided. We will also upload additional letters as they are received. I have also attached a couple Point Arena documents that have not yet been uploaded to the dropbox.

<https://www.dropbox.com/sh/mnt3kq25rs9sayd/AADAmfRUj72LoV36fMIDTvq0a?dl=0>

We would also like to highlight 3 issues that are of particular importance to local campaign stakeholders that we promised to bring to your attention:

1. **Non-Federal Land and National Monument Status:** The CCNM Expansion legislation includes a provision, Section 5(f)(1), to allow BLM to continue existing partnerships with the State, tribes, or local governments, and to enter into new cooperative agreements for the beneficial management of the NM. We wrote this with Piedras Blancas in mind considering BLM has a partnership with adjacent State-owned property that cumulatively make up the current "Piedras Blancas Light Station Outstanding Natural Area." It is our intention for BLM and the State to continue this arrangement so that all lands in the ONA would be part of the NM. This provision could also be used for other nearby or adjacent lands that may want to have similar arrangements. We hope you will take note of this provision as you review our work. This provision was particularly supported by the Friends of the Elephant Seal and the Piedras Blancas Lighthouse Association.
2. **Inclusion of Indian Tribes in Local Land Management Practices:** As we previously mentioned to you, we were recently asked to make a few small changes to the legislation to accurately reflect the role of Indian Tribes in local land management practices, as well as the role of neighboring non-Federal property owners that help provide public access to the Federal lands included in the bill. Should our bill have move forward in the legislative process (so far, the bill has only had a hearing in each chamber), we intend to use the attached "Amendment in the Nature of a Substitute" that includes these small changes for future legislative action. We would kindly ask you and the Administration to use the

attached document for the same purpose. These changes were particularly supported by the Trinidad Rancheria.

3. **Site-Specific Management and Local Priorities:** Our legislation includes provisions to ensure that the management plan(s) reflect site-specific needs, individual character of each site, and priorities of each site's local community, as referenced in Section 5 (2)(E-G). We hope you will take note of these provisions as you continue to review our proposal. These provisions are of particular interest to the Cotoni-Coast Dairies stakeholders.

Please let us know if you have any questions.

Subject: RE: California Coastal National Monument update

Hi All,

Please find attached to this message a letter from Senator Boxer and Representatives Capps, Eshoo, and Huffman inviting Secretary Jewell to visit the lands proposed for inclusion in the California Coastal National Monument and to visit with local residents.

We hope she will be accept the invitation and will plan a trip to California as soon as possible.

Our offices are happy to assist in any logistics that may be required.

Thanks for your consideration.

Subject: California Coastal National Monument update

Hi All,

A group of us visited Michael Degnan and Stephenne Harding with the Council on Environmental

Quality at their office yesterday to discuss the CCNM Expansion effort. The group included Noah Oppenheim (Huffman), Eliot Crafton (Capps), Paul Beck (Eshoo), and myself. It was a very positive meeting. They were excited to know that our project especially helps to increase the public's access to federal lands and the outdoors. We left them with some background information (bill text, maps, support list, etc.).

Today, there are two pro-CCNM Expansion op-eds in local papers. Senator Boxer wrote one in the SF Chronicle. It's online today (behind a paywall) and I believe they are running it in print over the weekend with some photos. The other was written by Latino Outdoors and the Surfrider Foundation in San Jose's Mercury News. The text for both are pasted below.

SAN FRANCISCO CHRONICLE: Safeguard Our State's Coastal Gems

By **Barbara Boxer**

More than a century ago, Teddy Roosevelt toured the Grand Canyon on horseback and made a passionate case for why this national treasure should be permanently protected from development and other harm.

“Let this great wonder of nature remain as it now is,” the Republican president declared. “Do nothing to mar its grandeur, sublimity and loveliness. You cannot improve on it. But what you can do is to keep it for your children, your children's children, and all who come after you, as the one great sight which every American should see.”

As a senator for California for the last 24 years, I feel the same way about our state's natural wonders — our rugged beaches, giant sequoias, glacier-sculpted granite cliffs and desert sand dunes. It is our responsibility to ensure that these majestic places remain unspoiled for current and future generations to enjoy.

Over the last two decades, I have worked with colleagues on both sides of the aisle — and presidents of both parties — to designate more than a million acres of wilderness across the Golden State. With seven months left in my final term, I know there is more we can do to protect our state's most iconic places.

With your help, we will.

We can start by urging Congress to pass the California Coastal National Monument Expansion Act, legislation I wrote to expand the monument President Bill Clinton created in 2000 that stretches the entire 1,100 miles of our state's coastline, covering more than 20,000 small rocks and islands that are home to seabirds, California sea lions, southern sea otters and other wildlife.

By adding 6,200 acres to this monument, we can provide lasting protections to some of California's coastal gems — including the soaring redwoods and lush coastal grasslands of the Cotoni-Coast Dairies in Santa Cruz County and Piedras Blancas in Big Sur, which draws tourists each year with its historic lighthouse and boisterous elephant seals.

We can also fight to enact the Central Coast Heritage Protection Act, which would safeguard nearly 245,000 acres in the Los Padres National Forest and the Carrizo Plain National Monument as wilderness areas. The bill would protect crucial habitat for 468 species, including tule elk, pronghorn antelope and the endangered California condor, and would

expand recreational opportunities by creating a new 400-mile Condor National Recreation Trail, reaching from Monterey County all the way south to Lake Piru in Los Angeles County.

There is a reason why these measures have earned the support of civic leaders, farmers, ranchers, elected officials, conservation groups and business leaders. They know these measures will not only preserve our natural heritage, they will boost local economies by enticing even more visitors to explore our spectacular coast.

We can protect these awe-inspiring sites right now if Congress follows our nation's bipartisan legacy of public lands protection. If Congress won't act, then I hope that President Obama will use his executive authority where possible to preserve them forever.

Our elected leaders need to hear from you. They need to hear the voices of the millions of Americans who believe strongly in preserving our rich history and our country's last wild places.

Like the Grand Canyon, the California coast is — to use Roosevelt's words — a “great sight which every American should see.” Let's protect it permanently so that every American has that chance.

THE MERCURY NEWS: González, Savage: **President Obama's Yosemite visit reminds of public** **land opportunities**

By José G. González and Jennifer Savage

With President Obama's planned Fathers Day visit to Yosemite to celebrate 100 years of the National Park Service, we welcome his enthusiasm for protecting public lands for all people.

Our country's population is as diverse as our natural landscapes. That's why we applaud his efforts to protect places that represent our rich history and conserve our natural treasures.

During his time in office, Obama has protected places that tell the story of Native American, Latino, African American, Asian American and women's history. Here in California, the president has designated the San Gabriel Mountains, César E. Chávez, and Berryessa Snow Mountain National Monuments as well as three new national monuments in the desert.

Regardless of background, Californians prize open space. Millions of visitors explore our stunning national parks, monuments and forests every year. We hike, surf, camp, canoe, bike, rock climb, walk the beach, picnic together and ooh and ahh at wildlife and stunning vistas.

California represents equality of opportunity, and our public lands and spaces — open to everyone — are a symbol of this. We value equitable access so that all people may enjoy and benefit from exploring the outdoors. We have a state park system that millions visit each year. The public's right to access our beaches matters so much that we codified it into state law.

However, not all of our communities have access to open space and public lands. The Census Bureau predicts that by 2043, a majority of our country's residents will be people of color. Yet recent research showed that 73 percent of Americans who participated in outdoor activities were white.

There is much still to be done to protect our state's natural treasures for generations to come

and to engage diverse communities in the outdoors. We see an opportunity to address these issues in two ways.

First, we support the California Coastal National Monument Expansion Act. This legislation, brought forth by Sen. **Barbara Boxer** and Reps. Jared Huffman, Lois Capps and Anna Eshoo, would protect 6,200 acres of public lands in Humboldt, Santa Cruz and San Luis Obispo Counties as part of the California Coastal National Monument.

The Cotoni-Coast Dairies on Santa Cruz's northern coast are a part of these lands. These 5,800 acres of former farmlands boast rare species, coast redwoods, and rolling terrace grasslands. Riparian corridors flow directly into Monterey Bay National Marine Sanctuary, home to gray whales, sea otters and harbor seals.

Designating the Cotoni-Coast Dairies as a national monument would also link together a vast landscape of coastal open spaces and upland forests. These include state and local parks, private nature preserves, working forests, agricultural lands, beaches and protected ocean waters. If Congress fails to act, we support action by the President to protect these valuable areas.

Second, we urge the President to embrace a vision for conservation for the next 100 years for all people. We have an opportunity with the centennial of the National Park Service to both celebrate what we've accomplished and plan for the next century. There is much we can do to ensure that our public lands reflect the demographic and ethnic diversity of our nation.

To move this vision forward, we ask the President to issue a Presidential Memorandum that focuses on the importance of national parks and public lands for all people. This Memorandum should direct federal land management agencies to adopt guiding principles for a more inclusive approach to public lands.

We can take these actions now for our communities and for generations to come. Our national parks and other public lands must reflect, honor and engage all Americans -- for our families and our future.

José G. González of Fresno is the Founder of Latino Outdoors. Jennifer Savage of San Francisco is the California Policy Manager with Surfrider Foundation.

Subject: California Coastal National Monument update

Hi Adrienne,

We wanted to reach out to update you on our efforts to expand the California Coastal National Monument to include additional BLM-managed sites in Humboldt, Santa Cruz, and San Luis Obispo Counties.

We have been actively building our list of supporters and steadily increasing our communication

amongst the local national monument campaign advocates to have a unified outreach campaign to promote CCNM Expansion across the multiple sites included in our legislation. I have attached our latest support list that was notably and recently updated to include the Trinidad Rancheria Tribal Council, Trinidad Chamber of Commerce, and the Trinidad City Council. These organizations support the broader CCNM expansion effort and specifically the inclusion of the Trinidad Head as part of the CCNM. The updated list also includes newer additions with local ties to the other sites in the bill as well.

In addition, the sponsors of the CCNM legislation were recently asked to make a few small changes to the legislation to accurately reflect the role of Indian Tribes in local land management practices, as well as the role of neighboring non-Federal property owners that help provide public access to the Federal lands included in the bill. Should our bill have move forward in the legislative process (so far, the bill has only had a hearing in each chamber), we intend to use the attached "Amendment in the Nature of a Substitute" that includes these small changes for future legislative action. We would kindly ask you and the Administration to use the attached document for the same purpose.

Please let us know if we can answer any questions.

Best Regards,

Kyle

12 AMENDMENT IN THE NATURE OF A SUBSTITUTE INTENDED TO BE
13 PROPOSED BY _____

14 Viz:

15 Strike all after the enacting clause and insert the following:

16 SECTION 1. SHORT TITLE.

17 This Act may be cited as the □California Coastal National Monument Expansion Act□

18 SEC. 2. PURPOSES.

19 (a) Findings. □ Congress finds that□

20 (1) Presidential Proclamation Number 7264, dated January 11, 2000 (65 Fed. Reg. 2821),
21 designated over 20,000 islands, rocks, and pinnacles along the 1,100-mile California
22 coastline as the California Coastal National Monument to protect the biological treasures
23 situated offshore on thousands of unappropriated or unreserved areas of land owned or
24 controlled by the Federal Government within 12 nautical miles of the shoreline;

25 (2) Presidential Proclamation Number 9089, dated March 11, 2014 (79 Fed. Reg. 14603),
26 expanded the boundary of the Monument to include 1,665 acres of Federal land
27 administered by the Bureau of Land Management along the Northern California coastline in
28 Mendocino County, commonly known as the □Point Arena-Stornetta Unit□

29 (3) the Point Arena-Stornetta Unit is the first onshore expansion of the Monument; and

30 (4) numerous governmental entities, community organizations, businesses, and
31 individuals have made significant contributions to maintain the unique character,
32 management, and preservation of the individual parcels of Federal land along the California
33 coast.

34 (b) Purposes. □ The purposes of this Act are□

1 (1) to protect, conserve, and enhance for the benefit and enjoyment of present and future
2 generations the nationally significant historical, natural, cultural, scientific, educational, and
3 scenic values of the Federal land along and adjacent to the shoreline of the State of
4 California, and for the purposes for which the Monument was designated; and

5 (2) further to support the land management partnerships of the Bureau of Land
6 Management with the State of California, **Indian tribes**, local governments, communities,
7 and stakeholders, and to enhance the relationships those entities have with the Bureau of
8 Land Management and Federal land, as appropriate.

Formatted: Highlight

9 **SEC. 3. DEFINITIONS.**

10 In this Act:

11 (1) FEDERAL LAND. □ The term □Federal land□ means □

12 (A) the Federal land comprising a **13-acre portion of Trinidad Head** in Humboldt
13 County, California, that is identified as □Trinidad Head□ on the map;

Formatted: Highlight

14 (B) the Federal land comprising 440 acres in Humboldt County, California, that is
15 identified as □Lost Coast Headlands□ on the map;

16 (C) the Federal land comprising approximately 5,780 acres in Santa Cruz County,
17 California, that is identified as □Cotoni-Coast Dairies Public Land□ on the map;

18 (D) the Federal land comprising approximately 20 acres in San Luis Obispo County,
19 California, that is identified as □Piedras Blancas Light Station Outstanding Natural
20 Area□ on the map; and

21 (E) the Federal land comprising approximately 8 acres in Humboldt County,
22 California, that is identified as □Lighthouse Ranch□ on the map.

23 (2) MAP. □ The term □map□ means the Bureau of Land Management map entitled
24 □California Coastal National Monument Addition□ and dated July 24, 2015.

25 (3) MONUMENT. □ The term □Monument□ means the California Coastal National
26 Monument established by Presidential Proclamation 7264.

27 (4) PRESIDENTIAL PROCLAMATION 7264. □ The term □Presidential Proclamation 7264□
28 means Presidential Proclamation Number 7264, dated January 11, 2000 (65 Fed. Reg.
29 2821), creating the Monument.

30 (5) PRESIDENTIAL PROCLAMATION 9089. □ The term □Presidential Proclamation 9089□
31 means Presidential Proclamation Number 9089, dated March 11, 2014 (79 Fed. Reg.
32 14603), expanding the Monument.

33 (6) SECRETARY. □ The term □Secretary□ means the Secretary of the Interior.

34 **SEC. 4. EXPANSION OF CALIFORNIA COASTAL**
35 **NATIONAL MONUMENT.**

36 (a) In General. □ The boundary of the Monument is expanded to include the Federal land.

37 (b) Map and Legal Description. □

- 1 (1) IN GENERAL. □ As soon as practicable after the date of enactment of this Act, the
- 2 Secretary shall develop a map and boundary description of the Federal land added to the
- 3 Monument by this Act.
- 4 (2) FORCE AND EFFECT. □ The map and boundary description developed under paragraph
- 5 (1) shall have the same force and effect as if included in this Act, except that the Secretary
- 6 may correct any minor errors in the map and boundary descriptions.
- 7 (3) AVAILABILITY OF MAP AND BOUNDARY DESCRIPTION. □ The map and boundary
- 8 description developed under paragraph (1) shall be on file and available for public
- 9 inspection in appropriate offices of the Bureau of Land Management.

10 **SEC. 5. ADMINISTRATION.**

11 (a) In General. □ Subject to valid existing rights and deed restrictions in place as of the date of

12 enactment of this Act, the Secretary shall manage the Federal land added to the Monument by

13 this Act □

- 14 (1) as part of the Monument; and
- 15 (2) in accordance with Presidential Proclamations 7264 and 9089.

16 (b) Management Plan. □

17 (1) IN GENERAL. □ As soon as practicable after the date of enactment of this Act, the

18 Secretary shall finalize an amendment, or multiple amendments as applicable for the

19 individual Federal land areas, to the Monument management plan for the long-term

20 protection and management of the Federal land added to the Monument by this Act.

21 (2) REQUIREMENTS. □ The plan amendment under paragraph (1) shall □

- 22 (A) be developed in consultation with, at a minimum □
- 23 (i) affected State, tribal, and local governments;
- 24 (ii) the public; and
- 25 (iii) interested Federal agencies;
- 26 (B) describe the appropriate uses and management of the Federal land, consistent
- 27 with this Act;
- 28 (C) contain individual plans and considerations specific to each individual Federal
- 29 land area;
- 30 (D) take into consideration existing uses of the Federal land;
- 31 (E) include components regarding stewardship, visitor services, facilities
- 32 management and maintenance, public access, traffic, public safety, emergency
- 33 services, and law enforcement;
- 34 (F) include a component regarding potential education and interpretation activities,
- 35 with recognition of the specific character and history of each Federal land area; and
- 36 (G) include a component regarding Native American cultural resources
- 37 management, with emphasis on the preservation **and traditional and customary use of**
- 38 resources within the individual Federal land areas.

Formatted: Highlight

1 (3) INTERIM MANAGEMENT. □ During the period beginning on the date of enactment of
2 this Act and ending on the date of completion of the management plan, the Secretary shall
3 manage the Federal land in accordance with the purposes described in section 2(b).

4 (c) Motorized and Mechanized Transport. □ Except as needed for emergency or authorized
5 administrative purposes, in the Monument □

- 6 (1) motorized vehicle use shall be permitted only on designated roads; and
- 7 (2) mechanized vehicle use shall be permitted only on roads and trails designated for the
8 use of those vehicles.

9 (d) Incorporation of Land and Interests. □

10 (1) AUTHORITY. □ Except as provided in paragraph (3), the Secretary may acquire non-
11 Federal land or interests in land within or adjacent to the Federal land added to the
12 Monument by this Act only through exchange, donation, or purchase from a willing seller.

13 (2) MANAGEMENT. □ Any land or interests in land within or adjacent to the Federal land
14 added to the Monument by this Act acquired by the United States after the date of
15 enactment of this Act shall be □

- 16 (A) added to and administered as part of the Monument; and
- 17 (B) with respect to inclusion in the management plan, taken into consideration
18 through an appropriate amendment to that plan.

19 (3) EXCEPTION. □ An addition to the Cotoni-Coast Dairies unit of Federal land referred to
20 in section 3(1)(C) shall be limited to the acreage contained within the boundary of the
21 Monument, as established by this Act.

22 (e) Existing Cooperative Management Agreements. □ Any cooperative management
23 agreement in existence on the date of enactment of this Act between the Federal land areas and
24 other land management entities shall not be affected due to the enactment of this Act.

25 (f) Cooperative Agreements With **Indian Tribes**, Local Governments, and Entities. □

Formatted: Highlight

26 (1) IN GENERAL. □ To better implement the management plan and to continue the
27 successful partnerships with **Indian tribes**, local communities, and land administered by the
28 State of California and other partners, the Secretary may enter into cooperative agreements
29 with the appropriate Federal, **tribal**, State, and local agencies and organizations pursuant to
30 section 307(b) of the Federal Land Policy and Management Act of 1976 (43 U.S.C.
31 1737(b)).

Formatted: Highlight

Formatted: Highlight

32 (2) AGREEMENTS WITH INDIAN TRIBES. □ In addition to the cooperative agreements
33 authorized under paragraph (1), the Secretary may enter into agreements with Indian tribes
34 pursuant to title IV of the Indian Self-Determination and Education Assistance Act (25
35 U.S.C. 458aa et seq.), regarding the management, protection, and development of the
36 Federal land.

Formatted: Highlight

37 (g) Withdrawals. □ Subject to valid existing rights, all Federal land within the Monument and
38 all land and interests in land acquired for the Monument by the United States after the date of the
39 enactment of this Act are withdrawn from □

40 (1) all forms of entry, appropriation, or disposal under the public land laws;

- 1 (2) location, entry, and patent under the mining laws; and
- 2 (3) operation of the mineral leasing, mineral materials, and geothermal leasing laws.
- 3 (h) Native American Uses and Interests. □
 - 4 (1) IN GENERAL. □ The Secretary shall, to the maximum extent permitted by law and in
 - 5 consultation with affected Indian tribes, ensure the protection of Indian sacred sites and
 - 6 traditional cultural properties in the Monument and provide access by members of Indian
 - 7 tribes for traditional cultural and customary uses, consistent with □
 - 8 (A) Public Law 95□341 (commonly known as the □American Indian Religious
 - 9 Freedom Act□) (42 U.S.C. 1996);
 - 10 (B) **division A of subtitle III of title 54, United States Code; and**
 - 11 (C) Executive Order 13007 (42 U.S.C. 1996 note; relating to Indian sacred sites).
 - 12 (2) RELATIONSHIP TO OTHER RIGHTS. □ Notwithstanding paragraph (1), nothing in this Act
 - 13 enlarges, diminishes, or modifies the rights of any Indian tribe or Indian religious
 - 14 community.
- 15 (i) Buffer Zones. □
 - 16 (1) IN GENERAL. □ The expansion of the Monument by this Act is not intended to lead to
 - 17 the establishment of protective perimeters or buffer zones around the Federal land included
 - 18 in the Monument by this Act.
 - 19 (2) ACTIVITIES OUTSIDE MONUMENT. □ The fact that activities outside the Monument can
 - 20 be seen or heard within the Federal land added to the Monument by this Act shall not, of
 - 21 itself, preclude those activities or uses up to the boundary of the Monument.
- 22 (j) Grazing. □ Nothing in this Act affects the grazing of livestock within the Federal land
- 23 described in section 3(1)(C).
- 24 (k) National Landscape Conservation System. □ The Secretary shall manage the Monument as
- 25 part of the National Landscape Conservation System.

Formatted: Highlight

26 **SEC. 6. ADVISORY COUNCILS.**

- 27 (a) Establishment. □ Not less than 180 days after the date of enactment of this Act, the
- 28 Secretary shall establish an advisory council for each unit of Federal land described in
- 29 subparagraphs (A) through (E) of section 3(1) within the Monument.
- 30 (b) Duties. □ The advisory councils shall advise the Secretary with respect to the preparation
- 31 and implementation of the management plan under section 5(b) (or amendments to an existing
- 32 applicable management plan) for each relevant unit of Federal land.
- 33 (c) Applicable Law. □ The advisory councils shall be subject to □
 - 34 (1) the Federal Advisory Committee Act (5 U.S.C. App.);
 - 35 (2) the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq.); and
 - 36 (3) all other applicable laws (including regulations).
- 37 (d) Members. □ Each advisory council shall include **not less than 7 members**, to be appointed

Formatted: Highlight

- 1 by the Secretary, of whom, to the maximum extent practicable□
- 2 (1) 1 member shall be appointed after taking into consideration the recommendations of
- 3 the local county board of supervisors of the applicable unit of Federal land; and
- 4 (2) 6 or more members shall□
- 5 (A) reside within a reasonable proximity to the applicable unit of Federal land; and
- 6 (B) demonstrate experience that reflects□
- 7 (i) the purposes for which the Monument was established; and
- 8 (ii) the interest of the stakeholders that are affected by the planning and
- 9 management of the unit of Federal land, which may include stakeholders
- 10 representing private land-ownership, non-Federal properties adjacent to or near
- 11 the Federal land that provide public access and maintenance access to the Federal
- 12 land, Native American interests, environmental, recreational, economic, or other
- 13 non-Federal land interests.
- 14 (e) Representation.□ The Secretary shall ensure that the memberships of the advisory councils
- 15 are fairly balanced with respect to the points of view represented, and the functions to be
- 16 performed, by each advisory council.
- 17 (f) Quorum.□
- 18 (1) IN GENERAL.□ A majority of the members of an advisory council shall constitute a
- 19 quorum.
- 20 (2) UNAPPOINTED MEMBERS.□ The operation of an advisory committee shall not be
- 21 affected if□
- 22 (A) a member has not yet been appointed to the advisory committee; but
- 23 (B) a quorum has been attained.
- 24 (g) Chairperson and Procedures.□ Each advisory council shall□
- 25 (1) elect a chairperson from among the members of the advisory council; and
- 26 (2) establish such rules and procedures as the advisory council determines to be necessary
- 27 or appropriate.
- 28 (h) Service Without Compensation.□ The members of each advisory council shall serve
- 29 without pay.
- 30 (i) Termination.□ The advisory councils shall terminate□
- 31 (1) on the date that is 2 years after the date on which the management plan (or
- 32 amendment to an existing management plan) is officially adopted by the Secretary; or
- 33 (2) on such later date as the Secretary considers to be appropriate.
- 34 (j) Existing Advisory Bodies.□ The Secretary may elect not to establish an advisory council
- 35 for a unit of Federal land if a regularly scheduled, organized public forum or entity exists□
- 36 (1) of which the Bureau of Land Management is an active or leading participant; and
- 37 (2) that fulfills the duties described in subsection (b).

8 155), is repealed.

June 29, 2016

Point Arena Success Stories and the California Coastal National Monument

In the two plus years since the National Monument designation for the Point Arena □ Stornetta Public Lands, our community has experienced resurgence and revitalization:

- ❖ A derelict and long vacant hotel has been purchased and is being beautifully renovated
- ❖ Several new businesses have opened on Main Street
- ❖ Restaurants have seen a significant increase in patrons
- ❖ The Point Arena Merchants Association has gone from meetings of 4 people to more than 40 participants
- ❖ Even the library has noticed an increase in tourist traffic using the internet

Tracy Dupont of the Chowder House and Tap Room said, "Hell yes!" to the question, "Has the National Monument been good for business?" She noted a \$12,000 increase in each of the past two years and a 35% increase this Memorial Day over last year. In conversation with patrons she finds that many tourists have come specifically to see and hike the National Monument lands.

Rob Hunter, owner of Uneda Eat on Main Street said, "The National Monument status has definitely helped us out. Our town is finally making it!" He sees businesses are changing hands, new businesses are opening and there is a new enthusiasm in town.

Barbara Burke noted that Franny's Cup and Saucer Bakery has seen a big up-tick in business. She said the National Monument made a "huge difference" She also works at 215 Main, a pub, and mentioned that many of the people she talks to there have come specifically to see the lands and walk on them.

Interestingly, the City's sales tax and bed tax have not shown a noticeable increase. I spoke with one hotel owner who has not seen much change but thinks that the designation will help their business over time. This points to the fact that we have not been over-run with visitors and our community has an opportunity to grow visitor serving businesses.

In addition to economic benefits, the National Monument has been a source of pride for the community and a point of unification. New connections have formed between the local schools, the Pomo Tribe, the Lighthouse, the Community College, the City of Point Arena and the Bureau of Land Management. We are coming together in respect for and celebration of these unique and nationally honored lands.

Founding member, Friends of Point Arena-Stornetta Lands

MEMORANDUM

To Interested Parties

Date Thursday, June 23, 2016

Re Impact of California Coastal National Monument Point Arena-Stornetta expansion

Local Impact

Following the March 2014 expansion of the California Coastal National Monument to include the 1,665-acre onshore nature preserve known as Point Arena-Stornetta Public Lands, travel-related spending and jobs reached record and near-record levels throughout Mendocino County, as highlighted in the following article:

March 2015 [Tourism lifts Mendocino-La County economies](#) (The Press Democrat)

- The Point Arena Lighthouse had a 70 percent spike in visitors in the first three months of 2014 and a 40 percent increase for the first nine months of the year overall.
- For the first time, tourism supported more than 6,000 jobs, marking a 4.2 percent increase from the previous year and an increase of approximately 1,000 jobs over 2012.
- Room sales hit an all-time record high, up by 7 percent.
- Tourism now accounts for one in eight jobs in Mendocino County.
- The spike in visitors has been widespread, affecting most economic sectors, including hotels, wineries, events, and scenic destinations.
- *Similar articles were posted in [Willits News](#) and the [Ukiah Daily Journal](#)*

Later in 2014, Mendocino County was also featured as a must-visit travel destination by major news publications, including a ranking of third on the *New York Times*' [52 Places to Go in 2014](#) and a feature in the [Boston Globe](#).

According to an [April 2016 study](#) published by Dean Runyan Associates in partnership with Visit California, travel spending in Mendocino County grew from \$349.5 million in 2012 to \$374.8 million in 2015—an increase of 7.2 percent. Furthermore, as of 2014, travel-generated employment accounts for 12.3 percent of total employment in the county.

National Monument Studies

Further studies, which have more broadly examined the economic impact of national monuments on their proximate local communities across the West, have consistently found these impacts to be positive. Two of these reports are cited below below.

April 2016 [Economic Impacts of Obama Administration Natural National Monuments](#) (Small Business Majority)

President Obama has designated or expanded 19 national monuments: eight that protect historical resources and 11 that protect natural or cultural resources. This report evaluates the economic impact of the latter monuments—including the California Coastal National Monument Point Arena-Stornetta expansion.

- The combined natural and cultural national monuments have a total economic impact of \$156 million per year on the local economies surrounding the monuments, including the direct and secondary impacts.
- Economic activity generated by national monument visitation contributes \$58 million in labor income per year in the local communities surrounding the national monuments.

- Based on BLM and USFS visitation data between 2011 and 2015, BBC estimates about 3.9 million visits to the Obama-designated natural and cultural national monuments annually.
 - *It should be noted that the Point Arena-Stornetta addition to the California Coastal National Monument is one of the two least visited of these national monuments.*

Jul 2014 The Economic Importance of National Monuments to Local Communities (Headwaters Economics)

*This research and interactive map show that the economies of communities adjacent to 17 national monuments studied in the West all expanded following the monument's creation—**this study did not include the Point Arena-Stornetta expansion.***

- Western non-metropolitan counties with more than 30 percent of the county's land base in federal protected status such as national parks, monuments, wilderness, and other similar designations increased jobs at four times the rate of similar counties with no protected federal public lands.

Cc: Kristen (Kris) Sarri; Olivia Ferriter; Denise Flanagan; Trish Hall
Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities. Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario

APDs

Fee Amount

Gross Revenue

Net (less: 15% and sequestration) Revenue Available to BLM

FY 2015 APD Funding (Annual Appropriations)

5,000

\$6,500

\$32,500,000

\$32,500,000

FY 2016 Budgeted Revenue (NDAA)

5,000

\$9,500

\$47,500,000

\$37,629,500

FY 2016 Current Planned Revenue (NDAA)

1,680

\$9,500

\$15,960,000

\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on

hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

Subject: Reallocation of Funding to Address APD Program Requirements in BLM

All,

Given the Committee's interest in the APD program, we are notifying you of a shortfall and reallocation of funds within the Bureau of Land Management's Oil and Gas Management budget line, which does not require a formal reprogramming.

The Bureau of Land Management projects a funding shortfall for applications for permits to drill (APD) processing in FY 2016 as a result of changes in the oil and gas market. The BLM has identified a path forward for FY 2016 which reallocates \$4 million appropriated within Oil and Gas Management for Master Leasing Plan activities. Background information is provided below.

We will submit an effect statement on this issue regarding anticipated impacts for FY 2017. As always, we are available to answer questions or meet with you to discuss this in greater detail.

Background

The anticipated shortfall in APD fee revenue is driven by the downturn in the oil and gas industry and associated declines in leasing activity and applications for permits to drill.

APD Funding Scenario

APDs

Fee Amount

Gross Revenue

Net (less: 15% and sequestration) Revenue Available to BLM

FY 2015 APD Funding (Annual Appropriations)

5,000

\$6,500

\$32,500,000

\$32,500,000

FY 2016 Budgeted Revenue (NDAA)

5,000

\$9,500

\$47,500,000

\$37,629,500

FY 2016 Current Planned Revenue (NDAA)

1,680

\$9,500

\$15,960,000

\$12,643,512

As you know, this is also the first year of implementing the NDAA legislation, switching the APD program to rely on revenue from increased APD fees. The NDAA provision funds the APD program from APD fees as they are realized. This creates a cashflow problem and also puts the program at risk during a downturn in the market.

Based on actual APDs received through the first half of FY 2016, the BLM anticipates receiving a total of 1,680 APDs this fiscal year, which reduces revenue about 66% from the amount projected in the budget.

The BLM projects a funding shortfall for the program of \$12.6 million for FY 2016. To date, BLM has employed strategies within the Oil and Gas Management program to mitigate this by using prior year carryover funds for current year APD processing, and using salary lapse from permitting-related staff vacancies.

BLM Proposal for FY 2016

To address the remaining shortfall, BLM identified \$4 million from Mineral Leasing Plan activities which is available after covering ongoing Master Leasing Plan (MLP) commitments for this fiscal year. This funding is within the BLM Oil and Gas Management program, and is available without the need for a formal reprogramming.

The BLM indicates this funding is available for redirection because to best match planning priorities to industry activity, several Master Leasing Plan (MLP) projects are currently on hold. The BLM identified 20 MLP projects in five States since 2012 including Wyoming, Utah, Colorado, Montana, and New Mexico. The BLM completed 12 MLP projects, and of the eight remaining MLPs, five are actively being pursued and three are on hold.

The BLM originally planned to continue working on the five active MLPs and initiate analysis on the three that were on hold with \$5.7 million provided for the program in 2016. Based on the market down turn, the BLM evaluated the timing and necessity of these projects and plans to delay the start of the three MLPs that are on hold. Their decision is due primarily to a decrease in industry interest for leasing public lands and a precipitous drop in oil and gas prices. The drop in oil and gas activity is reflected in reduced demand for drilling permits, limited expressions of interest in leasing this year, and fewer active drilling projects.

BLM anticipates this proposed delay on the three MLPs and unexpected savings from work on the active MLPs in 2016, which has been less expensive than originally planned (e.g. work was done in-house instead of through contracts), will make \$4.0 million in MLP funding available for redirection in FY 2016. BLM indicates the MLPs take approximately three years to complete and those lands within the MLP project area are usually not considered for leasing while the MLP is under development. A one-year delay in initiating the three MLPs that are on hold could conceivably result in the lands not being available for leasing for four or more years. However, progress on the five active MLPs will continue.

Next Steps

With regard to FY 2017, the Senate mark includes language which would make \$26.0 million available at the start of the year for permit processing, to be offset by APD fee revenue as it is realized. This language addresses the cash flow problem and would ensure sufficient funds are available to maintain the program at the start of the fiscal year. Should the conferees adopt this language in FY 2017, we would not anticipate a problem going forward. The Department plans to submit an effect statement discussing the FY 2017 issue.

Addressing the Indiana State Teachers Association

On Wednesday, I addressed over 130 members of the Indiana State Teachers Association (ISTA) at their breakout session during the annual National Education Association conference in D.C.

I discussed *the Every Student Succeeds Act (ESSA)*, which I helped co-author. This bipartisan bill was signed into law in December and it will result in comprehensive education reform, replacing *No Child Left Behind* and ensuring local community control of education policy. In an important win for teachers, *ESSA* restores state and local control of education, stripping the Department of Education of its ability to impose unrealistic and irrelevant standards upon schools. Furthermore, *ESSA* allows states to identify struggling schools and intervene, replacing the one-size-fits-all federal identification and intervention strategy.

Rep. Rokita speaking before Hoosier educators.

Thanks to Rob, Luke, John, Jodi, Mary Howard, Dan, Caleb, Jean, Mary Hauser, and Rick for reading from the Declaration of Independence before my Brownsburg

I know that *ESSA* will bring joy back to teaching, not only in Indiana, but across the country. The Indiana State Teachers Association and its members were strong backers of *ESSA*, and I was able to personally thank them for their support, as their phone calls, petitions, and face-to-face meetings with legislators encouraged the positive reforms and were crucial in getting the bill passed into law.

As the Chairman of the Subcommittee on Early Childhood, Elementary, and Secondary Education, I will continue to monitor progress in education reform and will work to ensure that this bill is properly implemented. As part of this Congressional oversight work, Secretary of Education John King recently testified before the full House Education & the Workforce Committee to discuss the implementation progress on this bill. I look forward to more hearings and discussions to come.

Budget Process Reform Hearings

The Budget Committee has been holding a series of hearings examining how and why the current federal government budgeting process is ineffective and in disarray. The process, originating from the Congressional Budget Act of 1974, is outdated, burdensome, overly complex, and almost impossible to fully understand.

Under the current process, Congress only reviews discretionary spending on an annual basis. However, discretionary spending only accounts for a third of the entire budget. Most federal spending actually happens through auto-pilot mandatory spending, which includes entitlement programs like Medicare and Social Security.

The shortcoming of the current budget process jeopardizes Congress's power of the purse. As Vice Chairman of the committee, I joined with my colleagues in examining fixes to the Congressional Budget Act and a return to our Constitutionally-limited principles. An enhanced process would strengthen a strong balance of power between the separate branches of government, so Congress can restore its power of the purse and can improve its oversight of the Executive Branch's actions.

Rokita Reading - *Voter Integrity*

A clickable offering of books and articles that I've read recently and highly recommend, as we strive together to "Keep the Republic."

This week's Rokita Reading is an article by Robert Popper from

Congress on Your Corner.

Following the Brownsburg 4th of July Parade, I held a Congress on Your Corner event. Events like this are how I hear directly from Hoosiers. I only got one comment on my red, white, and blue shorts that I was wearing for Independence Day.

The Crane family attended my Brownsburg Congress on Your Corner. Andrew, Emma, and Mark did a great job leading the Pledge of Allegiance.

I met with General James Conway, Charles, and Randy, who were representing Securing America's Future Energy (SAFE). We discussed the importance of achieving American energy independence and their concerns with OPEC's control of global energy supplies. General Conway was the 34th Commandant of the U.S. Marine Corps.

the Wall Street Journal on Voter ID laws entitled [The Voter Suppression Myth Takes Another Hit](#). I was reminded of the article recently in light of recent court rulings that brought voter ID laws back into the spotlight.

In Indiana, as Secretary of State, I helped write our state's landmark voter ID laws and successfully defended our state's laws before the Supreme Court. Since that important legal victory, our law has been used as a model across the country.

The results are in on voter ID laws. They work and they make Americans more confident in the electoral system. In the first election following North Carolina's implementation of the voter ID law, Popper writes that turnout among minorities went up. Instead of being a tool to suppress voters, voter ID laws empower voters by giving them confidence in the system. We saw this in Indiana as well with historic turnout following the implementation of voter ID laws.

Thank you for your continued interest in Congress and for supporting my efforts to bring Hoosier common sense to Washington. Take care.

Sincerely,

Todd Rokita

REVISED BUSINESS MEETING ANNOUNCEMENT

COMMITTEE ON ENERGY AND NATURAL RESOURCES

This notice is to advise you of a business meeting of the Committee on Energy and Natural Resources. The business meeting has been postponed until **Wednesday, July 13, 2016 at 9:30 a.m. in Room 366 Dirksen Senate Office Building** in Washington, DC.

The purpose of the business meeting is to consider pending legislation. The Short List and indicated amendments are attached. The few amendments that are not provided at this time will be provided as soon as possible. Chairman Murkowski asks that amendments Members intend to offer at the Business Meeting be filed with me by 3:00 p.m. tomorrow, July 12, 2016.

For further information, please contact Patrick McCormick with Chairman Murkowski's staff or Sam Fowler with Ranking Member Cantwell's staff at (202) 224-4971.

Sincerely,
Darla Ripchensky, PMP
Chief Clerk
U.S. Senate Committee on Energy and Natural Resources

MEMORANDUM

To: Members, Committee on Energy and Natural Resources
From: Senator Lisa Murkowski, Chairman
Subject: Business Meeting—Wednesday, July 13, 2016 – **Short List**

The Committee on Energy and Natural Resources will hold a Business Meeting on **Wednesday, July 13, 2016 at 9:30 a.m. in Room SD-366 of the Dirksen Senate Office Building in Washington, D.C.** to consider the following items on the short list:

Agenda Item 1: H.R. 1289. To authorize the Secretary of the Interior to acquire certain land in Martinez, California, for inclusion in the John Muir National Historic Site, and for other purposes.

Agenda Item 2: S. 718. To modify the boundary of Petersburg National Battlefield in the Commonwealth of Virginia, and for other purposes, **with a joint staff amendment (FLO16779).**

Agenda Item 4: S. 815. To provide for the conveyance of certain Federal land in the State of Oregon to the Cow Creek Band of Umpqua Tribe of Indians, **with a joint staff amendment in the nature of a substitute (FLO16797).**

Agenda Item 5: S. 1007. To amend the Dayton Aviation Heritage Preservation Act of 1992 to rename a site of the Dayton Aviation Heritage National Historical Park, **with a joint staff amendment to the title (FLO16767).**

Agenda Item 6: S. 1167. To modify the boundaries of the Pole Creek Wilderness, the Owyhee River Wilderness, and the North Fork Owyhee Wilderness and to authorize the continued use of motorized vehicles for livestock monitoring, herding, and grazing in certain wilderness areas in the State of Idaho, **with a joint staff amendment (to be provided).**

Agenda Item 7: H.R. 2288. To remove the use restrictions on certain land transferred to Rockingham County, Virginia, and for other purposes.

Agenda Item 8: S. 1448. To designate the Frank Moore Wild Steelhead Sanctuary in the State of Oregon, **with a joint staff amendment in the nature of a substitute (FLO16764).**

Agenda Item 9: S. 1577. To amend the Wild and Scenic Rivers Act to designate certain segments of East Rosebud Creek in Carbon County, Montana, as components of the Wild and Scenic Rivers System, **with a joint staff amendment (FLO16770).**

Agenda Item 10: S. 1623. To establish the Maritime Washington National Heritage Area in the State of Washington, and for other purposes, **with a joint staff amendment (TOM16077).**

Agenda Item 11: S. 1662. To include Livingston County, the city of Jonesboro in Union County, and the city of Freeport in Stephenson County, Illinois, to the Lincoln National Heritage Area, and for other purposes.

Agenda Item 12: S. 1690. To establish the Mountains to Sound Greenway National Heritage Area in the State of Washington, **with a joint staff amendment (TOM16078).**

Agenda Item 13: S. 1696. To redesignate the Ocmulgee National Monument in the State of Georgia, to revise the boundary of that monument, and for other purposes, **with a joint staff amendment (FLO16773).**

Agenda Item 15: S. 1777. To amend the Wild and Scenic Rivers Act to authorize the Secretary of Agriculture to maintain or replace certain facilities and structures for commercial recreation services at Smith Gulch in Idaho, and for other purposes, **with a joint staff amendment (to be provided).**

Agenda Item 16: S. 1930. To adjust the boundary of the Kennesaw Mountain National Battlefield Park to include the Wallis House and Harriston Hill, and for other purposes.

Agenda Item 17: S. 1943. To modify the boundary of the Shiloh National Military Park located in the States of Tennessee and Mississippi, to establish Parker's Crossroads Battlefield as an affiliated area of the National Park System, and for other purposes, **with a joint staff amendment (FLO16753).**

Agenda Item 19: S. 2018. To convey, without consideration, the reversionary interests of the United States in and to certain non-Federal land in Glennallen, Alaska.

Agenda Item 20: S. 2087. To modify the boundary of the Fort Scott National Historic Site in the State of Kansas, and for other purposes, **with a joint staff amendment (FLO16752).**

Agenda Item 21: S. 2177/ H.R. 959. To authorize the Secretary of the Interior to conduct a special resource study of the Medgar Evers House, located in Jackson, Mississippi, and for other purposes.

Agenda Item 22: S. 2223. To transfer administrative jurisdiction over certain Bureau of Land Management land from the Secretary of the Interior to the Secretary of Veterans Affairs for inclusion in the Black Hills National Cemetery, and for other purposes, **with a joint staff amendment (FLO16774).**

Agenda Item 23: S. 2309. To amend title 54, United States Code, to establish within the National Park Service the U.S. Civil Rights Network, and for other purposes, **with a joint staff amendment to the title and a joint staff amendment in the nature of a substitute (FLO16751 and FLO16750).**

Agenda Item 24: S. 2360. To improve the administration of certain programs in the insular areas, and for other purposes, **with a joint staff amendment (WEI16657)**.

Agenda Item 26: S. 2383. To withdraw certain Bureau of Land Management land in the State of Utah from all forms of public appropriation, to provide for the shared management of the withdrawn land by the Secretary of the Interior and the Secretary of the Air Force to facilitate enhanced weapons testing and pilot training, enhance public safety, and provide for continued public access to the withdrawn land, to provide for the exchange of certain Federal land and State land, and for other purposes, **with a joint staff amendment in the nature of a substitute (FLO16715)**.

Agenda Item 27: S. 2412. To establish the Tule Lake National Historic Site in the State of California, and for other purposes.

Agenda Item 28: S. 2524. To insure adequate use and access to the existing Bolts Ditch headgate and ditch segment within the Holy Cross Wilderness in Eagle County, Colorado, and for other purposes, **with a joint staff amendment (JAC16706)**.

Agenda Item 29: H.R. 4539/S. 2548. To establish the 400 Years of African-American History Commission, and for other purposes, **with a joint staff amendment (FLO16769)**.

Agenda Item 30: S. 2608. To authorize the Secretary of the Interior and the Secretary of Agriculture to place signage on Federal land along the trail known as the ‘American Discovery Trail’, and for other purposes.

Agenda Item 31: S. 2616. To modify certain cost-sharing and revenue provisions relating to the Arkansas Valley Conduit, Colorado.

Agenda Item 32: S. 2620. To facilitate the addition of park administration at the Coltsville National Historical Park, and for other purposes.

Agenda Item 33: S. 2805. To modify the boundary of Voyageurs National Park in the State of Minnesota, and for other purposes, **with a joint staff amendment (FLO16766)**.

Agenda Item 34: S. 2839/H.R. 3004. To amend the Gullah/Geechee Cultural Heritage Act to extend the authorization for the Gullah/Geechee Cultural Heritage Corridor Commission.

Agenda Item 35: S. 2902. To provide for long-term water supplies, optimal use of existing water supply infrastructure, and protection of existing water rights, **with a Flake amendment (FLO16785)**.

Agenda Item 36: S. 2954. To establish the Ste. Genevieve National Historic Site in the State of Missouri, and for other purposes, **with a joint staff amendment to the title and a joint staff amendment in the nature of a substitute (FLO16757 and FLO16761)**.

Agenda Item 37: S. 3020. To update the map of, and modify the maximum acreage available for inclusion in, the Florissant Fossil Beds National Monument, **with a joint staff amendment in the nature of a substitute (FLO16719).**

Agenda Item 38: S. 3027. To clarify the boundary of Acadia National Park, and for other purposes, **with a joint staff amendment (to be provided).**

Agenda Item 39: S. 3028. To redesignate the Olympic Wilderness as the Daniel J. Evans Wilderness.

Agenda Item 40: H.R. 1475. To authorize a Wall of Remembrance as part of the Korean War Veterans Memorial and to allow certain private contributions to fund the Wall of Remembrance, **with a joint staff amendment in the nature of a substitute (FLO16795).**

Agenda Item 41: H.R. 2615. To establish the Virgin Islands of the United States Centennial Commission.

Agenda Item 42: H.R. 2880. To redesignate the Martin Luther King, Junior, National Historic Site in the State of Georgia, and for other purposes.

Agenda Item 43: H.R. 3620. To amend the Delaware Water Gap National Recreation Area Improvement Act to provide access to certain vehicles serving residents of municipalities adjacent to the Delaware Water Gap National Recreation Area, and for other purposes.

Agenda Item 44: H.R. 4119. To authorize the exchange of certain land located in Gulf Islands National Seashore, Jackson County, Mississippi, between the National Park Service and the Veterans of Foreign Wars, and for other purposes, **with a joint staff amendment (FLO16734).**

United States Senate
Committee on Energy and Natural Resources
Business Meeting Agenda

July 13, 2016

Agenda Item

1. H.R. 1289. To authorize the Secretary of the Interior to acquire certain land in Martinez, California, for inclusion in the John Muir National Historic Site, and for other purposes. (Mr. DeSaulnier).
2. S. 718. To modify the boundary of Petersburg National Battlefield in the Commonwealth of Virginia, and for other purposes. (Mr. Warner).
3. S. 814. To provide for the conveyance of certain Federal land in the State of Oregon to the Confederated Tribes of Coos, Lower Umpqua, and Siuslaw Indians. (Mr. Wyden).
4. S. 815. To provide for the conveyance of certain Federal land in the State of Oregon to the Cow Creek Band of Umpqua Tribe of Indians. (Mr. Wyden).
5. S. 1007. To amend the Dayton Aviation Heritage Preservation Act of 1992 to rename a site of the Dayton Aviation Heritage National Historical Park. (Mr. Portman).
6. S. 1167. To modify the boundaries of the Pole Creek Wilderness, the Owyhee River Wilderness, and the North Fork Owyhee Wilderness and to authorize the continued use of motorized vehicles for livestock monitoring, herding, and grazing in certain wilderness areas in the State of Idaho. (Mr. Crapo).
7. H.R. 2288. To remove the use restrictions on certain land transferred to Rockingham County, Virginia, and for other purposes. (Mr. Goodlatte).
8. S. 1448. To designate the Frank Moore Wild Steelhead Sanctuary in the State of Oregon. (Mr. Wyden).
9. S. 1577. To amend the Wild and Scenic Rivers Act to designate certain segments of East Rosebud Creek in Carbon County, Montana, as components of the Wild and Scenic Rivers System. (Mr. Tester).
10. S. 1623. To establish the Maritime Washington National Heritage Area in the State of Washington, and for other purposes. (Ms. Cantwell).
11. S. 1662. To include Livingston County, the city of Jonesboro in Union County, and the city of Freeport in Stephenson County, Illinois, to the Lincoln National Heritage Area, and for other purposes. (Mr. Kirk).

12. S. 1690. To establish the Mountains to Sound Greenway National Heritage Area in the State of Washington. (Ms. Cantwell).
13. S. 1696. To redesignate the Ocmulgee National Monument in the State of Georgia, to revise the boundary of that monument, and for other purposes. (Mr. Isakson).
14. S. 1699. To designate certain land administered by the Bureau of Land Management and the Forest Service in the State of Oregon as wilderness and national recreation areas and to make additional wild and scenic river designations in the State of Oregon, and for other purposes. (Mr. Wyden).
15. S. 1777. To amend the Wild and Scenic Rivers Act to authorize the Secretary of Agriculture to maintain or replace certain facilities and structures for commercial recreation services at Smith Gulch in Idaho, and for other purposes. (Mr. Risch).
16. S. 1930. To adjust the boundary of the Kennesaw Mountain National Battlefield Park to include the Wallis House and Harriston Hill, and for other purposes. (Mr. Isakson).
17. S. 1943. To modify the boundary of the Shiloh National Military Park located in the States of Tennessee and Mississippi, to establish Parker's Crossroads Battlefield as an affiliated area of the National Park System, and for other purposes. (Mr. Alexander).
18. S. 1993. To establish the 21st Century Conservation Service Corps to place youth and veterans in the United States in national service positions to protect, restore, and enhance the great outdoors of the United States, and for other purposes. (Mr. McCain).
19. S. 2018. To convey, without consideration, the reversionary interests of the United States in and to certain non-Federal land in Glennallen, Alaska. (Ms. Murkowski).
20. S. 2087. To modify the boundary of the Fort Scott National Historic Site in the State of Kansas, and for other purposes. (Mr. Moran).
21. S. 2177/ H.R. 959. To authorize the Secretary of the Interior to conduct a special resource study of the Medgar Evers House, located in Jackson, Mississippi, and for other purposes. (Mr. Cochran/Mr. Thompson).
22. S. 2223. To transfer administrative jurisdiction over certain Bureau of Land Management land from the Secretary of the Interior to the Secretary of Veterans Affairs for inclusion in the Black Hills National Cemetery, and for other purposes. (Mr. Thune).
23. S. 2309. To amend title 54, United States Code, to establish within the National Park Service the U.S. Civil Rights Network, and for other purposes. (Mr. Brown).
24. S. 2360. To improve the administration of certain programs in the insular areas, and for other purposes. (Ms. Murkowski).

25. S. 2379. To provide for the unencumbering of title to non-Federal land owned by the city of Tucson, Arizona, for purposes of economic development by conveyance of the Federal reversionary interest to the City. (Mr. Flake).
26. S. 2383. To withdraw certain Bureau of Land Management land in the State of Utah from all forms of public appropriation, to provide for the shared management of the withdrawn land by the Secretary of the Interior and the Secretary of the Air Force to facilitate enhanced weapons testing and pilot training, enhance public safety, and provide for continued public access to the withdrawn land, to provide for the exchange of certain Federal land and State land, and for other purposes. (Mr. Hatch).
27. S. 2412. To establish the Tule Lake National Historic Site in the State of California, and for other purposes. (Ms. Boxer).
28. S. 2524. To insure adequate use and access to the existing Bolts Ditch headgate and ditch segment within the Holy Cross Wilderness in Eagle County, Colorado, and for other purposes (Mr. Gardner).
29. S. 2548. To establish the 400 Years of African-American History Commission, and for other purposes. (Mr. Kaine).
30. S. 2608. To authorize the Secretary of the Interior and the Secretary of Agriculture to place signage on Federal land along the trail known as the 'American Discovery Trail', and for other purposes. (Mr. Kirk).
31. S. 2616. To modify certain cost-sharing and revenue provisions relating to the Arkansas Valley Conduit, Colorado. (Mr. Gardner).
32. S. 2620. To facilitate the addition of park administration at the Coltsville National Historical Park, and for other purposes. (Mr. Blumenthal).
33. S. 2805. To modify the boundary of Voyageurs National Park in the State of Minnesota, and for other purposes. (Mr. Franken).
34. S. 2839/H.R. 3004. To amend the Gullah/Geechee Cultural Heritage Act to extend the authorization for the Gullah/Geechee Cultural Heritage Corridor Commission. (Mr. Graham/Mr. Clyburn).
35. S. 2902. To provide for long-term water supplies, optimal use of existing water supply infrastructure, and protection of existing water rights. (Mr. Flake).
36. S. 2954. To establish the Ste. Genevieve National Historic Site in the State of Missouri, and for other purposes. (Mr. Blunt).
37. S. 3020. To update the map of, and modify the maximum acreage available for inclusion in, the Florissant Fossil Beds National Monument. (Mr. Gardner).

38. S. 3027. To clarify the boundary of Acadia National Park, and for other purposes. (Mr. King).
39. S. 3028. To redesignate the Olympic Wilderness as the Daniel J. Evans Wilderness. (Ms. Cantwell).
40. H.R. 1475. To authorize a Wall of Remembrance as part of the Korean War Veterans Memorial and to allow certain private contributions to fund the Wall of Remembrance. (Mr. Johnson).
41. H.R. 2615. To establish the Virgin Islands of the United States Centennial Commission. (Ms. Plaskett).
42. H.R. 2880. To redesignate the Martin Luther King, Junior, National Historic Site in the State of Georgia, and for other purposes. (Mr. Lewis).
43. H.R. 3620. To amend the Delaware Water Gap National Recreation Area Improvement Act to provide access to certain vehicles serving residents of municipalities adjacent to the Delaware Water Gap National Recreation Area, and for other purposes. (Mr. Marino).
44. H.R. 4119. To authorize the exchange of certain land located in Gulf Islands National Seashore, Jackson County, Mississippi, between the National Park Service and the Veterans of Foreign Wars, and for other purposes. (Mr. Palazzo).

*****BUSINESS MEETING POSTPONED until Wednesday, July 13, 2016 at 9:30 a.m.*****

REVISED BUSINESS MEETING ANNOUNCEMENT – Part 2 of 2 Emails

COMMITTEE ON ENERGY AND NATURAL RESOURCES

This notice is to advise you of a business meeting of the Committee on Energy and Natural Resources. The business meeting has been postponed until **Wednesday, July 13, 2016 at 9:30 a.m. in Room 366 Dirksen Senate Office Building** in Washington, DC.

The purpose of the business meeting is to consider pending legislation. The remaining amendments are attached. Chairman Murkowski asks that amendments Members intend to offer at the Business Meeting be filed with me by 3:00 p.m. tomorrow, July 12, 2016.

For further information, please contact Patrick McCormick with Chairman Murkowski's staff or Sam Fowler with Ranking Member Cantwell's staff at (202) 224-4971.

Sincerely,
Darla Ripchensky, PMP
Chief Clerk
U.S. Senate Committee on Energy and Natural Resources
304 Dirksen Senate Office Building

Priorities for the State of Washington Advance to Next Step in Legislative Process

Bills would honor former Washington Sen. Dan Evans; establish the Mountains to Sound Greenway National Heritage Area; and establish the Maritime Washington National Heritage Area

In a committee business meeting, several bills finish the committee process, are now ready for consideration by the full Senate

[Watch Sen. Cantwell's opening statement.](#)

Washington, D.C. – Today, Ranking Member of the Energy and Natural Resources Committee **Maria Cantwell (D-Wash.)** **voted to advance three bills important to the state of Washington.** These bills are ready for consideration by the full Senate.

"Outdoor recreation is one of the most spectacular parts of Washington state, and these bills continue to push forward on the outdoor recreation industry that is a major economic developer in our state," **Sen. Cantwell** said.

Sen. Cantwell introduced the first bill with Sen. Patty Murray (D-Wash.)—[a bill to rename the Olympic Wilderness within Olympic National Park as the "Daniel J. Evans Wilderness,"](#) in honor of former Washington Governor and Senator Dan Evans. Evans served the state of Washington for more than 50 years, including service as a state legislator, governor and U.S. Senator. During his time in the U.S. Senate, Evans was the lead sponsor of the Washington Park Wilderness Act of 1988 which designated over 1.5 million acres of wilderness areas in Olympic, North Cascades and Mount Rainier National Parks.

The bill proposed by Sens. Cantwell and Murray would rename the Olympic Wilderness as “the Daniel J. Evans Wilderness,” without affecting either the name of Olympic National Park or the management of the designated wilderness.

The remaining Washington delegation of 1988 penned a letter in support of this effort: “[Evans’] devotion to the Washington landscape is a gift to all Washingtonians. His legacy of protection of these lands is great testament to his commitment to public service. ... We can think of no more appropriate tribute than to rename the Olympic Park Wilderness area in honor of Daniel J. Evans.”

Two other bills advanced today create national heritage areas within the state of Washington. Heritage areas provide a community-driven approach to environmental stewardship, heritage preservation, promotion of volunteerism and economic development.

Specifically, [the Maritime Washington National Heritage Area bill will help tell the story of the culturally diverse maritime heritage within the state of Washington](#). This bill was developed with the Washington Trust for Historic Preservation and includes most of the coastal shoreline of the state.

Kristen Brengel of the National Parks Conservation Association said of the bill: “This legislation would highlight the history, culture and places important to the people who have inhabited Washington state’s saltwater coastline. It will help tell their stories, including those of Native Americans as well as modern European settlement, draw tourists, and focus attention and support for protecting historic places and structures. Thank you to Sen. Cantwell for protecting our national heritage.”

Lastly, [the Mountains to Sound Greenway National Heritage Area bill would conserve and promote the scenic beauty of the greenway](#), better educating the public on the region’s deep heritage and numerous opportunities for outdoor recreation. The greenway includes lands in Kittitas and King Counties, stretching from the Seattle waterfront to Ellensburg.

“Today’s mark-up of S. 1690 highlights the power of collaboration and bipartisan efforts,” said **Jon Hoekstra, executive director of the Mountains to Sound Greenway Trust**. “It shows thousands of supporters that their voices were heard in Congress. We are grateful to Sen. Cantwell for her continued leadership to move this through the Senate. We look forward to working with Sens. Cantwell and Murray and Congressmen Reichert and Smith to see the Mountains to Sound Greenway designated as a National Heritage Area during this Congress.”

Washington, D.C. – Today, Ranking Member of the Energy and Natural Resources Committee **Maria Cantwell (D-Wash.)** voted to advance three bills important to the state of Washington. These bills are ready for consideration by the full Senate.

"Outdoor recreation is one of the most spectacular parts of Washington state, and these bills continue to push forward on the outdoor recreation industry that is a major economic developer in our state," **Sen. Cantwell** said.

Sen. Cantwell introduced the first bill with Sen. Patty Murray (D-Wash.)—[a bill to rename the Olympic Wilderness within Olympic National Park as the "Daniel J. Evans Wilderness,"](#) in honor of former Washington Governor and Senator Dan Evans. Evans served the state of Washington for more than 50 years, including service as a state legislator, governor and U.S. Senator. During his time in the U.S. Senate, Evans was the lead sponsor of the Washington Park Wilderness Act of 1988 which designated over 1.5 million acres of wilderness areas in Olympic, North Cascades and Mount Rainier National Parks.

The bill proposed by Sens. Cantwell and Murray would rename the Olympic Wilderness as “the Daniel J. Evans Wilderness,” without affecting either the name of Olympic National Park or the management of the designated wilderness.

The remaining Washington delegation of 1988 penned a letter in support of this effort: “[Evans’] devotion to the Washington landscape is a gift to all Washingtonians. His legacy of protection of these lands is great testament to his commitment to public service. ... We can think of no more appropriate tribute than to rename the Olympic Park Wilderness area in honor of Daniel J. Evans.”

Two other bills advanced today create national heritage areas within the state of Washington. Heritage areas provide a community-driven approach to environmental stewardship, heritage preservation, promotion of volunteerism and economic development.

Specifically, [the Maritime Washington National Heritage Area bill will help tell the story of the culturally diverse maritime heritage within the state of Washington](#). This bill was developed with the Washington Trust for Historic Preservation and includes most of the coastal shoreline of the state.

Kristen Brengel of the National Parks Conservation Association said of the bill: “This legislation would highlight the history, culture and places important to the people who have inhabited Washington state’s saltwater coastline. It will help tell their stories, including those of Native Americans as well as modern European settlement, draw tourists, and focus attention and support for protecting historic places and structures. Thank you to Sen. Cantwell for protecting our national heritage.”

Lastly, [the Mountains to Sound Greenway National Heritage Area bill would conserve and promote the scenic beauty of the greenway](#), better educating the public on the region’s deep heritage and numerous opportunities for outdoor recreation. The greenway includes lands in Kittitas and King Counties, stretching from the Seattle waterfront to Ellensburg.

“Today’s mark-up of S. 1690 highlights the power of collaboration and bipartisan efforts,” said **Jon Hoekstra, executive director of the Mountains to Sound Greenway Trust**. “It shows thousands of supporters that their voices were heard in Congress. We are grateful to Sen. Cantwell for her continued leadership to move this through the Senate. We look forward to working with Sens. Cantwell and Murray and Congressmen Reichert and Smith to see the Mountains to Sound Greenway designated as a National Heritage Area during this Congress.”

Subject: FLOOR UPDATE - 8 VOTES

dem_whip_floor_update.jpg

At approximately 1:40 – 1:45 p.m., the House will take the following votes on amendments to H.R. 5538 –Department of the Interior, Environment, and Related Agencies Appropriations Act, 2017:

- 1) **Grijalva/Linda Sanchez Amendment #32** – Strikes Section 437, which would prohibit the EPA from using funds to implement or enforce, or require States to implement or enforce, the provisions of the recently published pesticide worker protection regulation, a regulation that allows a worker or designated representative to access required safety and hazard information for pesticides to which that worker may have been exposed – 15 minutes
- 2) **Polis/DeGette Amendment** – Strikes Section 439, which prohibits the Interior Department from using funds to develop, propose, finalize, implement or enforce any rule or guideline to address methane emissions from oil and natural gas drilling on federal lands – 2 minutes
- 3) **Lowenthal Amendment** – Strikes Section 440, which prohibits the Interior Department from using funds to implement any changes to royalty rates or product valuation regulations under federal coal, oil, and gas leasing programs – 2 minutes
- 4) **En Bloc #1 offered by Mr. McNerney** – Strikes six sections from the General Provisions section of the bill, related to California Water policy – 2 minutes
- 5) **Grijalva/Tsongas Amendment #41** – Strikes Section 453, which prohibits the use of funds to make a Presidential declaration by public proclamation of a National Monument in various counties in the states of: Arizona, California, Colorado, Nevada, New Mexico, Oregon, Washington, Utah, and Maine – 2 minutes
- 6) **Blackburn Amendment** – Imposes a 1% across-the-board spending cut to all accounts in the bill – 2 minutes

The House will then take the following votes:

- 7) **Motion on Ordering the Previous Question on the Rule** providing for consideration of both S. 304 and the Senate Amendment to the House Amendment to S. 764. Democrats are urged to vote no on the Previous Question so that Mr. McGovern of Massachusetts can offer his amendment to the Rule, which would make in order Rep. Peter King's bill, H.R. 1076 – Denying Firearms and Explosives to Dangerous Terrorists Act of 2015. H.R. 1076 would amend the federal criminal code to grant the Attorney General the authority to deny the transfer or issuance of firearm and explosives licenses to any individual whom the Attorney General has determined to be engaged in terrorist activities. The bill would also allow firearms and explosives licenses and permits to be revoked if the individual is found to be engaged in terrorism. Additionally, the bill would prevent individuals on the "No Fly" list from purchasing a firearm. Congress has a moral responsibility to take action to keep guns out of the wrong hands. We must take action to prevent senseless gun violence like the tragedy that occurred in Orlando and enact commonsense gun-violence prevention measures to keep our communities

safe. Democrats urge Republicans to work with us to find solutions and move legislation forward to keep guns out of the hands of terrorists and criminals – **VOTE NO** – **5 minutes**

- 8) **H.Res. 822** – Rule providing for consideration of S. 304 – Conscience Protection Act of 2016 and the Senate Amendment to the House Amendment to S. 764 – GMO Labeling Requirements – **VOTE NO** – **5 minutes**

Following votes, the House will begin one hour of debate on S. 304. After debate on S. 304, the House will begin one hour of debate on H.R. 5119 – No 2H20 from Iran Act. Following debate on H.R. 5119, the House will take votes.

After votes, the House will continue consideration of amendments to H.R. 5538 – Department of the Interior, Environment, and Related Agencies Appropriations Act, 2017 starting at amendment #76. Following consideration of amendments, the House will take votes. These will be the last votes for the day.

Next votes predicted: approximately 4:30 – 5:30 p m., on the motion to recommit and final passage of S. 304, the motion to recommit and final passage of H.R. 5119, and postponed amendments to H.R. 5538.

5 tiative Act”.

6 **SEC. 2. TABLE OF CONTENTS.**

7 The table of contents for this Act is as follows:

- Sec. 1. Short title.
- Sec. 2. Table of Contents.

Sec. 3. Definitions.

DIVISION A—CONSERVATION

TITLE I—WILDERNESS

- Sec. 101. Wilderness designations.
- Sec. 102. Maps and legal descriptions.
- Sec. 103. Wilderness administration.
- Sec. 104. Water rights.
- Sec. 105. Military overflights.
- Sec. 106. Adjacent management.
- Sec. 107. Indian rights.
- Sec. 108. Acquisition of land and interests in land.
- Sec. 109. Wilderness release.
- Sec. 110. Airsheds.

TITLE II—NATIONAL CONSERVATION AREAS

- Sec. 201. National conservation areas.
- Sec. 202. Map and legal description.
- Sec. 203. Administration of national conservation areas.
- Sec. 204. General provisions.
- Sec. 205. Additional purpose for Docs Valley, Stone Bridge Draw, Stuntz Draw, Beach Draw, and Diamond Mountain National Conservation Areas.
- Sec. 206. Additional purpose for Colorado River National Conservation Area.

TITLE III—WATERSHED MANAGEMENT AREAS

- Sec. 301. Watershed Management Areas.
- Sec. 302. Administration of Watershed Management Areas.
- Sec. 303. General provisions.

TITLE IV—SPECIAL MANAGEMENT AREAS

- Sec. 401. High Uintas Special Management Area.
- Sec. 402. High Uintas Special Management Area map and legal description.
- Sec. 403. Administration of the High Uintas Special Management Area.
- Sec. 404. High Uintas Special Management Area general provisions.
- Sec. 405. Little West Fork Blacks Fork Special Management Area.
- Sec. 406. Administration of Little West Fork Blacks Fork Special Management Area.
- Sec. 407. Little West Fork Blacks Fork Special Management Area general provisions.
- Sec. 408. Desolation Canyon, Nine Mile Canyon, White River and Books Cliffs Sportsmen's Special Management areas.
- Sec. 409. Desolation Canyon, Nine Mile Canyon, White River and Books Cliffs Sportsmen's Special Management Area map and legal description.
- Sec. 410. Administration of the Desolation Canyon, Nine Mile Canyon, and White River Special Management areas.
- Sec. 411. Desolation Canyon, Nine Mile Canyon, and White River Special Management Area general provisions.
- Sec. 412. Book Cliffs Sportsmens Special Management Area additional provisions.

Sec. 413. Book Cliffs Sportsmen's Special Management Area Advisory Committee.

TITLE V—ARCHES NATIONAL PARK EXPANSION

Sec. 501. Arches National Park expansion.

TITLE VI—JURASSIC NATIONAL MONUMENT

Sec. 601. Jurassic National Monument.

TITLE VII—WILD AND SCENIC RIVERS

Sec. 701. Wild and scenic rivers.

TITLE VIII — ASHLEY KARST NATIONAL GEOLOGIC AND RECREATION AREA

Sec. 801. Ashley Karst National Geologic and Recreation Area.

Sec. 802. Map and legal description.

Sec. 803. Administration.

Sec. 804. General provisions.

DIVISION B—INNOVATIVE LAND MANAGEMENT, RECREATION AND ECONOMIC DEVELOPMENT

TITLE I—SCHOOL TRUST LAND CONSOLIDATIONS

Sec. 101. Findings and purpose.

Sec. 102. Definitions.

Sec. 103. Exchange of land; reservation of interests.

Sec. 104. Withdrawal of Federal lands prior to exchange.

Sec. 105. National Environmental Policy Act of 1969 and Federal Land Policy and Management Act of 1976 compliance.

Sec. 106. Status and management of land after exchange.

Sec. 107. Book cliffs conservation area.

TITLE II—GOBLIN VALLEY STATE PARK

Sec. 201. Land conveyance.

Sec. 202. Cooperative Management of Goblin Valley.

TITLE III—PRICE CANYON STATE FOREST

Sec. 301. Definitions.

Sec. 302. Exchange of land.

Sec. 303. Livestock grazing.

TITLE IV—DEER LODGE LAND EXCHANGE

Sec. 401. Definitions.

Sec. 402. Land exchange.

TITLE V—SCOFIELD LAND TRANSFER

Sec. 501. Short title.

Sec. 502. Definitions.

Sec. 503. Conveyance of scofield project land.

TITLE VI—LAND CONVEYANCES

Sec. 601. Land conveyances.

TITLE VII—LAND DISPOSALS

Sec. 701. Land disposals.

TITLE VIII—RECREATION ZONES

- Sec. 801. Establishment.
- Sec. 802. Map and legal description.

- Sec. 102. Establishment.
- Sec. 103. Map and legal description.
- Sec. 104. Administration of bear ears national conservation area.
- Sec. 105. General provisions.
- Sec. 106. Cooperating agencies.
- Sec. 107. Bears ears tribal commission.
- Sec. 108. Tribal employment.
- Sec. 109. Tribal liaison.
- Sec. 110. Bears Ears Advisory Committee.

1 SEC. 3. DEFINITIONS.

2 In this Act:

3 (1) FEDERAL LAND.—The term “Federal land”
 4 means the lands or interests in land under the juris-
 5 diction of the Department of the Interior or the De-
 6 partment of Agriculture, except such term does not
 7 include land the title to which is held in trust by the
 8 United States for the benefit of a tribe or an indi-
 9 vidual or is held in fee by a tribe or individual sub-
 10 ject to a restriction by the United States against
 11 alienation.

12 (2) TRIBE.—The term “Tribe” means a feder-
 13 ally recognized Indian tribe (including a pueblo).

14 (3) TRIBAL.—The term “Tribal” means of or
 15 pertaining to a tribe.

1 (4) WATER RESOURCE FACILITIES.—The term
2 “water resource facilities” means irrigation and
3 pumping facilities, reservoirs, water conservation
4 works, aqueducts, canals, ditches, pipelines, wells,
5 hydropower projects, transmission and other ancil-
6 lary facilities, and other water diversion, storage,
7 and carriage structures.

8 **DIVISION A—CONSERVATION**
9 **TITLE I—WILDERNESS**

10 **SEC. 101. WILDERNESS DESIGNATIONS.**

11 In furtherance of the purposes of the Wilderness Act,
12 and subject to valid existing rights, including the rights
13 of a tribe, the following areas of the State of Utah are
14 designated as wilderness and as components of the Na-
15 tional Wilderness Preservation System pursuant to the
16 Wilderness Act (16 U.S.C. 1131 et seq.).

17 (1) CANDLAND MOUNTAIN.—Certain Federal
18 land in Emery County managed by the United
19 States Forest Service comprising approximately
20 12,330 acres, as generally depicted on the Utah PLI
21 Wilderness Map dated June 30, 2016, which shall be
22 known as the “Candland Mountain Wilderness”.

23 (2) DESOLATION CANYON.—Certain Federal
24 land in Duchesne, Uintah, Carbon, Emery, and
25 Grand Counties managed by the Bureau of Land

1 Management comprising approximately 458,413
2 acres, as generally depicted on the Utah PLI Wilder-
3 ness Map dated June 30, 2016, which shall be
4 known as the “Desolation Canyon Wilderness”.

5 (3) HIGH UINTA.—Certain Federal land in
6 Duchesne, Summit, and Uintah Counties, managed
7 by the United States Forest Service comprising ap-
8 proximately 28,293 acres, as generally depicted on
9 the Utah PLI Wilderness Map dated June 30, 2016,
10 which shall be known as the “High Uinta Wilder-
11 ness”.

12 (4) MANCOS MESA.—Certain Federal land in
13 San Juan County, managed by the Bureau of Land
14 Management and the National Park Service com-
15 prising approximately 95,605 acres, as generally de-
16 picted on the Utah PLI Wilderness Map dated June
17 30, 2016, which shall be known as the “Mancos
18 Mesa Wilderness”.

19 (5) CHEESEBOX CANYON.—Certain Federal
20 land in San Juan County managed by the Bureau
21 of Land Management comprising approximately
22 14,441 acres, as generally depicted on the Utah PLI
23 Wilderness Map dated June 30, 2016, which shall be
24 known as the “Cheesebox Canyon Wilderness”.

1 (6) BUTLER WASH.—Certain Federal land in
2 San Juan County managed by the Bureau of Land
3 Management comprising approximately 27,813
4 acres, as generally depicted on the Utah PLI Wilder-
5 ness Map dated June 30, 2016, which shall be
6 known as the “Butler Wash Wilderness”.

7 (7) DARK CANYON.—Certain Federal land in
8 San Juan County managed by the Bureau of Land
9 Management comprising approximately 72,990
10 acres, as generally depicted on the Utah PLI Wilder-
11 ness Map dated June 30, 2016, which shall be
12 known as the “Dark Canyon Wilderness”.

13 (8) BEHIND THE ROCKS.—Certain Federal land
14 in San Juan and Grand Counties managed by the
15 Bureau of Land Management comprising approxi-
16 mately 13,024 acres, as generally depicted on the
17 Utah PLI Wilderness Map dated June 30, 2016,
18 which shall be known as the “Behind the Rocks Wil-
19 derness”.

20 (9) BRIDGER JACK MESA.—Certain Federal
21 land in San Juan County managed by the Bureau
22 of Land Management comprising approximately
23 6,009 acres, as generally depicted on the Utah PLI
24 Wilderness Map dated June 30, 2016, which shall be
25 known as the “Bridger Jack Mesa Wilderness”.

1 (10) CEDAR MESA.—Certain Federal land in
2 San Juan County managed by the Bureau of Land
3 Management comprising approximately 223,566
4 acres, as generally depicted on the Utah PLI Wilder-
5 ness Map dated June 30, 2016, which shall be
6 known as the “Cedar Mesa Wilderness”.

7 (11) MIKES CANYON.—Certain Federal land in
8 San Juan County managed by the Bureau of Land
9 Management and the National Park Service com-
10 prising approximately 30,549 acres, as generally de-
11 picted on the Utah PLI Wilderness Map dated June
12 30, 2016, which shall be known as the “Mikes Can-
13 yon Wilderness”.

14 (12) MULE CANYON.—Certain Federal land in
15 San Juan County, Utah managed by the Bureau of
16 Land Management comprising approximately 5,858
17 acres, as generally depicted on the Utah PLI Wilder-
18 ness Map and dated June 30, 2016, which shall be
19 known as the “Mule Canyon Wilderness”.

20 (13) MARSH PEAK.—Certain Federal land in
21 Uintah County managed by the United States For-
22 est Service comprising approximately 15,031 acres,
23 as generally depicted on the Utah PLI Wilderness
24 Map dated June 30, 2016, which shall be known as
25 the “Marsh Peak Wilderness”.

1 (14) CLIFF PEAK.—Certain Federal land in
2 Utah and Duchesne Counties managed by the
3 United States Forest Service comprising approxi-
4 mately 9,153 acres, as generally depicted on the
5 Utah PLI Wilderness Map dated June 30, 2016,
6 which shall be known as the “Cliff Peak Wilder-
7 ness”.

8 (15) BULL CANYON.—Certain Federal land in
9 Utah County, Utah managed by the Bureau of
10 Land Management comprising approximately 599
11 acres, as generally depicted on the Utah PLI Wilder-
12 ness Map and dated June 30, 2016, which shall be
13 known as the “Bull Canyon Wilderness”.

14 (16) WHITE CANYON.—Certain Federal land in
15 San Juan County managed by the Bureau of Land
16 Management comprising approximately 18,886
17 acres, as generally depicted on the Utah PLI Wilder-
18 ness Map dated June 30, 2016, which shall be
19 known as the “White Canyon Wilderness”.

20 (17) MEXICAN MOUNTAIN.—Certain Federal
21 land in Emery County managed by the Bureau of
22 Land Management comprising approximately 84,976
23 acres, as generally depicted on the Utah PLI Wilder-
24 ness Map dated June 30, 2016, which shall be
25 known as the “Mexican Mountain Wilderness”.

1 (18) SIDS MOUNTAIN.—Certain Federal land in
2 Emery County managed by the Bureau of Land
3 Management comprising approximately 82,406
4 acres, as generally depicted on the Utah PLI Wilder-
5 ness Map dated June 30, 2016, which shall be
6 known as the “Sids Mountain Wilderness”.

7 (19) MUDDY CREEK.—Certain Federal land in
8 Emery County managed by the Bureau of Land
9 Management comprising approximately 72,400
10 acres, as generally depicted on the Utah PLI Wilder-
11 ness Map dated June 30, 2016, which shall be
12 known as the “Muddy Creek Wilderness”.

13 (20) SAN RAFAEL REEF.—Certain Federal land
14 in Emery County managed by the Bureau of Land
15 Management comprising approximately 54,284
16 acres, as generally depicted on the Utah PLI Wilder-
17 ness Map dated June 30, 2016, which shall be
18 known as the “San Rafael Reef Wilderness”.

19 (21) CRACK CANYON WILDERNESS.—Certain
20 Federal land in Emery County managed by the Bu-
21 reau of Land Management comprising approximately
22 27,191 acres, as generally depicted on the Utah PLI
23 Wilderness Map dated June 30, 2016, which shall be
24 known as the “Crack Canyon Wilderness”.

1 (22) DEVILS CANYON.—Certain Federal land in
2 Emery County managed by the Bureau of Land
3 Management comprising approximately 8,652 acres,
4 as generally depicted on the Utah PLI Wilderness
5 Map dated June 30, 2016, which shall be known as
6 the “Devils Canyon Wilderness”.

21 Grand County managed by the Bureau of Land
22 Management comprising approximately 1,190 acres,
23 as generally depicted on the Utah PLI Wilderness
24 Map dated June 30, 2016, which shall be known as
25 the “Fisher Towers Wilderness”.

1 (30) MARY JANE CANYON.—Certain Federal
2 land in Grand County managed by the Bureau of
3 Land Management comprising approximately 13,574
4 acres, as generally depicted on the Utah PLI Wilder-
5 ness Map dated June 30, 2016, which shall be
6 known as the “Mary Jane Canyon Wilderness”.

7 (31) GRANITE CREEK.—Certain Federal land in
8 Grand County managed by the Bureau of Land
9 Management comprising approximately 25,104
10 acres, as generally depicted on the Utah PLI Wilder-
11 ness Map dated June 30, 2016, which shall be
12 known as the “Granite Creek Wilderness”.

13 (32) BOOK CLIFFS.—Certain Federal land in
14 Grand County managed by the Bureau of Land
15 Management comprising approximately 175,490
16 acres, as generally depicted on the Utah PLI Wilder-
17 ness Map dated June 30, 2016, which shall be
18 known as the “Book Cliffs Wilderness”.

19 (33) WESTWATER.—Certain Federal land in
20 Grand County, Utah managed by the Bureau of
21 Land Management comprising approximately 32,954
22 acres, as generally depicted on the Utah PLI Wilder-
23 ness Map and dated June 30, 2016, which shall be
24 known as the “Westwater Wilderness”.

1 (34) BEAVER CREEK.—Certain Federal land in
2 Grand County managed by the Bureau of Land
3 Management comprising approximately 48,416
4 acres, as generally depicted on the Utah PLI Wilder-
5 ness Map dated June 30, 2016, which shall be
6 known as the “Beaver Creek Wilderness”.

7 (35) MOUNT PEALE.—Certain Federal land in
8 San Juan County managed by the United States
9 Forest Service comprising approximately 4,302
10 acres, as generally depicted on the Utah PLI Wilder-
11 ness Map dated June 30, 2016, which shall be
12 known as the “Mount Peale Wilderness”.

13 (36) HAMMOND CANYON.—Certain Federal
14 land in San Juan County managed by the United
15 States Forest Service comprising approximately
16 7,593 acres, as generally depicted on the Utah PLI
17 Wilderness Map dated June 30, 2016, which shall be
18 known as the “Hammond Canyon Wilderness”.

19 (37) ARCH CANYON.—Certain Federal land in
20 San Juan County managed by the United States
21 Forest Service comprising approximately 4,376
22 acres, as generally depicted on the Utah PLI Wilder-
23 ness Map dated June 30, 2016, which shall be
24 known as the “Arch Canyon Wilderness”.

1 (38) DINOSAUR.—Certain Federal land in
2 Utah County managed by the National Park Serv-
3 ice comprising approximately 52,348 acres, as gen-
4 erally depicted on the Utah PLI Wilderness Map
5 dated June 30, 2016, which shall be known as the
6 “Dinosaur Wilderness”.

7 (39) CEDAR MOUNTAIN.—Certain Federal land
8 in Emery County managed by the Bureau of Land
9 Management comprising approximately 17,355
10 acres, as generally depicted on the Utah PLI Wilder-
11 ness Map dated June 30, 2016, which shall be
12 known as the “Cedar Mountain Wilderness”.

13 (40) INDIAN CREEK.—Certain Federal land in
14 San Juan County managed by the Bureau of Land
15 Management and the United States Forest Service
16 comprising approximately 6,562 acres, as generally
17 depicted on the Utah PLI Wilderness Map dated
18 June 30, 2016, which shall be known as the “Indian
19 Creek Wilderness”.

20 (41) STEER GULCH.—Certain Federal land in
21 San Juan County managed by the United States
22 Forest Service comprising approximately 25,094
23 acres, as generally depicted on the Utah PLI Wilder-
24 ness Map dated June 30, 2016, which shall be
25 known as the “Steer Gulch Wilderness”.

1 **SEC. 102. MAPS AND LEGAL DESCRIPTIONS.**

2 (a) IN GENERAL.—Not later than two years from the
3 date of enactment of this Act, the Secretary of the Interior
4 and the Secretary of Agriculture as appropriate shall file
5 a map and legal description of each of the wilderness areas
6 with the Committee on Natural Resources of the House
7 of Representatives and the Committee on Energy and
8 Natural Resources of the Senate.

9 (b) FORCE AND EFFECT.—Each map and legal de-
10 scription submitted under this section shall have the same
11 force and effect as if included in this title, except that
12 the Secretary of the Interior and the Secretary of Agri-
13 culture as appropriate may make any minor modifications
14 of any clerical or typographical errors in the map or legal
15 description provided that prior to any modifications, cler-
16 ical or typographical changes, these changes are reported
17 to the State of Utah and the affected county.

18 (c) PUBLIC AVAILABILITY.—A copy of the map and
19 legal description shall be on file and available for public
20 inspection in the appropriate offices of the Bureau of In-
21 dian Affairs, the Bureau of Land Management, the Na-
22 tional Park Service, and the United States Forest Service.

23 **SEC. 103. WILDERNESS ADMINISTRATION.**

24 (a) IN GENERAL.—Subject to valid existing rights,
25 including the rights of a tribe, each wilderness area estab-
26 lished under section 101 shall be administered by the Sec-

1 reitary of the Interior or the Secretary of Agriculture as
2 appropriate in accordance with the Wilderness Act (16
3 U.S.C. 1131 et seq.), except that—

4 (1) any reference in that Act to the effective
5 date shall be considered to be a reference to the date
6 of enactment of this Act.

7 (2) with respect to wilderness areas that are ad-
8 ministered by the Secretary of the Interior, any ref-
9 erence in the Wilderness Act to the Secretary of Ag-
10 riculture shall be considered to be a reference to the
11 Secretary of the Interior.

12 (b) FIRE, INSECTS, AND DISEASE.—In accordance
13 with section 4(d)(1) of the Wilderness Act, the relevant
14 Secretary may take such measures in each wilderness area
15 necessary to control of fire, insects, and disease (including,
16 as the relevant Secretary determines to be appropriate, the
17 coordination of such activities with a State, tribe, or local
18 agency).

19 (c) WILDFIRE MANAGEMENT OPERATIONS.—Noth-
20 ing in this title precludes a Federal, State, tribal, or local
21 agency from conducting wildfire management operations
22 (including operations using aircraft or mechanized equip-
23 ment).

24 (d) LIVESTOCK.—

1 (1) GRAZING.—The grazing of livestock in each
2 wilderness area, if established before the date of en-
3 actment of this Act, shall continue, subject to rea-
4 sonable rules and regulations as prescribed by the
5 relevant Secretary, in accordance with—

6 (A) section 4(d)(4) of the Wilderness Act
7 (16 U.S.C.1133(d)(4)); and

8 (B) the guidelines set forth in Appendix A
9 of the report of the Committee on Interior and
10 Insular Affairs of the House of Representatives
11 accompanying H.R. 2570 of the 101st Congress
12 (House Report 101–405).

13 (2) UTAH DEPARTMENT OF AGRICULTURE AND
14 FOOD.—In instances in which historic grazing areas,
15 access, or use is disputed by the grazing permittee,
16 data and information provided by the Utah Depart-
17 ment of Agriculture shall be given consideration by
18 the relevant Secretary to establish historic grazing
19 areas, locations, or use.

20 (e) OUTFITTING AND GUIDE ACTIVITIES.—In accord-
21 ance with section 4(d)(6) of the Wilderness Act (16 U.S.C.
22 1133(d)(5)), commercial services (including authorized
23 outfitting and guide activities) within the wilderness areas
24 are authorized to the extent necessary to realize the rec-
25 reational purposes of the areas.

1 (f) ACCESS.—In accordance with section 5(a) of the
2 Wilderness Act (16 U.S.C. 1134(a)), the relevant Sec-
3 retary shall provide the owner of State, tribal or private
4 property within the boundary of a wilderness area access
5 to the property.

6 (g) WILDLIFE WATER DEVELOPMENT PROJECTS.—
7 The relevant Secretary shall allow existing water struc-
8 tures and facilities for wildlife water development projects,
9 including guzzlers, in the wilderness areas designated by
10 this title.

11 (h) FISH AND WILDLIFE.—Nothing in this title af-
12 fects the jurisdiction of the State of Utah with respect
13 to the management of fish and wildlife on Federal land
14 in the State, including the regulation of hunting, fishing,
15 and trapping within the wilderness areas.

16 (i) WITHDRAWALS.—Subject to valid existing rights,
17 all public land within the areas established as wilderness
18 under this title, including any land or interest in land that
19 is acquired by the United States within the wilderness
20 areas after the date of enactment of this Act, is withdrawn
21 from—

22 (1) entry, appropriation or disposal under the
23 public land laws;

24 (2) location, entry, and patent under the mining
25 laws; and

1 (3) operation of the mineral leasing, mineral
2 materials, and geothermal leasing laws.

3 (j) TRAIL AND FENCE MAINTENANCE.—The relevant
4 Secretary shall maintain trails and fence lines located
5 within the wilderness areas designated by this title, in ac-
6 cordance with the Wilderness Act (16 U.S.C. 1131 et
7 seq.).

8 **SEC. 104. WATER RIGHTS.**

9 (a) STATUTORY CONSTRUCTION.—Nothing in this
10 title—

11 (1) shall constitute either an express or implied
12 reservation by the United States of any water rights
13 with respect to the wilderness areas designated by
14 section 101;

15 (2) affects any water rights in the State of
16 Utah existing on the date of enactment of this Act,
17 including any water rights held by the United
18 States;

19 (3) establishes a precedent with regard to any
20 future wilderness designations; or

21 (4) shall restrict or prohibit the upstream diver-
22 sion of water rights held under Utah State law.

23 (b) EXISTING WATER INFRASTRUCTURE.—Nothing
24 in this title shall be construed to limit motorized access
25 and road maintenance by local municipalities, including ir-

1 rigation districts, and other water right holders for main-
2 tenance activities necessary to guarantee the continued vi-
3 ability of water resource facilities that currently exist or
4 which may be necessary in the future to prevent the deg-
5 radation of the water supply in wilderness areas des-
6 ignated by section 101.

7 **SEC. 105. MILITARY OVERFLIGHTS.**

8 Nothing in this title restricts or precludes—

9 (1) low-level overflights of military aircraft over
10 wilderness areas designated by section 101, includ-
11 ing military overflights that can be seen or heard
12 within wilderness areas;

13 (2) flight testing and evaluation; or

14 (3) the designation or creation of new units of
15 special use airspace, or the establishment of military
16 flight training routes, over wilderness areas.

17 **SEC. 106. ADJACENT MANAGEMENT.**

18 (a) IN GENERAL.—Nothing in this title creates a pro-
19 tective perimeter or buffer zone around a wilderness area
20 designated by section 101.

21 (b) ACTIVITIES OUTSIDE WILDERNESS AREA.—The
22 fact that an activity or use on land outside a wilderness
23 area can be seen, heard or smelled within the wilderness
24 area shall not preclude the activity or use outside the
25 boundary of the wilderness area.

1 **SEC. 107. INDIAN RIGHTS.**

2 Nothing in this title diminishes the rights of any In-
3 dian tribe.

4 **SEC. 108. ACQUISITION OF LAND AND INTERESTS IN LAND.**

5 (a) ACQUISITION.—

6 (1) IN GENERAL.—The relevant Secretary may
7 acquire land or interest in land within the bound-
8 aries of the wilderness areas designated by section
9 101 only by donation, exchange, transfer from an-
10 other Federal agency, or purchase from a willing
11 seller.

12 (2) LAND EXCHANGE.—At the request of the
13 State of Utah, not later than two years after the
14 date of enactment of this Act, the relevant Secretary
15 shall complete exchanges for State land located with-
16 in the boundaries of the wilderness areas designated
17 by this title.

18 (3) NO CONDEMNATION.—Within the areas des-
19 igned as wilderness by this title, the use of emi-
20 nent domain or condemnation shall be prohibited.

21 (b) INCORPORATION IN WILDERNESS AREA.—Any
22 land or interest in land located inside the boundary of a
23 wilderness area that is acquired by the United States after
24 the date of enactment of this Act, except land acquired
25 by the United States in trust for the benefit of a tribe,

1 shall be added to, and administered as part of the wilder-
2 ness area.

3 **SEC. 109. WILDERNESS RELEASE.**

4 (a) PUBLIC LAND.—

5 (1) FINDING.—Congress finds that, for pur-
6 poses of section 603 of the Federal Land Policy and
7 Management Act of 1976 (43 U.S.C. 1782), the
8 public land administered by the Bureau of Land
9 Management in the following wilderness study areas,
10 as depicted on the map entitled Utah PLI Wilder-
11 ness map dated June 30, 2016, have been ade-
12 quately studied for wilderness designation—

13 (A) the 43,322-acre area known as Winter
14 Ridge Wilderness Study Area;

15 (B) the 7,051-acre area known as Jack
16 Canyon Wilderness Study Area;

17 (C) the 6,557-acre area known as Squaw
18 and Papoose Wilderness Study Area;

19 (D) the 20,404-acre area known as Desola-
20 tion Canyon Wilderness Study Area included
21 within the Desolation Canyon Special Manage-
22 ment Area as designated by this title and as de-
23 picted on the map;

24 (E) the 2,516-acre area known as Daniels
25 Canyon Wilderness Study Area; and

1 (F) the 945-acre known as Cross Canyon
2 Wilderness Study Area.

3 (2) RELEASE.—Any land managed by the Bu-
4 reau of Land Management within the areas de-
5 scribed in paragraph (1) that is not designated as
6 wilderness by this title—

7 (A) shall not be subject to section 603(c)
8 of the Federal Land Policy and Management
9 Act of 1976 (43 U.S.C. 1782(c));

10 (B) shall be managed in accordance with
11 land management plans adopted under section
12 202 of that Act (43 U.S.C. 1712); and

13 (C) shall no longer be subject to Secre-
14 tarial Order No. 3310 issued by the Secretary
15 of the Interior on December 22, 2010.

16 **SEC. 110. AIRSHEDS.**

17 (a) DESIGNATIONS.—Except as provided in sub-
18 section (b), it is the intent of Congress that wilderness
19 areas designated under section 101 shall not be designated
20 as Class I airsheds under the Clean Air Act (42 U.S.C.
21 7401–7661) unless Class I status is agreed by the State
22 of Utah under existing authorities.

23 (b) EXCEPTIONS.—The lands within the wilderness
24 designated by section 101(K), (AA), and (BB) shall con-
25 tinue to be managed as Class I airsheds.

1 **TITLE II—NATIONAL**
2 **CONSERVATION AREAS**

3 **SEC. 201. NATIONAL CONSERVATION AREAS.**

4 Subject to valid existing rights, including the rights
5 of a tribe, the following areas in the State of Utah are
6 hereby established as National Conservation Areas:

7 (1) **BEACH DRAW.**—Certain Federal land, com-
8 prising approximately 658 acres administered by the
9 Bureau of Land Management in Uintah County as
10 generally depicted on the map entitled Utah PLI
11 National Conservation Area Map dated June 30,
12 2016, to be known as the “Beach Draw National
13 Conservation Area”.

14 (2) **DIAMOND MOUNTAIN.**—Certain Federal
15 land, comprising approximately 30,390 acres admin-
16 istered by the Bureau of Land Management in
17 Uintah County as generally depicted on the map en-
18 titled Utah PLI National Conservation Area Map
19 dated June 30, 2016, to be known as the “Diamond
20 Mountain National Conservation Area”.

21 (3) **DOCS VALLEY.**—Certain Federal land, com-
22 prising approximately 8,544 acres administered by
23 the Bureau of Land Management in Uintah County
24 as generally depicted on the map entitled Utah PLI
25 National Conservation Area Map dated June 30,

1 2016, to be known as the “Docs Valley National
2 Conservation Area”.

3 (4) STONE BRIDGE DRAW.—Certain Federal
4 land, comprising approximately 2,415 acres adminis-
5 tered by the Bureau of Land Management in Uintah
6 County as generally depicted on the map entitled
7 Utah PLI National Conservation Area Map dated
8 June 30, 2016, to be known as the “Stone Bridge
9 Draw National Conservation Area”.

10 (5) STUNTZ DRAW.—Certain Federal land,
11 comprising approximately 2,284 acres administered
12 by the Bureau of Land Management in Uintah
13 County as generally depicted on the map entitled
14 Utah PLI National Conservation Area Map dated
15 June 30, 2016, to be known as the “Stuntz Draw
16 National Conservation Area”.

17 (6) SAN RAFAEL SWELL.—Certain Federal
18 land, comprising approximately 530,380 acres ad-
19 ministered by the Bureau of Land Management in
20 Emery County as generally depicted on the map en-
21 titled Utah PLI National Conservation Area Map
22 dated June 30, 2016, to be known as the “San
23 Rafael Swell National Conservation Area”.

24 (7) LABYRINTH CANYON.—Certain Federal
25 land, comprising approximately 61,723 acres admin-

1 istered by the Bureau of Land Management in
2 Emery County and Grand County as generally de-
3 picted on the map entitled Utah PLI National Con-
4 servation Area Map dated June 30, 2016, to be
5 known as the “Labyrinth Canyon National Con-
6 servation Area”.

7 (8) MUDDY CREEK.—Certain Federal land,
8 comprising approximately 53,804 acres administered
9 by the Bureau of Land Management in Emery
10 County, Utah, as generally depicted on the map en-
11 titled Utah PLI National Conservation Area Map
12 and dated June 30, 2016, to be known as the
13 “Muddy Creek National Conservation Area”.

14 (9) COLORADO RIVER.—Certain Federal land,
15 comprising approximately 166,949 acres adminis-
16 tered by the Bureau of Land Management in Grand
17 County as generally depicted on the map entitled
18 Utah PLI National Conservation Area Map dated
19 June 30, 2016, to be known as the “Colorado River
20 National Conservation Area”.

21 (10) INDIAN CREEK.—Certain Federal land,
22 comprising approximately 434,354 acres adminis-
23 tered by the Bureau of Land Management and
24 United States Forest Service in San Juan County,
25 Utah, as generally depicted on the map entitled

1 Utah PLI National Conservation Area Map and
2 dated June 30, 2016, to be known as the “Indian
3 Creek National Conservation Area”.

4 (11) SAN RAFAEL RIVER.—Certain Federal
5 land, comprising approximately 33,935 acres admin-
6 istered by the Bureau of Land Management in
7 Emery County as generally depicted on the map en-
8 titled Utah PLI National Conservation Area Map
9 dated June 30, 2016, to be known as the “San
10 Rafael River National Conservation Area”.

11 **SEC. 202. MAP AND LEGAL DESCRIPTION.**

12 (a) IN GENERAL.—Not later than two years from the
13 date of enactment of this Act, the relevant Secretary shall
14 file a map and legal description of the National Conserva-
15 tion Areas established by section 201 of this title with the
16 Committee on Natural Resources of the House of Rep-
17 resentatives and the Committee on Energy and Natural
18 Resources of the Senate.

19 (b) FORCE AND EFFECT.—Each map and legal de-
20 scription submitted under this section shall have the same
21 force and effect as if included in this title, except that
22 the relevant Secretary may make minor modifications of
23 any clerical or typographical errors in the map or legal
24 description provided that prior to any modifications, cler-

1 ical or typographical changes, these changes are reported
2 to the State of Utah and the affected county.

3 (c) PUBLIC AVAILABILITY.—A copy of the map and
4 legal description shall be on file and available for public
5 inspection in the appropriate offices of the Bureau of In-
6 dian Affairs, the Bureau of Land Management, and the
7 United States Forest Service.

8 **SEC. 203. ADMINISTRATION OF NATIONAL CONSERVATION**
9 **AREAS.**

10 (a) PURPOSES.—In accordance with this title, the
11 Federal Land Policy and Management Act of 1976 (43
12 U.S.C. 1701 et seq.), and other applicable laws, the rel-
13 evant Secretary shall manage the National Conservation
14 Areas established by section 201 in a manner that—

15 (1) protects, conserves, and enhances the
16 unique and nationally important historic, cultural,
17 scientific, scenic, recreational, archaeological, nat-
18 ural, and educational resources of the Conservation
19 Area;

20 (2) maintains and enhances cooperative and in-
21 novative management practices between resource
22 managers, private landowners, and the public in the
23 Conservation Area; and

24 (3) recognizes and maintains historic uses of
25 the Conservation Area.

1 (b) MANAGEMENT PLANS.—

2 (1) PLAN REQUIRED.—Not later than two years
3 after the date of enactment of this Act, the relevant
4 Secretary shall develop a management plan for the
5 long-term management of each Conservation Area.

6 (2) RECOMMENDATIONS AND CONSULTATION.—

7 The relevant Secretary shall prepare the manage-
8 ment plan in consultation and coordination with
9 local and tribal governments, the public, and the
10 Public Lands Initiative Planning and Implementa-
11 tion Advisory Committee established under Division
12 C of this Act. If the relevant Secretary does not in-
13 corporate recommendations submitted by the State,
14 local governments, and Indian tribes into the man-
15 agement plans, the relevant Secretary shall submit a
16 written explanation before the effective date of the
17 management plan to the House Committee on Nat-
18 ural Resources and Senate Committee on Energy
19 and Natural Resources outlining the reasons for re-
20 jecting the recommendations .

21 **SEC. 204. GENERAL PROVISIONS.**

22 (a) WITHDRAWALS.—Subject to valid existing rights,
23 all Federal land within the National Conservation Areas
24 established under section 201 including any land or inter-
25 est in land that is acquired by the United States within

1 the Conservation Areas after the date of enactment of this
2 Act, is withdrawn from—

3 (1) entry, appropriation or disposal under the
4 public land laws;

5 (2) location, entry, and patent under the mining
6 laws; and

7 (3) operation of the mineral leasing, mineral
8 materials, and geothermal leasing laws.

9 (b) FIRE, INSECTS, AND DISEASE.—In accordance
10 with this title, the relevant Secretary may take such meas-
11 ures in each Conservation Area necessary to control fire,
12 insects, and disease (including the coordination of such ac-
13 tivities with a State, tribal, or local agency).

14 (c) WILDLAND FIRE OPERATIONS.—Nothing in this
15 title precludes a Federal, State, tribal, or local agency
16 from conducting wildfire management operations (includ-
17 ing operations using aircraft or mechanized equipment) in
18 Conservation Areas designated under section 201.

19 (d) LIVESTOCK.—

20 (1) IN GENERAL.—Within the Conservation
21 Areas established under section 201 the grazing of
22 livestock established before the date of enactment of
23 this Act shall continue subject to reasonable regula-
24 tions as prescribed by the relevant Secretary.

1 (2) PROTECTION OF EXISTING USES.—Existing
2 livestock grazing shall continue in accordance with
3 the following guidelines:

4 (A) There shall be no reductions of grazing
5 in the areas designated by this title simply be-
6 cause an area is, or has been designated by this
7 title.

8 (B) The number of livestock permitted to
9 graze in areas designated by this title shall con-
10 tinue at approximate stocking levels prescribed
11 in the grazing permit that existed on January
12 1, 2016 and additional or suspended animal
13 unit months shall be allowed to graze as range
14 conditions allow or if range treatments improve
15 conditions. Animal Unit Months shall only be
16 diminished as a result of revisions in the nor-
17 mal grazing and land management planning
18 and policy setting process.

19 (C) The maintenance of existing grazing
20 supporting facilities in an area prior to its des-
21 ignation by this title (including fences, place-
22 ment of salt and minerals, line cabins, water
23 wells and pipelines, stock tanks and ponds),
24 shall continue. Such maintenance may include

1 the use of off-highway vehicles or mechanized
2 tools and equipment.

3 (D) The construction of new grazing im-
4 provements or replacement of deteriorated live-
5 stock facilities in areas designated by this title
6 is authorized if in accordance with the applica-
7 ble management plan.

8 (E) The use of off-highway vehicles for
9 emergency purposes such as care of sick ani-
10 mals or the placement of feed and water in
11 emergency situations is authorized by the appli-
12 cable grazing permit holder or an employee or
13 agent thereof.

14 (F) Access to historic and traditional water
15 sources for the purpose of watering livestock
16 shall be maintained.

17 (G) The trailing of domestic livestock shall
18 continue and shall not be limited by the des-
19 ignations made under section 201.

20 (3) UTAH DEPARTMENT OF AGRICULTURE AND
21 FOOD.—In instances in which historic grazing areas,
22 access, or use is disputed by the grazing permittee,
23 data and information provided by the Utah Depart-
24 ment of Agriculture shall be given consideration by

1 the relevant Secretary to determine historic grazing
2 areas or use.

3 (e) EXISTING EASEMENTS AND RIGHTS-OF-WAY.—

4 Nothing in this title precludes the relevant Secretary from
5 renewing easements or rights-of-way in Conservation
6 Areas established under section 201 in existence on the
7 date of enactment of this Act, in accordance with this divi-
8 sion and existing law.

9 (f) ADJACENT MANAGEMENT.—

10 (1) IN GENERAL.—Nothing in this title creates
11 a protective perimeter or buffer zone around a Con-
12 servation Area designated by section 201.

13 (2) ACTIVITIES OUTSIDE CONSERVATION
14 AREA.—An activity or use on land outside of a Con-
15 servation Area established under section 201 that
16 can be seen, heard, felt, or smelled within the Con-
17 servation Area shall not preclude the activity or use
18 outside the boundary of the Conservation Area.

19 (g) OUTFITTING AND GUIDE ACTIVITIES.—Commer-
20 cial services (including authorized outfitting and guide ac-
21 tivities) within the Conservation Areas established under
22 section 201 are authorized to the extent necessary to real-
23 ize the recreational purposes of the areas.

24 (h) FISH AND WILDLIFE.—Nothing in this title af-
25 fects the jurisdiction of the State of Utah with respect

1 to the management of fish and wildlife on Federal land
2 in the State, including the regulation of hunting, fishing,
3 and trapping and use of helicopters to maintain healthy
4 wildlife populations, within the Conservation Areas estab-
5 lished under section 201.

6 (i) ACCESS.—The relevant Secretary shall provide the
7 owner of State, tribal or private property within the
8 boundary of a Conservation Area established under section
9 201 access to the property.

10 (j) WILDLIFE WATER DEVELOPMENT PROJECTS.—
11 Structures and facilities, including future and existing
12 structures and facilities, for wildlife water development
13 projects (including guzzlers) in the Conservation Areas es-
14 tablished under section 201 are authorized.

15 (k) WATER RIGHTS.—

16 (1) STATUTORY CONSTRUCTION.—Nothing in
17 this title—

18 (A) shall constitute either an express or
19 implied reservation by the United States of any
20 water rights with respect to the Conservation
21 Areas designated by this title;

22 (B) affects any water rights in the State of
23 Utah existing on the date of enactment of this
24 title, including any water rights held by the
25 United States.

1 (C) establishes a precedent with regard to
2 any future National Conservation Area designa-
3 tions.

4 (D) shall restrict or prohibit the upstream
5 diversion of water rights held under Utah State
6 law.

7 (2) EXISTING WATER INFRASTRUCTURE.—
8 Nothing in this title shall be construed to limit mo-
9 torized access and road maintenance by local municipi-
10 palities, including irrigation districts, and other
11 water right holders for maintenance activities nec-
12 essary to guarantee the continued viability of water
13 resource facilities that currently exist or which may
14 be necessary in the future to prevent the degrada-
15 tion of the water supply in Conservation Areas des-
16 ignated by this title.

17 (1) WILDERNESS RELEASE.—Congress finds that the
18 Conservation Areas designated by section 201 have been
19 adequately studied for wilderness character and wilderness
20 designation pursuant to section 603 of the Federal Land
21 Policy and Management Act of 1976 (43 U.S.C. 1782)
22 and are no longer subject to the requirement of subsection
23 (c) of such section pertaining to the management of wil-
24 derness study areas in a manner that does not impair the
25 suitability of such areas for preservation as wilderness.

1 (m) PROHIBITION.—The relevant Secretary may not
2 promulgate or issue any system-wide regulation, directive,
3 instruction memorandum or order that would direct man-
4 agement of the Federal lands designated as Conservation
5 Areas by section 201 in a manner contrary to this title.

6 (n) VEGETATION MANAGEMENT.—Nothing in this
7 title prevents the relevant Secretary from conducting vege-
8 tation management projects within the Conservation
9 Areas established under section 201 in a manner con-
10 sistent with the purposes for the Conservation Area pursu-
11 ant to section 203(a).

12 (o) OFF-HIGHWAY VEHICLES.—

13 (1) IN GENERAL.—Except in cases in which off-
14 highway vehicles are needed for administrative pur-
15 poses, including project construction and mainte-
16 nance, response to an emergency or as outlined in
17 section 204(d)(2), the use of off-highway vehicles
18 shall be permitted only on designated routes within
19 the Conservation Areas designated under section
20 201.

21 (2) DESIGNATED ROUTES FOR OFF-HIGHWAY
22 VEHICLES.—

23 (A) IN GENERAL.—The relevant Secretary
24 shall manage existing designated routes in a
25 manner that—

1 (i) is consistent with off-highway vehi-
2 cle and mechanized use of the designated
3 routes that is authorized under the appli-
4 cable travel management plan;

5 (ii) does not significantly damage des-
6 ignated critical habitat or cultural re-
7 sources; and

8 (iii) does not interfere with private
9 property or water rights.

10 (B) CLOSURE.—The relevant Secretary, in
11 consultation with the State and affected Coun-
12 ty, may temporarily close or permanently re-
13 route, subject to subparagraph (C), a route if
14 the relevant Secretary determines that—

15 (i) the route is significantly damaging
16 designated critical habitat or cultural re-
17 sources;

18 (ii) the route threatens public safety;

19 (iii) closure of the route is necessary
20 to repair damage to the designated route;
21 or

22 (iv) closure of the route is necessary
23 to repair resource damage.

24 (C) REROUTING.—Portions of the des-
25 ignated route that are temporarily closed may

1 be permanently rerouted by utilizing a pre-
2 viously-closed route or constructing a new
3 route.

4 (D) NOTICE.—The relevant Secretary shall
5 provide information to the public regarding any
6 designated routes that are open, have been re-
7 routed, or are temporarily or permanently
8 closed through—

9 (i) use of appropriate signage within
10 the Conservation Area;

11 (ii) use of the internet and web re-
12 sources.

13 (p) TEMPORARY ROAD CONSTRUCTION.—The rel-
14 evant Secretary shall be permitted to construct temporary
15 passenger vehicle roads for administrative or emergency
16 purposes. The relevant Secretary shall decommission any
17 temporary road constructed under this paragraph not
18 later than three years after the date the project is com-
19 pleted.

20 (q) NO EFFECT ON NON-FEDERAL LAND OR INTER-
21 ESTS IN NON-FEDERAL LAND.—Nothing in this title af-
22 fects ownership, management, or other rights relating to
23 non-Federal land or interests in non-Federal land.

24 (r) SCIENTIFIC INVESTIGATIONS.—The relevant Sec-
25 retary shall provide opportunities, including through part-

1 nerships with colleges, universities, schools, tribes, sci-
2 entific institutions, non-profit organizations, researchers,
3 and scientists to conduct research and provide educational
4 and interpretive services of the historical, cultural, sci-
5 entific, archeological, and natural resources within the
6 Conservation Areas designated by section 201. Research
7 findings from the Conservation Areas may be used to de-
8 velop land use solutions that meet human needs while
9 maintaining ecological and economic viability in the re-
10 gion.

11 (s) RESEARCH AND INTERPRETIVE FACILITIES.—

12 (1) IN GENERAL.—The Secretary of the Inte-
13 rior and Secretary of Agriculture may establish fa-
14 cilities for—

15 (A) the conduct of scientific research; and

16 (B) the interpretation of the historical, cul-
17 tural, scientific, archeological, biological, nat-
18 ural and educational resources of the Conserva-
19 tion Areas designated under section 201.

20 (2) GRANTS AND COOPERATIVE AGREE-
21 MENTS.—In carrying out subsection (r), the Sec-
22 retary of the Interior and Secretary of Agriculture
23 may make grants to, or enter into cooperative agree-
24 ments with the State of Utah, local governmental
25 entities, tribes, other institutions and organizations,

1 and private entities to conduct research, conduct sci-
2 entific analyses, and carry out any other initiative
3 relating to the restoration or conservation of the
4 Conservation Areas.

5 (t) PARTNERSHIPS.—In carrying out subsection (r)
6 and (s) and in recognition of the value of collaboration
7 to foster innovation and enhance research and develop-
8 ment efforts, the Secretary of the Interior and the Sec-
9 retary of Agriculture shall encourage partnerships, includ-
10 ing public-private partnerships, between and among Fed-
11 eral, State, tribal and local agencies, academic institu-
12 tions, non-profit organizations and private entities.

13 (u) RECREATION.—The relevant Secretary shall con-
14 tinue to authorize, maintain, and enhance the recreational
15 use of the Conservation Areas designated under section
16 201, including hunting, fishing, camping, hiking, back-
17 packing, cross-country skiing, hang gliding, paragliding,
18 rock climbing, canyoneering, sightseeing, nature study,
19 horseback riding, mountain biking, rafting, off-highway
20 vehicle recreation on designated routes, and other rec-
21 reational activities.

22 (v) ACQUISITION.—

23 (1) IN GENERAL.—The relevant Secretary may
24 acquire land or interest in land within the bound-
25 aries of the Conservation Areas designated by sec-

1 tion 201 only by donation, exchange, transfer from
2 another Federal agency, or purchase from a willing
3 seller.

4 (2) LAND EXCHANGE.—At the request of the
5 State, not later than two years after the date of en-
6 actment of this Act, the relevant Secretary shall
7 complete exchanges for State land located within the
8 boundaries of the Conservation Areas designated by
9 section 201.

10 (3) NO CONDEMNATION.—Within the Conserva-
11 tion Areas designated by section 201 the use of emi-
12 nent domain or condemnation shall be prohibited.

13 (4) INCORPORATION IN NATIONAL CONSERVA-
14 TION AREA.—Any land or interest in land located in-
15 side the boundary of a Conservation Area designated
16 under section 201 that is acquired by the United
17 States after the date of enactment of this Act shall
18 be added to and administered as part of the Con-
19 servation Area.

20 **SEC. 205. ADDITIONAL PURPOSE FOR DOCS VALLEY, STONE**
21 **BRIDGE DRAW, STUNTZ DRAW, BEACH DRAW,**
22 **AND DIAMOND MOUNTAIN NATIONAL CON-**
23 **SERVATION AREAS.**

24 Nothing in this title shall effect existing or future
25 sage grouse conservation projects, including the manage-

1 ment of vegetation through mechanical means within the
2 Docs Valley, Stone Bridge Draw, Stuntz Draw, Beach
3 Draw, and Diamond Mountain National Conservation
4 Areas designated under section 201.

5 **SEC. 206. ADDITIONAL PURPOSE FOR COLORADO RIVER**
6 **NATIONAL CONSERVATION AREA.**

7 To provide for the management, development, protec-
8 tion, and use of drinking water within the Colorado River
9 National Conservation Area.

10 **TITLE III—WATERSHED**
11 **MANAGEMENT AREAS**

12 **SEC. 301. WATERSHED MANAGEMENT AREAS.**

13 (a) ESTABLISHMENT.—The following Watershed
14 Management Areas are hereby established in the State of
15 Utah, subject to valid existing rights:

16 (1) ASHLEY SPRING.—The “Ashley Spring Wa-
17 tershed Management Area”, consisting of approxi-
18 mately 10,951 acres of the Ashley National Forest
19 in Uintah County as generally depicted on the map
20 entitled Utah PLI Special Management Area Map
21 dated June 30, 2016.

22 (2) DRY FORK.—The “Dry Fork Watershed
23 Management Area”, consisting of approximately
24 9,640 acres of the Ashley National Forest in Uintah
25 County as generally depicted on the map entitled

1 Utah PLI Special Management Area Map dated
2 June 30, 2016.

3 (3) CASTLE VALLEY.—The “Castle Valley Wa-
4 tershed Management Area”, consisting of approxi-
5 mately 34,247 acres of the Manti-La Sal National
6 Forest in Grand County as generally depicted on the
7 map entitled Utah PLI Special Management Area
8 Map dated June 30, 2016.

9 (4) WIDDOP MOUNTAIN.—The “Widdop Moun-
10 tain Watershed Management Area”, consisting of
11 approximately 8,025 acres of the Ashley National
12 Forest in Summit County as generally depicted on
13 the map entitled Utah PLI Special Management
14 Area Map dated June 30, 2016.

15 (5) EAST FORK SMITHS FORK.—The “East
16 Fork Smiths Fork Watershed Management Area”,
17 consisting of approximately 3,178 acres of the Ash-
18 ley National Forest in Summit County as generally
19 depicted on the map entitled Utah PLI Special Man-
20 agement Area Map dated June 30, 2016.

21 (b) MAP AND LEGAL DESCRIPTION.—

22 (1) IN GENERAL.—Two years after the date of
23 enactment of this Act, the Secretary of Agriculture
24 (hereinafter “Secretary” in this title) shall file a
25 map and legal description of the Watershed Manage-

1 ment Areas with the Committee on Natural Re-
2 sources of the House of Representatives and the
3 Committee on Energy and Natural Resources of the
4 Senate.

5 (2) EFFECT.—The map and legal description
6 prepared under paragraph (1) shall have the same
7 force and effect as if included in this title, except
8 that the Secretary of Agriculture may correct minor
9 errors in the map or legal description provided that
10 prior to any modifications, clerical or typographical
11 changes, these changes are reported to the State of
12 Utah and the affected county.

13 (3) PUBLIC AVAILABILITY.—A copy of the map
14 and legal description shall be on file and available
15 for public inspection in the appropriate offices of the
16 U.S. Forest Service and the Bureau of Indian Af-
17 fairs.

18 **SEC. 302. ADMINISTRATION OF WATERSHED MANAGEMENT**

19 **AREAS.**

20 (a) PURPOSES.—The purposes of the Watershed
21 Management Areas are—

22 (1) to ensure the protection of the quality of
23 water in the Watershed Management Areas;

1 (2) to allow visitors to enjoy the scenic, natural,
2 cultural, recreational, and wildlife values of the Wa-
3 tershed Management Areas;

4 (3) to provide for the management, develop-
5 ment, and use of drinking water within the Water-
6 shed Management Areas;

7 (4) to allow for the reintroduction of beavers in
8 appropriate Watershed Management Areas;

9 (5) to allow for reintroduction of native flora
10 (land and aquatic), bird, fish and animal fauna in
11 Watershed Management Areas;

12 (6) to provide for the restoration of watersheds
13 and re-establish ecosystem health in areas damaged
14 or threatened by insects, disease or prior land use;
15 and

16 (7) to provide for the restoration of ecosystems
17 damaged or threatened by overpopulation of any
18 plant, aquatic or animal species.

19 (b) MANAGEMENT.—The Secretary shall manage the
20 Watershed Management Areas—

21 (1) in a manner consistent with the purposes
22 described in subsection (a);

23 (2) in accordance with—

24 (A) the laws generally applicable to the
25 National Forest System;

1 (B) this title; and

2 (C) any other applicable law.

3 (c) MANAGEMENT PLAN.—

4 (1) PLAN REQUIRED.—Not later than two years
5 after the date of enactment of this Act, the Sec-
6 retary shall develop a management plan for the long-
7 term management of each Watershed Management
8 Area.

9 (2) RECOMMENDATIONS AND CONSULTATION.—

10 The Secretary shall prepare the management plan in
11 consultation and coordination with local and tribal
12 governments, the public, and the Public Lands Ini-
13 tiative Planning and Implementation Advisory Com-
14 mittee established under Division C of this Act. If
15 the Secretary does not incorporate recommendations
16 submitted by the State, local governments, and In-
17 dian tribes into the management plans, the Sec-
18 retary shall submit a written explanation before the
19 effective date of the management plan to the House
20 Committee on Natural Resources and Senate Com-
21 mittee on Energy and Natural Resources outlining
22 the reasons for rejecting the recommendations.

23 **SEC. 303. GENERAL PROVISIONS.**

24 (a) MOTORIZED VEHICLES.—Except in cases in
25 which motorized vehicles are needed for administrative

1 purposes or to respond to an emergency, the use of motor-
2 ized vehicles shall be permitted only on designated routes
3 within the Watershed Management Areas.

4 (b) NO EFFECT ON NON-FEDERAL LAND OR INTER-
5 ESTS IN NON-FEDERAL LAND.—Nothing in this title af-
6 fects ownership, management, or other rights relating to
7 non-Federal land or interests in non-Federal land.

8 (c) ROAD CONSTRUCTION.—The Secretary shall be
9 permitted to construct roads for administrative or emer-
10 gency purposes, or if a temporary road is needed to facili-
11 tate forest management projects to protect or enhance wa-
12 tersheds. The Secretary shall decommission any tem-
13 porary road constructed under a project under this section
14 not later than three years after the date on which the for-
15 est management project is completed.

16 (d) OVERSNOW VEHICLES.—Where permitted prior
17 to the date of enactment of this Act, the Secretary shall
18 authorize the use of snowmobiles and other over snow ve-
19 hicles within the Watershed Management Areas when
20 there is at least six inches of snow coverage.

21 (e) FIRE, INSECTS, AND DISEASE.—In accordance
22 with this title and in consultation with State, tribal, and
23 local government and water or irrigation districts who own
24 or control water resources within Watershed Management
25 Areas, the Secretary may carry out measures to prevent

1 wildland fire and reduce hazardous fuels, insects, and dis-
2 eases in the Watershed Management Areas to protect or
3 improve water quality or to maintain or restore the char-
4 acteristics of ecosystem composition and structure.

5 (f) WILDLAND FIRE OPERATIONS.—Nothing in this
6 title precludes a Federal, State, or local agency from con-
7 ducting wildfire management operations (including oper-
8 ations using aircraft or mechanized equipment) in Water-
9 shed Management Areas designated under section 301.

10 (g) POST-FIRE REHABILITATION.—The Secretary
11 may conduct post-fire rehabilitation in the Watershed
12 Management Areas, consistent with this title and in ac-
13 cordance with applicable law.

14 (h) VEGETATION MANAGEMENT.—The Secretary
15 shall conduct vegetation management projects within the
16 Watershed Management Areas if projects protect or im-
17 prove water quality or maintain or restore the characteris-
18 ties of ecosystem composition and structure.

19 (i) FOREST MANAGEMENT.—Within the Watershed
20 Management Areas, timber harvesting may be used if the
21 primary purpose is to restore or improve forest health and
22 watershed function or to further the purposes described
23 in this title.

24 (j) LIVESTOCK.—

1 (1) IN GENERAL.—Within the Watershed Man-
2 agement Areas designated under section 301, the
3 grazing of livestock established before the date of
4 enactment of this Act shall continue subject to rea-
5 sonable regulations as prescribed by the relevant
6 Secretary.

7 (2) PROTECTION OF EXISTING USES.—Existing
8 livestock grazing shall continue in accordance with
9 the following guidelines:

10 (A) There shall be no reductions of grazing
11 in the areas designated by this title simply be-
12 cause an area is, or has been designated by this
13 title.

14 (B) The number of livestock permitted to
15 graze in areas designated by this title shall con-
16 tinue at approximate stocking levels prescribed
17 in the grazing permit that existed on January
18 1, 2016 and additional or suspended animal
19 unit months shall be authorized to graze as
20 range conditions allow or if range treatments
21 improve conditions. Animal Unit Months shall
22 only be diminished as a result of revisions in
23 the normal grazing and land management plan-
24 ning and policy setting process.

1 (C) The maintenance of existing grazing
2 supporting facilities in an area prior to its des-
3 ignated by this title (including fences, place-
4 ment of salt and minerals, line cabins, water
5 wells and pipelines, stock tanks and ponds),
6 shall continue. Such maintenance may include
7 the use of off-highway vehicles or mechanized
8 tools and equipment.

9 (D) The construction of new grazing im-
10 provements or replacement of deteriorated fa-
11 cilities in areas designated by this title is au-
12 thorized if in accordance with the applicable
13 land management plan.

14 (E) The use of off-highway vehicles for
15 emergency purposes such as care of sick ani-
16 mals or the placement of feed and water in
17 emergency situations is authorized by the appli-
18 cable grazing permit holder or an employee or
19 agent thereof.

20 (F) Access to historic and traditional water
21 sources for the purpose of watering livestock
22 shall be maintained.

23 (G) The trailing of domestic livestock shall
24 continue and shall not be limited by the des-
25 ignations made under section 301.

1 (3) UTAH DEPARTMENT OF AGRICULTURE AND
2 FOOD.—In instances in which historic grazing loca-
3 tions, access, or use is disputed by the grazing per-
4 mittee, data and information provided by the Utah
5 Department of Agriculture shall be given consider-
6 ation by the Secretary to establish historic access,
7 locations, or use.

8 (k) EXISTING EASEMENTS AND RIGHTS-OF-WAY.—
9 Nothing in this title precludes the Secretary from renew-
10 ing easements or rights-of-way in existence as of the date
11 of enactment of this Act, in accordance with this title and
12 existing law.

13 (l) ADJACENT MANAGEMENT.—Nothing in this title
14 creates a protective perimeter or buffer zone around a Wa-
15 tershed Management Area designated by section 301.

16 (m) ACTIVITIES OUTSIDE WATERSHED MANAGE-
17 MENT AREA.—The fact that an activity or use on land
18 outside a Watershed Management Area can be seen,
19 heard, felt or smelled within the Watershed Management
20 Area shall not preclude the activity or use outside the
21 boundary of the Watershed Management Area.

22 (n) OUTFITTING AND GUIDE ACTIVITIES.—Commer-
23 cial services (including authorized outfitting and guide ac-
24 tivities) within the Watershed Management Areas are au-

1 thORIZED to the extent necessary to realize the recreational
2 purposes of the areas.

3 (o) FISH AND WILDLIFE.—Nothing in this title af-
4 fects the jurisdiction of the State of Utah with respect
5 to the management of fish and wildlife on Federal land
6 in the State, including the regulation of hunting, fishing,
7 and trapping within the Watershed Management Areas.

8 (p) ACCESS.—The Secretary shall provide the owner
9 of State, tribal or private property within the boundary
10 of a Watershed Management Areas access to the property.

11 (q) WILDLIFE WATER DEVELOPMENT PROJECTS.—
12 Structures and facilities, including future and existing
13 structures and facilities, for wildlife water development
14 projects (including guzzlers) in the Watershed Manage-
15 ment Areas are authorized.

16 (r) WATER RIGHTS.—Nothing in this title—

17 (1) shall constitute either an express or implied
18 reservation by the United States of any water rights
19 with respect to the Watershed Management Areas
20 designated by this title;

21 (2) affects any water rights in the State of
22 Utah existing on the date of enactment of this Act,
23 including any water rights held by the United
24 States.

1 (3) establishes a precedent with regard to any
2 future Watershed Management Area designations.

3 (4) shall restrict or prohibit the upstream diver-
4 sion of water rights held under Utah State law.

5 (s) EXISTING WATER INFRASTRUCTURE.—Nothing
6 in this title shall be construed to limit motorized access
7 and road maintenance by local municipalities or irrigation
8 districts and other water right holders for those mainte-
9 nance activities necessary to guarantee the continued via-
10 bility of water resource facilities that currently exist or
11 which may be necessary in the future to prevent the deg-
12 radation of the water supply in Watershed Management
13 Areas designated by section 301 subject to such reason-
14 able regulations deemed necessary by the Secretary.

15 (t) WITHDRAWAL.—Subject to valid rights in exist-
16 ence on the date of enactment of this title, the Federal
17 land within the Watershed Management Areas designated
18 by section 301 are withdrawn from—

19 (1) all forms of entry, appropriation, and dis-
20 posal under the Federal land laws;

21 (2) location, entry, and patent under the mining
22 laws; and

23 (3) operation of the mineral leasing, mineral
24 materials, and geothermal leasing laws.

1 (u) ASHLEY SPRING AND DRY FORK.—The manage-
2 ment plans for the Ashley Spring and Dry Fork manage-
3 ment areas shall include provisions for the development
4 of containment ponds, water pipes, and other improve-
5 ments to deliver water to the Ashley Valley should the flow
6 of Ashley Spring become diminished or impaired.

7 (v) WILDERNESS REVIEW.—The Secretary may not
8 promulgate or issue any system-wide regulation, directive,
9 instruction memorandum or order that would direct man-
10 agement of the Federal lands designated as Watershed
11 Management Areas in section 301 in a manner contrary
12 to this title.

13 **TITLE IV—SPECIAL** 14 **MANAGEMENT AREAS**

15 **SEC. 401. HIGH Uintas SPECIAL MANAGEMENT AREA.**

16 (a) ESTABLISHMENT.—Subject to valid existing
17 rights, the approximately 19,191 acres of the Ashley Na-
18 tional Forest in Uintah and Duchesne County, Utah, as
19 generally depicted on the map entitled “Utah PLI High
20 Uintas Special Management Area Map” dated June 24,
21 2016 is established as the High Uintas Special Manage-
22 ment Area.

23 (b) PURPOSES.—The purpose of the High Uintas
24 Special Management Area (hereinafter referred to in this
25 title as the “Area”) are to maintain the natural values

1 of the area and to allow for the continued use of oversnow
2 vehicles.

3 **SEC. 402. HIGH UINTAS SPECIAL MANAGEMENT AREA MAP**
4 **AND LEGAL DESCRIPTION.**

5 (a) **IN GENERAL.**—Not later than two years after the
6 date of enactment of this Act, the Secretary of Agriculture
7 (hereinafter “Secretary” in this title) shall file a map and
8 legal description of the Area with the Committee on Nat-
9 ural Resources of the House of Representatives and the
10 Committee on Energy and Natural Resources of the Sen-
11 ate.

12 (b) **EFFECT.**—The map and legal description pre-
13 pared under paragraph (1) shall have the same force and
14 effect as if included in this title, except that the Secretary
15 may correct minor errors in the map or legal description
16 provided that prior to any modifications, clerical or typo-
17 graphical changes, these changes are reported to the State
18 of Utah and the affected county.

19 (c) **PUBLIC AVAILABILITY.**—A copy of the map and
20 legal description shall be on file and available for public
21 inspection in the appropriate offices of the United States
22 Forest Service.

1 **SEC. 403. ADMINISTRATION OF THE HIGH UINTAS SPECIAL**
2 **MANAGEMENT AREA.**

3 (a) ADMINISTRATION.—The Secretary shall admin-
4 ister the Area in accordance with—

5 (1) the National Forest Management Act of
6 1976 (16 U.S.C. 1600 et seq.);

7 (2) this title; and

8 (3) other applicable laws.

9 (b) MANAGEMENT PLAN.—

10 (1) PLAN REQUIRED.—Not later than two years
11 after the date of enactment of this Act, the Sec-
12 retary shall develop a management plan for the long-
13 term management of the Area.

14 (2) RECOMMENDATIONS AND CONSULTATION.—

15 The Secretary shall prepare the management plan in
16 consultation and coordination with State, local and
17 tribal governments, the public, and the Public Lands
18 Initiative Planning and Implementation Advisory
19 Committee established under Division C of this Act.
20 If the Secretary does not incorporate recommenda-
21 tions submitted by the State, local governments, and
22 Indian tribes into the management plans, the Sec-
23 retary shall submit a written explanation before the
24 effective date of the management plan to the House
25 Committee on Natural Resources and Senate Com-

1 mittee on Energy and Natural Resources outlining
2 the reasons for rejecting the recommendations.

3 (3) USES.—The Secretary shall allow only such
4 uses of the Area that would further the purposes
5 outlined in subsection 401(b) and the following
6 guidelines:

7 (A) Maintain the existing, outstanding nat-
8 ural values of the Area.

9 (B) Allow for the continued use and access
10 of oversnow vehicles, including snowmobiles.

11 (C) Allow for non motorized recreational
12 opportunities to occur within the Area including
13 skiing, biking, hiking, fishing, hunting, horse-
14 back riding, snowshoeing, and camping.

15 (D) Prohibit mineral development.

16 (E) Prohibit new permanent road construc-
17 tion.

18 (F) Prohibit commercial timber harvesting.

19 **SEC. 404. HIGH UINTAS SPECIAL MANAGEMENT AREA GEN-**
20 **ERAL PROVISIONS.**

21 (a) WITHDRAWALS.—Subject to valid existing rights,
22 all Federal land within the Area established under section
23 401 is withdrawn from—

24 (1) entry, appropriation or disposal under the
25 public land laws;

1 (2) location, entry, and patent under the mining
2 laws; and

3 (3) operation of the mineral leasing, mineral
4 materials, and geothermal leasing laws.

5 (b) FIRE, INSECTS, AND DISEASE.—In accordance
6 with this title, the Secretary may take such measures in
7 the Area as are necessary for the control of fire, insects,
8 and disease (including the coordination of the activities
9 with a State or local agency).

10 (c) WILDLAND FIRE OPERATIONS.—Nothing in this
11 title precludes a Federal, State, or local agency from con-
12 ducting wildfire management operations (including oper-
13 ations using aircraft or mechanized equipment) in the
14 Area designated under section 401.

15 (d) LIVESTOCK.—

16 (1) IN GENERAL.—Within the Area designated
17 under section 401, the grazing of livestock estab-
18 lished before the date of enactment of this Act shall
19 continue subject to reasonable regulations as pre-
20 scribed by the relevant Secretary.

21 (2) PROTECTION OF EXISTING USES.—Existing
22 livestock grazing shall continue in accordance with
23 the following guidelines:

24 (A) There shall be no reductions of grazing
25 in the areas designated by this section simply

1 because an area is, or has been designated by
2 this title.

3 (B) The number of livestock permitted to
4 graze in areas designated by this title shall con-
5 tinue at approximate stocking levels prescribed
6 in the grazing permit that existed on January
7 1, 2016 and additional or suspended animal
8 unit months shall be authorized to graze as
9 range conditions allow or if range treatments
10 improve conditions. Animal Unit Months shall
11 only be diminished as a result of revisions in
12 the normal grazing and land management plan-
13 ning and policy setting process.

14 (C) The maintenance of existing grazing
15 supporting facilities in an area prior to its des-
16 ignated by this section (including fences, place-
17 ment of salt and minerals, line cabins, water
18 wells and pipelines, stock tanks and ponds),
19 shall continue. Such maintenance may include
20 the use of off-highway vehicles or mechanized
21 tools and equipment.

22 (D) The construction of new grazing im-
23 provements or replacement of deteriorated fa-
24 cilities in areas designated by this section is au-

1 thorized if in accordance with the applicable
2 land management plan.

3 (E) The use of off-highway vehicles for
4 emergency purposes such as care of sick ani-
5 mals or the placement of feed and water in
6 emergency situations is authorized by the appli-
7 cable grazing permit holder or an employee or
8 agent thereof.

9 (F) Access to historic and traditional water
10 sources for the purpose of watering livestock
11 shall be maintained.

12 (G) The trailing of domestic livestock shall
13 continue and shall not be limited by the des-
14 ignations made under section 401.

15 (3) UTAH DEPARTMENT OF AGRICULTURE AND
16 FOOD.—In instances in which historic grazing loca-
17 tions, access, or use is disputed by the grazing per-
18 mittee, data and information provided by the Utah
19 Department of Agriculture shall be given consider-
20 ation by the Secretary to establish historic access,
21 locations, or use.

22 (e) ADJACENT MANAGEMENT.—

23 (1) IN GENERAL.—Nothing in this title creates
24 a protective perimeter or buffer zone around the
25 Area.

1 (2) ACTIVITIES OUTSIDE THE AREA.—The fact
2 that an activity or use on land outside the Area can
3 be seen, heard, felt or smelled within the Area shall
4 not preclude the activity or use outside the boundary
5 of the Area.

6 (f) OUTFITTING AND GUIDE ACTIVITIES.—Commer-
7 cial services (including authorized outfitting and guide ac-
8 tivities) within the Area are authorized to the extent nec-
9 essary to realize the recreational purposes of the areas.

10 (g) FISH AND WILDLIFE.—Nothing in this section
11 affects the jurisdiction of the State of Utah with respect
12 to the management of fish and wildlife on Federal land
13 in the State, including the regulation of hunting, fishing,
14 and trapping and use of helicopters to maintain healthy
15 wildlife populations, within the Area.

16 (h) ACCESS.—The Secretary shall provide the owner
17 of State or private property within the boundary of the
18 Area.

19 (i) WILDLIFE WATER DEVELOPMENT PROJECTS.—
20 Structures and facilities, including future and existing
21 structures and facilities, for wildlife water development
22 projects (including guzzlers) in the Area are authorized.

23 (j) WATER RIGHTS.—

24 (1) STATUTORY CONSTRUCTION.—Nothing in
25 this title—

1 (A) shall constitute either an express or
2 implied reservation by the United States of any
3 water rights with respect to the High Uintas
4 Special Management Area;

5 (B) affects any water rights in the State of
6 Utah existing on the date of enactment of this
7 Act;

8 (C) establishes a precedent with regard to
9 any future special management areas designa-
10 tions; and

11 (D) shall restrict or prohibit the upstream
12 diversion of water rights held under Utah State
13 law.

14 (2) UTAH WATER LAW.—The Secretary shall
15 follow the procedural and substantive requirements
16 of State law to obtain and hold any water rights not
17 in existence on the date of the enactment of this Act
18 with respect to the Area.

19 (3) EFFECTS ON STATE WATER RIGHTS.—The
20 Secretary shall not take any action that adversely
21 affects—

22 (A) any water rights granted by the State;

23 (B) the authority of the State in adjudi-
24 cating water rights;

1 (C) definitions established by the State
2 with respect to the term “beneficial use” or
3 “priority of rights”;

4 (D) terms and conditions for groundwater
5 withdrawal;

6 (E) the use of groundwater resources that
7 are in accordance with State law; or

8 (F) other rights or obligations of the State
9 as established under State law.

10 (4) EXISTING WATER INFRASTRUCTURE.—

11 (A) Nothing in this title shall be construed
12 to limit off-highway vehicle access and road
13 maintenance by local municipalities, water dis-
14 tricts or irrigation districts, for those mainte-
15 nance activities necessary to guarantee the con-
16 tinued viability of water resource facilities that
17 currently exist or which may be necessary in
18 the future to prevent the degradation of the
19 water supply in the Area.

20 (B) Nothing in this title shall be construed
21 to encumber, transfer, impair, or limit any
22 water right, or recognized beneficial use, includ-
23 ing access to, development, and use of livestock
24 water rights as defined by State law.

1 (k) PERMANENT ROAD CONSTRUCTION.—After the
2 date of enactment of this Act, except as necessary for ad-
3 ministrative purposes or to respond to an emergency, the
4 Secretary shall not construct any permanent road within
5 the Area.

6 (l) TEMPORARY ROAD CONSTRUCTION.—The Sec-
7 retary is authorized to construct temporary passenger ve-
8 hicle roads for administrative or emergency purposes. The
9 Secretary shall decommission any temporary road con-
10 structed under this subsection not later than 3 years after
11 the date the road is constructed.

12 (m) USE OF OFF-HIGHWAY OR MOTORIZED VEHI-
13 CLES.—Except as necessary to meet the minimum require-
14 ments for the administration of the Area and to protect
15 public health and safety, the use of off-highway vehicle
16 or motorized vehicles is prohibited.

17 (n) COMMERCIAL TIMBER HARVESTING.—Commer-
18 cial timber harvesting within the Area is prohibited.

19 (o) OVERSNOW VEHICLES.—The Secretary of Agri-
20 culture shall authorize the use of snowmobiles and other
21 oversnow vehicles within the High Uintas Special Manage-
22 ment Area when there is at least six inches of snow cov-
23 erage.

1 **SEC. 405. LITTLE WEST FORK BLACKS FORK SPECIAL MAN-**
2 **AGEMENT AREA.**

3 (a) ESTABLISHMENT.—Subject to valid existing
4 rights, the approximately 8,231 acres of the Wasatch
5 Cache National Forest in Summit County, Utah as gen-
6 erally depicted on the map entitled “Utah PLI Little West
7 Fork Blacks Special Management Area Map” dated June
8 24, 2016, is established as the “Little West Fork Blacks
9 Fork Special Management Area”.

10 (b) MAP AND LEGAL DESCRIPTION.—

11 (1) IN GENERAL.—Two years after the date of
12 enactment of this Act, the shall file a map and legal
13 description of the Little West Fork Blacks Fork
14 Special Management Area with the Committee on
15 Natural Resources of the House of Representatives
16 and the Committee on Energy and Natural Re-
17 sources and the Committee on Agriculture, Nutri-
18 tion, and Forestry of the Senate.

19 (2) EFFECT.—The map and legal description
20 prepared under paragraph (1) shall have the same
21 force and effect as if included in this title, except
22 that the Secretary may correct minor errors in the
23 map or legal description provided that prior to any
24 modifications, clerical or typographical changes,
25 these changes are reported to the State of Utah and
26 the affected county.

1 (3) PUBLIC AVAILABILITY.—A copy of the map
2 and legal description shall be on file and available
3 for public inspection in the appropriate offices of the
4 United States Forest Service.

5 **SEC. 406. ADMINISTRATION OF LITTLE WEST FORK BLACKS**
6 **FORK SPECIAL MANAGEMENT AREA.**

7 (a) PURPOSE.—The purpose of the Little West Fork
8 Blacks Fork Special Management Area is to manage,
9 maintain, and restore watershed and ecosystem function
10 and aquatic habitat within the Area.

11 (b) ADMINISTRATION.—The Secretary shall admin-
12 ister the Little West Fork Blacks Fork Special Manage-
13 ment Area:

14 (1) in a manner that promotes, protects, and
15 manages the resources of the Little West Fork
16 Blacks Fork Special Management Area described in
17 subsection (a); and

18 (2) in accordance with—

19 (A) the National Forest Management Act
20 of 1976 (16 U.S.C. 1600 et seq.);

21 (B) this title; and

22 (C) other applicable laws.

23 (c) MANAGEMENT PLAN.—

24 (1) PLAN REQUIRED.—Not later than two years
25 after the date of enactment of this Act, the Sec-

1 retary shall develop a management plan for the long-
2 term management of the Little West Fork Blacks
3 Fork Special Management Area .

4 (2) RECOMMENDATIONS AND CONSULTATION.—

5 The Secretary shall prepare the management plan in
6 consultation and coordination with local and tribal
7 governments, the public, and the Public Lands Ini-
8 tiative Planning and Implementation Advisory Com-
9 mittee established under Division C of this Act. If
10 the Secretary of the Interior does not incorporate
11 recommendations submitted by the State, local gov-
12 ernments, and Indian tribes into the management
13 plans, the Secretary shall submit a written expla-
14 nation before the effective date of the management
15 plan to the House Committee on Natural Resources
16 and Senate Committee on Energy and Natural Re-
17 sources outlining the reasons for rejecting the rec-
18 ommendations of the State, local governments and
19 tribes.

20 (d) USES.—The Secretary shall allow only such uses
21 of the special management area that would further the
22 purposes outlined in subsection (a) and the following:

23 (1) Include skiing, biking, hiking, fishing, hunt-
24 ing, horseback riding, snowmobiling, motorcycle

1 riding, off-highway vehicle use, snowshoeing, and
2 camping.

3 (2) Allow for reintroduction of native flora
4 (land and aquatic), bird, fish and animal fauna in
5 Little West Fork Blacks Fork Special Management
6 Area.

7 (3) Restore watershed function and health and
8 re-establish ecosystem health in areas damaged or
9 threatened by insects and disease.

10 (4) Restore the balance of the ecosystem health
11 damaged or threatened by overpopulation of any
12 plant, aquatic or animal species.

13 (5) Allow hazardous fuels reduction and forest
14 health treatments to restore watershed and eco-
15 system function, reduce hazardous fuels, and to pro-
16 tect property in the wildland urban interface.

17 **SEC. 407. LITTLE WEST FORK BLACKS FORK SPECIAL MAN-**
18 **AGEMENT AREA GENERAL PROVISIONS.**

19 (a) OFF-HIGHWAY VEHICLES.—

20 (1) IN GENERAL.—Except in cases in which off-
21 highway vehicles are needed for administrative pur-
22 poses or to respond to an emergency, the use of off-
23 highway vehicles shall be permitted only on des-
24 ignated routes within the Little West Fork Blacks
25 Fork Special Management Area.

1 (2) MANAGEMENT.—The Secretary shall man-
2 age existing designated routes in a manner that—

3 (A) is consistent with off-highway vehicle
4 and mechanized use of the designated routes
5 authorized under the applicable travel manage-
6 ment plan;

7 (B) does not significantly damage des-
8 ignated critical habitat or cultural resources;
9 and

10 (C) does not interfere with private prop-
11 erty or water rights.

12 (3) CLOSURE.—The Secretary, in consultation
13 with the State and affected County, may temporarily
14 close or permanently reroute, subject to subpara-
15 graph (4), a route if the Secretary determines
16 that—

17 (A) the route is significantly damaging
18 designated critical habitat or cultural resources;

19 (B) the route threatens public safety;

20 (C) closure of the route is necessary to re-
21 pair damage to the designated route; or

22 (D) closure of the route is necessary to re-
23 pair resource damage.

24 (4) REROUTING.—Portions of the designated
25 route that are temporarily closed may be perma-

1 nently rerouted by utilizing a previously-closed route
2 or constructing a new route.

3 (5) NOTICE.—The Secretary shall provide infor-
4 mation to the public regarding any designated routes
5 that are open, have been rerouted, or are tempo-
6 rarily or permanently closed through—

7 (A) use of appropriate signage within the
8 Conservation Area;

9 (B) use of the internet and web resources.

10 (b) NO EFFECT ON NON-FEDERAL LAND OR INTER-
11 ESTS IN NON-FEDERAL LAND.—Nothing in this section
12 affects ownership, management, or other rights relating
13 to non-Federal land or interests in non-Federal land.

14 (c) PERMANENT ROAD CONSTRUCTION.—Except as
15 necessary for administrative purposes or to respond to an
16 emergency, the Secretary shall not construct any perma-
17 nent roads within the Little West Fork Blacks Fork Spe-
18 cial Management Area after the date of enactment of this
19 Act.

20 (d) TEMPORARY ROAD CONSTRUCTION.—The Sec-
21 retary shall be permitted to construct temporary roads to
22 implement the purposes of the area, including constructing
23 temporary roads for fuel reduction, forest health treat-
24 ments and prescribed burns. The Secretary shall decom-
25 mission any temporary road constructed under a project

1 under this section not later than three years after the date
2 on which the forest management project is completed.

3 (e) OVERSNOW VEHICLES.—The Secretary shall au-
4 thorize the use of snowmobiles and other oversnow vehicles
5 within the Little West Fork Blacks Fork Special Manage-
6 ment Area when there is at least six inches of snow cov-
7 erage.

8 (f) FIRE, INSECTS, AND DISEASE.—In accordance
9 with this section, the Secretary may—

10 (1) carry out measures to manage wildland fire
11 and treat hazardous fuels, insects, and diseases in
12 the Little West Fork Blacks Fork Special Manage-
13 ment Area; and

14 (2) coordinate those measures with the appro-
15 priate State or local agency.

16 (h) WILDLAND FIRE OPERATIONS.—Nothing in this
17 title precludes a Federal, State, or local agency from con-
18 ducting wildfire management operations (including oper-
19 ations using aircraft or mechanized equipment) in the
20 Area designated under section 405.

21 (i) LIVESTOCK GRAZING.—

22 (1) IN GENERAL.—Within the Little West Fork
23 Blacks Fork Special Management Area, the grazing
24 of livestock in which grazing is established before
25 the date of enactment of this Act shall continue sub-

1 ject to reasonable regulations as prescribed by the
2 relevant Secretary.

3 (2) PROTECTION OF EXISTING USES.—Existing
4 livestock grazing shall continue in accordance with
5 the following guidelines:

6 (A) There shall be no reductions of grazing
7 in the areas designated by section 405 simply
8 because an area is or has been designated.

9 (B) The number of livestock permitted to
10 graze in areas designated by section 405 shall
11 continue at approximate stocking levels pre-
12 scribed in the grazing permit that existed on
13 January 1, 2016 and additional or suspended
14 animal unit months shall be authorized to graze
15 as range conditions allow or if range treatments
16 improve conditions. Animal Unit Months shall
17 only be diminished as a result of revisions in
18 the normal grazing and land management plan-
19 ning and policy setting process.

20 (C) The maintenance of existing grazing
21 supporting facilities in an area prior to its des-
22 ignated by section 405 (including fences, place-
23 ment of salt and minerals, line cabins, water
24 wells and pipelines, stock tanks and ponds),
25 shall continue. Such maintenance may include

1 the use of off-highway vehicles or mechanized
2 tools and equipment.

3 (D) The construction of new grazing im-
4 provements or replacement of deteriorated fa-
5 cilities in areas designated by section 405 is au-
6 thorized if in accordance with the applicable
7 land management plan.

8 (E) The use of off-highway vehicles for
9 emergency purposes such as care of sick ani-
10 mals or the placement of feed and water in
11 emergency situations is authorized by the appli-
12 cable grazing permit holder or an employee or
13 agent thereof.

14 (F) Access to historic and traditional water
15 sources for the purpose of watering livestock
16 shall be maintained.

17 (G) The trailing of domestic livestock shall
18 continue and shall not be limited by the des-
19 ignations made under section 405.

20 (3) UTAH DEPARTMENT OF AGRICULTURE AND
21 FOOD.—In instances in which historic grazing loca-
22 tions, access, or use is disputed by the grazing per-
23 mittee, data and information provided by the Utah
24 Department of Agriculture shall be given consider-

1 ation by the Secretary to establish historic access,
2 locations, or use.

3 (j) EXISTING EASEMENTS AND RIGHTS-OF-WAY.—

4 Nothing in this title precludes the Secretary from renew-
5 ing easements or rights-of-way in existence as of the date
6 of enactment of this Act, in accordance with this title and
7 existing law.

8 (k) ADJACENT MANAGEMENT.—

9 (1) IN GENERAL.—Nothing in this title creates
10 a protective perimeter or buffer zone around the Lit-
11 tle West Fork Blacks Fork Special Management
12 Area designated by section 405.

13 (2) ACTIVITIES OUTSIDE SPECIAL MANAGE-

14 MENT AREA.—The fact that an activity or use on
15 land outside the Little West Fork Blacks Fork Spe-
16 cial Management Area can be seen, heard, felt or
17 smelled within the Little West Fork Blacks Fork
18 Special Management Area shall not preclude the ac-
19 tivity or use outside the boundary of Little West
20 Fork Blacks Fork Special Management Area

21 (l) OUTFITTING AND GUIDE ACTIVITIES.—As per-

22 mitted as of January 1, 2016, commercial services (includ-
23 ing authorized outfitting and guide activities) within the
24 Little West Fork Blacks Special Management Area are

1 authorized to the extent necessary to realize the rec-
2 reational purposes of the areas.

3 (m) FISH AND WILDLIFE.—Nothing in this section
4 affects the jurisdiction of the State of Utah with respect
5 to the management of fish and wildlife on Federal land
6 in the State, including the regulation of hunting, fishing,
7 and trapping within the Little West Fork Blacks Fork
8 Special Management Area.

9 (n) ACCESS.—Consistent with the purposes of section
10 406(a), and as authorized as of the date of enactment of
11 this section, the Secretary shall provide the owner of
12 State, tribal, or private property within the boundary of
13 the Little West Fork Blacks Fork Special Management
14 Area access to the property.

15 (o) WATER RIGHTS.—

16 (1) STATUTORY CONSTRUCTION.—Nothing in
17 this title—

18 (A) shall constitute either an express or
19 implied reservation by the United States of any
20 water rights with respect to the Little West
21 Fork Blacks Fork Special Management Areas
22 designated by section 405;

23 (B) affects any water rights in the State of
24 Utah;

1 (C) establishes a precedent with regard to
2 any future Special Management Areas designa-
3 tions; and

4 (D) shall restrict or prohibit the upstream
5 diversion of water rights held under Utah State
6 law.

7 (2) UTAH WATER LAW.—The Secretary shall
8 follow the procedural and substantive requirements
9 of State law to obtain and hold any water rights not
10 in existence on the date of the enactment of this Act
11 with respect to the Little West Fork Blacks Fork
12 Special Management Areas.

13 (3) EFFECTS ON STATE WATER RIGHTS.—The
14 Secretary shall not take any action that adversely
15 affects—

16 (A) any water rights granted by the State;

17 (B) the authority of the State in adjudi-
18 cating water rights;

19 (C) definitions established by the State
20 with respect to the term “beneficial use” or
21 “priority of rights”;

22 (D) terms and conditions for groundwater
23 withdrawal;

24 (E) the use of groundwater resources that
25 are in accordance with State law; or

1 (F) other rights or obligations of the State
2 as established under State law.

3 (4) EXISTING WATER INFRASTRUCTURE.—

4 Nothing in this section shall be construed to—

5 (A) limit off-highway vehicle access and
6 road maintenance by local municipalities, irriga-
7 tion districts, or water districts for those main-
8 tenance activities necessary to guarantee the
9 continued viability of water resource facilities
10 that currently exist or which may be necessary
11 in the future to prevent the degradation of the
12 water supply in the Little West Fork Blacks
13 Fork Special Management Area designated by
14 section 405; and

15 (B) encumber, transfer, impair, or limit
16 any water right, or recognized beneficial use, in-
17 cluding access to, development, and use of live-
18 stock water rights as defined by State law.

19 (p) VEGETATION MANAGEMENT.—Consistent with
20 the purposes of the Little West Fork Blacks Fork Special
21 Management Area, nothing in this section prevents the
22 Secretary from conducting vegetation management
23 projects within the Little West Fork Blacks Fork Special
24 Management Area.

1 (q) COMMERCIAL TIMBER HARVEST.—Consistent
2 with the purposes of the Little West Fork Blacks Fork
3 Special Management Area commercial timber harvest is
4 authorized if the primary purpose of harvest is to restore
5 or improve forest resiliency and watershed function or to
6 further the purposes described in section 405.

7 (r) WITHDRAWAL.—Subject to valid existing rights,
8 the Federal land within the Little West Fork Blacks Fork
9 Special Management Area designated by section 405 are
10 withdrawn from—

11 (1) all forms of entry, appropriation, and dis-
12 posal under the Federal land laws;

13 (2) location, entry, and patent under the mining
14 laws; and

15 (3) operation of the mineral leasing, mineral
16 materials, and geothermal leasing laws.

17 **SEC. 408. DESOLATION CANYON, NINE MILE CANYON,**
18 **WHITE RIVER AND BOOKS CLIFFS SPORTS-**
19 **MEN'S SPECIAL MANAGEMENT AREAS.**

20 (a) ESTABLISHMENT.—Subject to valid existing
21 rights, the following areas in the State of Utah are hereby
22 established as Special Management Areas:

23 (1) DESOLATION CANYON.—Certain Federal
24 land, comprising approximately 8,770 acres adminis-
25 tered by the Bureau of Land Management in Carbon

1 County as generally depicted on the map entitled
2 Utah PLI Special Management Area Map dated
3 June 30, 2016, to be known as the “Desolation Can-
4 yon Special Management Area”.

5 (2) NINE MILE CANYON.—Certain Federal land,
6 comprising approximately 41,301 acres; 26,210
7 acres in Carbon County and 15,091 acres in
8 Duchesne County administered by the Bureau of
9 Land Management in Carbon County and Duchesne
10 County as generally depicted on the map entitled
11 Utah PLI Special Management Area Map dated
12 June 30, 2016, to be known as the “Nine Mile Can-
13 yon Special Management Area”.

14 (3) WHITE RIVER.—Certain Federal land, com-
15 prising approximately 15,790 acres administered by
16 the Bureau of Land Management in Uintah County
17 as generally depicted on the map entitled Utah PLI
18 Special Management Area Map dated June 30,
19 2016, to be known as the “White River Special
20 Management Area”.

21 (4) BOOKS CLIFFS SPORTSMENS.—Certain Fed-
22 eral land, comprising approximately 42,351 acres
23 administered by the Bureau of Land Management in
24 Uintah County as generally depicted on the map en-
25 titled Utah PLI Special Management Area Map

1 dated June 30, 2016, is established as “Book Cliffs
2 Sportsmens Special Management Area”.

3 (b) PURPOSES.—The purposes of the Desolation
4 Canyon, Nine Mile Canyon, and White River Special Man-
5 agement Areas (hereinafter referred to as the “Areas”)
6 established under subsection (a) is to—

7 (1) protect, conserve, and enhance the unique
8 and nationally important historic, cultural, scientific,
9 scenic, recreational, archaeological, natural, and edu-
10 cational resources of the Areas;

11 (2) maintain and enhance cooperative and inno-
12 vative management practices between resource man-
13 agers, private landowners, and the public in the
14 Areas; and

15 (3) recognize and maintains historic uses of the
16 Areas.

17 (c) BOOKS CLIFFS SPORTSMENS SPECIAL MANAGE-
18 MENT AREA PURPOSES.—The purpose of the Book Cliffs
19 Sportsmens Special Management Area (hereinto referred
20 to as the “Book Cliffs Area”) is to protect hunting and
21 fishing opportunities and habitat, manage and restore fish
22 and wildlife habitat, and facilitate hunting and fishing op-
23 portunities in a natural environment.

1 **SEC. 409. DESOLATION CANYON, NINE MILE CANYON,**
2 **WHITE RIVER AND BOOKS CLIFFS SPORTS-**
3 **MEN'S SPECIAL MANAGEMENT AREA MAP**
4 **AND LEGAL DESCRIPTION.**

5 (a) **IN GENERAL.**—Not later than two years after the
6 date of enactment of this Act, the Secretary of the Interior
7 (hereinafter referred to as the “Secretary”) shall file a
8 map and legal description of the Areas and the Books
9 Cliffs Area with the Committee on Natural Resources of
10 the House of Representatives and the Committee on En-
11 ergy and Natural Resources of the Senate.

12 (b) **EFFECT.**—The map and legal description pre-
13 pared under subsection (a) shall have the same force and
14 effect as if included in this section, except that the Sec-
15 retary may correct minor errors in the map or legal de-
16 scription provided that prior to any modifications, clerical
17 or typographical changes, these changes are reported to
18 the State of Utah and the affected county.

19 (c) **PUBLIC AVAILABILITY.**—A copy of the map and
20 legal description shall be on file and available for public
21 inspection in the appropriate offices of the Bureau of
22 Land Management.

1 **SEC. 410. ADMINISTRATION OF THE DESOLATION CANYON,**
2 **NINE MILE CANYON, AND WHITE RIVER SPE-**
3 **CIAL MANAGEMENT AREAS.**

4 (a) **PLAN REQUIRED.**—Not later than two years after
5 the date of enactment of this Act, the Secretary shall de-
6 velop a management plan for the long-term management
7 of each of the Areas.

8 (b) **RECOMMENDATIONS AND CONSULTATION.**—The
9 Secretary shall prepare the management plans in consulta-
10 tion and coordination with the State, local and tribal gov-
11 ernments, the public, and the Public Lands Initiative
12 Planning and Implementation Advisory Committee estab-
13 lished under Division C of this Act. If the Secretary does
14 not incorporate recommendations submitted by the State,
15 local, and Indian tribes into the management plans, the
16 Secretary shall submit a written explanation before the ef-
17 fective date of the management plan to the House Com-
18 mittee on Natural Resources and Senate Committee on
19 Energy and Natural Resources outlining the reasons for
20 rejecting the recommendations.

21 **SEC. 411. DESOLATION CANYON, NINE MILE CANYON, AND**
22 **WHITE RIVER SPECIAL MANAGEMENT AREA**
23 **GENERAL PROVISIONS.**

24 (a) **APPLICABILITY.**—The general provisions of sec-
25 tion 204 shall apply to the Areas.

1 (b) EXCEPTION.—The withdrawal provided by 204(a)
2 shall not apply to the Desolation Canyon Special Manage-
3 ment Area, White River Special Management Area, and
4 the Nine Mile Canyon Special Management Area.

5 (c) OIL & GAS LEASING.—The Secretary may lease
6 oil and gas resources in accordance with the Mineral Leas-
7 ing Act (30 U.S.C. 181 et seq.) subject to the following
8 conditions:

9 (1) The minerals may be accessed only by direc-
10 tional drilling from a lease held on the date of enact-
11 ment of this Act and accessed through surface estate
12 that is adjacent to, and outside of, the Areas.

13 (2) The lease shall prohibit surface occupancy
14 and surface disturbance for any mineral activities
15 within the Areas.

16 (c) NINE MILE CANYON ADDITIONAL PROVISIONS.—

17 (1) Energy development, including access needs
18 for energy development, within the Nine Mile Can-
19 yon Special Management Area shall be allowed
20 under the terms of the West Tavaputs Plateau
21 Project Final Environmental Impact Statement and
22 Record of Decision of July 2, 2010.

23 (2) Upon enactment of this section, the current
24 Area of Critical Environmental Concern designation
25 made under FLPMA (site) shall be permanently re-

1 moved from the Nine Mile Canyon Special Manage-
2 ment Area.

3 **SEC. 412. BOOK CLIFFS SPORTSMENS SPECIAL MANAGE-**
4 **MENT AREA ADDITIONAL PROVISIONS.**

5 (a) MANAGEMENT PLAN.—Not later than two years
6 after the date of enactment of this Act, the Secretary of
7 the Interior (hereinto referred to as the “Secretary”) shall
8 develop a management plan for the long-term manage-
9 ment of the Book Cliffs Area.

10 (1) RECOMMENDATIONS AND CONSULTATION.—

11 The Secretary of the Interior shall prepare the man-
12 agement plan in consultation and coordination with
13 the Advisory Council described in subsection (d)
14 below. If the Secretary of the Interior does not in-
15 corporate the recommendations submitted by the
16 Advisory Council into the management plan the Sec-
17 retary of the Interior shall submit a written expla-
18 nation before the effective date of the management
19 plan to the House Committee on Natural Resources
20 and Senate Committee on Energy and Natural Re-
21 sources outlining the reasons for rejecting the rec-
22 ommendations of the Advisory Council.

23 (2) REQUIREMENTS.—The management plan
24 shall be written in accordance with section 408(c).

1 (3) USES.—The Secretary shall only allow such
2 uses of the Books Cliffs Area that would further the
3 purposes of the Books Cliffs Area.

4 (b) VEGETATION MANAGEMENT.—Within the Book
5 Cliffs Area, the Secretary may authorize vegetation man-
6 agement, including mechanical treatments, to the extent
7 necessary to control fire, insects, or disease or to promote
8 and improve wildlife habitat and diversity as consistent
9 with the purposes of the Book Cliffs Area.

10 (c) MINERAL LEASING.—the Secretary may lease oil
11 and gas resources in accordance with the Mineral Leasing
12 Act (30 U.S.C. 181 et seq.) in the Books Cliffs Area sub-
13 ject to the following conditions:

14 (1) The area may be accessed only by direc-
15 tional drilling from a lease held on the date of enact-
16 ment of this Act on surface estate that is adjacent
17 to, and outside of, the Books Cliffs Area.

18 (2) The Books Cliff Area may be accessed only
19 by directional drilling if the mineral lease entered
20 into includes a non-waivable stipulation prohibiting
21 surface occupancy and surface disturbance for any
22 mineral activities within the Books Cliffs Area.

23 (d) WILDERNESS REVIEW.—The Secretary may not
24 promulgate or issue any system-wide regulation, directive,
25 instruction memorandum or order that would direct man-

1 agement of Federal lands designated under section 408
2 in a manner contrary to this title.

3 **SEC. 413. BOOK CLIFFS SPORTSMEN'S SPECIAL MANAGE-**
4 **MENT AREA ADVISORY COMMITTEE.**

5 (a) ESTABLISHMENT AND PURPOSE OF THE BOOK
6 CLIFFS SPORTSMEN'S SPECIAL MANAGEMENT AREA AD-
7 VISORY COMMITTEE.—

8 (1) ESTABLISHMENT.—The Secretary of the In-
9 terior shall establish and maintain the Book Cliffs
10 Sportsmen's Special Management Area Advisory
11 Committee (referred to in this title as the "Book
12 Cliffs Advisory Committee") to perform the duties in
13 subsection (b).

14 (2) PURPOSE.—The purpose of the Book Cliffs
15 Advisory Committee is to advise the Secretary of the
16 Interior on the Book Cliffs Special Management
17 Area.

18 (b) DUTIES.—The Book Cliffs Advisory Committee
19 shall advise the Secretary of the Interior with regard to—

20 (1) implementation of the Book Cliffs Special
21 Management Area Management Plan; and

22 (2) administration of the Book Cliffs Special
23 Management Area.

24 (c) APPOINTMENT BY THE SECRETARY.—

1 (1) APPOINTMENT AND TERM.—The Secretary
2 of the Interior shall appoint the members of the
3 Book Cliffs Advisory Committee for a term of 5
4 years beginning on the date of appointment. The
5 Secretary of the Interior may not reappoint mem-
6 bers to more than three terms.

7 (2) BASIC REQUIREMENTS.—The Secretary of
8 the Interior shall ensure that the Book Cliffs Advi-
9 sory Committee established meets the requirements
10 of subsection (d).

11 (3) INITIAL APPOINTMENT.—The Secretary of
12 the Interior shall make initial appointments to the
13 Book Cliffs Advisory Committee not later than 180
14 days after the date of the enactment of this Act.

15 (4) VACANCIES.—The Secretary of the Interior
16 shall make appointments to fill vacancies on the
17 Book Cliffs Advisory Committee as soon as prac-
18 ticable after the vacancy has occurred.

19 (5) COMPENSATION.—Members of the Book
20 Cliffs Advisory Committee shall not receive any com-
21 pensation.

22 (d) COMPOSITION OF BOOK CLIFFS ADVISORY COM-
23 MITTEE.—

1 (1) NUMBER.—The Book Cliffs Advisory Com-
2 mittee shall be comprised of no more than 11 mem-
3 bers.

4 (2) COMMUNITY INTERESTS REPRESENTED.—
5 Book Cliffs Advisory Committee members shall re-
6 side in the State of Utah and be representative of
7 the following members:

8 (A) State Division of Wildlife Resources
9 Director or one designee.

10 (B) Game bird hunting organization.

11 (C) Wildlife conservation organization.

12 (D) Big game hunting organization.

13 (E) Cold water fishing organization.

14 (F) Tourism, outfitter, or guiding indus-
15 try.

16 (G) Hunting or shooting equipment retail
17 industry.

18 (H) Ute Tribe.

19 (I) Forest or rangeland management spe-
20 cialist.

21 (J) Ranching industry in Uintah County.

22 (K) Uintah County Commission Chairman
23 or designee.

24 (3) PRESERVATION OF PUBLIC ADVISORY STA-
25 TUS.—No individual serving under section 402 may

1 be an officer or employee of the Federal Government
2 or State of Utah Government.

3 (4) BALANCED REPRESENTATION.—In appoint-
4 ing Book Cliffs Advisory Committee members from
5 the two categories in section 402, the Secretary of
6 the Interior shall provide for balanced and broad
7 representation from within each category.

8 (5) CHAIRPERSON.—The Secretary of the Inte-
9 rior shall select the chairperson of the Book Cliffs
10 Advisory Committee for a term of 5 years beginning
11 on the date of appointment.

12 (e) ANNUAL BOOK CLIFFS ADVISORY COMMITTEE
13 REPORT.—

14 (1) REPORT SUBMISSION.—The Book Cliffs Ad-
15 visory Committee shall submit a report no later than
16 September 30 of each year to the Secretary of the
17 Interior, the Committee on Natural Resources of the
18 House of Representatives, and the Committee on
19 Agriculture, Nutrition, and Forestry of the Senate.
20 If the Book Cliffs Advisory Committee cannot meet
21 the September 30 deadline in any year, the Sec-
22 retary of the Interior shall advise the Chair of each
23 such Committee of the reasons for such delay and
24 the date on which the submission of the report is an-
25 ticipated.

1 (2) CONTENTS.—The report required by para-
2 graph (1) shall describe—

3 (A) the activities of the Book Cliffs Advi-
4 sory Committee during the preceding year;

5 (B) the reports and recommendations
6 made by the Book Cliffs Advisory Committee to
7 the Secretary of the Interior during the pre-
8 ceding year; and

9 (C) an accounting of actions taken by the
10 Secretary of the Interior as a result of the rec-
11 ommendations.

12 (f) OTHER BOOK CLIFFS ADVISORY COMMITTEE AU-
13 THORITIES AND REQUIREMENTS.—

14 (1) STAFF ASSISTANCE.—The Book Cliffs Advi-
15 sory Committee may submit to the Secretary of the
16 Interior a request for periodic staff assistance from
17 Federal employees under the jurisdiction of the Sec-
18 retary.

19 (2) MEETINGS.—

20 (A) FREQUENCY.—The Book Cliffs Advi-
21 sory Committee shall meet at the call of the
22 Secretary of the Interior, the Chairperson, or a
23 majority of the members. Meetings shall be held
24 no fewer than 1 time a year. A majority must

1 be present to constitute an official meeting of
2 the Book Cliffs Advisory Committee.

3 (B) OPEN MEETINGS.—All meetings of the
4 Book Cliffs Advisory Committee shall be an-
5 nounced at least one week in advance in publi-
6 cations of general circulation and shall be open
7 to the public.

8 (3) RECORDS.—The Book Cliffs Advisory Com-
9 mittee shall maintain records of the meetings of the
10 Book Cliffs Advisory Committee and make the
11 records available for public inspection.

12 **TITLE V—ARCHES NATIONAL** 13 **PARK EXPANSION**

14 **SEC. 501. ARCHES NATIONAL PARK EXPANSION.**

15 Section 1 of Public Law 92–155 is amended—

16 (1) by inserting the following after paragraph
17 (2)—

18 “(3) Effective on the date of enactment of the
19 Utah Public Lands Initiative Act, the boundary of
20 the park shall include the area consisting of approxi-
21 mately 18,779 acres and depicted as Arches Expans-
22 sion on the map entitled ‘Utah PLI Park and Monu-
23 ment Map’ dated June 24, 2016.”;

24 (2) by redesignating paragraph (3) as para-
25 graph (4); and

1 (3) in paragraph (4), as so designated by para-
2 graph (2) of this provision, by striking “(1) and (2)”
3 and inserting instead “(1), (2), and (3)”.

4 **TITLE VI—JURASSIC NATIONAL** 5 **MONUMENT**

6 **SEC. 601. JURASSIC NATIONAL MONUMENT.**

7 (a) **PURPOSES.**—To conserve, interpret, and enhance
8 for the benefit of present and future generations the pale-
9 ontological, scientific, educational, and recreational re-
10 sources, there is established in Emery County, Utah, sub-
11 ject to valid existing rights, the Jurassic National Monu-
12 ment (hereinafter referred to in this title as the “Monu-
13 ment”).

14 (b) **BOUNDARIES.**—The Monument shall consist of
15 approximately 867 acres of Federal land in Emery Coun-
16 ty, Utah as generally depicted on the map entitled “Utah
17 PLI Park and Monument Map” dated June 24, 2016, to
18 be known as the “Jurassic National Monument”.

19 (c) **MAP AND LEGAL DESCRIPTION.**—

20 (1) **IN GENERAL.**—Two years after the date of
21 enactment of this Act, the Secretary of the Interior
22 (hereinafter referred to as the “Secretary”) shall file
23 a map and legal description of the Monument with
24 the Committee on Natural Resources of the House

1 of Representatives and the Committee on Energy
2 and Natural Resources of the Senate.

3 (2) EFFECT.—The map and legal description
4 prepared under paragraph (1) shall have the same
5 force and effect as if included in this section, except
6 that the Secretary may correct minor errors in the
7 map or legal description provided that prior to any
8 modifications, clerical or typographical changes,
9 these changes are reported to the State of Utah and
10 the affected county.

11 (3) PUBLIC AVAILABILITY.—A copy of the map
12 and legal description shall be on file and available
13 for public inspection in the appropriate offices of the
14 Bureau of Land Management.

15 (d) ACQUISITION OF LAND.—

16 (1) IN GENERAL.—The Secretary may acquire
17 land or interests in land within the boundaries of the
18 Monument only by donation, exchange, transfer
19 from another agency, or purchase from a willing sell-
20 er.

21 (2) LAND EXCHANGE.—At the request of the
22 State, not later than two years after the date of en-
23 actment of this Act, the Secretary shall complete ex-
24 changes for State land located within the boundaries
25 of the Monument designated by this title.

1 (3) NO CONDEMNATION.—Within the Monu-
2 ment designated by this section the use of eminent
3 domain or condemnation shall be prohibited.

4 (e) WITHDRAWALS.—Subject to valid existing rights,
5 any land within the Monument or any land or interest in
6 land that is acquired by the United States for inclusion
7 in the Monument after the date of enactment of this sec-
8 tion is withdrawn from—

9 (1) entry, appropriation, or disposal under the
10 Federal land laws;

11 (2) location, entry, and patent under the mining
12 laws; and

13 (3) operation of the mineral leasing laws, geo-
14 thermal leasing laws, and minerals materials laws.

15 (f) MANAGEMENT PLAN.—

16 (1) PLAN REQUIRED.—Not later than two years
17 after the date of enactment of this Act, the Sec-
18 retary shall develop a management plan for the long-
19 term management of the Monument, including con-
20 sideration of enhanced transportation routes, out-
21 door recreation planning, and promotion of scientific
22 research.

23 (2) RECOMMENDATIONS AND CONSULTATION.—
24 The Secretary shall prepare the management plan in
25 consultation and coordination with State, local and

1 tribal governments, the public, and the Public Lands
2 Initiative Planning and Implementation Advisory
3 Committee established under Division C of this Act.
4 If the Secretary does not incorporate recommenda-
5 tions submitted by the State, local governments, and
6 Indian tribes into the management plans, the Sec-
7 retary shall submit a written explanation before the
8 effective date of the management plan to the House
9 Committee on Natural Resources and Senate Com-
10 mittee on Energy and Natural Resources outlining
11 the reasons for rejecting the recommendations of the
12 State and local governments and tribes.

13 (3) USES.—The Secretary shall allow only such
14 uses of the Monument that would further the pur-
15 poses outlined in subsection (a).

16 (g) ADMINISTRATION.—The Secretary shall admin-
17 ister the Monument in accordance with—

18 (1) the management plan; and

19 (2) any other applicable laws.

20 (h) ADJACENT MANAGEMENT.—

21 (1) IN GENERAL.—Nothing in this title creates
22 a protective perimeter or buffer zone around the
23 Monument designated by this section.

24 (2) ACTIVITIES OUTSIDE MONUMENT.—The
25 fact that an activity or use on land outside the

1 Monument can be seen, heard, felt or smelled within
2 the Monument shall not preclude the activity or use
3 outside the boundary of the Monument.

4 **TITLE VII—WILD AND SCENIC**
5 **RIVERS**

6 **SEC. 701. WILD AND SCENIC RIVERS.**

7 (a) ADDITIONS.—Section 3(a) of the Wild and Scenic
8 Rivers Act (16 U.S.C. 1274(a)) is amended by adding at
9 the end the following:

10 “(213) COLORADO RIVER.—The following seg-
11 ments in the State of Utah, to be administered by
12 the Secretary of the Interior as follows:

13 “(A) The approximately 12.6 mile segment
14 in Grand County as generally depicted on the
15 Utah PLI Wild and Scenic River Map dated
16 July 11, 2016, as a wild river.

17 “(B) The approximately 12.6 mile segment
18 in Grand County as generally depicted on the
19 Utah PLI Wild and Scenic River Map dated
20 June 11, 2016, as a scenic river.

21 “(C) The approximately 52.2mile segment
22 in Grand County as generally depicted on the
23 Utah PLI Wild and Scenic River Map dated
24 June 11, 2016, as a recreational river.

1 “(D) The approximately 27.1 mile segment
2 in Grand County as generally depicted on the
3 Utah PLI Wild and Scenic River Map dated
4 June 11, 2016, as a scenic river.

5 “(214) DOLORES RIVER.—The following seg-
6 ments in the State of Utah, to be administered by
7 the Secretary of the Interior as follows:

8 “(A) The approximately 5.6 mile segment
9 in Grand County as generally depicted on the
10 Utah PLI Wild and Scenic River Map dated
11 June 11, 2016, as a recreational river.

12 “(B) The approximately 5.8 mile segment
13 in Grand County as generally depicted on the
14 Utah PLI Wild and Scenic River Map dated
15 June 11, 2016, as a scenic river.

16 “(C) The approximately 11.5 mile segment
17 in Grand County as generally depicted on the
18 Utah PLI Wild and Scenic River Map dated
19 June 11, 2016, as a recreational river.

20 “(215) GREEN RIVER.—The following segments
21 in the State of Utah, to be administered by the Sec-
22 retary of the Interior as follows:

23 “(A) The approximately 69.5 mile river
24 segment in Uintah, Carbon, Emery, and Grand
25 Counties as generally depicted on the Utah PLI

1 Wild and Scenic River Map dated June 11,
2 2016, as a as a scenic river.

3 “(B) The approximately 19.2 mile river
4 segment in Emery and Grand Counties as gen-
5 erally depicted on the Utah PLI Wild and Sce-
6 nic River Map dated June 11, 2016, as a wild
7 river.

8 “(C) The approximately 8.5 mile river seg-
9 ment in Emery and Grand Counties as gen-
10 erally depicted on the Utah PLI Wild and Sce-
11 nic River Map dated June 11, 2016, as a rec-
12 reational river.

13 “(D) The approximately 109.4 mile river
14 segment in Emery and Grand Counties as gen-
15 erally depicted on the Utah PLI Wild and Sce-
16 nic River Map dated July 11, 2016, as a scenic
17 river.

18 “(216) DARK CANYON.—The approximately 6.3
19 mile river segment in San Juan County as generally
20 depicted on the Utah PLI Wild and Scenic River
21 Map dated July 11, 2016, as a wild river.

22 “(217) SAN JUAN RIVER.—The approximately
23 17.2 mile river segment in San Juan County as gen-
24 erally depicted on the Utah PLI Wild and Scenic
25 River Map dated July 11, 2016, as a wild river.”.

1 (b) ADJACENT MANAGEMENT.—

2 (1) IN GENERAL.—Nothing in this title creates
3 a protective perimeter or buffer zone around a wild
4 and scenic river designated by this title.

5 (2) ACTIVITIES OUTSIDE WILD AND SCENIC
6 RIVER.—The fact that an activity or use on land
7 outside a wild and scenic river designated under this
8 title can be seen, heard, felt or smelled within the
9 wild and scenic river shall not preclude the activity
10 or use outside the boundary of the wild and scenic
11 river.

12 (c) ACQUISITION.—The Secretary of the Interior may
13 acquire land or interest in land within the boundaries of
14 the wild and scenic river areas designated by this title only
15 by donation, exchange, or transfer from another agency.

16 (d) NO CONDEMNATION.—Within the areas des-
17 igned by this title the use of eminent domain or con-
18 demnation shall be prohibited.

19 (e) OUTFITTING AND GUIDE ACTIVITIES.—Commer-
20 cial services (including authorized outfitting and guide ac-
21 tivities) within the wild and scenic rivers designated by
22 this title are authorized to the extent necessary to realize
23 the recreational purposes of the areas.

24 (f) MAPS AND LEGAL DESCRIPTION.—

1 (1) IN GENERAL.—Not later than two years
2 after the date of enactment of this Act, the Sec-
3 retary of the Interior shall file a map and legal de-
4 scription of the river segments designated by this
5 title with the Committee on Natural Resources of
6 the House of Representatives and the Committee on
7 Energy and Natural Resources of the Senate.

8 (2) EFFECT.—The map and legal description
9 prepared under paragraph (1) shall have the same
10 force and effect as if included in this title, except
11 that the Secretary of the Interior may correct minor
12 errors in the map or legal description and provided
13 that prior to any modifications, clerical or typo-
14 graphical changes, these changes are reported to the
15 State of Utah and the affected counties.

16 (3) PUBLIC AVAILABILITY.—A copy of the map
17 and legal description shall be on file and available
18 for public inspection in the appropriate offices of the
19 Bureau of Land Management.

1 **TITLE VIII — ASHLEY KARST NA-**
2 **TIONAL GEOLOGIC AND**
3 **RECREATION AREA**

4 **SEC. 801. ASHLEY KARST NATIONAL GEOLOGIC AND**
5 **RECREATION AREA.**

6 (a) ESTABLISHMENT.—Subject to valid existing
7 rights, including the rights of a tribe, the approximately
8 110,838 acres generally depicted on the map entitled Utah
9 PLI Special Management Area Map dated June 30, 2016,
10 are hereby established as the “Ashley Karst National Geo-
11 logic and Recreation Area”.

12 (b) PURPOSES.—The purposes of the Ashley Karst
13 National Geologic and Recreation Area (hereinto referred
14 to in this title as the “Area”) are to provide recreational
15 opportunities, protection and management of water re-
16 sources, utilization of commercial forest products and
17 withdrawal of minerals from development.

18 **SEC. 802. MAP AND LEGAL DESCRIPTION.**

19 (a) IN GENERAL.—Not later than two years after the
20 date of enactment of this Act, the Secretary of Agriculture
21 (hereinafter referred to as the “Secretary”) shall file a
22 map and legal description of the Ashley Karst National
23 Geologic and Recreation Area (hereinafter referred to as
24 the “Area” with the Committee on Natural Resources of

1 the House of Representatives and the Committee on En-
2 ergy and Natural Resources of the Senate.

3 (b) EFFECT.—The map and legal description pre-
4 pared under subsection (a) shall have the same force and
5 effect as if included in this title, except that the Secretary
6 may correct minor errors in the map or legal description
7 and provided that prior to any modifications, clerical or
8 typographical changes, these changes are reported to the
9 State of Utah and the affected county.

10 (c) PUBLIC AVAILABILITY.—A copy of the map and
11 legal description shall be on file and available for public
12 inspection in the appropriate offices of the United States
13 Forest Service and Bureau of Indian Affairs.

14 **SEC. 803. ADMINISTRATION.**

15 (a) ADMINISTRATION.—The Secretary shall admin-
16 ister the Area in accordance with—

17 (1) the National Forest Management Act of
18 1976 (16 U.S.C. 1600 et seq.);

19 (2) this title; and

20 (3) other applicable laws.

21 (b) MANAGEMENT.—Not later than two years after
22 the date of enactment of this Act, the Secretary shall de-
23 velop a management plan for the long-term management
24 of the Area.

1 (c) RECOMMENDATIONS AND CONSULTATION.—The
2 Secretary shall prepare the management plan in consulta-
3 tion and coordination with local and tribal governments,
4 the public, and the Public Lands Initiative Planning and
5 Implementation Advisory Committee established under Di-
6 vision C of this Act. If the Secretary does not incorporate
7 recommendations submitted by the State, local, and In-
8 dian tribes into the management plans, the Secretary shall
9 submit a written explanation before the effective date of
10 the management plan to the House Committee on Natural
11 Resources and Senate Committee on Energy and Natural
12 Resources outlining the reasons for rejecting the rec-
13 ommendations of the State, local and tribal governments.

14 (c) USES.—The Secretary shall allow only such uses
15 of the Area that would further the purposes outlined in
16 subsection 801(b) of this title and the following guidelines:

17 (1) Provide for recreational opportunities to
18 occur within the Area including skiing, biking, hik-
19 ing, fishing, hunting, horseback riding,
20 snowmobiling, designated trails for motorcycle riding
21 and off-highway vehicle use, snowshoeing, camping,
22 and other recreational activities consistent with this
23 title.

24 (2) Provide for active forest management, uti-
25 lizing commercial harvesting for hazardous fuels re-

1 duction, wildfire prevention, control of insects and
2 disease, and to improve watershed health.

3 (3) Prohibit mineral development.

4 (4) Promote the long-term protection and man-
5 agement of the water resources and underground
6 karst system.

7 **SEC. 804. GENERAL PROVISIONS.**

8 (a) OFF-HIGHWAY VEHICLE AND MOTORIZED VEHI-
9 CLES.—

10 (1) IN GENERAL.—The use of off-highway vehi-
11 cles and motorized vehicles shall be permitted within
12 the Area.

13 (2) MANAGEMENT.—The Secretary shall des-
14 ignate existing routes in a manner that—

15 (A) uses Forest Service roads and routes
16 existing as of January 1, 2016, and also new
17 roads authorized by this title;

18 (B) does not significantly damage des-
19 ignated critical habitat or cultural resources;

20 (C) does not interfere with private prop-
21 erty or water rights.

22 (3) CLOSURE.—The Secretary, in consultation
23 with the State and affected County, may temporarily
24 close or permanently reroute, subject to paragraph
25 (4), a route if the Secretary determines that—

1 (A) the route is significantly damaging
2 designated critical habitat or cultural resources;

3 (B) the route threatens public safety;

4 (C) closure of the route is necessary to re-
5 pair damage to the designated route; or

6 (D) closure of the route is necessary to re-
7 pair resource damage.

8 (4) REROUTING.—Portions of the designated
9 route that are temporarily closed may be perma-
10 nently rerouted by utilizing a previously-closed route
11 or constructing a new route.

12 (5) NOTICE.—The Secretary shall provide infor-
13 mation to the public regarding any designated routes
14 that are open, have been rerouted, or are tempo-
15 rarily or permanently closed through—

16 (A) use of appropriate signage within the
17 Conservation Area;

18 (B) use of the internet and web resources.

19 (b) PRIORITY ROUTES.—Marsh Peak South Road
20 and South Fork Road, as depicted on the Utah PLI Spe-
21 cial Management Area Map, shall be open for off-highway
22 vehicle use. Administrative access to Whiterocks Lake for
23 general and emergency purposes shall be allowed for the
24 United States Forest Service, State and local govern-

1 ments, and applicable water user association or utility
2 company.

3 (c) ROUTE CONSTRUCTION.—

4 (1) FEASIBILITY STUDY.—Not later than 180
5 days after the date of enactment of this Act, the
6 Secretary shall study the feasibility and public inter-
7 est of constructing new routes as needed to increase
8 or enhance hiking and motorized recreational oppor-
9 tunities and purposes of the area.

10 (2) CONSTRUCTION.—

11 (A) CONSTRUCTION AUTHORIZED.—If the
12 Secretary determines that the construction of a
13 route is feasible the may construct the route.

14 (B) USE OF VOLUNTEER SERVICES AND
15 CONTRIBUTIONS.—A route authorized under
16 this subsection may be constructed by volun-
17 teers, with volunteer services and contributions
18 from non-Federal sources.

19 (d) NO EFFECT ON NON-FEDERAL LAND OR INTER-
20 ESTS IN NON-FEDERAL LAND.—Nothing in this title af-
21 fects ownership, management, or other rights relating to
22 non-Federal land or interests in non-Federal land located
23 within the Area.

1 (e) OVERSNOW VEHICLES.—The Secretary shall au-
2 thorize the use of snowmobiles and other oversnow vehicles
3 in the Area when there is at least six inches of snow cover.

4 (f) FIRE, INSECTS, AND DISEASE.—In accordance
5 with this title, the Secretary may—

6 (1) carry out any measures to manage wildland
7 fire and treat hazardous fuels, insects, and diseases
8 in the Area; and

9 (2) coordinate those measures with the appro-
10 priate State, tribal, or local agency.

11 (h) WILDLAND FIRE OPERATIONS.—Nothing in this
12 title precludes a Federal, State, or local agency from con-
13 ducting wildfire management operations (including oper-
14 ations using aircraft or mechanized equipment) in the
15 Area designated under this title.

16 (i) LIVESTOCK GRAZING.—Within the Area des-
17 igned under section 801, the grazing of livestock estab-
18 lished before the date of enactment of this Act shall con-
19 tinue subject to reasonable regulations as prescribed by
20 the relevant Secretary.

21 (1) PROTECTION OF EXISTING USES.—Existing
22 livestock grazing shall continue in accordance with
23 the following guidelines:

24 (A) there shall be no reductions of grazing
25 in the areas designated by this title simply be-

1 cause an area is, or has been designated by this
2 title.

3 (B) the number of livestock permitted to
4 graze in areas designated by this title shall con-
5 tinue at approximate stocking levels prescribed
6 in the grazing permit that existed on January
7 1, 2016, and additional or suspended animal
8 unit months shall be authorized to graze as
9 range conditions allow or if range treatments
10 improve conditions. Animal Unit Months shall
11 only be diminished as a result of revisions in
12 the normal grazing and land management plan-
13 ning and policy setting process.

14 (C) the maintenance of existing grazing
15 supporting facilities in an area prior to its des-
16 ignated by this title (including fences, place-
17 ment of salt and minerals, line cabins, water
18 wells and pipelines, stock tanks and ponds),
19 shall continue. Such maintenance may include
20 the use of off-highway vehicles or mechanized
21 tools and equipment.

22 (D) the construction of new grazing im-
23 provements or replacement of deteriorated fa-
24 cilities in areas designated by this title is au-

1 thorized if in accordance with the applicable
2 land management plan.

3 (E) the use of off-highway vehicles for
4 emergency purposes such as care of sick ani-
5 mals or the placement of feed and water in
6 emergency situations is authorized by the appli-
7 cable grazing permit holder or an employee or
8 agent thereof.

9 (F) access to historic and traditional water
10 sources for the purpose of watering livestock
11 shall be maintained.

12 (G) the trailing of domestic livestock shall
13 continue and shall not be limited by the des-
14 ignations made under section 801(b).

15 (3) UTAH DEPARTMENT OF AGRICULTURE AND
16 FOOD.—In instances in which historic grazing loca-
17 tions, access, or use is disputed by the grazing per-
18 mittee, data and information provided by the Utah
19 Department of Agriculture shall be given consider-
20 ation by the Secretary to establish historic access,
21 locations, or use.

22 (j) EXISTING EASEMENTS AND RIGHTS-OF-WAY.—
23 Nothing in this title precludes the Secretary from renew-
24 ing easements or rights-of-way in existence on the date

1 of enactment of this Act, in accordance with this title and
2 existing law.

3 (k) ADJACENT MANAGEMENT.—

4 (1) IN GENERAL.—Nothing in this title creates
5 a protective perimeter or buffer zone around the
6 Area designated by section 801.

7 (2) ACTIVITIES OUTSIDE AREA.—The fact that
8 an activity or use on land outside the Area can be
9 seen, heard, felt or smelled within the Area shall not
10 preclude the activity or use outside the boundary of
11 the Area.

12 (l) OUTFITTING AND GUIDE ACTIVITIES.—Commer-
13 cial services (including authorized outfitting and guide ac-
14 tivities) within the Area are authorized to the extent nec-
15 essary to realize the recreational purposes of the areas.

16 (m) FISH AND WILDLIFE.—Nothing in this title af-
17 fects the jurisdiction of the State of Utah with respect
18 to the management of fish and wildlife on Federal land
19 in the State, including the regulation of hunting, fishing,
20 and trapping within the Area.

21 (n) ACCESS.—The Secretary shall provide the owner
22 of State, tribal or private property owners within the
23 boundary of the Area access to the property.

24 (o) WILDLIFE WATER DEVELOPMENT PROJECTS.—
25 Structures and facilities, including future and existing

1 structures and facilities, for wildlife water development
2 projects (including guzzlers) in the Area are authorized.

3 (p) WATER RIGHTS.—

4 (1) STATUTORY CONSTRUCTION.—Nothing in
5 this title—

6 (A) shall constitute either an express or
7 implied reservation by the United States of any
8 water rights with respect to the Area des-
9 ignated by section 801;

10 (B) affects any water rights in the State of
11 Utah;

12 (C) establishes a precedent with regard to
13 any future designations; and

14 (D) shall restrict or prohibit the upstream
15 diversion of water rights held under Utah State
16 law.

17 (2) UTAH WATER LAW.—The Secretary shall
18 follow the procedural and substantive requirements
19 of State law to obtain and hold any water rights not
20 in existence on the date of the enactment of this Act
21 with respect to the Area.

22 (3) EFFECTS ON STATE WATER RIGHTS.—The
23 Secretary shall not take any action that adversely
24 affects—

25 (A) any water rights granted by the State;

1 (B) the authority of the State in adjudi-
2 eating water rights;

3 (C) definitions established by the State
4 with respect to the term “beneficial use” or
5 “priority of rights”;

6 (D) terms and conditions for groundwater
7 withdrawal;

8 (E) the use of groundwater resources that
9 are in accordance with State law; or

10 (F) other rights or obligations of the State
11 as established under State law.

12 (4) EXISTING WATER INFRASTRUCTURE.—

13 (A) Nothing in this title shall be construed
14 to limit off-highway vehicle access and road
15 maintenance by local municipalities or water or
16 irrigation districts for those maintenance activi-
17 ties necessary to guarantee the continued viabil-
18 ity of water resource facilities that currently
19 exist or which may be necessary in the future
20 to prevent the degradation of the water supply
21 in the Area designated by section 801.

22 (B) Nothing in this title shall be construed
23 to encumber, transfer, impair, or limit any
24 water right, or recognized beneficial use, includ-

1 ing access to, development, and use of livestock
2 water rights as defined by State law.

3 (o) VEGETATION MANAGEMENT.—Nothing in this
4 title prevents the Secretary from conducting vegetation
5 management projects within the Area.

6 (p) WITHDRAWAL.—Subject to valid rights in exist-
7 ence on the date of enactment of this Act the Federal land
8 within the Area is withdrawn from—

9 (1) all forms of entry, appropriation, and dis-
10 posal under the Federal land laws;

11 (2) location, entry, and patent under the mining
12 laws; and

13 (3) operation of the mineral leasing, mineral
14 materials, and geothermal leasing laws.

15 (q) FEES.—Except for improved campgrounds, with-
16 in the Area the United States Forest Service is prohibited
17 from the collecting or requiring fees for access or use.

1 **DIVISION B—INNOVATIVE LAND**
2 **MANAGEMENT, RECREATION**
3 **AND ECONOMIC DEVELOP-**
4 **MENT**
5 **TITLE I—SCHOOL TRUST LAND**
6 **CONSOLIDATIONS**

7 **SEC. 101. FINDINGS AND PURPOSE.**

8 (a) FINDINGS.—Congress finds that the land ex-
9 change authorized and directed by this title furthers public
10 objectives referenced in section 206 of the Federal Land
11 Policy and Management Act of 1976 (43 U.S.C. 1716)
12 including—

13 (1) promoting better management of Federal
14 conservation areas by removing inheld State trust
15 land sections;

16 (2) securing Federal ownership and protection
17 of land with significant wildlife, recreational, scenic,
18 cultural and other public values;

19 (3) assisting the State of Utah and local gov-
20 ernments in economic development and community
21 expansion through the consolidation of State trust
22 lands in manageable blocks near several Utah com-
23 munities; and

24 (4) advancing public education through in-
25 creased opportunity for economic development of

1 Utah school trust lands, in furtherance of the land
2 grants made under the Utah Enabling Act, Act of
3 July 16, 1894 (28 Stat. 107, chapter 138).

4 (b) PURPOSE.—It is the purpose of this title to au-
5 thorize, direct, facilitate, and expedite the exchange of
6 land between the State of Utah and the United States.

7 **SEC. 102. DEFINITIONS.**

8 In this title:

9 (1) FEDERAL LAND.—The term “Federal land”
10 means the lands identified on the Map as “Federal
11 Land”, “Federal Land-Minerals Only”, and “Fed-
12 eral Land- Surface Only” administered by the Bu-
13 reau of Land Management located in Carbon,
14 Duchesne, Emery, Grand, San Juan and Uintah
15 Counties, Utah.

16 (2) MAP.—The term “Map” means the fol-
17 lowing map prepared by the Bureau of Land Man-
18 agement and entitled “State and Federal Land Ex-
19 change Map” dated July 12, 2016.

20 (3) NON-FEDERAL LAND.—The term “non-Fed-
21 eral land” means the lands identified on the Map as
22 “State Trust Land Proposed for Transfer to United
23 States”, “State Trust Lands – Surface Only Pro-
24 posed for Transfer to United States” and “State
25 Trust Lands—Minerals Only Proposed for Transfer

1 to United States” located in Carbon, Duchesne,
2 Emery, Grand, San Juan and Uintah Counties,
3 Utah, as generally depicted on the Map.

4 (4) SECRETARY.—The term “Secretary” means
5 the Secretary of the Interior.

6 (5) STATE.—The term “State” means the State
7 of Utah, acting as trustee under the Utah State
8 School and Institutional Trust Lands Management
9 Act (Utah Code Ann. 53C-1-101 et seq.) through
10 the Utah School and Institutional Trust Lands Ad-
11 ministration.

12 **SEC. 103. EXCHANGE OF LAND; RESERVATION OF INTER-**
13 **ESTS.**

14 (a) IN GENERAL.—If the State offers to convey to
15 the United States title to the non-Federal land, the Sec-
16 retary shall, subject to the provisions of this title—

17 (1) accept the offer; and

18 (2) on receipt of the right, title, and interest of
19 the State in and to the non-Federal land, convey to
20 the State all right, title, and interest of the United
21 States in and to the Federal land.

22 (b) VALID EXISTING RIGHTS.—The exchange author-
23 ized under subsection (a) shall be subject to valid existing
24 rights.

1 (c) COSTS.—Costs of the land exchange shall be allo-
2 cated in accordance with section 206(f)(2)(B) of the Fed-
3 eral Land Policy and Management Act of 1976 (43 U.S.C.
4 1716(f)(2)(B)).

5 (d) TITLE APPROVAL.—Title to the Federal land and
6 non-Federal land to be exchanged under this section shall
7 be in a form acceptable to the Secretary and the State.

8 (e) RESERVATION OF INTEREST IN POTASH.—

9 (1) With respect to Federal land that contains
10 potash resources, the Secretary shall reserve an in-
11 terest in all potash resources.

12 (2) The interest reserved by the United States
13 under paragraph (1) shall consist of—

14 (A) 50 percent of any bonus bid or other
15 payment received by the State as consideration
16 for securing any lease or authorization to de-
17 velop potash resources;

18 (B) 50 percent of the amount that would
19 have been received by the Federal Government
20 under the royalty rate applicable on July 1,
21 2015, if the potash resources had been retained
22 in Federal ownership; and

23 (C) 50 percent of any other payment re-
24 ceived by the State pursuant to any lease or au-
25 thorization to develop the potash resources.

1 (3) Upon receipt of any funds from potash leas-
2 ing and development on lands in which the Secretary
3 has reserved an interest, the State shall pay the Sec-
4 retary amounts attributable to the reserved interest
5 of the United States in accordance with paragraph
6 (4).

7 (4)(A) Any amounts due under paragraph (3)
8 shall be paid by the State to the United States not
9 less than quarterly.

10 (B) The State may deduct an administrative fee
11 of three per cent from all payments due to the
12 United States under paragraph (2).

13 (5) NO OBLIGATION TO LEASE.—The State
14 shall not be obligated to lease or otherwise develop
15 potash resources in which the United States retains
16 an interest under this subsection.

17 (f) RESERVATION OF WELLBORE INTEREST IN OIL
18 AND GAS.—

19 (1) The Secretary shall reserve a wellbore inter-
20 est in each oil and gas well on Federal land that has
21 been determined by the Secretary to be capable of
22 production in paying quantities as of the date of
23 conveyance.

24 (2) The wellbore interest reserved to the United
25 States under paragraph (1) shall consist of the

1 amount of all royalties attributable to an oil and gas
2 well located on Federal land as of the date of con-
3 veyance.

4 (3) Upon receipt of any funds attributable to
5 the reserved wellbore interest of the United States,
6 the State shall pay the Secretary all such amounts
7 in accordance with paragraph (4).

8 (4)(A) Any amounts due under paragraph (2)
9 shall be paid by the State to the United States not
10 less than quarterly.

11 (B) The State may deduct an administrative fee
12 of three per cent from all payments due to the
13 United States under paragraph (2).

14 (5) The reserved wellbore interests of the
15 United States in oil and gas under this section shall
16 automatically terminate on the date that is 10 years
17 after the enactment of this Act.

18 (6) The United States shall share all revenue
19 received with respect to its reserved wellbore mineral
20 interest in oil and gas with the State of Utah in ac-
21 cordance with section 35(a) of the Mineral Leasing
22 Act (30 U.S.C. 191(a)).

23 (g) APPURTENANT WATER RIGHTS.—Any convey-
24 ance of a parcel of Federal land or non-Federal land under

1 this title shall include the conveyance of water rights ap-
2 purtenant to the parcel conveyed.

3 (h) CONVEYANCE OF PARCELS IN STAGES.—Parcels
4 of Federal land and non-Federal land may be exchanged
5 in phases as mutually determined by the Secretary and
6 the State.

7 **SEC. 104. WITHDRAWAL OF FEDERAL LANDS PRIOR TO EX-**
8 **CHANGE.**

9 Subject to valid existing rights, during the period be-
10 ginning on the date of enactment of this Act and ending
11 on the date on which the Federal land is conveyed, the
12 Federal land is withdrawn from mineral location, entry or
13 patent under the mining laws, from leasing and entry
14 under the mineral leasing laws, and from mineral material
15 disposal.

16 **SEC. 105. NATIONAL ENVIRONMENTAL POLICY ACT OF 1969**
17 **AND FEDERAL LAND POLICY AND MANAGE-**
18 **MENT ACT OF 1976 COMPLIANCE.**

19 (a) PUBLIC INTEREST.—The land exchange author-
20 ized and directed by this title is in the public interest.

21 (b) SCOPING AND ANALYSIS.—Notwithstanding any
22 other law, in preparing an environmental assessment or
23 environmental impact statement required under section
24 102 of the National Environmental Policy Act of 1969 (42

1 U.S.C. 4332) with respect to the land exchange con-
2 templated by this title:

3 (1) the Secretary is not required to identify any
4 actions other than the proposed action and the no
5 action alternative; and

6 (2) the Secretary is not required to analyze the
7 environmental effects of alternative conveyances or
8 actions other than the offer submitted by the State
9 under subsection 103(a).

10 (c) PRESUMPTION OF PLAN ADEQUANCY.—Convey-
11 ances of Federal land to the State in accordance with this
12 title are presumed to comply with any land use plan en-
13 acted under section 202 of the Federal Land Policy and
14 Management Act of 1976 (43 U.S.C. 1712).

15 **SEC. 106. STATUS AND MANAGEMENT OF LAND AFTER EX-**
16 **CHANGE.**

17 (a) ADMINISTRATION OF NON-FEDERAL LAND.—In
18 accordance with section 206(c) of the Federal Land Policy
19 and Management Act of 1976 (43 U.S.C. 1716(c)), the
20 non-Federal land acquired by the United States under this
21 title shall become part of, and be managed as part of, the
22 Federal administrative unit or area in which the land is
23 located.

24 (b) GRAZING PERMITS.—

1 (1) If land conveyed under this title is subject
2 to a lease, permit, or contract for the grazing of do-
3 mestic livestock in effect on the date of acquisition,
4 the entity acquiring the land shall allow the grazing
5 to continue for the remainder of the term of the
6 lease, permit, or contract, subject to the related
7 terms and conditions of user agreements, including
8 permitted stocking rates, grazing fee levels, access
9 rights, and ownership and use of range improve-
10 ments.

11 (2) To the extent allowed by Federal or State
12 law, on expiration of any grazing lease, permit, or
13 contract described in paragraph (1), the holder of
14 the lease, permit, or contract shall be entitled to a
15 preference right to renew the lease, permit, or con-
16 tract.

17 (3) If land conveyed by the State under this
18 title is used by a grazing permittee or lessee to meet
19 the base property requirements for a Federal graz-
20 ing permit or lease, the land shall continue to qual-
21 ify as a base property for the remaining term of the
22 lease or permit and the term of any renewal or ex-
23 tension of the lease or permit.

24 (c) HAZARDOUS MATERIALS.—

1 (1) The Secretary and the State shall make
2 available for review and inspection any record relat-
3 ing to hazardous materials on the land to be ex-
4 changed under this title.

5 (2) The costs of remedial actions relating to
6 hazardous materials on land acquired under this
7 title shall be paid by those entities responsible for
8 the costs under applicable law.

9 **SEC. 107. BOOK CLIFFS CONSERVATION AREA.**

10 Subject to valid existing rights, the mineral estate in
11 the non-Federal lands acquired by the United States
12 under this title, and the existing mineral estate in the Fed-
13 eral land, located in Grand County, Utah, as depicted on
14 the Maps as “Book Cliffs Conservation Area” is with-
15 drawn from location, entry and patent under the mining
16 laws and the operation of the mineral leasing, mineral ma-
17 terials and geothermal leasing laws.

18 **TITLE II—GOBLIN VALLEY**
19 **STATE PARK**

20 **SEC. 201. LAND CONVEYANCE.**

21 At the request of the State of Utah, the Secretary
22 of the Interior shall convey, without consideration, the ap-
23 proximately 9,995 acres of Bureau of Land Management
24 land identified as “Utah PLI Goblin Valley State Park
25 Map” on the map entitled Utah PLI Goblin Valley State

1 Park Expansion Map and dated June 24, 2016, to the
2 Utah State Parks and Recreation Division of the Depart-
3 ment of Natural Resources.

4 **SEC. 202. COOPERATIVE MANAGEMENT OF GOBLIN VAL-**
5 **LEY.**

6 (a) IN GENERAL.—At the request of the State of
7 Utah, in accordance with this section, the Secretary of the
8 Interior shall enter into a cooperative agreement with the
9 State for the management of the Federal land described
10 in subsection (b) which shall be known as the “Goblin Val-
11 ley Cooperative Management Area”.

12 (b) DESCRIPTION OF LAND.—The area subject to the
13 cooperative agreement is Federal land managed by the
14 Bureau of Land Management in Emery County, Utah,
15 comprising approximately 152,678 acres, identified as
16 “Goblin Valley Cooperative Management Area” on the
17 map entitled Utah PLI Goblin Valley State Park Map and
18 dated June 24, 2016.

19 (c) PURPOSE.—The purpose of the Goblin Valley Co-
20 operative Management Area is to promote outdoor recre-
21 ation, such as off-highway vehicle use, mountain biking,
22 rock climbing, and hiking.

23 (d) TERMS.—The cooperative agreement shall—

24 (1) clarify the roles, responsibilities, and limita-
25 tions, of the Secretary of the Interior and the State

1 of Utah with regard to recreation management with-
2 in the Goblin Valley Cooperative Management Area;

3 (2) extend only to recreational activities, includ-
4 ing Off-highway vehicle and non-Off-highway vehicle
5 use, within the Goblin Valley Cooperative Manage-
6 ment Area, and shall not affect other land manage-
7 ment within the Goblin Valley Cooperative Manage-
8 ment Area, or recreational activities outside the
9 Goblin Valley Cooperative Management Area;

10 (3) require that recreational activities within
11 the Goblin Valley Cooperative Management Area
12 shall continue to be managed in accordance with—

13 (A) the San Rafael Swell National Con-
14 servation Area and Crack Canyon Wilderness
15 established by this title; and

16 (B) applicable Federal laws.

17 (4) require new route and trail construction for
18 motorized and non-motorized use to further rec-
19 reational opportunities and minimize resource con-
20 flict;

21 (5) address the establishment, distribution, and
22 uses of, any revenues generated by recreational ac-
23 tivities (including entrance fees) within the Goblin
24 Valley Cooperative Management Area; and

1 (6) specify that the State agency administering
2 the Goblin Valley Cooperative Management Area
3 shall be the Utah State Parks and Recreation Divi-
4 sion of the Department of Natural Resources.

5 **TITLE III—PRICE CANYON STATE**
6 **FOREST**

7 **SEC. 301. DEFINITIONS.**

8 In this title:

9 (1) MAPS.—The term “Map” means the map
10 entitled Utah PLI Price Canyon State Forest Map
11 and dated July 1, 2016.

12 (2) FEDERAL LAND.—The term “Federal land”
13 means the 13,321 acres identified as “BLM Lands
14 Proposed for Transfer to State Sovereign Land” lo-
15 cated in Carbon County, Utah, as generally depicted
16 on the Map.

17 (3) NON-FEDERAL LAND.—The term “non-Fed-
18 eral land” means the 14,939 acres identified on the
19 Map as “State Sovereign Land Proposed for Trans-
20 fer to BLM” located in Grand and San Juan Coun-
21 ties, Utah, as generally depicted on the Map.

22 (4) SECRETARY.—The term “Secretary” means
23 the Secretary of the Interior.

1 (5) STATE.—The term “State” means the State
2 of Utah’s Division of Forestry, Fire, and State
3 Lands.

4 **SEC. 302. EXCHANGE OF LAND.**

5 (a) PURPOSE.—It is the purpose of this title to con-
6 solidate intermingled State sovereign lands in an area of
7 Carbon County, Utah, to create the State of Utah’s first
8 State Forest.

9 (b) CONVEYANCE.—If the State offers to convey to
10 the United States title to the non-Federal land, the Sec-
11 retary shall—

12 (1) accept the offer; and

13 (2) on receipt of the right, title, and interest of
14 the State in and to the non-Federal land, convey to
15 the State all right, title, and interest of the United
16 States in and to the Federal land.

17 (c) VALID EXISTING RIGHTS.—The exchange author-
18 ized under subsection (a) shall be subject to valid existing
19 rights.

20 (d) TITLE APPROVAL.—Title to the Federal land and
21 non-Federal land to be exchanged under this section shall
22 be in a form acceptable to the Secretary and the State.

23 **SEC. 303. LIVESTOCK GRAZING.**

24 For lands acquired by the State under this title in
25 which grazing is established before the date of enactment

1 of this Act, the grazing of livestock shall continue at levels
2 existing as of January 1, 2016.

3 **TITLE IV—DEER LODGE LAND**
4 **EXCHANGE**

5 **SEC. 401. DEFINITIONS.**

6 In this title:

7 (1) ASSOCIATION.—The term “Association”
8 means the Deer Lodge Homeowners Association.

9 (2) FEDERAL LAND.—The term “Federal land”
10 means the approximately 157 acres of National For-
11 est System land in Daggett County, Utah, identified
12 as “Deer Lodge Cabin Site” on the map.

13 (3) MAP.—The term “map” means the map en-
14 titled “Utah PLI Deer Lodge Land Exchange Map”
15 and dated June 24, 2016.

16 (3) NON-FEDERAL LAND.—The term “non-Fed-
17 eral land” means the parcel of approximately 77
18 acres of private land located in Uintah County,
19 Utah, and identified as “Land to Be Acquired by
20 USFS” on the map.

21 (4) SECRETARY.—The term “Secretary” means
22 the Secretary of Agriculture.

23 **SEC. 402. LAND EXCHANGE.**

24 (a) CONVEYANCE OF LAND.—No later than two years
25 after enactment of this title, if the Association offers to

1 convey to the United States all right, title, and interest
2 of the Association in and to the non-Federal land, the Sec-
3 retary shall convey to the Association, without consider-
4 ation, all right, title, and interest of the United States in
5 and to the Federal land, subject to valid existing rights.

6 (b) COMPLIANCE WITH EXISTING LAW.—Except as
7 otherwise provided in this title, the Secretary shall carry
8 out the land exchange under this title in accordance with
9 section 206 of the Federal Land Policy and Management
10 Act of 1976 (43 U.S.C. 1716).

11 (c) TITLE.—As a condition of the land exchange
12 under this title, title to the non-Federal land to be ac-
13 quired by the Secretary shall be acceptable to the Sec-
14 retary.

15 (d) CONDITION.—As a condition of the land exchange
16 under this title, the Association shall agree to retain as
17 undeveloped open space the approximately 40 acres of
18 meadow area identified as “Open Space” as generally de-
19 picted on the map.

20 **TITLE V—SCOFIELD LAND** 21 **TRANSFER**

22 **SEC. 501. SHORT TITLE.**

23 This title may be cited as the “Scofield Land Trans-
24 fer Act”.

1 **SEC. 502. DEFINITIONS.**

2 In this title:

3 (1) CARBON COUNTY.—The term “Carbon
4 County” means Carbon County, Utah, within which
5 the Scofield Reservoir property is located.

6 (2) CLAIMANT.—The term “claimant” means
7 any person or entity (or a successor in interest to a
8 person or entity) that, according to the records in
9 the office of the Recorder for Carbon County, as of
10 the date of enactment of this Act, claims title to, or
11 an interest in, the Federal land.

12 (3) FEDERAL LAND.—

13 (A) IN GENERAL.—The term “Federal
14 land” means the land acquired by Price River
15 Water Conservation District and transferred to
16 the United States for use in the construction
17 and operation of Scofield Dam and Reservoir
18 located between the normal water surface ele-
19 vation and the property boundary elevation in
20 the Scofield Reservoir basin.

21 (B) EXCLUSIONS.—The term “Federal
22 land” does not include—

23 (i) any mineral or subsurface rights to
24 the land described in subparagraph (A); or

25 (ii) the 205 acres of land adjoining
26 the Scofield Reservoir, as adjudicated in

1 the case styled United States v. Dunn (557
2 F.3d 1165 (10th Cir. 2009)).

3 (4) FLOOD SURCHARGE ELEVATION.—The term
4 “flood surcharge elevation” means the elevation of
5 7640.3 in the North American Vertical Datum of
6 1988, which corresponds to the elevation of the crest
7 of Scofield Dam.

8 (5) FUND.—The term “Fund” means the Sco-
9 field Reservoir Fund established by section
10 503(d)(9)(A).

11 (6) LIFE ESTATE.—The term “life estate”
12 means—

13 (A) if the claimant is a person, an interest
14 of the claimant in the Federal land that will re-
15 vert to the United States on the date of the
16 death of the claimant; and

17 (B) if the claimant is an entity, an interest
18 in the Federal land of a person designated by
19 the claimant that will revert to the United
20 States on the date of the death of the des-
21 ignated person.

22 (7) NORMAL WATER SURFACE ELEVATION.—
23 The term “normal water surface elevation” means
24 the contour elevation of 7621.8 in the North Amer-
25 ican Vertical Datum of 1988, which corresponds to

1 the elevation of the crest of the spillway of Scofield
2 Dam.

3 (8) PROPERTY BOUNDARY ELEVATION.—The
4 term “property boundary elevation” means the con-
5 tour elevation 7630, as surveyed by McGonagle and
6 Ulrich, Land Surveyors, in 1926, which was trans-
7 mitted to the current elevation of 7638.9 in the
8 North American Vertical Datum of 1988 and which
9 corresponds to 1.4 vertical feet below the crest of
10 Scofield Dam.

11 (9) ROADS.—The term “Roads” means the
12 streets, improved and unimproved, as in existence on
13 the date of enactment of this Act, that—

14 (A) are located on the Federal land;

15 (B) are intended for public access via mo-
16 torized vehicle to the Federal land claims of the
17 claimants; and

18 (C) extend to the shoreline of Scofield Res-
19 ervoir.

20 (10) SECRETARY.—The term “Secretary”
21 means the Secretary of the Interior.

22 (11) STRUCTURE.—

23 (A) IN GENERAL.—The term “structure”
24 means any improvement located on the property

1 of a claimant, as in existence on the date of en-
2 actment of this Act, including—

3 (i) a residence;

4 (ii) a shed;

5 (iii) a workshop;

6 (iv) a garage;

7 (v) a carport;

8 (vi) a deck;

9 (vii) a boathouse; or

10 (viii) an incidental building.

11 (B) INCLUSION.—The term “structure” in-
12 cludes any infrastructure associated with a resi-
13 dence that is not owned by a public or private
14 utility, including water, power, sewer, and im-
15 provements to Roads.

16 **SEC. 503. CONVEYANCE OF SCOFIELD PROJECT LAND.**

17 (a) SURVEY.—

18 (1) IN GENERAL.—To facilitate the conveyance
19 of the Federal land under this title, it shall be the
20 responsibility of Carbon County—

21 (A) to enter into an agreement with the
22 Secretary to pay the costs associated with a full
23 physical and title survey of the Federal land in
24 order to delineate the boundaries associated

1 with the Federal land, Federal easements, or
2 other Federal interests in land; and

3 (B) subject to paragraph (2), to initiate
4 and complete a full physical survey of the
5 Roads and the parcels located within the Fed-
6 eral land that are eligible to be conveyed to the
7 claimants, and, in any case in which a land de-
8 scription or record of ownership in any record
9 of Carbon County conflicts with a claim of a
10 claimant with regard to an existing physical
11 feature or facility, propose boundaries and land
12 descriptions to resolve the dispute.

13 (2) UNRESOLVED DISPUTES.—

14 (A) IN GENERAL.—If a claim to a parcel
15 or portion of a parcel of Federal land cannot be
16 resolved in accordance with the applicable land
17 description in the records of Carbon County by
18 the applicable deadline for an election under
19 subsection (d)(6), the claimant shall stipulate
20 to, accept, and submit to the Secretary the land
21 description developed by Carbon County to re-
22 solve the dispute in order to meet the election
23 requirement of subsection (d)(6) by not later
24 than 180 days after that deadline.

1 (B) FAILURE TO STIPULATE AND AC-
2 CEPT.—If a claimant fails to stipulate to and
3 accept the land description of Carbon County
4 by the date described in subparagraph (A), the
5 authority to convey the affected parcel or por-
6 tion of a parcel of Federal land pursuant to this
7 section shall be terminated with respect to the
8 disputed claim.

9 (b) APPRAISAL.—

10 (1) IN GENERAL.—As a condition of the con-
11 veyance under this section, Carbon County shall
12 enter into an agreement with the Secretary to pay
13 the costs associated with an appraisal of the fair
14 market value of each property interest requested by
15 a claimant relating to the conveyance by the Sec-
16 retary under this title.

17 (2) DETERMINATION OF FAIR MARKET
18 VALUE.—The fair market value of a property inter-
19 est under paragraph (1) shall be determined by the
20 Secretary in accordance with the Uniform Appraisal
21 Standards for Federal Land Acquisitions and the
22 Uniform Standards of Professional Appraisal Prac-
23 tices.

24 (c) NOTIFICATION.—It shall be the responsibility of
25 Carbon County to notify each claimant of any trespass or

1 encroachment by the applicable claimant on the Federal
2 land, including the existence of any trespassing or en-
3 croaching structure of the claimant.

4 (d) AUTHORIZATION TO CONVEY FEDERAL LAND.—

5 (1) IN GENERAL.—To resolve the issues of tres-
6 pass and encroachment on the Federal land by the
7 claimants, the Secretary may, in accordance with
8 paragraphs (5) and (6)—

9 (A) on an election by a claimant—

10 (i) subject to paragraph (2), convey to
11 the claimant fee interest in the claimed
12 portion of the Federal land that is located
13 above the normal water surface elevation,
14 as determined by the results of the survey
15 required under subsection (a), subject to
16 all valid rights-of-way, licenses, and ease-
17 ments in existence on the date of enact-
18 ment of this Act; or

19 (ii) subject to paragraph (3), grant to
20 the claimant a life estate permitting the
21 continued occupation of the claimed por-
22 tion of the Federal land above the normal
23 water surface elevation, as determined by
24 the results of the survey required under
25 subsection (a), subject to all valid rights-

1 of-way, licenses, and easements in exist-
2 ence on the date of enactment of this Act;
3 or

4 (B) subject to paragraph (4), on an elec-
5 tion by Carbon County, convey to Carbon Coun-
6 ty fee interest in the Roads, as determined by
7 the survey required under subsection (a), sub-
8 ject to all valid rights-of-way, licenses, and
9 easements in existence on the date of enactment
10 of this Act.

11 (2) CONVEYANCE REQUIREMENTS.—A convey-
12 ance under paragraph (1)(A)(i) shall be subject to—

13 (A) the claimant paying to the Secretary
14 the fair market value of the fee interest in the
15 claimed portion of the Federal land, as deter-
16 mined by the Secretary under subsection (b),
17 exclusive of the value of any structures;

18 (B) provisions under which the claimant
19 shall agree to indemnify and hold harmless the
20 United States for all claims by the claimant or
21 others arising from—

22 (i) the design, construction, operation,
23 maintenance, or replacement of Scofield
24 Dam and Reservoir;

1 (ii) the survey of claims, description of
2 claims, delineation of boundaries, convey-
3 ance documents, conveyance process, and
4 recording of deeds associated with the con-
5 veyance; and

6 (iii) any damages associated with any
7 structure or chattel of the claimant that
8 may be displaced in a flood event;

9 (C) the United States retaining a flood
10 easement as well as an access easement for pur-
11 poses of monitoring and enforcing the require-
12 ments of subparagraph (D) with respect to the
13 entire portion of Federal land conveyed; and

14 (D) deed restrictions requiring that—

15 (i) to prevent any structure on the
16 portion of the Federal land conveyed from
17 being displaced during a flood event, the
18 claimant shall—

19 (I) secure or tie down all existing
20 structures; and

21 (II) if replacing or rebuilding
22 such a structure, limit the replace-
23 ment or rebuilding to the number and
24 type of structures in existence on the
25 date of enactment of this Act; and

1 (ii) all activities carried out by the
2 claimant under clause (i) with respect to a
3 structure be carried out in accordance with
4 applicable standards for structures that
5 may be submerged, flooded, or inundated,
6 as contained in—

7 (I) the International Building
8 Code (as adopted by Utah Adminis-
9 trative Code R156–56); or

10 (II) any other building code or
11 engineering standard that is—

12 (aa) similar to the Inter-
13 national Building Code;

14 (bb) widely used; and

15 (cc) nationally recognized.

16 (3) LIFE ESTATE REQUIREMENTS.—A life es-
17 tate granted under paragraph (1)(A)(ii) shall be
18 subject to—

19 (A) the claimant paying to the Secretary
20 the fair market value of the life estate on the
21 claimed portion of the Federal land, as deter-
22 mined by the Secretary under subsection (b),
23 but excluding the value of any structures;

24 (B) provisions under which the claimant
25 agrees to indemnify and hold harmless the

1 United States for all claims by the claimant or
2 others arising from—

3 (i) the design, construction, operation,
4 maintenance, or replacement of Scofield
5 Dam and Reservoir;

6 (ii) the survey of claims, description of
7 claims, delineation of boundaries, convey-
8 ance documents, conveyance process, and
9 recording of deeds associated with the con-
10 veyance; and

11 (iii) any damages associated with any
12 structure or chattel of the claimant that
13 may be displaced in a flood event; and

14 (C) restrictions equivalent to the deed re-
15 strictions described in clauses (i) and (ii) of
16 paragraph (2)(D), as applicable.

17 (4) CONVEYANCE OF ROADS REQUIREMENTS.—

18 A conveyance under paragraph (1)(B) shall be sub-
19 ject to—

20 (A) Carbon County paying to the Secretary
21 a sum determined to be acceptable by the Sec-
22 retary;

23 (B) provisions under which Carbon County
24 shall agree to indemnify and hold harmless the

1 United States for all claims by Carbon County
2 or others arising from—

3 (i) the design, construction, operation,
4 maintenance, or replacement of Scofield
5 Dam and Reservoir;

6 (ii) the survey of claims, description of
7 claims, delineation of boundaries, convey-
8 ance documents, conveyance process, and
9 recording of deeds associated with the con-
10 veyance; and

11 (iii) any damages associated with
12 structures or chattel of Carbon County
13 that may be displaced in a flood event;

14 (C) the United States retaining a flood
15 easement as well as an access easement for pur-
16 poses of monitoring and enforcing the require-
17 ments of subparagraph (D) with respect to the
18 entire portion of the Roads conveyed; and

19 (D) restrictions equivalent to the deed re-
20 strictions described in clauses (i) and (ii) of
21 paragraph (2)(D), as applicable.

22 (5) COMPLIANCE WITH ENVIRONMENTAL
23 LAWS.—

24 (A) IN GENERAL.—Before conveying the
25 Federal land under paragraph (1)(A)(i) or the

1 Roads under paragraph (1)(B) or granting a
2 life estate under paragraph (1)(A)(ii), the Sec-
3 retary shall comply with all applicable require-
4 ments under—

5 (i) the National Environmental Policy
6 Act of 1969 (42 U.S.C. 4321 et seq.);

7 (ii) the Endangered Species Act of
8 1973 (16 U.S.C. 1531 et seq.); and

9 (iii) any other applicable law.

10 (B) EFFECT.—Nothing in this title modi-
11 fies or alters any obligations under—

12 (i) the National Environmental Policy
13 Act of 1969 (42 U.S.C. 4321 et seq.); or

14 (ii) the Endangered Species Act of
15 1973 (16 U.S.C. 1531 et seq.).

16 (C) COSTS.—Before the initiation of any
17 conveyance under this title, Carbon County
18 shall pay to the Secretary an amount equal to
19 the costs associated with achieving environ-
20 mental compliance under this paragraph.

21 (6) DEADLINE FOR ELECTION.—

22 (A) CLAIMANTS.—Not later than 5 years
23 after the date of enactment of this Act, each
24 claimant shall notify the Secretary in writing
25 whether the claimant elects to receive—

1 (i) a fee interest in the claimed por-
2 tion of the Federal land, in accordance
3 with paragraph (1)(A)(i); or

4 (ii) a life estate in the claimed portion
5 of the Federal land, in accordance with
6 paragraph (1)(A)(ii).

7 (B) CARBON COUNTY.—Not later than 3
8 years after the date of enactment of this Act,
9 Carbon County shall notify the Secretary in
10 writing whether Carbon County elects to receive
11 a fee interest in the Roads, in accordance with
12 paragraph (1)(B).

13 (7) FAILURE TO NOTIFY SECRETARY OR COM-
14 PLETE TRANSFER.—

15 (A) NOTICE OF ELECTION.—If a claimant
16 fails to submit to the Secretary a notice of an
17 election in accordance with paragraph (6)(A),
18 any future claim by the claimant with respect
19 to the Federal land shall be terminated.

20 (B) TRANSFER.—

21 (i) CLAIMANTS.—If, due to a failure
22 by the claimant to act in furtherance of
23 the transfer of fee interest or life estate
24 under this section, no transfer of the
25 claimed Federal Land has been recorded

1 with the Recorder of Carbon County by the
2 date that is 7 years after the date of enact-
3 ment of this Act, any claim by the claim-
4 ant with respect to the Federal land shall
5 be terminated.

6 (ii) CARBON COUNTY.—If, due to a
7 failure by Carbon County to act in further-
8 ance of the transfer of fee interest, no
9 transfer of the Roads has been recorded
10 with the Recorder of Carbon County by the
11 date that is 5 years after the date of enact-
12 ment of this Act, the authority of the Sec-
13 retary to convey the interest in the Roads
14 shall be terminated.

15 (C) QUIET TITLE.—On extinguishment of
16 a claim under subparagraph (A) or (B), the
17 Secretary shall take such action as is necessary
18 to quiet title to the applicable portion of the
19 Federal land, including removal of persons, en-
20 tities, structures, and materials encumbering
21 the applicable portion of the Federal land.

22 (8) PAYMENTS IN LIEU OF TAXES.—Any Fed-
23 eral land transferred to a claimant in fee under
24 paragraph (1)(A)(i) or to Carbon County under
25 paragraph (1)(B) shall not be included or taken into

1 consideration in the allocation of any payment in
2 lieu of taxes under chapter 69 of title 31, United
3 States Code.

4 (9) TRUST FUND.—

5 (A) ESTABLISHMENT.—There is estab-
6 lished in the Treasury of the United States a
7 fund, to be known as the “Scofield Reservoir
8 Fund”, to be administered by the Secretary and
9 made available, without fiscal year limitation,
10 for—

11 (i) monitoring and enforcing the re-
12 quirements of paragraphs (2)(C) and
13 (4)(C) regarding maintaining access to,
14 and eliminating encroachment and private
15 exclusive use of, the Federal land sur-
16 rounding the Scofield Reservoir; and

17 (ii) providing enhanced public rec-
18 reational opportunities at Scofield Res-
19 ervoir.

20 (B) TRANSFERS TO FUND.—There shall be
21 deposited in the Fund any amounts received as
22 consideration for—

23 (i) a conveyance under subparagraph
24 (A)(i) or (B) of paragraph (1); or

1 (ii) the granting of a life estate under
2 paragraph (1)(A)(ii).

3 **TITLE VI—LAND CONVEYANCES**

4 **SEC. 601. LAND CONVEYANCES.**

5 (a) IN GENERAL.—As outline in the paragraphs
6 below, if requested by the specified entity, the Secretary
7 of the Interior or the Secretary of Agriculture, as appro-
8 priate, shall convey the following Federal land to that enti-
9 ty without consideration:

10 (1) CANYONLANDS FIELDS AIRPORT.—The ap-
11 proximately 561 acres of land depicted as
12 “Canyonlands Fields Airport,” on the map entitled
13 Utah PLI Land Conveyances Map and dated June
14 30, 2016, to Grand County, Utah, for use as an air-
15 port.

16 (2) MOAB TAILINGS PROJECT.—Upon comple-
17 tion of the Moab Uranium Mill Tailings Remedial
18 Action Project, the approximately 474 acres of land
19 depicted as “UMTRA Conveyance,” on the map en-
20 titled Utah PLI Land Conveyances Map and dated
21 June 30, 2016, shall be conveyed to Grand County,
22 Utah.

23 (3) HUNTINGTON AIRPORT EXPANSION.—The
24 approximately 1,398 acres generally depicted on the
25 map entitled Utah PLI Land Conveyances Map and

1 dated June 30, 2016, as “Huntington Airport,” to
2 Emery County, Utah, for expansion of the Hun-
3 tington Municipal Airport.

4 (4) EMERY COUNTY RECREATION AREA.—The
5 approximately 479 acres generally depicted on the
6 map entitled Utah PLI Land Conveyances Map and
7 dated June 30, 2016, as “Emery County Recreation
8 Area,” to Emery County, Utah, for public rec-
9 reational purposes.

10 (5) EMERY COUNTY SHERIFFS SUBSTATION.—
11 The approximately 644 acres generally depicted on
12 the map entitled Utah PLI Land Conveyances Map
13 and dated June 30, 2016, as “Emery County Sher-
14 iffs Substation,” to Emery County, Utah, for a sub-
15 station for the Emery County Sheriff’s Office.

16 (6) BLANDING OUTDOOR RECREATION AREA.—
17 The approximately 5,197 acres of land depicted on
18 the map entitled Utah PLI Land Conveyances Map
19 and dated June 30, 2016, as “Blanding Outdoor
20 Recreation Area,” to Blanding City, Utah, for use as
21 an outdoor recreation area.

22 (7) CAL BLACK AIRPORT.—The approximately
23 1,917 acres generally depicted on the map entitled
24 Utah PLI Land Conveyances Map and dated June

1 30, 2016, as “Cal Black Airport,” to San Juan
2 County, Utah, for a municipal airport.

3 (8) BLUFF AIRPORT.—The approximately 403
4 acres generally depicted on the map entitled Utah
5 PLI Land Conveyances Map and dated June 30,
6 2016, as “Bluff Airport,” to San Juan County,
7 Utah, for a municipal airport.

8 (9) MONTICELLO WATER STORAGE AND TREAT-
9 MENT PLANT.—The approximately 165 acres gen-
10 erally depicted on the map entitled Utah PLI Land
11 Conveyances Map and dated June 30, 2016, as
12 “Monticello Water Storage and Treatment Plant,”
13 to Monticello City, Utah, for a water storage and
14 treatment plant.

15 (10) BLANDING SHOOTING RANGE.—The ap-
16 proximately 21 acres generally depicted on the map
17 entitled Utah PLI Land Conveyances Map and
18 dated June 30, 2016, as “Blanding Shooting
19 Range,” to San Juan County, Utah, for a public
20 shooting range.

21 (11) PARK CITY CONVEYENCE I.—The approxi-
22 mately 2.5 acres generally depicted on the map enti-
23 tled Utah PLI Land Conveyances Map and dated
24 June 30, 2016, as “Park City Conveyance I,” to

1 Park City, Utah, for public recreation and open
2 space.

3 (12) PARK CITY CONVEYENCE II.—The approxi-
4 mately 1 acre generally depicted on the map entitled
5 Utah PLI Land Conveyances Map and dated June
6 30, 2016, as “Park City Conveyance II,” to Park
7 City, Utah, for public recreation and open space.

8 (13) LISBON VALLEY.—The approximately 398
9 acres generally depicted on the map entitled Utah
10 PLI Land Conveyances Map and dated June 30,
11 2016, as “Lisbon Valley,” to Utah State University
12 for education and research.

13 (14) WELLINGTON.—The approximately 645
14 acres generally depicted on the map entitled Utah
15 PLI Land Conveyances Map and dated June 30,
16 2016, as “Wellington,” to Utah State University for
17 education and research.

18 (15) RANGE CREEK RESEARCH STATION EX-
19 PANSION.—The approximately 1,663 acres depicted
20 on the map entitled Utah PLI Land Conveyances
21 Map and dated June 30, 2016, as “Range Creek Re-
22 search Station Expansion,” to the University of
23 Utah for education and research.

24 (16) ASHLEY SPRING.—The approximately
25 1,103 acres generally depicted on the map entitled

1 Utah PLI Land Conveyances Map and dated June
2 30, 2016, as “Ashley Spring,” to Uintah County,
3 Utah, for use as open space and for watershed pro-
4 tection and drinking water development.

5 (17) SEEP RIDGE UTILITY CORRIDOR.—The ap-
6 proximately 2,633 acres in Uintah County generally
7 depicted on the map entitled Utah PLI Land Con-
8 veyances Map and dated June 30, 2016, as “Seep
9 Ridge Utility Corridor,” to the State of Utah, for
10 use as rights-of-way for public utilities.

11 (18) BLUFF RIVER RECREATION AREA.—The
12 approximately 177 acres generally depicted on the
13 map entitled Utah PLI Land Conveyances Map and
14 dated June 30, 2016, as “Bluff River Recreation
15 Area,” to Bluff Service Area, for use as recreation
16 and municipal facilities.

17 (19) EMERY INFORMATION CENTER.—The ap-
18 proximately 80 acres generally depicted on the map
19 entitled Utah PLI Land Conveyances Map and
20 dated June 30, 2016, as “Emery County Informa-
21 tion Center,” to Emery County, Utah, for an infor-
22 mation and visitor center to promote public lands.

23 (20) SUMMIT COUNTY CONVEYENCE.—The ap-
24 proximately _____ acres generally depicted on the
25 map entitled Utah PLI Land Conveyances Map and

1 dated June 30, 2016, as “Summit Conveyance,” to
2 Summit County, Utah, for public recreation and
3 open space.

4 (b) MAP AND LEGAL DESCRIPTIONS.—Not later than
5 two years after the date of enactment of this Act, the rel-
6 evant Secretary shall file a map and legal description of
7 each of the land conveyances authorized in subsection (a)
8 with the Committee on Natural.

9 **TITLE VII—LAND DISPOSALS**

10 **SEC. 701. LAND DISPOSALS.**

11 Subject to valid existing rights, the Secretary of the
12 Interior shall within two years dispose of Federal lands
13 identified as “Lands for Disposal” on the map entitled
14 “Utah PLI Land Disposal Map” dated June 25, 2016.

15 **TITLE VIII—RECREATION ZONES**

16 **SEC. 801. ESTABLISHMENT.**

17 (a) ESTABLISHMENT.—Subject to valid existing
18 rights, to enhance existing and future recreational oppor-
19 tunities in Grand County, Uintah County, and San Juan
20 County, Utah, the following areas are hereby established
21 as Recreation Zones:

22 (1) GOLDBAR RECREATION ZONE.—Certain
23 Federal land, comprising approximately 23,051
24 acres administered by the Bureau of Land Manage-
25 ment in Grand County, as generally depicted on the

1 map entitled Utah PLI Recreation Zones Map dated
2 June 30, 2016, to be known as the “Goldbar Recre-
3 ation Zone”.

4 (2) MONITOR AND MERRIMAC RECREATION
5 ZONE.—Certain Federal land, comprising approxi-
6 mately 17,371 acres administered by the Bureau of
7 Land Management in Grand County as generally de-
8 picted on the map entitled Utah PLI Recreation
9 Zones Map dated June 30, 2016, to be known as the
10 “Monitor and Merrimac Recreation Zone”.

11 (3) KLONDIKE RECREATION ZONE.—Certain
12 Federal land, comprising approximately 24,968
13 acres administered by the Bureau of Land Manage-
14 ment in Grand County as generally depicted on the
15 map entitled Utah PLI Recreation Zones Map dated
16 June 30, 2016, to be known as the “Klondike Recre-
17 ation Zone”.

18 (4) BIG FLAT RECREATION ZONE.—Certain
19 Federal land, comprising approximately 25,311
20 acres administered by the Bureau of Land Manage-
21 ment in Grand County as generally depicted on the
22 map entitled Utah PLI Recreation Zones Map dated
23 June 30, 2016, to be known as the “Big Flat Recre-
24 ation Zone”.

1 (5) MINERAL CANYON RECREATION ZONE.—
2 Certain Federal land, comprising approximately
3 20,423 acres administered by the Bureau of Land
4 Management in Grand County as generally depicted
5 on the map entitled Utah PLI Recreation Zones
6 Map dated June 30, 2016, to be known as the “Min-
7 eral Canyon Recreation Zone”.

8 (6) DEE PASS AND UTAH RIMS RECREATION
9 ZONE.—Certain Federal land, comprising approxi-
10 mately 210,587 acres administered by the Bureau of
11 Land Management in Grand County as generally de-
12 picted on the map entitled Utah PLI Recreation
13 Zones Map dated June 30, 2016, to be known as the
14 “Dee Pass and Utah Rims Recreation Zone”.

15 (7) YELLOW CIRCLE RECREATION ZONE.—Cer-
16 tain Federal land, comprising approximately 7,436
17 acres administered by the Bureau of Land Manage-
18 ment in San Juan County as generally depicted on
19 the map entitled Utah PLI Recreation Zones Map
20 dated June 30, 2016, to be known as the “Yellow
21 Circle Recreation Zone”.

22 (8) CAMEO CLIFFS RECREATION ZONE.—Cer-
23 tain Federal land, comprising approximately 47,130
24 acres administered by the Bureau of Land Manage-
25 ment in San Juan County as generally depicted on

1 the map entitled Utah PLI Recreation Zones Map
2 dated June 30, 2016, to be known as the “Cameo
3 Cliffs Recreation Zone”.

4 (9) JENSEN HILLS RECREATION ZONE.—Cer-
5 tain Federal land, comprising approximately 4,849
6 acres administered by the Bureau of Land Manage-
7 ment in Uintah County as generally depicted on the
8 map entitled Utah PLI Recreation Zones Map and
9 dated June 30, 2016, to be known as the “Jensen
10 Hills Recreation Zone”.

11 (10) RED MOUNTAIN RECREATION ZONE.—Cer-
12 tain Federal land, comprising approximately 10,298
13 acres administered by the Bureau of Land Manage-
14 ment in Uintah County as generally depicted on the
15 map entitled Utah PLI Recreation Zones Map dated
16 June 30, 2016, to be known as the “Red Mountain
17 Recreation Zone”.

18 (11) DEVILS HOLE RECREATION ZONE.—Cer-
19 tain Federal land, comprising approximately 550
20 acres administered by the Bureau of Land Manage-
21 ment in Uintah County as generally depicted on the
22 map entitled Utah PLI Recreation Zones Map dated
23 June 30, 2016, to be known as the “Devils Hole
24 Recreation Zone”.

1 (12) BOURDETTE DRAW RECREATION ZONE.—
2 Certain Federal land, comprising approximately
3 20,560 acres administered by the Bureau of Land
4 Management in Uintah County as generally depicted
5 on the map entitled Utah PLI Recreation Zones
6 Map dated June 30, 2016, to be known as the
7 “Bourdette Draw Recreation Zone”.

8 (13) RED WASH RECREATION ZONE.—Certain
9 Federal land, comprising approximately 1,916 acres
10 administered by the Bureau of Land Management in
11 Uintah County as generally depicted on the map en-
12 titled Utah PLI Recreation Zones Map dated June
13 30, 2016, to be known as the “Red Wash Recreation
14 Zone”.

15 **SEC. 802. MAP AND LEGAL DESCRIPTION.**

16 (a) IN GENERAL.—Not later than two years from the
17 date the date of enactment of this Act, the Secretary of
18 the Interior (hereinafter in this title referred to as the
19 “Secretary”) shall file a map and legal description of each
20 of the Recreation Zones established by section 801 with
21 the Committee on Natural Resources of the House of Rep-
22 resentatives and the Committee on Energy and Natural
23 Resources of the Senate.

24 (b) FORCE AND EFFECT.—The maps and legal de-
25 scriptions submitted under this section shall have the

1 same force and effect as if included in this title, except
2 that the Secretary may make any minor modifications of
3 any clerical or typographical errors in the map or legal
4 description and provided that prior to any modifications,
5 clerical or typographical changes, these changes are re-
6 ported to the State of Utah and the affected counties.

7 (c) PUBLIC AVAILABILITY.—A copy of the maps and
8 legal descriptions shall be on file and available for public
9 inspection in the appropriate offices of the Bureau of
10 Land Management.

11 **SEC. 803. GOLDBAR RECREATION ZONE MANAGEMENT.**

12 (a) PURPOSES.—The purposes of the Goldbar Recre-
13 ation Zone are to promote outdoor recreation (including
14 off-highway vehicle use, mountain biking, and hiking),
15 provide for the construction of new non-off-highway vehi-
16 cle trails, prevent future energy and mineral development,
17 and conserve indigenous plants and animals.

18 (b) ADMINISTRATION.—

19 (1) IN GENERAL.—The Secretary shall admin-
20 ister the Goldbar Recreation Zone in accordance
21 with—

22 (A) this title;

23 (B) the Federal Land Policy and Manage-
24 ment Act of 1976 (43 U.S.C. 1701 et seq.); and

25 (C) other applicable laws.

1 (2) USES.—Uses and management of the
2 Goldbar Recreation Zone shall—

3 (A) require coordination and consultation
4 with State and local governments;

5 (B) provide for recreational opportunities
6 including camping, biking, hiking, and off-high-
7 way vehicle use (including motorcycling, all-ter-
8 rain-vehicle riding, and four-wheeling);

9 (C) prohibit future mineral development;

10 (D) provide for new route and trail con-
11 struction for non-off-highway vehicle use; and

12 (E) conserve indigenous plant and animal
13 species.

14 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
15 TORIZED VEHICLES.—The Secretary shall manage
16 existing designated routes for off-highway and mo-
17 torized vehicles in a manner that—

18 (A) is consistent with off-highway and mo-
19 torized vehicle use of the routes designated in
20 the applicable travel management plan;

21 (B) allows for adjustment to the travel
22 management plan within the regular amend-
23 ment process; and

24 (C) allows for the construction of new non-
25 off-highway vehicle trails.

1 (4) WITHDRAWALS.—Subject to valid existing
2 rights, all public land within the Goldbar Recreation
3 Zone, including any land or interest in land that is
4 acquired by the United States within the Goldbar
5 Recreation Zone after the date of enactment of this
6 Act, is withdrawn from—

7 (A) entry, appropriation or disposal under
8 the public land laws;

9 (B) location, entry, and patent under the
10 mining laws; and

11 (C) operation of the mineral leasing, min-
12 eral materials, and geothermal leasing laws.

13 **SEC. 804. MONITOR AND MERRIMAC RECREATION ZONE**
14 **MANAGEMENT.**

15 (a) PURPOSES.—The purposes of the Monitor and
16 Merrimac Recreation Zone are to promote outdoor recre-
17 ation (including off-highway vehicle use, mountain biking,
18 rock climbing, and hiking), provide for the construction
19 of new off-highway vehicle and non-off-highway vehicle
20 trails and routes, and to prevent future mineral develop-
21 ment.

22 (b) ADMINISTRATION.—The Secretary shall admin-
23 ister the Monitor and Merrimac Recreation Zone in ac-
24 cordance with—

25 (1) this title;

1 (2) the Federal Land Policy and Management
2 Act of 1976 (43 U.S.C. 1701 et seq.); and

3 (3) other applicable laws.

4 (c) USES.—Uses and management of the Monitor
5 and Merrimac Recreation Zone shall—

6 (1) coordinate and consult with State and local
7 government;

8 (2) provide for recreational opportunities in-
9 cluding, biking, hiking, rock climbing and off-high-
10 way vehicle use (including motorcycling, all-terrain-
11 vehicle riding, and four-wheeling);

12 (3) prohibit future mineral and energy leasing;
13 and

14 (4) provide for new route and trail construction
15 for off-highway vehicle and non-off-highway vehicle
16 use.

17 (d) MANAGEMENT OF OFF-HIGHWAY VEHICLE AND
18 MOTORIZED VEHICLES.—The Secretary shall manage ex-
19 isting designated off-highway vehicle routes in a manner
20 that—

21 (1) is consistent with off-highway and motor-
22 ized vehicle use of the routes designated in the appli-
23 cable travel management plan;

1 (2) allows for adjustment to the travel manage-
2 ment plan within the regular amendment process;
3 and

4 (3) allows for the construction of new off-high-
5 way and non-off-highway vehicle trails.

6 (e) WITHDRAWALS.—Subject to valid existing rights,
7 all public land within the Monitor and Merrimac Recre-
8 ation Zone, including any land or interest in land that is
9 acquired by the United States within the Monitor and
10 Merrimac Recreation Zone after the date of enactment of
11 this Act, is withdrawn from—

12 (1) entry, appropriation or disposal under the
13 public land laws;

14 (2) location, entry, and patent under the mining
15 laws; and

16 (3) operation of the mineral leasing, mineral
17 materials, and geothermal leasing laws.

18 **SEC. 805. KLONDIKE RECREATION ZONE MANAGEMENT.**

19 (a) PURPOSES.—The purposes of the Klondike
20 Recreation Zone are to promote outdoor recreation (in-
21 cluding off-highway vehicle use, mountain biking, rock
22 climbing, and hiking), provide for the construction of new
23 non-off-highway vehicle trails, and to prevent future min-
24 eral development.

1 (b) ADMINISTRATION.—The Secretary shall admin-
2 ister the Klondike Recreation Zone in accordance with—

3 (1) this title;

4 (2) the Federal Land Policy and Management
5 Act of 1976 (43 U.S.C. 1701 et seq.); and

6 (3) other applicable laws.

7 (c) USES.—Uses and management of the Klondike
8 Recreation Zone shall—

9 (1) coordinate and consult with State and local
10 government;

11 (2) provide for recreational opportunities in-
12 cluding biking, hiking, rock climbing, and off-high-
13 way vehicle use (including motorcycling, all-terrain-
14 vehicle riding and four-wheeling);

15 (3) prohibit future mineral and energy leasing;

16 (4) provide for new route and trail construction
17 for off-highway and non-off-highway vehicle use; and

18 (5) provide managerial flexibility to route off-
19 highway vehicle trails in a way that minimizes con-
20 flict with non-off-highway vehicle trails.

21 (d) MANAGEMENT OF OFF-HIGHWAY VEHICLE AND
22 MOTORIZED VEHICLES.—The Secretary shall manage ex-
23 isting designated routes for off-highway vehicles and mo-
24 torized vehicles in a manner that—

1 (1) is consistent with off-highway and motor-
2 ized vehicle use of the routes designated in the appli-
3 cable travel management plan;

4 (2) allows for adjustment to the travel manage-
5 ment plan within the regular amendment process;
6 and

7 (3) allows for the construction of new non-off-
8 highway vehicle trails.

9 (e) WITHDRAWALS.—Subject to valid existing rights,
10 all public land within the Klondike Recreation Zone, in-
11 cluding any land or interest in land that is acquired by
12 the United States within the Klondike Recreation Zone
13 after the date of enactment of this Act, is withdrawn
14 from—

15 (1) entry, appropriation or disposal under the
16 public land laws;

17 (2) location, entry, and patent under the mining
18 laws; and

19 (3) operation of the mineral leasing, mineral
20 materials, and geothermal leasing laws.

21 **SEC. 806. BIG FLAT RECREATION ZONE MANAGEMENT.**

22 (a) PURPOSES.—The purposes of the Big Flat Recre-
23 ation Zone are to promote outdoor recreation (including
24 off-highway vehicle use, mountain biking, rock climbing

1 and hiking), provide for new off-highway vehicle route con-
2 struction and promote mineral development.

3 (b) ADMINISTRATION.—The Secretary shall admin-
4 ister the Big Flat Recreation Zone in accordance with—

5 (1) this title;

6 (2) the Federal Land Policy and Management
7 Act of 1976 (43 U.S.C. 1701 et seq.); and

8 (3) other applicable laws.

9 (c) USES.—Uses and management of the Big Flat
10 Recreation Zone shall—

11 (1) coordinate and consult with State and local
12 government;

13 (2) provide for recreational opportunities in-
14 cluding rock climbing, biking, hiking, off-highway ve-
15 hicle use (including motorcycling, all-terrain-vehicle
16 riding, and four-wheeling);

17 (3) provide for future mineral leasing with no
18 surface occupancy stipulations;

19 (4) allow the continuation of existing mineral
20 leasing; and

21 (5) provide for new route and trail construction
22 for off-highway vehicle and non-off-highway vehicle
23 use.

24 (d) MANAGEMENT OF OFF-HIGHWAY AND MOTOR-
25 IZED VEHICLES.—The Secretary shall manage existing

1 designated routes for off-highway and motorized vehicles
2 in a manner that—

3 (1) is consistent with off-highway and motor-
4 ized vehicle use of the routes designated in the appli-
5 cable travel management plan;

6 (2) allows for adjustment to the travel manage-
7 ment plan within the regular amendment process;
8 and

9 (3) allows for the construction of new non-off-
10 highway vehicle trails.

11 **SEC. 807. MINERAL CANYON RECREATION ZONE MANAGE-**
12 **MENT.**

13 (a) **PURPOSES.**—The purposes of the Mineral Canyon
14 Recreation Zone are to promote non-motorized outdoor
15 recreation (including mountain biking, rock climbing, and
16 hiking), provide for new non-motorized route construction,
17 prevent future mineral development, maintain boating ac-
18 cess, maintain airstrip access, and maintain access and
19 use of country borrow areas for unprocessed gravel.

20 (b) **ADMINISTRATION.**—

21 (1) **IN GENERAL.**—The Secretary shall admin-
22 ister the Mineral Canyon Recreation Zone in accord-
23 ance with—

24 (A) this title;

1 (B) the Federal Land Policy and Manage-
2 ment Act of 1976 (43 U.S.C. 1701 et seq.); and

3 (C) other applicable laws.

4 (2) USES.—Uses and management of the Min-
5 eral Canyon Recreation Zone shall—

6 (A) coordinate and consult with State and
7 local government;

8 (B) provide for non-motorized recreational
9 opportunities including biking and hiking;

10 (C) prevent future mineral leasing or
11 claims;

12 (D) provide for new route and trail con-
13 struction for non-motorized vehicle use;

14 (E) maintain access for boating;

15 (F) maintain access for aircraft to the ex-
16 isting airstrip; and

17 (G) maintain access to and use of the
18 county borrow areas for unprocessed gravel.

19 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
20 TORIZED VEHICLES.—The Secretary shall manage
21 existing designated routes for off-highway and mo-
22 torized vehicles in a manner that—

23 (A) is consistent with off-highway and mo-
24 torized vehicle use of the routes designated in
25 the applicable travel management plan;

1 (B) allows for adjustment to the travel
2 management plan within the regular amend-
3 ment process; and

4 (C) allows for the construction of new non-
5 off-highway vehicle trails.

6 (4) WITHDRAWALS.—Subject to valid existing
7 rights, all public land within the Mineral Canyon
8 Recreation Zone, including any land or interest in
9 land that is acquired by the United States within the
10 Mineral Canyon Recreation Zone after the date of
11 enactment of this Act, is withdrawn from—

12 (A) entry, appropriation or disposal under
13 the public land laws;

14 (B) location, entry, and patent under the
15 mining laws; and

16 (C) operation of the mineral leasing, min-
17 eral materials, and geothermal leasing laws.

18 **SEC. 808. DEE PASS AND UTAH RIMS RECREATION ZONE**

19 **MANAGEMENT.**

20 (a) PURPOSES.—The purposes of the Dee Pass and
21 Utah Rims Recreation Zone are to promote off-highway
22 vehicle recreation, provide for the construction of new off-
23 highway vehicle trails and non-motorized trails, and allow
24 mineral development.

25 (b) ADMINISTRATION.—

1 (1) IN GENERAL.—The Secretary shall admin-
2 ister the Dee Pass and Utah Rims Recreation Zone
3 in accordance with—

4 (A) this title;

5 (B) the Federal Land Policy and Manage-
6 ment Act of 1976 (43 U.S.C. 1701 et seq.); and

7 (C) other applicable laws.

8 (2) USES.—Uses and management of the Dee
9 Pass and Utah Rims Recreation Zone shall—

10 (A) coordinate and consult with State and
11 local government;

12 (B) provide for recreational opportunities
13 including rock climbing, biking, hiking, and off-
14 highway vehicle use (including motorcycling, all-
15 terrain vehicle riding, and four-wheeling);

16 (C) provide future mineral and energy
17 leasing and development in a manner that mini-
18 mizes impacts to outdoor recreation; and

19 (D) provide for new route and trail con-
20 struction for motorized and non-motorized use.

21 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
22 TORIZED VEHICLES.—The Secretary shall manage
23 existing designated routes for off-highway and mo-
24 torized vehicles in a manner that—

1 (A) is consistent with off-highway and mo-
2 torized vehicle use of the routes designated in
3 the applicable travel management plan;

4 (B) allows for adjustment to the travel
5 management plan within the regular amend-
6 ment process; and

7 (C) allows for the construction of new off-
8 highway and non-off-highway vehicle trails.

9 (4) WHITE WASH CROSS COUNTRY TRAVEL
10 AREA.—The approximately _____ acres identified
11 as the “White Wash Cross Country Travel Area”,
12 located within the Dee Pass Recreation Zone, on the
13 map entitled “Utah PLI Recreation Zones Map”
14 and dated June 30, 2016, is open to cross country
15 off-highway vehicle travel.

16 **SEC. 809. YELLOW CIRCLE AND CAMEO CLIFFS MANAGE-**
17 **MENT.**

18 (a) PURPOSES.—The purposes of the Yellow Circle
19 Recreation Zone and Cameo Cliffs Recreation Zone are
20 to promote off-highway vehicle use, provide for the con-
21 struction of new off-highway vehicle and non-motorized
22 trails, and allow energy and mineral leasing and develop-
23 ment.

24 (b) ADMINISTRATION.—

1 (1) IN GENERAL.—The Secretary shall admin-
2 ister the Yellow Circle Recreation Zone and Cameo
3 Cliffs Recreation Zone in accordance with—

4 (A) this title;

5 (B) the Federal Land Policy and Manage-
6 ment Act of 1976 (43 U.S.C. 1701 et seq.);

7 (C) other applicable laws; and

8 (D) San Juan County Public Entry and
9 Access Rights.

10 (2) USES.—Uses and management of the Yel-
11 low Circle Recreation Zone and Cameo Cliffs Recre-
12 ation Zone shall:

13 (A) coordinate and consult with State and
14 local government;

15 (B) provide for recreational opportunities
16 including rock climbing, biking, hiking, and off-
17 highway vehicle use (including motorcycling, all-
18 terrain-vehicle riding, four-wheeling);

19 (C) provide future mineral and energy
20 leasing and development in a manner that con-
21 siders impacts to outdoor recreation; and

22 (D) provide for new route and trail con-
23 struction for off-highway vehicle and non-mo-
24 torized use.

1 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
2 TORIZED VEHICLES.—The Secretary shall manage
3 existing designated off-highway and motorized vehi-
4 cle routes in a manner that—

5 (A) is consistent with off-highway and mo-
6 torized vehicle use of the routes designated in
7 the applicable travel management plan;

8 (B) allows for adjustment to the travel
9 management plan within the regular amend-
10 ment process; and

11 (C) allows for the construction of new non-
12 off-highway vehicle trails.

13 **SEC. 810. JENSEN HILLS RECREATION ZONE ADDITIONAL**
14 **PROVISIONS.**

15 (a) PURPOSES.—The purposes of the Jensen Hills
16 Recreation Zone is to promote off-highway vehicle recre-
17 ation, provide for the construction of new off-highway ve-
18 hicle trails and non-motorized trails, and to promote en-
19 ergy and mineral leasing and development.

20 (b) ADMINISTRATION.—

21 (1) IN GENERAL.—The Secretary shall admin-
22 ister the Jensen Hills Recreation Zone in accordance
23 with—

24 (A) this title;

1 (B) the Federal Land Policy and Manage-
2 ment Act of 1976 (43 U.S.C. 1701 et seq.); and

3 (C) other applicable laws;

4 (2) USES.—Uses and management of the Jen-
5 sen Hills Recreation Zone shall—

6 (A) coordinate and consult with State and
7 local government;

8 (B) provide for recreational opportunities
9 including, biking, hiking, rock climbing and off-
10 highway vehicle use (including motorcycling, all-
11 terrain vehicle riding, and four-wheeling);

12 (C) allow future mineral and energy leas-
13 ing and development in a manner that mini-
14 mizes impacts to outdoor recreation;

15 (D) provide for new route and trail con-
16 struction for off-highway vehicle and non-mo-
17 torized use to further recreational opportunities;
18 and

19 (E) allow cross country off-highway vehicle
20 travel where authorized under the applicable
21 travel management plan.

22 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
23 TORIZED VEHICLES.—The Secretary shall manage
24 existing designated routes in a manner that—

1 (A) is consistent with off-highway and mo-
2 torized vehicle use of the routes designated in
3 the applicable travel management plan;

4 (B) allows for adjustment to the travel
5 management plan within the regular amend-
6 ment process;

7 (C) allows for the construction of new non-
8 off-highway vehicle trails; and

9 (D) allows for continued cross country off-
10 highway vehicle travel where authorized under
11 the travel management plan.

12 **SEC. 811. RED MOUNTAIN RECREATION ZONE MANAGE-**
13 **MENT.**

14 (a) **PURPOSES.**—The purposes of the Red Mountain
15 Recreation Zone is to promote off-highway vehicle recre-
16 ation, provide for the construction of new off-highway ve-
17 hicle trails and non-motorized trails, and to promote en-
18 ergy and mineral leasing and development.

19 (b) **ADMINISTRATION.**—

20 (1) **IN GENERAL.**—The Secretary shall admin-
21 ister the Red Mountain Recreation Zone in accord-
22 ance with—

23 (A) this title;

24 (B) the Federal Land Policy and Manage-
25 ment Act of 1976 (43 U.S.C. 1701 et seq.); and

1 (C) other applicable laws.

2 (2) USES.—Uses and management of the Red
3 Mountain Recreation Zone shall—

4 (A) coordinate and consult with State and
5 local government;

6 (B) provide for recreational opportunities
7 including, biking, hiking, rock climbing and off-
8 highway vehicle use (including motorcycling, all-
9 terrain vehicle riding, and four-wheeling);

10 (C) allow future mineral and energy leas-
11 ing and development in a manner that mini-
12 mizes impacts to outdoor recreation and sen-
13 sitive plant and animal species; and

14 (D) provide for new route and trail con-
15 struction for off-highway vehicle and non-mo-
16 torized use.

17 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
18 TORIZED VEHICLES.—The Secretary shall manage
19 existing designated routes in a manner that—

20 (A) is consistent with off-highway and mo-
21 torized vehicle use of the routes designated in
22 the applicable travel management plan;

23 (B) allows for adjustment to the travel
24 management plan within the regular amend-
25 ment process; and

1 (C) allows for the construction of new off-
2 highway vehicle and non-motorized routes and
3 trails.

4 **SEC. 812. DEVILS HOLE RECREATION ZONE MANAGEMENT.**

5 (a) PURPOSES.—The purposes of the Devils Hole
6 Recreation Zone is to promote off-highway vehicle recre-
7 ation, the construction of new off-highway vehicle trails
8 and non-motorized trails and routes, and to promote en-
9 ergy and mineral leasing and development.

10 (b) ADMINISTRATION.—

11 (1) IN GENERAL.—The Secretary of the Inte-
12 rior shall administer the Devils Hole Recreation
13 Zone in accordance with—

14 (A) this title;

15 (B) the Federal Land Policy and Manage-
16 ment Act of 1976 (43 U.S.C. 1701 et seq.); and

17 (C) other applicable laws.

18 (2) USES.—Uses and management of the Devils
19 Hole Recreation Zone shall—

20 (A) coordinate and consult with State and
21 local government;

22 (B) provide for recreational opportunities
23 including, biking, hiking, rock climbing and off-
24 highway vehicle use (including motorcycling, all-
25 terrain vehicle riding, and four-wheeling);

1 (C) allows future mineral and energy leas-
2 ing and development in a manner that considers
3 impacts to outdoor recreation;

4 (D) provide for new route and trail con-
5 struction for off-highway vehicle and non-mo-
6 torized use; and

7 (E) allows cross country off-highway vehi-
8 cle travel where authorized by the applicable
9 travel management plan.

10 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
11 TORIZED VEHICLES.—The Secretary of the Interior
12 shall manage existing designated routes in a manner
13 that—

14 (A) is consistent with off-highway and mo-
15 torized vehicle use of the routes designated in
16 the applicable travel management plan;

17 (B) allows for adjustment to the travel
18 management plan within the regular amend-
19 ment process;

20 (C) allows for the construction of new off-
21 highway vehicle and non-motorized trails; and

22 (D) allows for continued cross country off-
23 highway vehicle travel authorized under the ap-
24 plicable travel management plan.

1 **SEC. 813. BOURDETTE DRAW RECREATION ZONE ADDI-**
2 **TIONAL PROVISIONS.**

3 (a) **PURPOSES.**—The purposes of the Bourdette
4 Draw Recreation Zone is to promote off-highway vehicle
5 recreation, provide for the construction of new off-highway
6 vehicle trails and non-motorized trails, and to promote en-
7 ergy and mineral leasing and development.

8 (b) **ADMINISTRATION.**—

9 (1) **IN GENERAL.**—The Secretary of the Inte-
10 rior shall administer the Bourdette Draw Recreation
11 Zone in accordance with—

12 (A) this title;

13 (B) the Federal Land Policy and Manage-
14 ment Act of 1976 (43 U.S.C. 1701 et seq.); and

15 (C) other applicable laws.

16 (2) **USES.**—Uses and management of the
17 Bourdette Draw Recreation Zone shall—

18 (A) coordinate and consult with State and
19 local government;

20 (B) provide for recreational opportunities
21 including, biking, hiking, rock climbing and off-
22 highway vehicle use (including motorcycling, all-
23 terrain vehicle riding, and four-wheeling);

24 (C) allow future mineral and energy leas-
25 ing and development in a manner that mini-

1 mizes impacts to outdoor recreation and sen-
2 sitive plant and animal species;

3 (D) provide for new route and trail con-
4 struction for off-highway vehicle and non-mo-
5 torized use; and

6 (E) allow cross country off-highway vehicle
7 travel authorized under the applicable travel
8 management plan.

9 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
10 TORIZED VEHICLES.—The Secretary of the Interior
11 shall manage existing designated routes in a manner
12 that—

13 (A) is consistent with off-highway and mo-
14 torized vehicle use of the routes designated in
15 the applicable travel management plan;

16 (B) allows for adjustment to the travel
17 management plan within the regular amend-
18 ment process;

19 (C) allows for the construction of new non-
20 off-highway vehicle trails; and

21 (D) allows for continued cross country off-
22 highway vehicle travel where authorized under
23 the applicable travel management plan.

1 **SEC. 814. RED WASH RECREATION ZONE ADDITIONAL PRO-**
2 **VISIONS.**

3 (a) **PURPOSES.**—The purposes of the Red Wash
4 Recreation Zone is to promote off-highway vehicle recre-
5 ation, provide for the construction of new off-highway ve-
6 hicle trails and non-motorized trails, and to promote en-
7 ergy and mineral leasing and development.

8 (b) **ADMINISTRATION.**—

9 (1) **IN GENERAL.**—The Secretary of the Inte-
10 rior shall administer the Red Wash Recreation Zone
11 in accordance with—

12 (A) this title;

13 (B) the Federal Land Policy and Manage-
14 ment Act of 1976 (43 U.S.C. 1701 et seq.); and

15 (C) other applicable laws.

16 (2) **USES.**—Uses and management of the Red
17 Wash Recreation Zone shall—

18 (A) coordinate and consult with State and
19 local government;

20 (B) provide for recreational opportunities
21 including, biking, hiking, rock climbing and off-
22 highway vehicle use (including motorcycling, all-
23 terrain vehicle riding, and four-wheeling);

24 (C) allow future mineral and energy leas-
25 ing and development in a manner that mini-
26 mizes impacts to outdoor recreation;

1 (D) provide for new route and trail con-
2 struction for off-highway vehicle and non-mo-
3 torized use; and

4 (E) allow cross country off-highway vehicle
5 travel authorized under the applicable travel
6 management plan.

7 (3) MANAGEMENT OF OFF-HIGHWAY AND MO-
8 TORIZED VEHICLES.—The Secretary of the Interior
9 shall manage existing designated routes in a manner
10 that—

11 (A) is consistent with off-highway and mo-
12 torized vehicle use of the routes designated in
13 the applicable travel management plan;

14 (B) allows for adjustment to the travel
15 management plan within the regular amend-
16 ment process;

17 (C) allows for the construction of new non-
18 off-highway vehicle trails; and

19 (D) allows for continued cross country off-
20 highway vehicle travel where authorized under
21 the applicable travel management plan.

22 **SEC. 815. HOLE-IN-THE-ROCK TRAIL.**

23 (a) ESTABLISHMENT OF TRAIL.—Section 5(a) of the
24 National Trails System Act (16 U.S.C. 1244(a)) is
25 amended by adding at the end the following:

1 “(31) HOLE-IN-THE-ROCK TRAIL.—

2 “(A) IN GENERAL.—The corridor known
3 as the ‘Hole-in-the-Rock Trail’ as generally de-
4 picted on the map titled ‘Utah PLI National
5 Conservation Area Map’ dated June 30, 2016.

6 “(B) PURPOSES AND USE.—

7 “(i) The purposes of the National
8 Hole in the Rock Trail is to promote cul-
9 tural, recreational, and historic values and
10 promote motorized and non-motorized
11 recreation.

12 “(ii) The Hole in the Rock Founda-
13 tion shall be a cooperating agency regard-
14 ing trail management.

15 “(iii) The issuance of regulations re-
16 garding group size and fee areas shall be
17 done in accordance with the cooperating
18 agencies.

19 “(C) MANAGEMENT PLAN.—

20 “(i) PLAN REQUIRED.—Not later than
21 2 years after the date of enactment of this
22 Act, the Secretary of the Interior shall de-
23 velop a management plan for the long-term
24 management of the historic trail.

1 “(ii) RECOMMENDATIONS AND CON-
2 SULTATION.—The Secretary of the Interior
3 shall prepare the management plan in con-
4 sultation and coordination with local and
5 tribal governments, the public, and the
6 Public Lands Initiative Planning and Im-
7 plementation Advisory Committee estab-
8 lished under Division C of this Act. If the
9 Secretary of the Interior does not incor-
10 porate recommendations submitted by the
11 State, local, and tribal governments into
12 the management plans, the Secretary of
13 the Interior shall submit a written expla-
14 nation before the effective date of the man-
15 agement plan to the House Committee on
16 Natural Resources and Senate Committee
17 on Energy and Natural Resources out-
18 lining the reasons for rejecting the rec-
19 ommendations of the State local govern-
20 ments and tribes.”.

21 **SEC. 816. RECAPTURE CANYON.**

22 (a) APPROVAL OF RIGHT-OF-WAY.—San Juan Coun-
23 ty, Utah’s application for a Title V Right-of-Way, origi-
24 nally submitted to the Bureau of Land Management Mon-
25 ticello Field Office in the State of Utah on March 30,

1 2006, and later amended on November 13, 2012, is ap-
2 proved.

3 (b) PURPOSE OF RIGHT-OF-WAY.—The purposes of
4 the Title V Right-of-Way, as stated by the County’s appli-
5 cation, is to perform routine maintenance to existing trails
6 and routes in an effort to encourage travel in the canyon
7 to remain on a single established route through the canyon
8 that minimizes impacts to the surrounding environment.

9 (c) APPLICABILITY OF OTHER LAWS.—In granting
10 the application, compliance with section 306108 of title
11 54, United States Code, and the Native American Graves
12 Protection and Repatriation Act shall apply to the right-
13 of-way to avoid adverse impact to archaeological sites.

14 **SEC. 817. BIG BURRITO NON-MOTORIZED TRAIL.**

15 The 9.3 mile proposed non-motorized trail within the
16 Sand Flats Recreation Area, approved by the Bureau of
17 Land Management Moab Field Office on December 18,
18 2016, and commonly known as the Big Burrito non-mo-
19 torized trail, shall not be subject to administrative or judi-
20 cial review.

21 **TITLE IX—RED ROCK COUNTRY**
22 **OFF-HIGHWAY VEHICLE TRAIL**

23 **SEC. 901. DEFINITIONS.**

24 In this title:

1 (1) COUNTY.—The term “County” means
2 Grand and San Juan Counties, Utah.

3 (2) SECRETARY.—The term “Secretary” means
4 the Secretary of the Interior.

5 (3) TRAIL.—The term “Trail” means the Red
6 Rock Country Off-Highway Vehicle Trail established
7 under section 902.

8 (4) FEDERAL LAND.—The term “Federal land”
9 means land owned by the Bureau of Land Manage-
10 ment as depicted on the Utah PLI Recreation Plans
11 Map and dated .

12 **SEC. 902. DESIGNATION.**

13 (1) IN GENERAL.—The Secretary shall des-
14 ignate a trail system in the County—

15 (A) for use by off-highway vehicles; and

16 (B) to be known as the “Red Rock Coun-
17 try Off-Highway Vehicle Trail”.

18 (2) REQUIREMENTS.—In designating the trail,
19 the Secretary shall prioritize a long distance route
20 for off-highway vehicles that is generally depicted on
21 the Utah PLI Recreation Plans Map and dated June
22 30, 2016, that—

23 (A) connects the Federal land adjacent to
24 Moab, Utah, to the Federal land adjacent to

1 Grand Junction, Colorado, through the Dee
2 Pass and Utah Rims Recreation Zone;

3 (B) connects the Federal land adjacent to
4 Moab, Utah, to the Federal land adjacent to
5 Green River, Utah, through the Dee Pass and
6 Utah Rims Recreation Zone;

7 (C) connects the Federal land adjacent to
8 Moab, Utah, to the Federal land adjacent to
9 Monticello, Utah, through the Cameo Cliffs
10 Recreation Zone;

11 (D) uses existing routes, where feasible,
12 which may include the Kokopelli Trail, the Or-
13 ange Trail, and Trail 1;

14 (E) minimizes the use of graded roads;

15 (F) creates a recreational experience that
16 provides—

17 (i) opportunities for scenic vistas;

18 (ii) challenging terrain for off-highway
19 vehicle travel;

20 (iii) connections to other existing trail
21 systems or trails;

22 (iv) minimal conflicts between off-
23 highway vehicle and non-off-highway vehi-
24 cle users; and

1 (v) off-highway vehicle singletrack and
2 doubletrack options where feasible.

3 (3) MAP.—A map that depicts the Trail shall
4 be on file and available for public inspection in the
5 appropriate offices of the Bureau of Land Manage-
6 ment.

7 **SEC. 903. MANAGEMENT.**

8 (a) IN GENERAL.—The Secretary shall manage fu-
9 ture designated routes on the Trail in a manner that—

10 (1) is consistent with section 902;

11 (2) does not interfere with private property or
12 water rights.

13 (b) CLOSURE.—The Secretary, in consultation with
14 the State and the County, may temporarily close or per-
15 manently reroute, subject to subparagraph (C), a route
16 on the Trail if the Secretary determines that—

17 (1) the route is significantly damaging des-
18 igned critical habitat or cultural resources;

19 (2) the route threatens public safety;

20 (3) closure of the route is necessary to repair
21 damage to the Trail; or

22 (4) closure of the route is necessary to repair
23 resource damage.

1 (c) REROUTING.—Portions of the route that are tem-
2 porarily closed may be permanently rerouted by utilizing
3 a previously-closed route or constructing a new route.

4 (d) NOTICE.—The Secretary shall provide informa-
5 tion to the public regarding any designated routes on the
6 Trail that are open, have been relocated, or are tempo-
7 rarily closed through—

- 8 (1) use of appropriate signage within the Trail;
- 9 (2) use of the internet and web resources.

10 (e) NO EFFECT ON NON-FEDERAL LAND OR INTER-
11 ESTS IN NON-FEDERAL LAND.—Nothing in this title af-
12 fects ownership, management, or other rights relating to
13 non-Federal land or interests in non-Federal land.

14 (f) ADDITIONAL ROUTE CONSTRUCTION.—

15 (1) FEASIBILITY STUDY.—Not later than 180
16 days after the date of enactment of this Act, the
17 Secretary shall study the feasibility and public inter-
18 est in constructing new routes as part of the Red
19 Rock County Off-Highway Vehicle Trail to further
20 off-highway vehicle recreational opportunities.

21 (2) CONSTRUCTION.—

22 (A) CONSTRUCTION AUTHORIZED.—If the
23 Secretary determines that the construction of a
24 route on the Trail is feasible, construction is
25 authorized.

1 (B) USE OF VOLUNTEER SERVICES AND
2 CONTRIBUTIONS.—A route on the Trail may be
3 constructed under this subsection through the
4 acceptance of volunteer services and contribu-
5 tions from non-Federal sources to eliminate the
6 need for Federal expenditures to construct the
7 route.

8 (3) COMPLIANCE.—In carrying out this sub-
9 section, the Secretary shall comply with—

10 (A) the Federal Land Policy and Manage-
11 ment Act of 1976 (43 U.S.C. 1701 et seq.);

12 (B) this title; and

13 (C) other applicable law.

14 **TITLE X—LONG-TERM INDIAN**
15 **ECONOMIC DEVELOPMENT**
16 **CERTAINTY**

17 **SEC. 1001. INDIAN ECONOMIC DEVELOPMENT IN SAN JUAN**
18 **COUNTY, UTAH.**

19 (a) McCRAKEN MESA MINERAL TRANSFER.—All
20 right and interest in the Federal minerals located within
21 the McCracken Extension of the Navajo Nation shall be
22 transferred to the Utah Navajo Trust Fund.

23 (b) USE OF ROYALITIES.—The Act of March 1, 1933
24 (47 Stat., 1418), is amended in the first section, by strik-
25 ing “37½” each place it appears and inserting “62.5”.

1 **SEC. 1002. UTE INDIAN TRIBE ECONOMIC DEVELOPMENT**
2 **AREA.**

3 (a) SPLIT ESTATE UNIFICATION.—With respect to
4 any land within the Uintah and Ouray Reservation, where
5 the United States holds title to the surface or mineral es-
6 tate in trust for the Ute Tribe but a Federal agency owns
7 or manages the corresponding mineral or surface estate,
8 the title to interests owned or managed by the Federal
9 agency shall be held by the Secretary of the Interior in
10 trust for the benefit of the tribe in order to unify the sur-
11 face and mineral estates for the benefit of the tribe.

12 (b) MINERALS TRANSFER.—The Bureau of Land
13 Management shall transfer title to the mineral estate of
14 public lands within the Hill Creek Extension (originally
15 established under the Act of March 11, 1948 (62 Stat.
16 72) south of the south boundary of Township 11 South,
17 Salt Lake Base & Meridian, other than lands for which
18 selection applications have been filed by the State of Utah
19 with the Bureau of Land Management under authority of
20 the Hill Creek Cultural Preservation and Energy Develop-
21 ment Act, Public Law 133–133. to the Bureau of Indian
22 Affairs to be held in trust for the benefit of the Ute Tribe.

23 **SEC. 1003. WATER STUDY FOR UINTAH AND DUCHESNE**
24 **COUNTIES.**

25 The Secretary of the Interior, using existing authori-
26 ties through the Bureau of Reclamation, shall undertake

1 a water study that includes a needs, opportunities and
2 constraints assessment in Uintah and Duchesne Counties
3 for storage of Ute tribal water and the use of water rights
4 currently held by the Ute Tribe.

5 **TITLE XI—LONG-TERM ENERGY**
6 **DEVELOPMENT CERTAINTY**
7 **IN UTAH**

8 **SEC. 1101. SENSE OF CONGRESS.**

9 Within Uintah, Carbon, Emery, Grand, Duchesne
10 and San Juan counties in the State of Utah, the increased
11 production and transmission of energy in a safe and envi-
12 ronmentally sound manner is essential to the well-being
13 of the rural Utahns and the American people. It is the
14 sense of Congress that the Federal departments and agen-
15 cies involved in energy development projects on Federal
16 lands in Utah shall take appropriate actions, including
17 Federal primacy delegation, to expedite projects that will
18 increase the production or development of energy and min-
19 eral resources on Federal lands.

20 **SEC. 1102. ACTIONS TO EXPEDITE ENERGY-RELATED**
21 **PROJECTS.**

22 (a) IN GENERAL.—The State of Utah—

23 (1) may establish a program covering the per-
24 mitting processes, regulatory requirements, and any
25 other provisions by which the State would exercise

1 the rights of the State to develop and permit all
2 forms of energy resources on available Federal land
3 administered by the Price, Vernal, Moab, and Monticello
4 Field Offices of the Bureau of Land Management; and

5
6 (2) shall submit, as a condition of certification
7 under section 1103(a), a declaration to the Department
8 of the Interior that a program under paragraph
9 (1) has been established or amended.

10 (b) AMENDMENT OF PROGRAMS.—The State of Utah
11 may amend a program developed and certified under this
12 subtitle at any time.

13 (c) CERTIFICATION OF AMENDED PROGRAMS.—Any
14 program amended under subsection (b) shall be certified
15 under section 1103(a).

16 **SEC. 1103. PERMITTING AND REGULATORY PROGRAMS.**

17 (a) FEDERAL CERTIFICATION AND TRANSFER OF
18 DEVELOPMENT RIGHTS.—Upon submission of a declaration
19 by the State of Utah under section 1102(a)(2)—

20 (1) the program under section 1102(a)(1) shall
21 be certified; and

22 (2) the State shall receive all rights from the
23 Federal Government to permit all forms of energy
24 resources covered by the program.

25 (b) ISSUANCE OF PERMITS.—

1 (1) No later than 60 days after the enactment
2 of this Act, the Governor of the State of Utah shall
3 make an election as to whether the State of Utah
4 will process permits for the development of any form
5 of energy resource on available Federal land within
6 the area covered by the Field Offices referenced in
7 section 1102(a)(1). In the event the Governor elects
8 to assume the permitting as set forth herein, he
9 shall notify the Secretary of the Interior of his deci-
10 sion within 60 days.

11 (2) Upon an election to assume permitting as
12 set forth in paragraph (1), the process shall be in
13 accordance with Federal statutes and regulations.

14 **SEC. 1104. JUDICIAL REVIEW.**

15 (a) JURISDICTION.—The United States District
16 Court for the District of Utah shall have original and ex-
17 clusive jurisdiction over any civil action brought pursuant
18 to this title.

19 (b) EXPEDITED CONSIDERATION.—The Court shall
20 set any civil action brought under this section for expe-
21 dited consideration.

1 **SEC. 1105. COMPLETION OF ADMINISTRATIVE LAND EX-**
2 **CHANGE PROCESS.**

3 The land exchange application, referred to as UTU-
4 78673 pending before the Moab Field Office, shall be con-
5 sidered in the public interest and completed.

6 **TITLE XII—LONG-TERM TRAVEL**
7 **MANAGEMENT CERTAINTY**

8 **SEC. 1201. RIGHTS-OF-WAY FOR CERTAIN ROADS.**

9 (a) IN GENERAL.—Subject to valid existing rights
10 and consistent with this section, the Secretary of the Inte-
11 rior shall acknowledge the State of Utah's and its coun-
12 ties' ownership of, and shall forever disclaim all Federal
13 interest in, a right-of-way for public travel and access on
14 all roads claimed as Class B, that are paved as of January
15 1, 2016, and identified as rights-of-way in judicial actions
16 in the federal court system as of January 1, 2016, in
17 Uintah, Duchesne, Carbon, Emery, Grand, and San Juan
18 counties, Utah.

19 (b) APPICABLE LAW.—A right-of-way disclaimed
20 under subsection (a) shall constitute the United States'
21 acceptance of the county's and State's RS 2477 ownership
22 and that all federal ownership authority is extinguished.
23 The State and counties in return shall withdraw lawsuits
24 in the Federal court system affecting those individual dis-
25 claimed roads.

26 (c) ADMINISTRATION.—

1 (1) Each right-of-way disclaimed by the Sec-
2 retary of the Interior under the provisions covered
3 by subsection (b) of this title shall consist of the full
4 geographic extent authorized by Utah State law in
5 effect as of January 1, 2016.

6 (2) Each right-of-way disclaimed pursuant to
7 this title may be abandoned pursuant to Utah State
8 law.

9 (3) The right -of-way area of disturbance shall
10 generally remain the same as of January 1, 2016.

11 **SEC. 1202. GRAND COUNTY COUNCIL RECOMMENDATIONS**
12 **FOR CERTAIN ROADS.**

13 The recommendations of the Grand County Council,
14 as depicted on the map entitled “Grand County PLI Final
15 Map 4-17-2015” and dated April 17, 2015, for Hey Joe
16 Canyon, Tenmile Canyon, and Mineral Canyon roads shall
17 be implemented by the Secretary of the Interior, with the
18 seasonal closures beginning the Tuesday following Memo-
19 rial Day through Labor Day.

20 **SEC. 1203. UINTAH COUNTY ROAD CERTAINTY.**

21 Not later than two years after the enactment of this
22 Act, and subject to valid existing rights and consistent
23 with this section, the Secretary of the Interior shall grant
24 a title V right-of-way to Uintah County for public travel
25 and access upon all Class D roads, as claimed by the

1 Uintah County on its duly adopted 2016 transportation
2 map, and as described by GPS centerline description on
3 file with Uintah County as a January 1, 2016, and that
4 are also identified on the 2008 Vernal Resource Manage-
5 ment Plan Transportation Plan.

6 **TITLE XIII—LONG-TERM**
7 **GRAZING CERTAINTY**

8 **SEC. 1301. CURRENT PERMITTED USE.**

9 Unless otherwise specified by this title, and pursuant
10 to existing permits, on Federal lands managed by the Sec-
11 retary of Agriculture or the Secretary of the Interior in
12 Summit, Duchesne, Uintah, Grand, Emery, Carbon, and
13 San Juan Counties, the grazing of domestic livestock shall
14 continue and any adjustments in the numbers of livestock
15 permitted should be made as a result of revisions in the
16 normal grazing and land management planning and policy
17 setting process.

18 **SEC. 1302. BIGHORN SHEEP.**

19 On Federal lands managed by the Secretary of Agri-
20 culture or the Secretary of the Interior in Summit,
21 Duchesne, Uintah, Grand, Emery, Carbon, and San Juan
22 Counties, the viability or existence of bighorn sheep shall
23 not be used to remove or alter the use of domestic sheep
24 or cattle where such use was permitted as of January 1,
25 2016.

1 **SEC. 1303. PROTECTION OF GRAZING LANDS.**

2 To recognize the importance of public land grazing
3 to the economy and culture of rural Utah, and to the State
4 of Utah in general, it is the sense of Congress that this
5 title shall ensure public grazing lands, including areas out-
6 side the areas designated in this title, not be reduced below
7 current permitted levels, except for cases of extreme range
8 conditions where water and forage is not available. The
9 areas of public land that have reduced or eliminated graz-
10 ing shall be reviewed and managed to support grazing at
11 an economically viable level.

12 **DIVISION C—LOCAL**
13 **PARTICIPATION**
14 **TITLE I—LOCAL PARTICIPATION**
15 **AND PLANNING**

16 **SEC. 101. PUBLIC LANDS INITIATIVE PLANNING AND IM-**
17 **PLEMENTATION ADVISORY COMMITTEE.**

18 (a) ESTABLISHMENT AND PURPOSE OF PUBLIC
19 LANDS INITIATIVE PLANNING AND IMPLEMENTATION AD-
20 VISORY COMMITTEE.—

21 (1) ESTABLISHMENT.—The Secretary of the In-
22 terior and Secretary of Agriculture shall jointly es-
23 tablish and maintain the Public Lands Initiative
24 Planning and Implementation Advisory Committee
25 (in this title referred to as the “Advisory Com-
26 mittee”) to perform the duties in subsection (b).

1 (2) PURPOSE.—The purpose of the Advisory
2 Committee is to advise the Secretaries of the Inte-
3 rior and Agriculture on the implementation of the
4 Utah Public Lands Initiative Act.

5 (b) DUTIES.—The Advisory Committee shall advise
6 the relevant Secretary with regard to—

7 (1) implementation of this title; and

8 (2) policies or programs that encourage coordi-
9 nation among the public, local elected officials, and
10 public lands stakeholders, and the State, tribes, and
11 the Federal Government.

12 (c) APPOINTMENT BY THE SECRETARIES.—

13 (1) APPOINTMENT AND TERM.—The Secretaries
14 of the Interior and Agriculture shall jointly appoint
15 the members of the Advisory Committee for a term
16 of 5 years beginning on the date of appointment.
17 The Secretaries of the Interior and Agriculture may
18 not reappoint members designated under subsection
19 (d)(2)(B) to more than 3 terms.

20 (2) BASIC REQUIREMENTS.—The Secretaries of
21 the Interior and Agriculture shall ensure that the
22 Advisory Committee established meets the require-
23 ments of subsection (d).

24 (3) INITIAL APPOINTMENT.—The Secretaries of
25 the Interior and Agriculture shall make initial ap-

1 pointments to the Advisory Committee not later
2 than 180 days after the date of the enactment of
3 this Act.

4 (4) VACANCIES.—The Secretaries of the Inte-
5 rior and Agriculture shall fill vacancies on the Advi-
6 sory Committee as soon as practicable after the va-
7 cancy has occurred.

8 (5) COMPENSATION.—Members of the Advisory
9 Committee shall not receive any compensation.

10 (d) COMPOSITION OF ADVISORY COMMITTEE.—

11 (1) NUMBER.—The Advisory Committee shall
12 be comprised of no more than 22 members.

13 (2) COMMUNITY INTERESTS REPRESENTED.—
14 Advisory Committee members shall reside in the
15 State of Utah and represent the following:

16 (A) GOVERNMENTAL INTERESTS.—

17 (i) The Utah State Director of the
18 Bureau of Land Management or a des-
19 ignated representative of the Director.

20 (ii) The Regional Forester of Region
21 4 of the United States Forest Service or a
22 designated representative of the Forester.

23 (iii) A representative of the Bureau of
24 Indian Affairs Western Region.

1 (iv) A representative of the Bureau of
2 Indian Affairs Navajo Region.

3 (v) The Governor of the State of Utah
4 or a designated representative of the Gov-
5 ernor.

6 (vi) The Director of the Utah Depart-
7 ment of Natural Resources or a designated
8 representative of the Director.

9 (vii) The Chairperson of the Summit
10 County Council or a designated representa-
11 tive of the Chairperson.

12 (viii) The Chairperson of the Uintah
13 County Commission or a designated rep-
14 resentative of the Chairperson.

15 (ix) The Chairperson of the Duchesne
16 County Commission or a designated rep-
17 resentative of the Chairperson.

18 (x) The Chairperson of the Carbon
19 County Commission or a designated rep-
20 resentative of the Chairperson.

21 (xi) The Chairperson of the Emery
22 County Commission or a designated rep-
23 resentative of the Chairperson.

1 (xii) The Chairperson of the Grand
2 County Council or a designated representa-
3 tive of the Chairperson.

4 (xiii) The Chairperson of the San
5 Juan County Commission or a designated
6 representative of the Chairperson.

7 (B) COMMUNITY INTERESTS.—

8 (i) The grazing community.

9 (ii) The off-highway vehicle commu-
10 nity.

11 (iii) The sportsmen or hunting com-
12 munity.

13 (iv) The energy development industry.

14 (v) The guides and outfitters commu-
15 nity.

16 (vi) The non-off-highway vehicle recre-
17 ation community.

18 (vii) The conservation community.

19 (viii) Archaeological, cultural, and his-
20 toric interests.

21 (ix) Biological interests.

22 (5) PRESERVATION OF PUBLIC ADVISORY STA-
23 TUS.—No individual serving under subparagraph
24 (2)(B) may be an officer or employee of the Federal
25 Government or State of Utah.

1 (6) **BALANCED REPRESENTATION.**—In appoint-
2 ing Advisory Committee members from the two cat-
3 egories in section 2, the Secretaries of the Interior
4 and Agriculture shall provide for balanced and broad
5 representation from within each category.

6 (7) **CHAIRPERSON.**—The Secretaries of the In-
7 terior and Agriculture shall jointly select the chair-
8 person of the Advisory Committee for a term of 5
9 years beginning on the date of appointment.

10 (e) **ANNUAL ADVISORY COMMITTEE REPORT.**—

11 (1) **REPORT SUBMISSION.**—The Advisory Com-
12 mittee shall submit a report no later than September
13 30 of each year to the Secretaries of the Interior
14 and Agriculture, the Committee on Natural Re-
15 sources of the House of Representatives, and the
16 Committees on Agriculture, Nutrition, and Forestry,
17 and Energy and Natural Resources of the Senate. If
18 the Advisory Committee cannot meet the September
19 30 deadline in any year, the Secretary of the Inte-
20 rior or Secretary of Agriculture shall advise the
21 Chair of each such Committee of the reasons for
22 such delay and the date on which the submission of
23 the report is anticipated.

24 (2) **CONTENTS.**—The report required by para-
25 graph (1) shall describe—

1 (A) the activities of the Advisory Com-
2 mittee during the preceding year;

3 (B) the reports and recommendations
4 made by the Advisory Committee to the Secre-
5 taries of the Interior and Agriculture during the
6 preceding year; and

7 (C) an accounting of actions taken by the
8 Secretaries of the Interior and Agriculture as a
9 result of the recommendations.

10 (f) OTHER ADVISORY COMMITTEE AUTHORITIES AND
11 REQUIREMENTS.—

12 (1) STAFF ASSISTANCE.—The Advisory Com-
13 mittee may request and the Secretaries of the Inte-
14 rior and Agriculture may provide periodic staff as-
15 sistance from Federal employees under the jurisdic-
16 tion of the relevant Secretary.

17 (2) MEETINGS.—

18 (A) FREQUENCY.—The Advisory Com-
19 mittee shall meet at the call of the Secretaries
20 of the Interior or Agriculture, the Chairperson,
21 or a majority of the members. Meetings shall be
22 held no fewer than 1 time a year. A majority
23 constitutes a quorum for business of the Advi-
24 sory Committee.

1 (B) OPEN MEETINGS.—All meetings of the
2 Advisory Committee shall be announced at least
3 one week in advance in publications of general
4 circulation and shall be open to the public.

5 (3) RECORDS.—The Advisory Committee shall
6 maintain records of the meetings of the Advisory
7 Committee and make the records available for public
8 inspection.

9 **DIVISION D—BEAR EARS NA-**
10 **TIONAL CONSERVATION AREA**
11 **TITLE I—BEARS EARS NATIONAL**
12 **CONSERVATION AREA**

13 **SEC. 101. FINDINGS.**

14 Congress finds the following:

15 (1) The lands within Bears Ears National Con-
16 servation Area have been used by Native Americans
17 for thousands of years.

18 (2) The unique, intact archaeological record
19 found throughout the Bears Ears National Con-
20 servation Area is sacred to numerous Native Amer-
21 ican tribes and Pueblos and is of great significance
22 to American history.

23 (3) Tribes and Pueblos maintain deep connec-
24 tions and commitments to the lands within the
25 Bears Ears National Conservation Area and con-

1 tinue to rely on and use these lands for ceremonies,
2 spiritual rejuvenation, gathering herbs, firewood and
3 cedar poles, hunting for game, and caretaking of sa-
4 cred places.

5 (4) Many local residents, many with early pio-
6 neer heritage, have similarly strong attachments to
7 the land and associated lifestyles, both vocational
8 and avocational.

9 (5) Many visitors develop similar attachments
10 and appreciation for these landscapes.

11 **SEC. 102. ESTABLISHMENT.**

12 Certain Federal land, comprising of approximately
13 857,603 acres administered by the Bureau of Land Man-
14 agement and U.S. Forest Service in San Juan County as
15 generally depicted on the map entitled Utah PLI National
16 Conservation Area Map dated June 30, 2016, to be known
17 as the “Bears Ears National Conservation Area”.

18 **SEC. 103. MAP AND LEGAL DESCRIPTION.**

19 (a) IN GENERAL.—Not later than two years from the
20 date of enactment of this Act, the relevant Secretary shall
21 file a map and legal description of the National Conserva-
22 tion Areas established by sections 201 of this title with
23 the Committee on Natural Resources of the House of Rep-
24 resentatives and the Committee on Energy and Natural
25 Resources of the Senate.

1 (b) FORCE AND EFFECT.—Each map and legal de-
2 scription submitted under this section shall have the same
3 force and effect as if included in this title, except that
4 the relevant Secretary may make minor modifications of
5 any clerical or typographical errors in the map or legal
6 description provided that prior to any modifications, cler-
7 ical or typographical changes, these changes are reported
8 to the State of Utah and the affected county.

9 (c) PUBLIC AVAILABILITY.—A copy of the map and
10 legal description shall be on file and available for public
11 inspection in the appropriate offices of the Bureau of In-
12 dian Affairs, the Bureau of Land Management, and the
13 United States Forest Service.

14 **SEC. 104. ADMINISTRATION OF BEAR EARS NATIONAL CON-**
15 **SERVATION AREA.**

16 (a) PURPOSES.—In accordance with this title, the
17 Federal Land Policy and Management Act of 1976 (43
18 U.S.C. 1701 et seq.), and other applicable laws, the rel-
19 evant Secretary shall manage the Bears Ears National
20 Conservation Area (hereinafter referred to as “Bears
21 Ears” established by section 102 in a manner that—

22 (1) protects, conserves, and enhances the
23 unique and nationally important historic, cultural,
24 scientific, scenic, recreational, archaeological, nat-
25 ural, and educational resources of Bears Ears;

1 (2) maintains and enhances cooperative and in-
2 novative management practices between resource
3 managers, private landowners, and the public in
4 Bears Ears;

5 (3) recognizes and maintains historic uses of
6 Bears Ears;

7 (4) provides for traditional access by indigenous
8 persons for culturally significant subsistence, includ-
9 ing but not limited to traditional gathering, wood
10 cutting, hunting, and cultural and religious uses
11 within Bears Ears;

12 (5) consistent with the Native American Graves
13 Repatriation and Protection Act (Public Law 101-
14 601; 25 U.S.C. 3001 et seq.; 104 Stat. 3048), the
15 National Historic Preservation Act (Public Law 89-
16 665; 54 U.S.C. 300101 et seq.), and the Utah State
17 Antiquities Act (UCA 9-8-301-308) protects and
18 preserves and minimizes disturbance to Native
19 American archaeological sites, including human re-
20 mains, from permitted uses of Bears Ears; and

21 (6) Integrates Native American Traditional Ec-
22 ological Knowledge as defined in 36 CFR 219.19 to
23 improve social, economic, and ecological sustain-
24 ability in accordance with U.S. Forest Service 2016
25 Planning Rule regulations (36 CFR 219).

1 (b) MANAGEMENT PLANS.—

2 (1) PLAN REQUIRED.—Not later than 2 years
3 after the date of enactment of this Act, the relevant
4 Secretary shall develop a management plan for the
5 long-term management of each Conservation Area.

6 (2) RECOMMENDATIONS AND CONSULTATION.—

7 The relevant Secretary shall prepare the manage-
8 ment plan in consultation and coordination with
9 local and tribal governments, the public, and the
10 Public Lands Initiative Planning and Implementa-
11 tion Advisory Committee established under Division
12 C of this Act. If the relevant Secretary does not in-
13 corporate recommendations submitted by the State,
14 local governments, and Indian tribes into the man-
15 agement plans, the relevant Secretary shall submit a
16 written explanation before the effective date of the
17 management plan to the House Committee on Nat-
18 ural Resources and Senate Committee on Energy
19 and Natural Resources outlining the reasons for re-
20 jecting the recommendations.

21 **SEC. 105. GENERAL PROVISIONS.**

22 The General Provisions in title II section 204 shall
23 apply to this title.

1 **SEC. 106. COOPERATING AGENCIES.**

2 The Secretary of the Interior shall designate and in-
3 volve as cooperating agencies interested Tribes and Pueb-
4 los that trace their culture and heritage to the lands with-
5 in the Bears Ears National Conservation Area in accord-
6 ance with the National Environmental Policy Act (42
7 U.S.C. 4321 et seq.).

8 **SEC. 107. BEARS EARS TRIBAL COMMISSION.**

9 (a) CREATION OF COMMISSION.—In preparing the
10 management plan subject to section 104(b) for the Bears
11 Ears, the Secretary of the Interior shall create a Commis-
12 sion consisting of one representative from each Tribe or
13 Pueblo that enters into cooperating agency status pursu-
14 ant to section 106. The Secretary shall actively seek advice
15 and carefully and fully consider the views of the Commis-
16 sion.

17 (b) STAKEHOLDER ADVISORY COUNCIL REPRESENT-
18 ATIVE.—The Commission shall select either a representa-
19 tive from the Commission or the Tribal Liaison to be the
20 tribal interest representative on the Advisory Council.

21 **SEC. 108. TRIBAL EMPLOYMENT.**

22 In employing individuals to perform any administra-
23 tive, interpretation, construction, maintenance, or other
24 service in the Bears Ears National Conservation Area, the
25 Secretary of the Interior shall give priority consideration
26 to members of tribes that meet publically posted job quali-

1 fications and criteria consistent with standard Federal hir-
2 ing practices.

3 **SEC. 109. TRIBAL LIAISON.**

4 The Secretary of the Interior shall appoint a liaison
5 to the tribes that enter into cooperating agency status pur-
6 suant to section 106. The liaison shall work to ensure the
7 voice and perspectives of the cooperating tribal entities are
8 represented in the management of the Bears Ears Na-
9 tional Conservation Area.

10 **SEC. 110. BEARS EARS ADVISORY COMMITTEE.**

11 (a) ESTABLISHMENT AND PURPOSE OF THE BEARS
12 EARS ADVISORY COMMITTEE.—

13 (1) ESTABLISHMENT.—The Secretary of the In-
14 terior shall establish and maintain the Bears Ears
15 Advisory Committee to perform the duties in sub-
16 section (b).

17 (2) PURPOSE.—The purpose of the Bears Ears
18 Advisory Committee is to advise the Secretary of the
19 Interior on the Bears Ears National Conservation
20 Area.

21 (b) DUTIES.—The Bears Ears Advisory Committee
22 shall advise the Secretary of the Interior with regard to—

23 (1) implementation of the Bears Ears National
24 Conservation Area Management Plan; and

1 (2) administration of the Bears Ears National
2 Conservation Area.

3 (c) APPOINTMENT BY THE SECRETARY.—

4 (1) APPOINTMENT AND TERM.—The Secretary
5 of the Interior shall appoint the members of the
6 Bears Ears Advisory Committee for a term of five
7 years beginning on the date of appointment. The
8 Secretary of the Interior may not reappoint mem-
9 bers to more than three terms.

10 (2) BASIC REQUIREMENTS.—The Secretary of
11 the Interior shall ensure that the Bears Ears Advi-
12 sory Committee established meets the requirements
13 of subsection (d).

14 (3) INITIAL APPOINTMENT.—The Secretary of
15 the Interior shall make initial appointments to the
16 Bears Ears Advisory Committee not later than 180
17 days after the date of the enactment of this Act.

18 (4) VACANCIES.—The Secretary of the Interior
19 shall make appointments to fill vacancies on the
20 Bears Ears Advisory Committee as soon as prac-
21 ticable after the vacancy has occurred.

22 (5) COMPENSATION.—Members of the Bears
23 Ears Advisory Committee shall not receive any com-
24 pensation.

1 (d) COMPOSITION OF BEARS EARS ADVISORY COM-
2 MITTEE.—

3 (1) NUMBER.—The Bears Ears Advisory Com-
4 mittee shall be comprised of no more than 10 mem-
5 bers.

6 (2) COMMUNITY INTERESTS REPRESENTED.—
7 Bears Ears Advisory Committee members shall re-
8 side in the State of Utah and be representative of
9 the following members:

10 (A) One representative with historical ex-
11 pertise in the Hole-in-the-Rock Trail.

12 (B) One representative with paleontological
13 expertise.

14 (C) One representative with archaeological
15 or historic expertise.

16 (D) One representative of the off-highway
17 vehicle community.

18 (E) One representative of the non-off-high-
19 way vehicle recreation community.

20 (F) One representative from the conserva-
21 tion community.

22 (G) One representative from the sportsmen
23 community.

24 (H) One representative from the livestock
25 grazing community.

1 (I) One representative of the San Juan
2 County commission.

3 (J) One representative of the Tribal Col-
4 laboration Commission.

5 (3) PRESERVATION OF PUBLIC ADVISORY STA-
6 TUS.—No individual serving under section 2 may be
7 an officer or employee of the Federal Government or
8 State of Utah Government.

9 (4) BALANCED REPRESENTATION.—In appoint-
10 ing Bears Ears Advisory Committee members from
11 the two categories in section 2, the Secretary of the
12 Interior shall provide for balanced and broad rep-
13 resentation from within each category.

14 (5) CHAIRPERSON.—The Secretary of the Inte-
15 rior shall select the chairperson of the Bears Ears
16 Advisory Committee for a term of five years begin-
17 ning on the date of appointment.

18 (e) ANNUAL BEARS EARS ADVISORY COMMITTEE
19 REPORT.—

20 (1) REPORT SUBMISSION.—The Bears Ears Ad-
21 visory Committee shall submit a report no later than
22 September 30 of each year to the Secretary of the
23 Interior, the Committee on Natural Resources of the
24 House of Representatives, and the Committee on
25 Agriculture, Nutrition, and Forestry of the Senate.

1 If the Bears Ears Advisory Committee cannot meet
2 the September 30 deadline in any year, the Sec-
3 retary of the Interior shall advise the Chair of each
4 such Committee of the reasons for such delay and
5 the date on which the submission of the report is an-
6 ticipated.

7 (2) CONTENTS.—The report required by para-
8 graph (1) shall describe—

9 (A) the activities of the Bears Ears Advi-
10 sory Committee during the preceding year;

11 (B) the reports and recommendations
12 made by the Bears Ears Advisory Committee to
13 the Secretary of the Interior during the pre-
14 ceding year; and

15 (C) an accounting of actions taken by the
16 Secretary of the Interior as a result of the rec-
17 ommendations.

18 (f) OTHER BEARS EARS ADVISORY COMMITTEE AU-
19 THORITIES AND REQUIREMENTS.—

20 (1) STAFF ASSISTANCE.—The Bears Ears Advi-
21 sory Committee may submit to the Secretary of the
22 Interior a request for periodic staff assistance from
23 Federal employees under the jurisdiction of the Sec-
24 retary.

25 (2) MEETINGS.—

1 (A) FREQUENCY.—The Bears Ears Advi-
2 sory Committee shall meet at the call of the
3 Secretary of the Interior, the Chairperson, or a
4 majority of the members. Meetings shall be held
5 no less than one time per year. A majority must
6 be present to constitute an official meeting of
7 the Bears Ears Advisory Committee.

8 (B) OPEN MEETINGS.—All meetings of the
9 Bears Ears Advisory Committee shall be an-
10 nounced at least one week in advance in publi-
11 cations of general circulation and shall be open
12 to the public.

Subject: FLOOR UPDATE - 13 VOTES - LAST VOTES

dem_whip_floor_update.jpg

The House is now taking the following votes on amendments to H.R. 5538 –Department of the Interior, Environment, and Related Agencies Appropriations Act, 2017:

- 1) **Palmer Amendment #76** – Prohibits EPA from using funds provided in the bill for activities of the agency’s Criminal Enforcement Division – 15 minutes
- 2) **Gosar/Pearce Amendment #78** – Removes federal protections for the approximately 100 remaining wild Mexican Wolves under the Endangered Species Act (ESA) and would prevent the expansion of the species’ habitat outside of its historic range in the American Southwest – 2 minutes
- 3) **Perry Amendment #79** – Ensures none of the funds made available by this Act may be used to develop, administer, purchase, acquire, or operate an unmanned aircraft system owned by the Department of Interior or the Environmental Protection Agency to perform surveying, mapping, or collecting remote sensing data – 2 minutes
- 4) **Perry Amendment #80** – Cuts funding provided in the bill for the EPA by 17 percent (a reduction of approximately \$1.36 billion) – 2 minutes
- 5) **Ratcliffe Amendment #84** – Prohibits the EPA from using funds to finalize, implement, administer, or enforce the June 2016 proposed rule entitled “Clean Energy Incentive Program Design Details” – 2 minutes
- 6) **Smith (MO) #85** – Prohibits EPA from using funds to carry out an existing provision of the Superfund law that allows the agency to use sums it recovers from polluters to repair or restore damaged natural resources without further appropriation – 2 minutes
- 7) **Smith (MO)/Westmoreland Amendment #88** – Prohibits federal agencies from using funds in the bill to pay legal fees under any lawsuit settlement regarding a case that arises under the Clean Air Act, the Clean Water Act, or the Endangered Species Act – 2 minutes
- 8) **Young (AK) Amendment #90** – Prohibits the Interior Department from using funds in the bill to implement a final plan to designate areas of the Arctic National Wildlife Refuge in Alaska as wilderness – 2 minutes
- 9) **Young (AK) Amendment #92** – Prohibits funds to be used to remove three lease sales in the Arctic from the 2017-2022 Outer Continental Shelf Oil and Gas Leasing Proposed Program – 2 minutes
- 10) **Zeldin Amendment #94** – Prohibits federal agencies from using funds provided in the bill to designate a National Marine Monument in the Exclusive Economic Zone (EEZ) – 2 minutes
- 11) **Beyer Amendment #95** – Prohibits federal agencies from using funds provided in the bill to block science-based protections for imperiled wildlife that have or may need Endangered Species

Act protections – 2 minutes

12) Beyer/Cartwright Amendment #96 – Prohibits agencies funded under the bill from using funds in contravention of two Obama Administration Executive Order impacts of climate change and federal sustainability (Executive Order 13653 or Executive Order 13693) – 2 minutes

13) Beyer/LoBiondo Amendment #97 – Prohibits funds provided in the bill to be used to authorize, permit, or conduct geological or geophysical activities in support of oil, gas, or methane hydrate exploration and development along the Atlantic Outer Continental Shelf (OCS) – 2 minutes

These are the last votes for the day

Following last votes, the House will continue consideration of amendments to H.R. 5538. Any recorded votes requested will be postponed until tomorrow.

****Members are advised that debate on all amendments to H.R. 5538 will occur tonight so they should be prepared to offer their amendment at the appropriate place and be on the Floor at the appropriate time.**

WHAT THEY'RE SAYING

“The virtues of the PLI bill include permanent protection for some of Utah’s most spectacular places, a significant funding stream for Utah’s school children, and diverse new economic opportunities for rural Utah communities provided by wilderness designations. While we continue to have concerns with some of the provisions in the bill, we support its fundamental premise: the pairing of new wilderness and other conservation units with broadly supported land exchanges between the federal government and Utah.”

-Mike Matz, Director U.S. Public Lands, The Pew Charitable Trusts

“The Public Lands Initiative Process has been an important effort to balance the needs for conservation, recreation and development in seven Utah counties. Today’s introduction of official legislation represents a milestone in this process. We anticipate meaningful improvements have been made since the Discussion Draft was released on 1/20/16, and we look forward to carefully reviewing what is now proposed.” – **Dave Livermore, Utah State**

Director, The Nature Conservancy

"The introduction of the official Public Lands Initiative language is an important step to begin the legislative process and its time-honored process for refining legislation. We anticipate the introduced version of PLI will have measurable improvements over the Discussion Draft released in January. We're committed to working with the delegation on this proposal as the hearing process gets underway to address our remaining concerns and achieve the bi-partisan support need for its passage in Congress." – **Josh Ewing, Executive Director for Friends of Cedar Mesa**

“A locally driven Congressional and legislative process like the Public Lands Initiative (PLI) has provided local residents the chance to see their concerns and needs addressed in federal policy. It gives them the opportunity to be involved in the management of places and lands they care about and have cherished for generations. I applaud the time, effort, and hard work of Congressman Chaffetz and Bishop in trying to bring certainty to the public lands issues faced daily by my constituents. The PLI provides a locally driven framework that should be followed for all public lands discussions, rather than by bureaucrats in Washington, D.C., or a unilateral decision made by one person.” – **State Senator David Hinkins (R-Orangeville), Senate District 27, Co-Chairman for the Commission for the Stewardship of Public Lands**

"In the decades-long tug-of-war over Utah’s federal lands, the only thing certain has been uncertainty. Instead of trying to resolve the problems in single counties, the Public Lands Initiative (PLI) has brought together stakeholders from seven eastern Utah counties representing the full range of perspectives on land use. This locally driven give-and-take negotiation ultimately enables multiple land uses, facilitate economic growth and preserve pristine landscapes. While no one gets everything they want, everyone gets something that is important to them. Land conservation and economic development are not mutually exclusive, and the PLI includes meaningful gains for both. The process was open, transparent, and represents compromises made in local communities." – **State Representative Brad King (D-Price), House District 69**

“As the only elected Navajo official in Utah, I want others to know that we grass-roots Utah Navajo San Juan County residents do not want and oppose a national monument of turning our sacred sites into tourist attractions, the Public Land Initiative provides the best balance of access and protection for the Bears Ears region. Rather than a national monument that functions as a

magnet for tourism, we support a National Conservation Area that preserves local access and management. By going through a legislative process rather than an executive decree, we also achieve the long-term certainty we need. After a prolonged investment in this process, Utah Navajos can confidently support the product of this collaborative effort.” – **Commissioner Rebecca Benally, San Juan County Commission**

“I support the efforts of Congressmen Bishop and Chaffetz to find a legislative solution to preserve Utah’s public lands. The Public Land Initiative (PLI) has been a result of a locally-driven discussion from various stakeholders, community leaders and citizens, who have set aside their own interest, to find a solution that best preserves the land and provides economic development for the area.” – **Speaker Greg Hughes (R-Draper), Utah Speaker of the House**

"Our U.S. Constitution places the stewardship over land use designation and policy squarely upon state and federal legislative bodies not the executive branch working in concert with special interest groups. The Public Lands Initiative is a legislative solution to complex land use designations and policy.” – **State Representative Keven Stratton (R-Orem), House District 48, Co-Chairman of the Commission for the Stewardship of Public Lands**

“As the elected representative for San Juan County, I strongly support San Juan County Commissioner Rebecca Benally, who is also Navajo, in her efforts to stop the illegal designation of the Bears Ears National Monument. The PLI is supported by Commissioner Benally and her constituents and is in sharp contrast to the top-down designation of a 1.9-million-acre monument that will do nothing to advance economic development and self-reliance for the Utah Navajos.” – **State Representative Mike Noel (R-Kanab), House District 73**

“We have been honored to participate in the PLI process as one of more than 120 partners. We understand that when there are multiple stakeholders with diverse interests, the need for compromise is paramount and not any one interest will get everything it wants. Given the complexity of the bill, as it attempts to conserve millions of acres in Utah while encouraging productive uses on other lands, the risk remains that there will be some lands with oil and natural gas resources that will be designated for conservation only. We welcome the introduction of the Public Lands Initiative today, and stand ready to work with you to help ensure its success. “ – **Kathleen M. Sgamma, Vice President of Government & Public Affairs, Western Energy Alliance**

“The Utah Mining Association supports the Public Lands Initiative (PLI) and its goal of ending the gridlock and conflict regarding public lands management in eastern Utah. Through the PLI process, the Utah congressional delegation has convened a true “bottom-up” approach that has given every stakeholder an opportunity to participate and have their concerns heard and addressed. As with any compromise, we knew going in we wouldn’t get everything we wanted, but we believe the PLI has resulted in a reasoned, balanced approach to public land management. That’s something a national monument designation could never accomplish.” – **Mark Compton, President, Utah Mining Association**

“Every time a big decision is to be made concerning San Juan County it becomes painfully long. The public lands issue facing us now is no exception. I know areas in the county need protection but I support the PLI process because it allowed our residents a voice and seat at the table. We may not get all we wanted but in relation to the proposed monument the PLI will not take our beautiful mountains and valued watershed as will the proposed monument. I support PLI.” – **Commissioner Bruce Adams, San Juan County Commission**

“On behalf of the Carbon County Board of Commissioners, I lend my support and efforts to the

passage of the Public Lands Initiative (PLI). PLI is a good example of grass roots politics in action. There have been thousands of hours worked, multiple counties involved, hundreds of meetings held, diversity of both the political and societal spectrums and representation from a wide range of user groups. PLI is also a good example of collaboration as both sides of the issue have felt like they were giving up some things and gaining others. The declaration of this monument undermines the local people's ability to have a say and be involved in something that will affect their lives personally and is contrary and in opposition to a grass roots movement like the PLI." – **Casey Hopes, Chairman, Carbon County Commission**

"The PLI advances the goals of Utah's school trust to provide significant additional funding for K-12 public education. It is common sense to trade sensitive trust lands with high natural values to the United States, and trade less sensitive lands to the school trust for development of future revenue". – **David Ure, Director, Utah School and Institutional Trust Lands Administration**

"As with any legislation that seeks to strike a balance between competing and very disparate interests there are some compromises [in the PLI] that many stakeholders (of every philosophical inclination) will find objectionable. Nonetheless we at Sharetrails/BlueRibbon find this bill to be generally as supportive as is probably possible of OHV interests and will therefore, at the request of local stakeholders with whom we work, support it. One thing that I can support without reservation is the effort that went into crafting this bill. I believe that Rep. Chaffetz was correct when he stated during the PLI meeting a few months ago that this was at its core an effort to make Utah a better place. There just isn't a lot of political upside to this. I commend Rep. Chaffetz for his willingness to wade into such a contentious public issue for little apparent gain. Every once in a rare while something happens in politics that refreshes my faith in democracy. The Utah PLI is one of those things." – **Martin Hackworth, Executive Director, Sharetrails.org/BlueRibbon Coalition**

"No matter your stand on public land management in Utah, your ultimate goal should be finality and stability. That is exactly what a Congressional/legislative process will do. The Public Lands Initiative, when passed into law by Congress, is the only legal and open process that will accomplish those goals. Within the 64% of Utah controlled by the Federal Government there's areas suitable for all interests and uses. Those areas have been identified thru the extensive efforts of hundreds of Utah citizens involved with the PLI. It's time to end the uncertainty and provide stability and finality to what can, should and will be allowed on public lands in Utah." - **Alan J. Peterson, small business owner/ avid outdoorsman, Carbon County**

"As a County Commissioner and a former BLM manager I can't say enough about the positive aspects of the PLI process. The challenge with any undertaking of this size and complexity is to establish a clear understanding of the position and concerns of the stakeholders involved. For over two years there were numerous meetings and discussions with groups and individuals representing local and national interests. These meetings did not always result in total agreement but there were compromises reached some did not think were possible. While the final outcome of the PLI is yet to be determined there can be no doubt that everyone involved has a much better understanding now than they did when PLI began. Perhaps The PLI process wasn't perfect but it is head and shoulders above any other process where the outcome is the creation of winners, losers, divisiveness and hard feelings." – **Commissioner Bill Stringer, Uintah County Commission**

"The Utah Cattlemen's Association believes that the best land management actions and political land management decisions are made by the people closest to the resource and most in touch with the area. The process of a U.S. Congressman meeting with local citizens and local

government leaders and listening to their input and then drafting and presenting a bill such as the Public Lands Initiative before Congress to address those issues, is the way our democratic government should work." – **Brent Tanner, Executive Vice President, Utah Cattlemen's Association**

"For decades, Utahns have faced the uncertainty of tens of thousands of acres of our state tied up in de facto wilderness via Wilderness Study Areas. Utah Farm Bureau appreciates the leadership of Representatives Rob Bishop and Jason Chaffetz to break the impasse. Through an exhaustive process that has engaged Utah Farm Bureau members at the state and local levels, PLI has brought together diverse interests and stakeholders to hammer out a compromise. Not everybody is happy! But it is the product of Utahns coming together - not abuse of the Antiquities Act for political gain." – **Ron Gibson, President, Utah Farm Bureau**

"For decades the Off Road Business Association (ORBA) has believed that public lands should have a fair and reasonable process to determine how it will be managed. This process should only be handled through congressional hearings including all local stakeholders and not through the stroke of a pen. ORBA fully supports the efforts of Congressman Bishop and Congressman Chaffetz for their dedication to an open and reasonable process. The [Public Lands Initiative] goes a long way in address the management of public land!" – **Fred Wiley, President/CEO, Off Road Business Association**

"60 years ago, the 1.4 million acres of land being considered for the Bears Ears Monument were devoid of any wildlife. Over the last 60 years, and 30 in particular, the abundant and diverse wildlife populations on these lands, were re-established nearly 100 percent with private sportsmen and state fish and game dollars. Millions of same source dollars have also been invested on restoring habitats on thee incredible public lands, as well as fencing highways. The herds of elk, mule deer, desert bighorn sheep, cougar, black bear, wild turkey and other species today are thriving and abundant, for all Americans and foreign visitors to see. These tremendous conservation efforts were accomplished under current multiple use programs. Conservation can be maintained without designation of a Monument - this area is a prime example of a well-crafted Public Land Initiative, versus a one size fits all Monument designation." – **Don Peay, Sportsman's for Fish and Wildlife**

"Anyone with an accurate appraisal of the status quo and the available alternatives should recognize the PLI as a win-win-win-win. The counties have provided their blueprints. Interest groups with a spirit of negotiation have weighed in. Recent additions to the PLI offer more than a monument could deliver upon, in terms of preserving the Native American past and promoting the tribal future." – **Clif Koontz, Executive Director, Ride with Respect**

Subject: OIG Report re: Investigation of Falsification of Approval of Oil and Gas Leases
Date: Friday, July 22, 2016 12:41:49 PM
Attachments: [InvestigativeSummary_FalsificationOfApprovalOfOilandGasLeases.pdf](#)

Hi Darren,

We received the attached summary of an OIG investigative report regarding falsification of approvals of oil and gas leases at Blackfeet. The full report is apparently not available yet. The summary says the report was issued to BIA. Could you help us get a copy of it?

Best,
Jake

Summary Investigation of Falsification of Approval of Oil and Gas Leases

Report Date June 2016

OIG investigated allegations that Bureau of Indian Affairs (BIA) employees falsified oil and gas lease extension documents related to an oil and gas exploration company on the Blackfeet Indian Reservation (BIR). The complainant alleged that BIA personnel backdated approval for some lease extensions to make it appear as though they had been approved prior to the exploration company's withdrawal notice.

We found that a BIA Superintendent and Deputy Superintendent backdated two National Environmental Policy Act (NEPA) documents, and the 20 leases covered by those two NEPA documents, to reflect approval on March 7, 2013, prior to the oil and gas exploration company's withdrawal notice. The NEPA documents could not have been signed prior to the company's withdrawal on the afternoon of March 7, 2013, because the documents were placed in the U.S. mail from Billings, MT to Browning, MT that same afternoon of March 7. Those documents were required to be signed before a lease could be approved.

BIA employees then used the backdated NEPA and lease documents to submit a bill for collection. The oil and gas exploration company appealed the bill for collection, and the backdated documents were discovered during the solicitor review of the appeal. BIA subsequently dropped its claim for the disputed leases.

We also found discrepancies in the Deputy Superintendent's affidavit submitted to the BIA Director's Office in January of 2014 explaining why she had changed the dates on 19 of the lease extensions from March 8, 2013, to March 7, 2013. Her account of events was refuted by the Superintendent, who did not recall instructing her to change the date of her review and by documentary evidence that showed it would have been impossible for her to have reviewed the NEPA documents on March 7, 2013, as she claimed.

Further, the Deputy Superintendent did not recuse herself from the lease extension approval process even though her significant other would have benefitted financially if the oil and gas exploration company had made payment on the lease extensions.

This matter was declined for prosecution by the U.S. Attorney's Office, District of Montana. This is a summary of an investigative report that was issued to BIA for action.

Subject: Interior's NEWSWAVE Summer 2016 issue
Date: Wednesday, August 03, 2016 11:23:43 AM
Attachments: [NEWSWAVE_Summer2016_FINAL4WEB_LowRes_508_Compliant.pdf](#)

Dear *NEWSWAVE* Subscribers:

We are pleased to share our Summer 2016 issue.

In this issue, read about:

- International exchange with Denmark to advance offshore wind development
- The State of the Birds report 2016
- Harmful algal blooms and related work with the Sitka tribe to ensure that their shellfish are safe to eat
- Youth education programs in offshore science and technology
- Work with the National Marine Educators Association to bring oceans into our classrooms
- A unique partnership program that introduces student refugees to natural coastal resources through a “Life Art” project at Cabrillo National Monument, CA

We also highlight examples of our diverse stewardship role in the Great Lakes. Meet the Great Lakes Research Fleet and learn how scientific understanding supports natural resources management from fisheries to wetlands and invasive species.

Our Surfing Bison feature takes you to the very remote Alaska Maritime National Wildlife Refuge with links to other Alaskan Refuges and a video to get an up-close look at the remarkable wildlife and volcanic coastal landscape of the Aleutian Islands, the Pribilof Islands and icebound lands in the Chukchi Sea.

Come explore with us.

Another great way to keep up with Interior's ocean, Great Lakes, and coastal activities on a daily basis is through our Facebook page. We follow all Facebook pages available for each of the 88 ocean and coastal National Park units, 180 ocean and coastal National Wildlife refuges, Bureau of Land Management's coastal monuments, and the science conducted by USGS and the Bureau of Ocean Energy Management. Visit and 'like' us today!

<https://www.facebook.com/USInterioroceanscoastsgreatlakes>

We hope you enjoy this issue and will share it widely. It is both attached here and available

on-line: <http://www.doi.gov/pmb/ocean/news/Newswave/index.cfm>

Sincerely,

Ann and Liza

NEWS FROM THE U.S. DEPARTMENT OF THE INTERIOR: OCEAN, GREAT LAKES AND COASTS

NEWSWAVE—Winner of NAGC's 2015 Blue Pencil Award

Summer 2016

Director, Abigail Ross Hopper, and Danish Ambassador, Lars Gert Lose, sign an MOU to recognize their countries' common interests in developing offshore wind as a clean and sustainable energy source at the Embassy of Denmark in the United States on May 4, 2016. Photo credit: Stephen Boutwell, BOEM

Sharing International Knowledge and Expertise About Wind Energy

By Connie Gillette (BOEM)

The United States and Denmark have signed a Memorandum of Understanding (MOU) to strengthen cooperation on offshore wind energy projects. Together on May 4, 2016, at the Embassy of Denmark in Washington, D.C., Danish Ambassador, Lars Gert Lose, and Bureau of Ocean Energy Management (BOEM) Director, Abigail Ross Hopper, signed an MOU to recognize their countries' common interests in developing offshore wind as a clean and sustainable energy source.

"This is an historic event for our respective countries as we work together to share knowledge, experiences, data and best practices relevant to offshore wind energy development," said Director Hopper.

State of the Birds Report 2016—Urgent Need for Conservation Action

By Samantha Spiece (DOI)

On May 18, 2016, the Trilateral Committee for Wildlife and Ecosystem Conservation and Management (Trilateral Committee) announced the release of the trilateral State of North America's Birds 2016 report. More than one-third of North American birds urgently need conservation action.

The report identified oceanic birds as the group of highest conservation concern, slightly over forest and subtropical birds. More than one-half of species from oceans and tropical forests are on the report's "Watch List" because of small and declining populations, small ranges and severe threats to their habitats.

An adult bald eagle cares for new chicks in the Channel Islands. Photo credit: NPS

The bald eagle's recovery in California is a spectacular conservation-through-management success story. In the mid-1950s, breeding pairs were eliminated in the Channel Islands because of hazardous substances like Polychlorinated biphenyls (PCBs) and the pesticide known as DDT. Funding provided through the Montrose Settlements Restoration Program supported the introduction of juvenile bald eagles back to the Channel Islands between 2002 and 2006.

In 2006, the first successful bald eagle nest was discovered on the Channel Islands in more than 50 years, and since that time, the recovering bald eagle population has continued to grow. The 2016 breeding season had a total of 17 pairs nested across five of the islands: one on Anacapa, six on Santa Cruz, two on Santa Rosa, seven on Santa Catalina, and one on San Clemente, CA.

BOEM MOU continued from page 1

"This MOU represents an exciting milestone toward a achieving a clean energy future," said Ambassador Lose. "Denmark has been using offshore wind power as an energy resource for 25 years and I am delighted that we—by sharing our knowledge and experience—can help promote renewable energy in the world's largest economy."

The agreement will help promote the sharing of knowledge, best practices and policy initiatives; the identification and discussion of financial and risk management challenges; as well as the sharing of best practices, regulatory approaches and scientific models with regard to protecting the environment.

The MOU outlined the following topics as high priority areas for cooperation:

- Promoting information sharing, best practices and policy initiatives to support development and regulation of offshore wind energy resources.
- Working to identify and discuss challenges associated with financing

and risk management for offshore wind energy facilities.

- Identifying opportunities for the sharing of best practices, regulatory approaches and scientific models with regard to protection of the environment, including, but not limited to, the effects of offshore wind energy facilities on marine mammals, migratory birds and cultural resources.
- Facilitating technical knowledge transfer related to electrical interconnection and grid integration of electricity generated from offshore wind energy facilities.
- Knowledge sharing on a wide range of offshore wind energy issues, including supply chain, offtake, grid integration/interconnection, system planning to optimize offshore wind energy deployment, data on the benefits of offshore wind energy and strategies for achieving cost reductions.

State of the Birds continued from page 1

The trilateral State of North America's Birds 2016 report is available here: http://www.stateofthebirds.org/2016/wp-content/uploads/2016/05/SotB_16-04-26-ENGLISH-BEST.pdf

The North American Bird Conservation Initiative (NABCI) has recognized that the conservation model used by the North American wetlands and waterfowl conservation community works. The success of this habitat conservation model has helped support consistently rising populations of waterfowl by creating synergies between continental policy and funding (North American Wetlands Conservation Act), coordinated science across species' ranges (North American Waterfowl Management Plan), and the delivery of habitat conservation on the ground by local groups (regional conservation partnerships called Joint Ventures). Nonprofit conservation groups played a pivotal role in this model by harnessing the energy of waterfowl enthusiasts, funneling their philanthropy and their constituent voices toward directed policy objectives and fueling conservation mechanisms through matching funds.

At the recent Trilateral Committee meeting, Annie Little, U.S. Fish and Wildlife Service (USFWS) biologist with the National Resource Damage Assessment and Restoration program, highlighted an ongoing bilateral partnership aimed at restoring seabirds on seven islands off the coast of Baja California, Mexico. This collaboration consists of partners from Grupo de Ecología y Conservación de Islas (GECI), Montrose Settlements and S.S. Jacob Luckenbach Trustee Councils, National Audubon Society, Cornell Lab of Ornithology, Friends of the Mexican Fund for the Conservation of Nature and National Fish and Wildlife Foundation. This five-year project is

See State of the Birds page 4

State of the Birds continued from page 3

targeting restoration of nine seabird species through social attraction, disturbance reduction, protection of nesting habitat, nonnative vegetation removal, deployment of nest boxes, education and outreach, prevention of invasive species and monitoring. See related story, page 6.

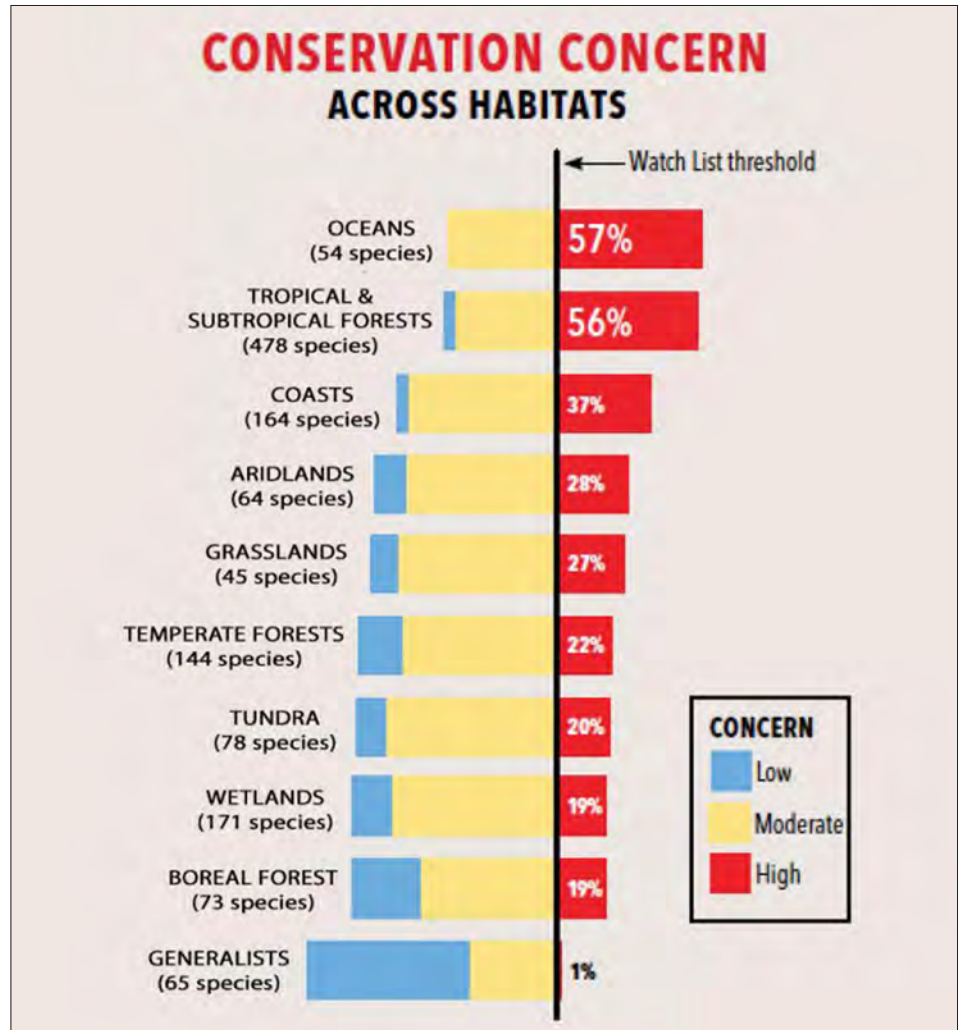

The successful work of Little (USFWS), trustees and partners with restoring bird on islands was highlighted several times at the Trilateral Committee meeting, particularly in light of the sobering news for oceanic birds in the State of the Birds Report.

This bilateral seabird restoration project is part of an overall collaborative effort in North America to conserve and restore island ecosystems. In 2014, a Letter of Intent (LOI) was signed between Canada, the United States, and Mexico. The purpose of the LOI is to promote collaboration on the conservation and restoration of island ecosystems and their adjacent coastal and marine environments. This includes islands in the Pacific, Atlantic and Arctic Oceans, Gulf of California, Gulf of Mexico and Caribbean Sea.

The islands of North America are recognized for their exceptionally high levels of biodiversity. Unfortunately, biodiversity on islands is declining at an alarming rate; approximately 80 percent of known species extinctions occurred on islands. Islands are vulnerable to threats such as climate change, invasive species, human disturbance, habitat loss, marine pollution and unsustainable practices.

The Trilateral Island Initiative is focusing efforts on invasive species, biosecurity, restoration, local communities and climate change.

For more information on the Trilateral Island Initiative and LOI, please visit: http://trilat.org/index.php?option=com_content&view=article&id=1568&Itemid=209

The analysis of all 1,154 bird species in Canada, the United States, and Mexico identified 432 species that meet the criteria for the State of North America's Birds "Watch List." Species were assigned to one breeding habitat, except for oceans and coasts (where species were also included if they occurred anytime during the year) and wetlands (where species were included in both wetlands and their terrestrial breeding habitat). Species that commonly occur in many different habitat types were classified as generalists. Image credit: State of North America's Birds 2016 report.

What Can You Do?

The decisions we make in our everyday lives can make a difference for birds.

As birders: Birding can be more than a hobby. It can be an act that contributes meaningful data for conservation. We can make our bird sightings work for science by logging lists into citizen-science databases, such as eBird: <http://ebird.org/>

As citizens: We can elect representatives who recognize that healthy environments are good for birds, people and the economy, and support the foundational concepts of science-based legislation and conservation.

As consumers: Each grocery trip is an opportunity to support bird habitat in the tropics (bird-friendly coffee), grasslands (grass-fed beef), the boreal forest (certified sustainable paper products), reduce plastic use for seabirds (plastic bags, straws) and at sea (certified sustainable seafood).

Read more from the State of North America's Birds 2016 report: <http://www.stateofthebirds.org/>

Offshore Technology Challenge for High School Students

By Tiffany Gray (BSEE)

In March 2016, a team of eight students from West Side High School in Houston, TX, emerged victorious from the first High School Offshore and Technology Stars Challenge, which was co-hosted by the Bureau of Safety and Environmental Enforcement (BSEE) and Ocean Energy Safety Institute (OESI) at the University of Houston. Other participating schools included Energy Institute High School, Charles H. Milby High School and Young Women's Preparatory Academy.

The event hosted 120 local high school students to push innovative technology and promote careers in science and engineering. During the challenge, the students collaborated within their teams to design and build an energy harvesting circuit based on National Aeronautics and Space Administration (NASA)-developed piezoelectric technology that generates an electrical charge when it vibrates or bends. The circuits are used to charge battery packs for remote control helicopters. The idea is that some of these designs could inform projects that could be scaled

up to harvest ocean energy as clean power for offshore oil facilities. The students used the circuits to charge the batteries of remote-controlled helicopters and flew them back and forth across the University of Houston's TDECU Stadium football field to simulate travel to and from an offshore platform. Each team accumulated points for course completion and the distance their helicopters flew in an eight-minute period.

“Experts have projected that there will be a workforce need of one million

additional science, math and engineering graduates by 2022,” said BSEE Director, Brian Salerno, as he welcomed the young competitors to the Technology Challenge, “This is very exciting for you as you get ready to graduate—the U.S. needs you to help meet the needs of our nation.”

Connecting Landscapes for Shorebird Survival—The Atlantic Flyway Shorebird Initiative

By Debra Reynolds (USFWS)

Every year Atlantic Flyway shorebirds breed on the Canadian Arctic tundra and spend winter along the eastern shores of South America. These long-distance journeys include stopping at a number of critical migratory sites along the east coast of the United States so the birds can eat and rest. Along the way, these shorebirds face many threats, and several of these migratory species face serious population declines. Hunting, predators, human disturbance, habitat loss and change, and climate change threaten these birds' survival. These threats have become more diverse and widespread in recent decades and pose serious conservation challenges. Although the threats may vary, each migratory stopover site plays a critical role in shorebird survival. *See related story, page 1.*

Recent conservation gains show that we can reverse these population declines across the flyway; however, effective conservation will require an internationally coordinated and collaborative approach to identify and reduce threats throughout the

The Whimbrel (*Numenius phaeopus*) is a true long distance migrant, breeding in the Arctic and migrating to South America. The species experienced sharp declines beginning in the late 19th century because of hunting, habitat loss and other human pressures. Photo credit: Lynn Schmid

flyway. This approach must coordinate research, conservation and management efforts of many groups across multiple political boundaries.

The development of the Atlantic Flyway Shorebird Initiative identifies and addresses major threats and detailed steps needed to reverse steep shorebird declines. The Initiative culminated in a multi-year effort involving multiple partners along the entire Atlantic Flyway—from Alaska to Argentina—to address declines

in shorebirds and grew to embrace a full-lifecycle Atlantic Flyway Shorebird Conservation Business Plan that was published in February 2015. This document represents the full suite of strategies and actions needed to conserve 15 Atlantic Flyway shorebirds. By working together and heeding the call to action, there is hope for our shorebirds.

Read about the Initiative: <http://atlanticflywayshorebirds.org/>

The Atlantic Flyway

The Atlantic Flyway describes the path that migratory shorebirds follow as they cross thousands of miles each year from the Canadian Arctic tundra to the windswept beaches of Tierra del Fuego in the southern hemisphere. Shorebirds breeding in Alaska and Canada make this amazing journey to spend their nonbreeding period in South American or Caribbean countries.

Migratory birds know no boundaries. To make the Atlantic Flyway Shorebird Initiative truly hemispheric, engaging partners in the Caribbean and South America is imperative. Some partners include the American Bird Conservancy, Canadian Wildlife Service, and Caribbean Coastal Area Management Foundation.

Read more: <http://atlanticflywayshorebirds.org/>

Atlantic Marine Bird Cooperative—Bringing Partners Together to Support Seabirds

By Caleb Spiegel (USFWS)

Seabirds are key indicators of functional marine ecosystems. Worldwide, seabirds face greater threats from human-related activities than most other bird taxa, experiencing substantial declines during recent decades. In the northwest Atlantic (Canada to the Caribbean), primary threats include competition for food resources with fisheries, bycatch in fishing gear, displacement and mortality associated with offshore energy development, pollution and degradation of nesting habitat. The magnitude of these issues requires collaboration among many stakeholders across broad geographic areas and international boundaries.

Since it formed in 2005, the Atlantic Marine Bird Cooperative (AMBC) has brought together a diverse international partnership of agencies,

non-governmental organizations and academic institutions to identify, prioritize and better understand the most pressing conservation needs for marine birds in the Northwest (NW) Atlantic, and develop actions to address them. The AMBC is a World Seabird Union Member Organization that contributes regional knowledge to seabird work worldwide. Group accomplishments include the NW Atlantic Seabird Catalog, a comprehensive data repository of northwest Atlantic marine bird surveys since 1938; the Business Plan for Addressing and Reducing Bycatch in Atlantic Fisheries, leading to projects aimed at reducing bycatch mortality (with industry participation); and tracking, surveying and distribution modelling research that directly informs offshore energy development. *See related story, page 9.*

Upcoming Meeting

The group will meet September 21–22, 2016, in New Bern, NC, at the 40th Waterbird Society Conference.

The Great Shearwater (*Puffinus gravis*) is a pelagic seabird endemic to the Atlantic Basin. They breed on only a handful of islands off of southern South America. During the non-breeding season, Great Shearwaters disperse north to North Atlantic waters where they are commonly found off of the U.S. Atlantic coast. Though numerous, the limited breeding range of the species makes it vulnerable. Shearwaters often forage in flocks and commonly feed around fishing boats. Photo credit: Bill Thompson, USFWS

Conservationists, researchers and managers with an interest in NW Atlantic marine birds are invited to participate.

For more information, contact Caleb Spiegel at: caleb_spiegel@fws.gov

The Piping Plover (*Charadrius melodus*) is along the Atlantic and Gulf coasts, as well as inland in the northern Great Plains. All populations are considered endangered or threatened, facing threats from human activities such as beach disturbance and habitat loss. Photo credit: Jim Fenton

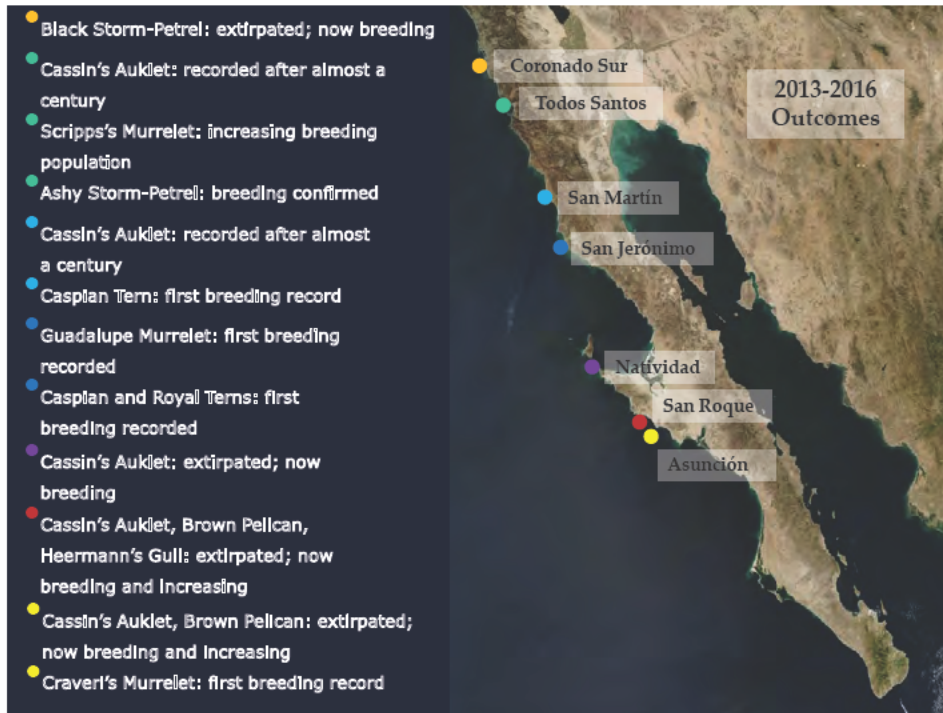

The American Oystercatcher (*Haematopus palliatus*), seen here with a chick, has a brightly colored bill that is used to feed on bivalves (oysters, clams and mussels) as its name implies. The American Oystercatcher Business Plan has helped reverse declines in the species (https://www.manomet.org/sites/default/files/publications_and_tools/NFWF_AMOY_BusinessPlan.pdf). Photo credit: Gregory Gard

In North America, the Snowy Plover (*Charadrius nivosus*) is restricted to the Gulf and Pacific coasts of the United States and scattered inland localities from Saskatchewan to California and Texas. Plover nests, eggs and chicks are so well camouflaged that they are often crushed accidentally by people and vehicles. Photo credit: Lynn Schmid

Seabird Restoration Baja—Exciting Steps Toward Seabird Recovery

By Samatha Spiece (DOI), Annie Little (USFWS)

From 2013–2016, management and restoration of the Baja California Pacific Islands, Mexico, is advancing seabird restoration. This illustration highlights some of the documented milestones for the last four years of the project. These noteworthy events are a result of increased monitoring, use of social attraction and artificial nesting habitat and disturbance reduction. The sustained presence of Mexico's Grupo de Ecología y Conservación de Islas biologists on the islands has also created strong partnerships within the local island communities, which is also contributing to positive steps for many ocean and shorebird species. Image credit: DOI and Conservación de Islas

Observations of Dynamic Coastlines

By Elizabeth Rogers (NPS), Ann Tihansky (USGS) and Meagan Racey (USFWS)

On October 29, 2012, Hurricane Sandy created a breach within a Federally-designated wilderness at Fire Island National Seashore, a unit of the National Park System located off the south shore of Long Island, NY. Wilderness management directives have allowed for the breach to remain open while the National Park Service (NPS) proceeds with a Wilderness Breach Management Plan/Environmental Impact Statement to determine how best to manage the breach. The open breach has provided an extraordinary opportunity to evaluate the physical and ecological response of the barrier island and Great South Bay. This research will be used to inform breach management decisions at Fire Island and will help inform future breach management decisions within the mid-Atlantic region and elsewhere.

Although storm events and breaches are part of a barrier island's natural processes and breaches can provide ecological benefits, decisions about the breach must be balanced by concerns that an open breach may exacerbate flooding in communities across Long Island's south shore. Within 48 hours of the storm, the NPS began monitoring the wilderness breach shoreline position. The State University of New York at Stony Brook, USGS, NPS, U.S. Army Corps of Engineers (USACE), and other coastal experts continue to regularly monitor conditions of the breach (breach shoreline position, depth, and tidal exchange) and water levels and water quality in the Great South Bay.

This research is collecting and synthesizing information on how the Great South Bay initially responded to the wilderness breach (i.e., water quality, plankton) and how the ecosystem continues to evolve. Breach management

Restoring Razorbills

Satellite Tagging to Document Important Foraging Areas

By Linda Welch (USFWS)

Conservation agencies have been working for decades to restore populations of seabirds to the coast of Maine. Although the restoration efforts were highly successful for more than 20 years, several species are now experiencing substantial declines. Razorbills are facing new challenges, including climate change, reduced productivity in the Gulf of Maine and potential development of offshore wind turbines. Biologists at the Maine Coastal Islands Refuge have been working to identify important seabird foraging areas and migratory pathways in order to be able to better protect the areas critical to the birds' survival.

In July, Refuge biologists tagged five razorbills breeding on Matinicus Rock with solar-powered satellite tags to document their foraging behavior.

Razorbills

Razorbills (*Alca torda*) are a stocky, crow-sized seabird, which reside in Arctic and subarctic marine waters from Maine to Northern Russia. As a member of the Auk (Alcidae) family they are closely related to puffins (*Fratercula* spp.), guillemots (*Cepphus* spp.) and murrelets (*Uria* spp.). Razorbills prefer the open ocean, only coming ashore during the breeding season to lay one egg in a rock burrow or crevice. The male razorbill will escort the chick to sea 18–20 days after it hatches, and they remain together for up to two months. Razorbills feed primarily on herring (*Clupea harengus*) and hake (*Rexea solandri*) and may dive more than 100 meters to catch these prey items.

Razorbills at Maine Coastal Island Refuge. Photo credit: USFWS

Tags track where the birds go to find food for their chicks and their migration routes after the breeding season is completed.

Razorbills are large seabirds in the Alcidae family, which live in the North Atlantic and breed along the

coast of Maine and Atlantic Canada. The Gulf of Maine is the southern limit of their breeding distribution. About 650 pairs of razorbills nest on six islands in Maine; four of these are refuge islands. *See related stories, pages 6–7.*

Breach continued from page 8

plans for Fire Island and Assateague Island National Seashores incorporating this collaborative research will enable the NPS and USACE, New York and Maryland to better respond to a breach event on these barrier islands. Fire Island National Seashore's Wilderness Breach Management Plan and Assateague Island National Seashore's General Management Plan are using the best available science to balance the geomorphological, ecological and socioeconomic impacts of breaching with the goal of maximizing ecosystem resilience and ensuring public health and safety.

Building Resilient Coasts

By David Eisenhauer (USFWS)

A collection of news and information from the USFWS Hurricane Sandy recovery and resilience program.

Discover the “New Jersey’s Hidden Coast” Video Series

You’ve heard of the Jersey Shore, but do you know about New Jersey’s other coastline?

The Delaware Bayshore is the focus of a new video series by the American Littoral Society and Conserve Wildlife. The series takes viewers to this “Hidden Coast” where the waves are gentle, the beaches expansive and the wildlife abundant.

Every two weeks a new episode airs that explores this extraordinary bay system—from horseshoe crabs and their relationship to the rufa red knot and other migratory birds, to living shorelines and oyster reefs, to the impact of Hurricane Sandy, which made landfall just 30 miles from the Hidden Coast.

In the aftermath of Hurricane Sandy, the USFWS has worked closely with partners like the American Littoral Society and Conserve Wildlife to strengthen and restore coastal areas such as the Delaware Bayshore to better withstand impacts of future storms.

Catch all the episodes by the American Littoral Society here: <http://www.littoralsociety.org/index.php/2-uncategorised/332-littoral-society-and-protect-wildlife-launch-video-series>

Living Shoreline at Fog Point, MD

Work is complete on a 21,000-foot living shoreline project at Fog Point on the Glenn L. Martin Refuge in Maryland’s Eastern Shore. The project will slow shoreline erosion, protecting

Aerial view of living shoreline at Fog Point, Glenn L. Martin Refuge. Credit: USFWS

vital tidal wetlands as well as benefiting the communities of Smith Island.

The new living shoreline consists of rock breakwaters to slow wave energy and restored marsh to help stabilize the shoreline and re-create wetlands lost to erosion. Funding for the \$9 million project came from the USFWS under the Hurricane Sandy Disaster Relief Appropriations Act of 2013.

This work will help protect a highly vulnerable shoreline, one that was eroding at rates as high as 10–15 feet per year in some areas. It also protects saltwater habitats important to the area’s soft crab fishery, a resource that local residents of nearby Smith Island depend on for their livelihoods.

Improvements at Sachuest Point National Wildlife Refuge, RI

In 2012, damage from Hurricane Sandy left the Sachuest Point Refuge without power for almost six months. The new underground utility lines will

stand up better during future storms, improving safety for the public. The new utility lines will also help restore scenic ocean vistas, which help attract nearly 200,000 visitors to the Refuge each year.

A project is underway that will improve recreation and safety at Sachuest Point Refuge in Middletown, RI, by burying 7,000 feet of above-ground power and communication lines along Sachuest Point Road. The \$1.1 million project is funded by the Disaster Relief Appropriations Act following Hurricane Sandy and is expected to be finished by late fall.

This project is part of a larger effort to restore and protect the Refuge after Hurricane Sandy, including restoration of coastal salt marshes to improve natural defenses along the coast. The main access road to the Refuge, which was washed out in the hurricane, has already been repaired.

From Icefield to Ocean: Winner of USGS 2015 Shoemaker Award

By Erica Wales (DOI)

Glaciers cover 16% of the northern Pacific coastal temperate rainforest (PCTR), where they are experiencing some of the highest rates of glacier loss on Earth. Melting from these glaciers can produce downstream changes all the way to the ocean, including changes to currents and important resources, such as fish species. Many of these changes are poorly understood, and linkages between glaciers and coastal and ocean ecosystems have not been studied holistically.

Researchers Shad O'Neel (USGS) and fellow authors, Kristin Timm (University of Alaska Fairbanks) and Eran

Hood (University of Alaska Southeast), developed a visualization of the linkages between glaciers and oceans to help illustrate the linkages between glacier and ocean and coastal ecosystems. The poster, "From Icefield to Ocean," won the USGS 2015 Eugene M. Shoemaker Communication Award for communicating and translating science to the public through words and pictures.

The PCTR runs for 4,000 kilometers along Northern California to Kodiak Island, AK, and includes glaciers and old growth forests; residents of the area are dependent on healthy natural resources, such as fisheries, and tourism. Evidence shows global-scale warming is increasingly affecting the PCTR with projections showing the PCTR will experience warming and

become wetter, though with less precipitation falling as snow.

Because of the complex interactions in the PCTR, the authors call for interdisciplinary research that connects ecosystems from the icefields all the way to the oceans. Improving the long-term scientific records through a holistic scientific approach and coordinated research will also help improve decision making for resource use and tourism.

Harmful Algal Blooms

A New Field and Laboratory Guide to Freshwater Cyanobacteria

By Barry Rosen and Hannah Hamilton (USGS)

A series of 100 photos may reduce the risk of Native Americans and Alaska Natives being exposed to or consuming water or food containing harmful cyanobacteria.

The colorful images are part of a new field and laboratory guide developed by the USGS to help Native American and Alaska Native communities develop an awareness of what harmful algal blooms (HABs) look like in the field and be able to distinguish them from nontoxic blooms.

HABs that are dominated by certain cyanobacteria are known to produce a variety of toxins that can negatively affect fish, wildlife and people. Exposure to these toxins can cause a range of effects from simple skin rashes to liver and nerve damage to even death (although rarely in people).

The issue may be increasing in importance, as scientists indicate warming global temperatures may exacerbate the growth of HABs. *See related story, page 13.*

“We are likely to see more cyanobacterial blooms in the future as waters continue to warm,” said Barry Rosen, a USGS biologist and author of the guide. “Cyanobacteria proliferate in warm water temperatures, generally about 25 degrees Celsius, and are more tolerant of these warmer conditions than their competitors, such as green algae. We expect numerous other physiological adaptations will give cyanobacteria an advantage as global climate changes occur.”

Although there are communities worldwide that may find the field and laboratory guide of use, those with people in direct contact with surface water or who consume fish and shellfish may find it particularly helpful.

Gloeotrichia echinulata is a planktonic freshwater cyanobacterium that is composed of numerous filaments that are attached at their base in the center of the colony. Collectively, a colony has filaments extending all directions, creating a visible, fuzzy dot the size of a pin-head, as it floats in the water. At the base of each filament is a specialized cell, which has the ability to convert atmospheric nitrogen into organic molecules that nourish the rest of the filament. The organism can also regulate its buoyancy, and it moves up and down the water column daily. This image was photographed under the microscope illuminated by differential interference contrast microscopy. Photo credit: Barry Rosen, USGS

“In the U.S., Native American and Alaska Native communities, especially those reliant on subsistence fishing or who have frequent contact with surface water, have an increased risk of exposure to cyanotoxins,” said Monique Fordham, the USGS National Tribal Liaison. “This guide will give them a new resource to use to monitor the waters they rely on and protect their people.”

Algae serve as the base of the food web in aquatic habitats. Under the correct environmental conditions, including nutrient abundance, stability of the water column, ample light and optimal temperatures, algae can “bloom,” typically causing a surface scum or accumulation on or near a shoreline. Although many different types of algae are responsible for HABs, it is cyanobacteria, which produce natural cyanotoxins that pose the greatest problem and are the focus of this guide. The guide includes photos

of what cyanobacteria blooms look like in a waterbody, as well as photos of cyanobacteria taken through the microscope, which is needed to determine the type of HAB that is present.

Read USGS Open-File Report 2015–1164, the new field and laboratory guide, here: <http://dx.doi.org/10.3133/ofr20151164>

Harmful Algal Bloom and Hypoxia Research and Control Act

In June 2014, Congress reauthorized the Harmful Algal Bloom and Hypoxia Research and Control Act (HABHRCA) by passing the Harmful Algal Bloom and Hypoxia Research and Control Amendments Act of 2014 (HABHRCA 2014, P.L. 113–124). The reauthorization of HABHRCA acknowledged concerns related to HABs and hypoxia, extended the scope of the legislation to include freshwater HABs and hypoxia and recognized the need for further coordinated action across the Federal sector to address these issues.

Additionally, the legislation called for Federal agencies to provide integrated assessments on the causes and consequences of and approaches to reducing HABs and hypoxia nationally, with particular emphasis on the Great Lakes. Finally, the reauthorization included a specific focus on the needs of stakeholders, requiring that Federal agencies engage with stakeholders around the country.

The prevalence and duration of HABs and hypoxia (low-oxygen conditions) in the marine and fresh water environments of the United States, including the Great Lakes, are generating public concern. From extended shellfish closures on the west coast in 2015, to a larger-than-predicted hypoxic zone

in the Gulf of Mexico, these events negatively impact resources across thousands of miles of the Nation's coastal and inland waters and represent some of the most scientifically complex and economically damaging aquatic issues.

HABs and hypoxia pose a significant challenge to the ability to safeguard the health of the Nation's coastal and freshwater ecosystems. HABs and hypoxia have serious effects on a community's social and public health. They may threaten the safety of seafood, drinking water and air quality. HABs and hypoxia events may also result in lost revenue for lakefront and coastal economies that are dependent on aquatic/seafood harvest or tourism, disruption of subsistence activities, loss of community identity tied to aquatic-resource use and disruption of social and cultural practices.

The report from the White House, "Harmful Algal Blooms and Hypoxia Comprehensive Research Plan and Action Strategy: An Interagency Report," presents a comprehensive research plan and action strategy, assessments of harmful algal blooms and hypoxia, as well as an integrated assessment on Great Lakes hypoxia and harmful algal blooms. *See related story, page 12.*

Read the report: https://www.white-house.gov/sites/default/files/microsites/ostp/NSTC/final_habs_hypoxia_research_plan_and_action.pdf

What are Harmful Algal Blooms?

Freshwater and marine HABs can occur anytime water use is impaired due to excessive accumulations of algae. HAB occurrence is affected by a complex set of physical, chemical, biological, hydrological and meteorological conditions making it difficult to isolate specific causative environmental factors. Potential impairments include reduction in water quality, accumulation of malodorous scums in beach areas, algal production of toxins potent enough to poison both aquatic and terrestrial organisms and algal production of taste-and-odor compounds that cause unpalatable drinking water and fish. HABs are a global problem, and toxic freshwater and (or) marine algae have been implicated in human and animal illness and death.

Cyanobacteria Assessment Network Project

The Cyanobacteria Assessment Network (CyAN) is a multi-agency project among the NASA, National Oceanic and Atmospheric Administration (NOAA), USGS, and U.S. Environmental Protection Agency (EPA) to develop an early warning indicator system using historical and current satellite data to detect algal blooms in

U.S. freshwater systems. This research supports Federal, State, and local partners in their monitoring efforts to assess water quality to protect aquatic and human health.

CyAN project mission: Support the environmental management and public use of U.S. lakes and estuaries by providing a capability of detecting and quantifying algal blooms and related water quality using satellite data records.

CyAN Project logo. Image credit: U.S. Environmental Protection Agency

Special Feature— Meet the Fleet!

Great Lakes Research Vessels Restoring and Protecting our Inland Freshwater Seas

By Andrea Miehls and Josh Miller (USGS)

The USGS achieved a major milestone on August 31, 2015, when the Research Vessel (R/V) *Arcticus* was christened and commissioned into service on the Great Lakes under command of the USGS Great Lakes Science Center (GLSC). The historic event marked the final step toward modernizing the entire USGS Great Lakes research vessel fleet with five state-of-the-art floating laboratories. The modernized fleet provides improved research capabilities, enhanced health and safety features and increased fuel efficiency on versatile platforms built to serve a range of large-scale societal needs. The fleet provides scientists access to the 1,300-foot deep waters of these enormous freshwater seas that contain 20% of the world's available freshwater. The GLSC provides scientific information for restoring, enhancing, managing and protecting Great Lakes resources. Science generated from these vessels serves as the linchpin for State, provincial and tribal management decisions regarding sustainable Great Lakes fisheries, native species restoration and invasive species assessment.

The restoration process took only 15 years to complete, with three new vessels built during the past five years alone: the *R/V Arcticus* (2014), which serves Lake Michigan and Lake Huron, and the twin vessels, the *R/V Kaho* (2011), which serves Lake Ontario, and the *R/V Muskie* (2011), which serves Lake Erie. In the 1990s, the USGS

R/V Arcticus

Vessel Specifications

Size—length, 77 ft; beam, 26 ft; draft, 8.9 ft

Cruising speed—9.5 knots

Maximum cruise length—30 days

Sleeping capacity—8

The *R/V Arcticus*, based in Cheboygan, MI, was built in 2014 and currently operates on Lake Michigan and Lake Huron. The *Arcticus* is used primarily to carry out annual prey fish assessments, which have occurred since the 1970s. The annual assessments provide current information on the prey fish base to fisheries managers and are used to facilitate understanding of long-term population trends in the fish community. Data on prey fish populations are especially important in evaluating management strategies such as predator stocking and harvest quotas. The name, "*Arcticus*," is a nod to the rich legacy of her predecessor, the *R/V Grayling*, which was named for the Arctic grayling (*Thymallus arcticus*), a fish native to the Great Lakes region.

Photo credit: Burger Boat Company

acquired an older vessel, which was renovated and christened as the *R/V Sturgeon* in 2004 and is used on Lake Michigan and Lake Huron alongside the *R/V Arcticus*. The largest vessel in the fleet, the *R/V Kiyi*, was built in 1999 and serves Lake Superior.

R/V Kaho

Vessel Specifications

Size—length, 70 ft; beam, 18 ft; draft, 5.5 ft

Cruising speed—12 knots

Maximum cruise length—5 days

Sleeping capacity—6

The *R/V Kaho*, based in Oswego, NY, was built in 2011 and currently operates on Lake Ontario. The new *Kaho* replaced the original *R/V Kaho* (built in 1961), which was the workhorse of the multiagency fisheries research fleet on Lake Ontario for more than three decades. The new *Kaho* participates in long-term data collections including population studies of prey fish and stocked lake trout (*Salvelinus namaycush*), fish and environmental sampling for contaminants monitoring and documentation of changes in food webs and fish distributions associated with invasive species. The name, "*Kaho*," is a shortened version of a colloquial Ojibwe word meaning "searcher" or "hunter."

Photo credit: USGS

The modern Great Lakes fleet supports multijurisdictional science for managing Great Lakes resources. The fleet plays a crucial role in the sustainability of the Great Lakes fishery and by extension the renowned recreation and tourism economy of the region. The Great Lakes fishery alone is worth more

R/V Kiyi

Vessel Specifications

Size—length, 107 ft; beam, 27 ft; draft, 10 ft

Cruising speed—10 knots

Maximum cruise length—14 days

Sleeping capacity—9

The *R/V Kiyi*, based in Bayfield, WI, was built in 1999 and currently operates on Lake Superior. The *Kiyi* conducts fish stock assessment, fisheries research and habitat monitoring, particularly in the Apostle Islands area of Lake Superior. The *Kiyi* annually samples prey fish populations and tracks progress in the sustainability of lake trout (*Salvelinus namaycush*) populations. The *Kiyi* is also used to collect fish and environmental samples for a wide spectrum of studies, including contaminant monitoring. The name, “*Kiyi*,” honors the fish species of the same name, *Kiyi* (*Coregonus kiyi*), which is a type of freshwater whitefish—a deepwater cisco—endemic to the Great Lakes. *Kiyi* previously inhabited multiple Great Lakes but are now believed to persist only in Lake Superior.

Photo credit: USGS

R/V Muskie

Vessel Specifications

Size—length, 70 ft; beam, 18 ft; draft, 5.5 ft

Cruising speed—12 knots

Maximum cruise length—5 days

Sleeping capacity—6

The *R/V Muskie*, based in Sandusky, OH, was built in 2011 and currently operates on Lake Erie. The *Muskie* replaced the *R/V Musky II*, which was the primary USGS research platform on Lake Erie beginning in 1960. The *Muskie* is used to assess annual recruitment of major prey and predator fish in western Lake Erie, as well as in lake trout (*Salvelinus namaycush*) restoration research in eastern Lake Erie. The *Muskie* also participates in studies designed to determine the impacts of environmental changes and invasive species on the Lake Erie ecosystem. The name, “*Muskie*,” was based on the names of her predecessors, the *R/V Musky I* and *R/V Musky II*, which reference the native Great Lakes sport fish, the Muskellunge (*Esox masquinongy*).

Photo credit: USGS

R/V Sturgeon

Vessel Specifications

Size—length, 104 ft; beam, 25 ft; draft, 10 ft

Cruising speed—11 knots

Maximum cruise length—15 days

Sleeping capacity—10

The *R/V Sturgeon*, based in Cheboygan, MI, was built in 1974 and currently operates on Lake Michigan and Lake Huron along with the *R/V Arcticus*. The *Sturgeon* was transferred from the Smithsonian Institution to the GLSC in the 1990s and was later retrofitted and commissioned in 2004. The *Sturgeon* supports fisheries related science, including deepwater studies, restoration ecology and invasive species, to aid in management decisions for top fish predators. Research completed by the *R/V Sturgeon* meets the needs of many partners, including the EPA, seven border states and Ontario, Canada. The name, “*Sturgeon*,” derives from one of the most ancient native fish in the Great Lakes, the Lake Sturgeon (*Acipenser fulvescens*).

Photo credit: USGS

than \$7 billion annually—and that’s just on the U.S. side. For more than 50 years, the USGS has provided unbiased scientific information about the status and trends of fish communities in the Great Lakes, particularly prey fish communities, as well as the ecosystem as a whole. This information is essential

to partners such as the Great Lakes Fishery Commission and Council of Lake Committees. These entities bring together State, provincial and tribal management authorities on each Great Lake to set management objectives, such as catch limits and stocking targets of sport species like salmon and lake trout. The

information is also critical to the work of other partners, including the USFWS, multiple State natural resource agencies, Fisheries and Oceans Canada, the Ontario Ministry of Natural Resources, Tribal partners, and multiple university partners.

See *Meet the Fleet* page 16

Meet the Fleet continued from page 15

All of the Great Lakes research vessels are state-of-the-art, "multi-platform" vessels, meaning scientists can deploy multiple sampling gears from a single vessel, including trawl nets, gill nets, plankton and larval fish nets, hydroacoustic sampling technology, water sampling gear and technology that measures water chemistry. Learn more about each vessel by reading their profiles on pages 14 and 15.

Great Lakes Fleet Overview

The GLSC exists to meet the Nation's need for scientific information for restoring, enhancing, managing and protecting living resources and their habitats in the Great Lakes basin ecosystem. Headquartered in Ann Arbor, MI, the GLSC has biological stations and vessel bases across the Great Lakes Basin with research vessels on each of the Great Lakes. The data collected annually on board the vessels are invaluable for fishery resource managers throughout the basin. The datasets generated on prey fish abundances, some dating back more than 60 years, are foundational to a binational fishery management regime that has ensured sustainable sport and commercial fisheries on the Great Lakes for half a century.

Splashing of the R/V Arcticus, Manitowoc, Wisconsin. Photo credit: USGS

The Great Lakes research fleet covers a large area with a dedicated port for each vessel. Illustration credit: USGS

"Building a research vessel fleet is a big undertaking, but deploying an adequate science platform is essential to providing the information needed to support healthy fish communities and ecosystem services that benefit the people of the United States, Canada, and Indian tribes. The modernization of the Great Lakes vessel fleet is an achievement that will benefit the Great Lakes region for many decades."

—Russell Strach, GLSC Director

How an R/V is Built

Curious to learn more about Great Lakes R/Vs? Check out the USGS GLSC video series, "Science Afloat: How a Research Vessel is Built," to see from start to finish how a R/V is created. From the first piece of metal welded to the last touch of paint, you'll see how ideas, materials and hard work came together to create the R/V Arcticus, a 77-foot steel vessel designed to explore Great Lakes

ecosystems. Watch the videos at: <https://www.youtube.com/playlist?list=PLIxIFowAfHBBnESaKdn8VXhE1ft-423ar>

For more information about the R/V Arcticus build, including the exciting culmination in the christening and commissioning ceremony during August 2015, view the featured story on the USGS GLSC website: <http://www.glsc.usgs.gov/features#146961>

Adding Depth to the Great Lakes

By Ted Gostomski (NPS)

Like the topographic maps used by hikers, maps of the lake bottom, called bathymetric maps, show the contours—the shape and depth—of the lake floor. A 28-foot vessel equipped with a multibeam sound navigation and ranging (sonar) system is being used by the NPS to collect the data to make bathymetric maps for four Great Lakes national parks.

Why do we need these maps? Because natural and cultural resources—such as shipwrecks and fish habitat—lie below the waves. Although we have maps, photos and studies detailing land-based features, much of what lies beneath the lake surface has remained hidden and is relatively uncharted and unstudied.

In 2010, with support from the Great Lakes Restoration Initiative (GLRI), the NPS began mapping in Lake Superior within the park boundaries of Apostle Islands National Lakeshore (WI), Isle Royale National Park (MI), and Pictured Rocks National Lakeshore (MI). Mapping in Lake Michigan is being done within the boundaries of Sleeping Bear Dunes National Lakeshore (MI).

Many maps show the Great Lakes as large expanses of flat blue (inset, top left), but in fact, there is much more to see below the waves. Sonar data reveal a hidden world of canyons and shoals that link the exposed landforms to the subterranean features. Image credits: NPS

The bathymetric maps created from this work are useful for NPS managers and their partners in many different ways:

- At Isle Royale and Apostle Islands, maps of reefs used by native fish for spawning are informing fisheries conservation efforts by DOI agencies and partners,
- At Apostle Islands and Pictured Rocks, mapping data are supporting analysis of sand movement and shoreline restoration efforts,

- At Sleeping Bear Dunes, maps of the lake bottom are being used to identify where sediment is deposited and algae are accumulating—and potential hot spots where bacteria produce a botulinum toxin that is killing fish and birds along the Lake Michigan shoreline, and
- Finally, this work is providing a clearer picture of submerged cultural resource sites—providing new context for known sites, discovering new ones and expanding our knowledge about unique submarine historical treasures.

Sonar data revealed a pit and three symmetrical mounds in about 25 feet of water offshore from Raspberry Island in the Apostle Islands National Lakeshore (inset area shown in red box [left] is enlarged in second image [right]). Divers discovered the three mounds were piles of raw iron ore. Research revealed they were cast off from a ship that ran aground there in the late 1800s. Image credits: NPS

One particularly interesting feature was found offshore from Raspberry Island in Apostle Islands, WI. After the sonar data were processed, an oval-shaped depression and three curiously symmetrical mounds were seen. No one could say for sure what they were, but many were curious, so an NPS dive team visited the site. What they found was a very large pile of rocks. Apostle Islands' cultural resource specialist, Dave Cooper, did some detective work and the mystery began to unfold.

See Great Lakes Depth page 25

Sitka Tribe Strategic Science

Creating Opportunities for Safe Shellfish Harvesting

By Esther Kennedy (Sitka Tribe of Alaska—Resource Protection Department)

Communities in Southeast Alaska are dependent on the ocean for their livelihoods and most of their local foods, with shellfish being an important part of traditional diets. As Alaskan waters warm, however, those shellfish have become increasingly exposed to marine biotoxins produced by algae and phytoplankton. Through support from many Federal and State partners, the Sitka Tribe of Alaska is taking steps to respond to the increasing threat of HABs in Southeast Alaska and restore access to safe shellfish for subsistence harvesters.

The Sitka Tribe of Alaska and 14 other southeast Alaska Tribes have partnered together to form

A variety of bivalve mollusks such as cockles, littlenecks, and butter clams collected from a local beach by Sitka Tribe of Alaska employees await further processing for saxitoxin and domoic acid concentration. Photo credit: Bethany Goodrich, Sustainable Southeast Partnership

Sitka Tribe of Alaska employees, Kyle Rosendale (right) and Callie Simmons (left), dig for clams at Starrigavan Beach, Sitka. Every major low tide cycle, Tribal employees collect samples of each species of clam to monitor baseline biotoxin levels. Photo credit: Chris Whitehead, Sitka Tribe of Alaska Environmental Program Manager

the Southeast Alaska Tribal Ocean Research (SEATOR) network. The focus of SEATOR is to work together to address climate change related issues that could have negative impacts on subsistence resources. One of the main projects is to monitor HABs and biotoxins in shellfish. Using EPA Indian General Assistance Program funds, each community is collecting weekly phytoplankton data to determine if HAB-producing species are present and collecting shellfish samples to be analyzed for biotoxins. With funding from the Administration for Native Americans, the Sitka Tribe was able to develop the Sitka Tribe of Alaska Environmental Research Laboratory (STAERL) to test and analyze all SEATOR partner shellfish samples for biotoxins. Each community can then use the data to assess their vulnerability for human health risks associated with harvesting subsistence shellfish.

Training and outreach are key components of SEATOR's research.

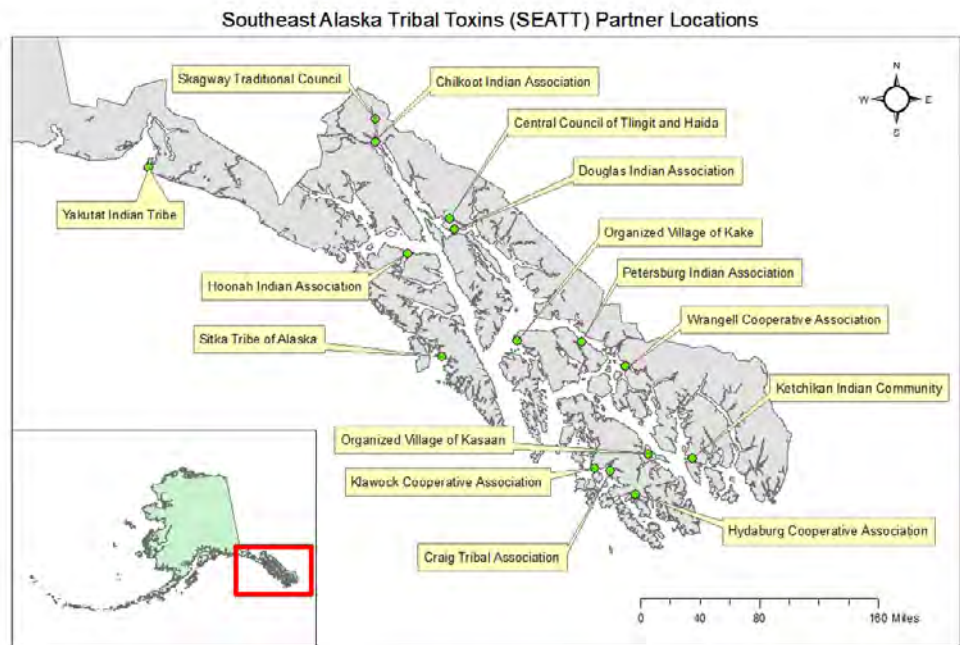

The DOI's Bureau of Indian Affairs (BIA) Climate Change Program has contributed direct funding to support technical workshops to train Tribal environmental staff on sampling technique and protocols. Each workshop brings top HAB scientists and resource managers from the NOAA and other State agencies to Sitka where they instruct and train Tribal staff. The BIA Climate Change Program has also provided funding to develop training material and the SEATOR website (<http://www.seator.org/>). The SEATOR website is the main conduit for data, risk communication plans and public health advisories regarding toxin levels at each site. This is a critical component of this monitoring effort and completes the data circle to the end user—subsistence harvesters.

HABs are a present and growing threat to virtually all U.S. coastal waters, with impacts ranging from extensive marine animal die-offs to wide-scale contamination of shellfish

with potent biotoxins. Although many coastal states have strict monitoring programs in place to protect recreational shellfish harvesters from those toxins, Alaska does not. As climate change makes Alaskan waters more hospitable to toxic plankton, the increasing frequency and severity of HABs in Alaska have combined to make wild shellfish unacceptably risky for many harvesters. Challenges to addressing this issue include: Alaska's enormous coastline, low population and lack of State governmental support. Additionally, Alaskan residents' high reliance on wild, local foods brings traditional shellfish harvesters into contact with potentially toxic shellfish on a regular basis.

Wild shellfish harvesters face two primary threats from HABs. The most well known is Paralytic Shellfish Poisoning (PSP), a life-threatening illness that sends Alaskan residents to the hospital every year caused by the phytoplankton *Alexandrium* that produces saxitoxin, a poison that inhibits nerve function, leading to paralysis and death at high concentrations without supportive care. In an HAB, filter-feeding shellfish concentrate that saxitoxin in their flesh. Certain shellfish species can hold on to saxitoxin for years after an HAB, making PSP a threat long after the summer growing season is over. Without a testing facility for subsistence harvesters, Alaskans have been playing "toxin roulette" no matter what time of year they've chosen to harvest. With the SEATOR network and the STAERL, harvesters will finally be able to track their risk of PSP.

In addition to PSP, Alaska residents have become increasingly aware of the possibility of Amnesic Shellfish Poisoning (ASP), an illness caused by domoic acid produced by *Pseudo-nitzschia*. Although ASP is less deadly than its sister illness, domoic acid concentrates in shellfish tissues the same way as saxitoxin and

A map of all Tribal governments participating in baseline HAB monitoring and shellfish testing. All partner Tribes monitor one or more beaches for their communities and keep them updated about the risks of harvesting. Image credit: Sitka Tribe of Alaska

has shown increased ability to move up the food chain into forage fish and marine birds. Last summer, a *Pseudo-nitzschia* HAB stretched from southern California to Kachemak Bay, AK, and shut down crab fisheries from California to Washington. The HAB alerted many residents to the increasing severity and visibility of HABs and the immediacy of the risk of contaminated shellfish. The STAERL will also test shellfish for high domoic acid contamination, reducing public exposure to ASP well before it becomes as dangerous and widespread as PSP. *See related stories, pages 12–13.*

Construction of the STAERL was completed in late 2015, and it ran its first shellfish samples in early 2016. Although the lab's primary purpose is to test shellfish biotoxins, it will also

test marine mammals for evidence of more pervasive and widespread bioaccumulation. Currently, shellfish are collected by SEATOR Tribal staff at local beaches during low-tide cycles, but by early summer, recreational shellfish harvesters will be able to bring in a portion of their own harvest for testing. Testing will take as little as one business day, allowing harvesters to keep the rest of their catch alive while waiting for confirmation of its safety. In the event that toxic shellfish are detected, STAERL immediately issues a community advisory for the area. As STAERL opens its doors to the public and picks up momentum, the Sitka Tribe hopes that despite the increasing frequency of HABs and shellfish toxins, wild shellfish will become a safe and common food source for Southeast Alaskans again.

Yaquina Head Outstanding Natural Area Offers a Robust Experience

By Janet Johnson (BLM)

From exploring tide pools teeming with life, to climbing 114 stairs to the top of Oregon's tallest lighthouse, there is something for every visitor at Yaquina Head Outstanding Natural Area on the central Oregon Coast.

Managed by the BLM, the Yaquina Headland extends out from the Oregon coast, one mile into the Pacific Ocean. The Yaquina Lighthouse stands 93 feet tall at the westernmost point of the basalt headland and has been a beacon in the night since 1873, guiding ships and their supplies along the rugged Pacific coast.

The offshore islands are a year-round refuge for harbor seals and a spring-summer home for thousands of nesting seabirds. Gray whales (*Eschrichtius robustus*) can be spotted during their annual migrations—heading south to Mexico during late fall and early winter, and north to Alaska during late winter and early spring. During the summer months, gray whales can be seen feeding in the shallow waters around the headland.

Cobble Beach is made up of millions of round basalt rocks that produce an applause-like sound as the waves roll in. When the tide is low, a vibrant ocean floor is exposed—with tidal pools full of colorful animals including orange sea stars (*Astroidea* spp.), purple sea urchins (*Echinoidea* spp.) and giant green anemones (*Anthozoa* spp.). Yaquina rangers are at hand to answer questions and point out all of the amazing plants and animals that call these tide pools home.

The energetic Oregon Coast is a magnet for many thousands of tourists from all over the world. The naturalists/interpretive rangers who interact daily with these visitors must be knowledgeable on many coastal topics. Each spring, rangers from Yaquina Head Outstanding Natural Area partner with Oregon Parks and Recreation, scientists from Oregon State University's Hatfield Marine Science Center, the USFWS and others to present the "Rocky Shores Interpretive Training." The week-long hands-on training focuses on the natural and cultural stories that are the heritage of the Oregon Coast.

Through the "Rocky Shores Interpretive Training" program, students learn to identify intertidal organisms, how to spot and assist visitors in identifying

The lighthouse at Yaquina Head still shines for ships at sea. Photo credit: Bob Wick, BLM

gray whales' migration, feeding and behavior patterns and a basic understanding of the ebb and flow of tides. They also learn to identify the many seabirds that nest on the coastal rocks and islands along Oregon's coastline. Part of the training includes a unit called "Love on the Rocks" that covers the daily soap opera of activity associated with birds such as murrens (*Uria* spp.), cormorants (*Phalacrocorax* spp.), and eagles (*Accipitridae* spp.). Another unit on Oregon Coast geology focuses on how the coastal features fit into Oregon's geologic landscape. There is also a unit on mammals such as seals, sea lions (*Otariidae* spp.) and otters (*Enhydra* spp.). The educational program also includes current coastal issues such as sea star wasting, marine debris and how stewardship and missions of different government agencies vary.

Yaquina Head offers spectacular scenery, intriguing history and fascinating marine gardens within a small geologically distinct peninsula, one of many outstanding protected areas along the northwest Pacific coast of the United States.

National Parks BioBlitz

The NPS Needs Your Help Celebrating Biodiversity!

By Alexandria Warneke (NPS)

To celebrate 100 years of stewardship, the NPS is planning a shared Nationwide quest to discover and document biodiversity in our parks. You are invited to help as parks across the country host “BioBlitzes” of different sizes and scopes at a hundred different parks across the country from now through October 2016.

What is a BioBlitz? A BioBlitz is an event that focuses on finding and

identifying as many species as possible in a specific area over a short period of time. At a BioBlitz, scientists, families, students, teachers, and other community members work together to get an overall count of the plants, animals, fungi, and other organisms that live in a place.

Find a BioBlitz event near you:

<https://www.nps.gov/subjects/biodiversity/upload/2016BioBlitzTable-12-3.pdf>

Check out the map online to find out which parks are hosting a BioBlitz in 2016: <https://www.nps.gov/subjects/biodiversity/national-parks-bioblitz.htm>

Bringing Oceans into Classrooms

As part of its Centennial Celebration, the NPS is working to bring the ocean into every classroom and bring classes into our ocean, coastal and Great Lakes National Parks. A big part of that effort was our outreach to 500 teachers, aquarium educators and others at the National Marine Educators Association conference this summer in Orlando, FL, from June 25 to July 1.

As a major sponsor of the conference, NPS staff presented on climate change in the Everglades, citizen science opportunities at Gulf Islands National Seashore and lionfish (*Pterois* sp.) invasions at Biscayne National Park. There was also a booth in the exhibit hall and a field trip to watch sea turtles nest at Canaveral National Seashore. The annual Stegner Memorial Lecture was a heartfelt and moving presentation of songs and stories about how national parks connect us to the natural world, our Nation's history and one another. Follow #NMEA2016, #FindYourPark and #NPS100

A BioBlitz Example

The Cabrillo National Monument hosted a BioBlitz and Biodiversity Festival on May 21–22 in Washington, D.C. Cabrillo National Monument collaborated with the San Diego Natural History Museum, USGS, Climate Science Alliance, Audubon Society, University of California-San Diego, San Diego State University, Space and Naval Warfare Systems Center-Pacific, local public lands groups and park partners.

This event was precluded by three “mini-blitz” events in local schools throughout the county and an Intertidal BioBlitz that took place on March 6. Cabrillo is creating a new park curriculum that focuses on biodiversity and provides activities and guidance on how to use iNaturalist, a citizen science database, on school grounds.

For the main BioBlitz, the NPS recruited 27 taxonomic experts from several fields of study to interact with students through public presentations, interactive demonstrations, “Ask a Scientist” displays, and by leading survey teams throughout the park. They used iNaturalist to record all species discovered during a 24-hour period. Cabrillo also had 20 exhibitors lead science, technology, engineering and math (STEM) activities with visitors

The Cabrillo National Monument BioBlitz welcomed the public to learn about the unique ecosystems of the Monument, participate in science-based activities, and help park biologists quantify the plants and animals that call Cabrillo home. Image credit: NPS

on the topics of climate change, sustainability and natural history.

Four Cabrillo NPS Artists-in-Residence made linkages between science and art through an activity where visitors created art made of recycled materials and trash, the “Wildflowers of Cabrillo” exhibit, guided walks with iNaturalist pro-observers and #InstaMeets that encouraged people to use the power of photography and social media.

Refugee Tutoring: The Power of “Life Art”

By Alexandria Warneke (NPS)

By combining the power of art and nature to transcend boundaries, a unique program at the Cabrillo National Monument in San Diego, CA, is using the natural coastal environment to enrich the lives of refugee youth. Artist-in-Residence, Jason Rogalski, and NPS Centennial Ambassador, Alexandria Warneke, joined forces with the San Diego Refugee Tutoring (SDRT) program to bring 32 refugee students to Cabrillo National Monument, San Diego’s only national park. The students, who have been living in the United States from as little as one month to as much four years, have been relocated to San Diego with their families from all across the globe. The “Life Art” project gave them a chance to get outdoors and explore, learn and express themselves.

The mission of SDRT is to achieve social justice through educational access. The goal of SDRT is to provide one-on-one tutoring and holistic academic support to refugees at Ibarra Elementary School in eastern City Heights.

Read more:

<http://sdrefugeetutoring.com/>

Julian Charter School students created clay artwork to help share their recent experience of visiting the tide pools at Cabrillo National Monument. Photo credit: San Diego Refugee Tutoring Program (SDRT)

The SDRT works with refugee students from Ibarra Elementary and their siblings (preschool, middle school and high school). Most of the students speak several languages other than English, including Burmese, Karen, Karenni, Burundian, Democratic Republic Congoese, Nepali, Iraqi, Somali, Sudanese, Mozambican, Ethiopian and Eritrean. The SDRT was formed in 2008 out of a brainstorming session of teachers who saw that a growing refugee population in an eastern City Heights

neighborhood of San Diego had specific needs beyond simple education to become better integrated with American society. Teachers noticed that wide cultural gaps made it difficult for refugee students to keep up with their peers. Most students do not receive any additional instruction outside of school from someone who is fluent in English or assimilated into American culture because they often live in ethnic enclaves. Additionally, there are extremely limited options for after-school tutoring or extracurricular activities. As their parents join the work force, they have less time to participate in programs with their children.

The NPS staff worked with SDRT to tailor a program for the students using a visit to Cabrillo National Monument as an extracurricular experience combining art and nature. As many of these students had never even seen the ocean before, it was a unique educational opportunity as well. Before their park visit, Rogalski introduced the students to the aquatic organisms of the rocky intertidal zone at Cabrillo using artistic crafted clay models, created by Rogalski’s students at Julian Charter School.

San Diego Refugee Tutoring Program (SDRT) students splashing water in the tidepools at Cabrillo National Monument. Photo credit: SDRT

A Day at Cabrillo National Monument

The students started the morning with a nature hike down Cabrillo's popular Bayside Trail. Halfway down, students spent some time at an historical World War II bunker that was recently converted into an art studio for the Artist-in-Residence program. Here they learned about different artistic techniques and created paintings of their favorite ocean animals.

After a lunch spent overlooking the great Pacific Ocean, students

trekked down to the Cabrillo tide-pools. Warneke, along with dedicated members of the Volunteers-in-Parks program, guided the children on an exploration through the high, middle and low intertidal zones. Students discovered firsthand the power of ocean waves, the unique adaptations that organisms have to withstand the extremes of this area and the beauty found within each small pool.

Through the power of art and nature, the program connected with a special generation of environmental stewards.

Every student walked away fascinated with this watery world and eager to learn more. This partnership of the staff of SDRT, NPS Cabrillo education team and student ambassadors of Julian Charter School is a great example of the power of our national parks. What a great way to celebrate the NPS Centennial!

For more information on the Cabrillo Education Program and how to participate, please visit:

<http://www.cabrilloeducation.org>

The students spent their time both exploring nature as well as expressing themselves through art during their visit to Cabrillo National Monument's rocky intertidal environment. For some it was their first visit to the ocean. "See Life" Collection

Cabrillo Artist-in-Residence, Michael Ready, uses the camera to document the biodiversity at the Cabrillo National Monument. He gets into the intertidal zone using it as a field studio to bring home images that share things a lot of people don't see. The "See Life" Collection is a unique project highlighting the stunning and diverse ecosystems and animals that call Cabrillo National Monument home. These images include some of

the commonly occurring and easily discovered species and others that are rarely seen due to their small size or ephemeral existence. Merging the worlds of science and art, "See Life" challenges us to take a closer look and garner a deeper appreciation for our diverse world.

Wildlife Stewardship Through Strategic Habitat Conservation and Partnership

Coastal habitats support 40% of the USFWS's Refuges and are vital to fish and wildlife because 40% of our Federally listed species, 25% of our wetlands and more than 30% of North American wintering waterfowl occur in our Nation's coastal areas. Coastal wetlands also provide important spawning grounds and nurseries for commercial and sport fish.

The USFWS's Coastal Program is the primary tool for voluntary, citizen and community-based fish and wildlife habitat conservation on both public and privately-owned land. The Coastal Program provides partnership, financial and technical assistance, for conservation and restoration of coastal habitats throughout the nation.

In 2015, 266 projects with 455 partners and landowners assessed, improved and protected more than 64,440 acres of wetlands, 29,910 acres of uplands and 194 miles of stream habitats across the United States. The 2015 Annual Accomplishment Report is available online: https://issuu.com/nationalwildliferefugesystem/docs/cp_2015_annual_accomplishment_repor/3?e=7776505/35263759

USFWS Sea Turtle Conservation Hero Wins Lifetime Achievement Award

Inspirational for His Dedication, Vision and Passion

In March, USFWS biologist Earl Possardt was presented with the International Sea Turtle Society's Lifetime Achievement Award, one of the most prestigious awards in the sea turtle community.

Possardt is currently the USFWS International Sea Turtle Coordinator, a position he has held for the past 18 years; however, his sea turtle career and conservation accomplishments reach back much further, to the late 1980s, when he was based in Florida but working throughout the southeast United States as the USFWS Southeast Sea Turtle Coordinator.

As the USFWS Southeast Sea Turtle Coordinator, Possardt worked tirelessly to raise awareness and address the critical conservation issues facing sea turtles in the southeast United States after they were listed under the U.S. Endangered Species Act. Possardt was a key player in the vision and planning that led to the creation of the Florida Index Nesting Beach Program in 1989, a monitoring program that is now in its 28th year. The program has served as a model for the development of standardized nesting survey programs in many places around the world. Possardt's crowning achievement during his tenure in the southeast United States was his vision of a new National Wildlife Refuge for sea turtles along the high density nesting beaches of the central east coast of Florida.

Possardt lit the flame that galvanized action and support within the USFWS, DOI and U.S. Congress to

USFWS biologist Earl Possardt. Photo credit: USFWS

turn his dream into reality. In 1991 the Archie Carr Refuge was officially established; and, although it appropriately honors Dr. Carr, it also honors Possardt, without whom the opportunity to permanently protect the most important loggerhead nesting beaches in the world would likely have been lost. In the late 1990s Possardt took up the mantle of international sea turtle conservation for the USFWS and, as he had done in the southeast United States, he brought his wisdom, vision, can-do attitude and commitment to

Possardt on an African boat. Although many people were beginning to understand the global importance of beaches to the loggerhead sea turtle (*Caretta caretta*), Possardt had the foresight and vision to recognize that something permanent was needed to protect them in perpetuity. Photo credit: USFWS

Green Sea Turtle (*Chelonia mydas*) hatchling at USFWS Archie Carr Refuge. Photo credit: Keenan Adams

the global sea turtle community. It was Possardt's vision to expand the USFWS International Affairs Program to include sea turtles, and with help from the nongovernmental community, his vision became reality with the signing of the Marine Turtle Conservation Act (MTCA) in 2004. Through the MTCA, Possardt cooperatively worked on sea turtle conservation activities on every continent where sea turtles nest, forage or migrate.

More than just funding, Possardt has traveled the world to remote places planting the seeds of sea turtle protection with budding sea turtle conservationists and helping to instill in them the sense of wonder and desire to protect and conserve these animals that we love. His efforts have helped give people hope, and his friendships around the world are many and varied—all with their roots in sea turtles but with their branches extending far beyond.

His nomination for the award was written by Barbara Schroeder, who has worked closely with Possardt for more than 30 years. Schroeder wrote,

“Earl’s achievements are exemplary, far-reaching and meaningful, spanning four decades and crossing local, regional, national and international boundaries. He has left his mark, in his unassuming but expert and convincing way, in so many places and in so many people, from the beaches of Florida, to west Africa, to the Omani coast, to the remote beaches of Vietnam. He is a true example of all that is good about sea turtle conservation and sea turtle people and his legacy is significant and long-lasting. Earl’s unwavering commitment to sea turtles, his ability to galvanize action and commitment for their protection, and his vision for long-term sea turtle conservation programs and policies set him apart and make him wholly deserving of the International Sea Turtle Society Lifetime Achievement Award.”

Great Lakes Depth continued from page 17

The rocks turned out to be iron ore, and Cooper’s research points to the stranding of the steamer Marion, loaded with iron ore from Two Harbors, MN. She became grounded on a shoal off Raspberry Island on June 18, 1898, and had to dump part of her cargo in order to be towed off. There are records of other groundings off of Raspberry Island, but so far as is known, the Marion is the only one that carried iron ore.

According to Cooper, the Raspberry Island light keeper’s log for 1898 contains entries that document the grounding of the Marion on June 18, the arrival of a tug boat on June 20 to free her, and then the arrival a month later of officials from the hydrographic office in Duluth who were “trying to locate the cargo that was thrown overboard by the [Steamer] ‘Marina’ and the place she struck.” Note how the keeper now refers to the ship as the steamer “Marina” instead of “Marion.” That slight error made more than 100 years ago may be why current lake charts show the name “Marina Shoal” for this location. The shape world beneath the Great Lakes is a comparatively unexplored mystery. As part of the mission for conserving our cultural history, the NPS is exploring the submarine world, solving some mysteries and raising questions about entirely new ones.

Celebrating Excellence in Protecting Wetlands—2016 National Wetlands Award Winners

By Chris Darnell (USFWS), Ann Tihansky (USGS)

On May 11, 2016, the Environmental Law Institute (ELI) held the 37th annual award ceremony recognizing five individuals who have excelled in wetlands protection, restoration and education. Two of the awards are highlighted here recognizing contributions to partnership work in conserving and restoring wetlands in the Great Lakes and community leadership in watershed restoration that provides downstream benefits to coral reefs.

Peter David of Odanah, WI, received the award for “Conservation and Restoration, recognizing his many contributions in the Great Lakes.” Peter David is a wildlife biologist with the Great Lakes Indian Fish and Wildlife Commission. For 30 years, he has fostered partnerships between Federal, State, county, and tribal agencies, nongovernmental organizations and concerned citizens to encourage wetland stewardship, research and restoration, with a primary emphasis on wild rice (known as manoomin, which translates to “the good berry” in Ojibwe). This plant has significant ecological and cultural importance in the upper Midwest. He is considered by many to be one of the country’s foremost experts in rice ecology and conservation. David was intricately involved in establishing the Circle of Flight Program, which became the primary funding source for regional tribal wetland conservation efforts. He was a technical advisor for the Wild Rice Monitoring Handbook and Field Guide and was the lead author of a report identifying and describing more than 300 northern Wisconsin manoomin waters. He coordinates a cooperative interagency restoration program

John Schmerfeld (USFWS), at left, presents the Conservation and Restoration award to Peter David. Photo credit: Environmental Law Institute (ELI)

that has increased rice abundance in Wisconsin and the Upper Peninsula of Michigan by 25%.

John Schmerfeld, USFWS Chief of Habitat Restoration, presented the award saying, “several of Peter’s colleagues heaped praise on him, but I wanted to share one that struck a chord with me:

“Peter’s technically solid and even-keeled approach to conservation issues goes a long way to calming the waters and getting people to talk to each other. He’s a valuable mediator between environmental groups, tribes, and state and federal managers. These inter-personal skills are harder to quantify than his scientific achievements, but in many ways they may be his most valuable contributions to the preservation and management of wild rice.”

The “Wetland Community Leader” award was presented to Roberto Viqueira of Yauco, Puerto Rico, by Eileen Sobeck, Assistant Administrator for NOAA Fisheries and co-chair of the U.S. Coral Reef Task Force.

Roberto Viqueira is the founder of the nonprofit *Protectores de Cuencas*

Eileen Sobeck (NOAA) presents the Wetland Community Leader award to Roberto Viqueira. Photo credit: Environmental Law Institute (ELI)

(Watershed Protectors), a science and community-based nonprofit dedicated to supporting wetland conservation and restoration throughout Puerto Rico. After serving as the coordinator for the Guánica Bay Watershed, which was designated the first U.S. Coral Reef Task Force Watershed Partnership Initiative site in 2009, he has expanded his work to wetland sites across Puerto Rico. Through partnerships and leveraging more than \$7 million in funding from numerous Federal and local agencies, he has reduced pollution to the Guánica Bay by preserving Guánica Lagoon, creating sewage treatment wetlands and launching the “Think Before You Drop It” campaign with NOAA to reduce marine debris. He also promotes sustainable agricultural practices such as shade-grown coffee through the development of a certification program and has helped develop a regionally adapted hydroseed for shoreline stabilization, beach restoration and habitat rehabilitation.

This awards program is administered by the ELI and supported by the EPA, USFWS, USFS, Natural Resources Conservation Service, NOAA Fisheries, and Federal Highway Administration.

Alaska's Maritime National Wildlife Refuge

https://www.fws.gov/refuge/Alaska_Maritime/

Take a virtual visit by watching this video:

<https://www.youtube.com/watch?v=rFzAJbFHJsY>

By Erica Wales (DOI)

The Alaska Maritime Refuge includes 3.4 million acres with volcanic islands in the Aleutians, steep cliffs in the Pribilof Islands and icebound lands in the Chukchi Sea. Volcanoes and earthquakes have shaped the Aleutians into a surreal landscape. The area is strikingly diverse with more than 2,500 islands, sea stacks and headlands. The Refuge was established to conserve marine mammals, seabirds and other migratory birds, and the marine resources upon which they rely. The Refuge is very remote and provides a safe haven for 40 million seabirds and more than 30 species.

THE SECRETARY OF THE INTERIOR
WASHINGTON

JUL 28 2016

The Honorable Dianne Feinstein
United States Senate
Washington, DC 20510

Dear Senator Feinstein:

Thank you for your letter dated March 9, 2016, regarding remediation of abandoned mine sites. I appreciate that you took the time to follow up on this issue.

I agree that remediating abandoned mines throughout the Country is important in order to reduce or eliminate the dangers from these sites to public health, safety, and the environment. The Bureau of Land Management works closely with Federal and state partners through an annual, program-wide, collaborative process to select cleanup projects. Sites are identified according to physical safety risk and water quality impairment, and priority remediation work is typically given to sites that are located near high-population centers or high-use areas.

Enclosed is the information you requested. Thank you for your continued interest in the management of our public lands.

Sincerely,

Sally Jewell

Enclosures

-Enclosure-

Bureau of Land Management Abandoned Mine Land Program Funding Breakdown & Prioritization Approach

The Bureau of Land Management (BLM) Abandoned Mine Land (AML) program addresses hardrock mine sites that were abandoned before January 1, 1981, prior to enactment of BLM's surface mining regulations in 43 CFR, Subpart 3809. As of February 19, 2016, the BLM had identified 50,870 hardrock AML sites and 93,907 features in its database. Of these sites, approximately 20 percent have been addressed or are in the process of being addressed. The enclosed digital file contains a list of the 50,870 AML sites. A single site may encompass one or more AML features. Physical site AML features include open shafts, adits (a horizontal passage leading into a mine for purposes of access or drainage), and mine facilities. Environmental features include mine features (such as tailing piles, pit lakes, and draining underground mine workings) that may release hazardous substances. An estimated 93,000 sites remain to be inventoried in the States of California, Nevada and Utah¹. From 2009 to 2016, the average BLM AML appropriation has been \$17.2 million. See Table 1 below.

Table 1: BLM AML Program Congressional Appropriations

<u>Fiscal Year</u>	
<u>(FY)</u>	<u>Amount</u>
2009	\$ 15,929,000
2010	\$ 15,929,000
2011	\$ 15,929,000

2016	\$ 19,946,000
2017	\$ 20,036,000 (proposed)

BLM AML Inventory Allocation

Since 2009, approximately \$4 million has been allocated annually to the states for inventory of AML sites/features. This represents approximately 23 percent of the budget.

¹ Bureau of Land Management. 2014. Abandoned Mine Land Inventory Study for BLM-Managed Lands in California, Nevada and Utah: Site and Feature Analysis. Department of the Interior, Bureau of Land Management, National Operations Center, Denver, Colorado.

BLM AML Remediation/Mitigation Allocation

Of the average annual BLM AML appropriation of \$17.2 million, approximately \$8.6 million is allocated annually to the states for physical safety and environmental hazard remediation/mitigation of known AML physical safety and environmental sites. This represents 50 percent of the AML budget.

The remaining 27 percent not allocated for inventory or remediation/mitigation goes to other program-related operational and management costs, such as infrastructure leasing, vehicle-related expenses and information technology systems.

Average Annual AML State Allocations of AML Appropriations

Table 2 summarizes the BLM average allocation to BLM State Offices from 2009 through 2016.

Table 2: Average Annual State Allocations of AML Appropriations

State	Appropriation (8 Year Average)
Alaska	\$1,906,000
Arizona	\$1,445,000
California	\$2,157,000
Colorado	\$1,570,000
Idaho	\$1,263,000
Montana	\$1,319,000
Nevada	\$1,547,000
New Mexico	\$1,188,000
Oregon	\$1,323,000
Utah	\$1,151,000
Wyoming	\$746,000

BLM AML Prioritization Process

The AML prioritization process involves a combination of national evaluation criteria and a risk-based watershed approach. Of highest priority are those sites that are in close proximity to high-use areas (e.g., urban/residential areas, developed recreational areas, main visitation areas) and pose an actual or potential threat to public health and safety and/or the environment.

BLM AML Environmental projects are prioritized based on:

1. Human and Ecological Risk, including, but not limited to the following criteria:
 - a. Human presence (location)
 - b. Threat to the environment (ecological and human health)
 - c. Relative toxicity of contaminants
 - d. Impacted media (soil, sediment, surface water, groundwater, air)

- e. Location of site relative to surface water or ground water
 - f. Aquifer characteristics
 - g. Soil/sediment characteristics
 - h. Current site risks
2. Regulatory factors driving need for site funding, including, but not limited to the following criteria:
 - a. Site regulatory violations and whether there is a potential mine claimant subject to 43 CFR Subparts 3809 and 3715
 - b. BLM's site response role related to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA)
 3. Level of potentially responsible party (PRP) involvement, including, but not limited to the following criteria:
 - a. If a PRP has been identified, has the BLM pursued enforcement against the PRP pursuant to CERCLA?
 - b. Have funds been recovered for past and/or future DOI/BLM response costs?
 4. Partnerships:
 - a. Watershed approach
 - b. Federal and state partners
 - c. Land status/ownership

Physical Safety projects are also prioritized using criteria including:

1. Land status/ownership
2. Visitation and accessibility
3. Risk
4. Partnerships

BLM FY 2016 AML Priority Hardrock Mining Sites List For Environmental Hazards and Summary of All Known Physical Safety Hazard Sites

Table 3 lists BLM's highest priority AML hardrock mining sites for environmental hazards and the known costs for those sites. Several of the environmental sites are listed on the Environmental Protection Agency's National Priority List (NPL). The NPL is the list of national priorities among the known releases or threatened releases of hazardous substances, pollutants, or contaminants throughout the United States. Also shown is a summary of all known AML hardrock mining sites that pose a physical safety hazard.

Table 3: BLM FY 2016 AML Priority Hardrock Mining Sites List For Environmental Hazards and Summary of All Known Physical Safety Hazard Sites

State	Priority	AML Site	Risk*	Cost Estimate
AML Priority Hardrock Mining Sites List for <u>Environmental Hazards</u>				
CA	1	Atlas Mine	NPL site; human health risks from asbestos; BLM has Operation and Maintenance (O&M) responsibilities.	~ \$200,000 (Recurring annual cost)
UT	2	Silver Maple Claims	NPL site; Risks from metals in surface water and sediments to ecological and human receptors; Total Maximum Daily Load exceedances.	Unknown at this time
OR	3	Formosa Mine	NPL site; Elevated ecological risks for aquatic receptors, minor human health risk.	~ \$3,500,000 (Estimated remediation cost only; does not include operation and maintenance costs)
CA	4	Klau/Buena Vista Mine	NPL site; potential human health risk from mercury in food chain and drinking water.	~\$7,000,000 (Estimated remediation cost only; does not include operation and maintenance costs)
AK	5	Red Devil Mine	Elevated human health risks from mercury, arsenic and antimony in groundwater, surface water and in fish tissue.	Unknown at this time
CO	6	Animas River - Upper Animas Watershed Sites	Proposed NPL site - Water Quality Impacts; both ecological and human health risks from acid rock drainage contaminated surface water.	Unknown at this time
CO	7	Animas River - Cement Creek Watershed Sites	Potential NPL site - Water quality impacts; both ecological and human health risks from acid rock drainage contaminated surface water.	Unknown at this time
MT	8	Zortman/Landusky	Risks from metals and acid rock drainage to adjacent surface water bodies and ecological and human receptors; BLM has O&M responsibilities, treatment plant in place.	~ \$1,750,000 (Recurring annual costs a portion of which are paid by BLM)
NV	9	Yerington	Potential NPL site; human health risks from arsenic in groundwater, surface water, soil and sediment.	Unknown at this time

State	Priority	AML Site	Risk*	Cost Estimate
AML Priority Hardrock Mining Sites List for <u>Environmental Hazards</u>				
CA	10	Rand Historic Mining Complex	Human health and ecological risks primarily from arsenic. Three operable units.	~ \$10,000,000 (Estimated remediation cost only; does not include operation and maintenance costs)

State	Priority	AML Site	Risk (risk rating number/priority)*	Cost Estimate
AML Summary of All <i>Known</i> Hardrock Mining Sites with Physical Safety Hazards				
AK, AZ, CA, CO, ID, MT, NV, NM, OR, WA, UT, WY	Includes all priorities-low, medium, and high. BLM does not have the capacity to evaluate the universe of all known sites in order to develop a national prioritized list. To target resources to the highest risks, BLM state offices normally direct their allocations to the highest risk sites in known high risk areas.	<p>Open adits, shafts, highwalls, pits and unsecured facilities. BLM has identified 37,000 physical safety hazard sites nationwide that need to be addressed.</p> <p>Each year, the BLM discovers about 5,000 new AML sites. Of these, about 90% (or 4,500) are AML physical safety sites and the remaining 500 are environmental hazard sites. BLM has the capacity to address/mitigate approximately 1,000 physical safety sites/ year</p> <p>In California, Nevada, and Utah, it is estimated that more than 92,000 AML sites are yet to be discovered and inventoried.</p>	Risk is based on proximity to human use/urban accessibility interfaces, potential for injury, and availability of partnerships.	<p>Approximately \$674 million. (Note: BLM does not have the cost estimates for every known site. This estimate is based on past field costs. The average cost to field-validate and remediate an AML site for physical safety hazards alone-not including environmental hazards—is \$18,215 per site with 37,000 currently known physical safety hazard sites.)</p> <p>The BLM allocates \$4 million annually to remediate AML physical safety hazard sites.</p>

**Risk rating figures developed using DOI's Environmental and Disposal Liabilities ranking tool.*
