Description:

Hi Ryan, As discussed, Marian Campbell Jarvis, Assistant Deputy Minister, Minerals and Metals Sector, at Natural Resources Canada is visiting Washington, next week. She is keen to meet with Deputy Assistant Secretary for Land and Minerals Management MacGregor, if possible, while she is here. She had identified 4-6 pm on May 17 as one window that would work. Possible agenda items could include: - Opportunities for mineral resource development on federal lands. o Is the geological potential of these lands known? o Given recent and anticipated efforts to open up more federal lands to multi-use, what opportunities does this present for mineral resource development? o What are the associated timelines? - Possible interest in reconnecting at the working level with the Bureau of Land Management to compare strategies related to Indigenous land management, geographic information systems and/or natural boundary issues. She would also be open to discussing other issues Ms. MacGregor might want to raise. Let me know if there is any additional information you need. Description:

On Wed, May 10, 2017 at 2:55 PM, Tim Constantine wrote: Hi there We'd like to request a short meeting with Secretary Zinke for Thursday, May 18 or Friday, May 19 at his office to discuss the RFS/ corn ethanol issue. We have meetings with Scott Pruitt at EPA at 3 PM Thursday and members of House Energy and Commerce mid-afternoon on the Hill, but will work around the Secretary's schedule if he can block out 10 or 15 minutes. I will be joined by Dr. Jerry Jung, a very successful retired businessman from Michigan. He is a lifelong conservationist and outdoorsman. He believes the RFS was a well intentioned program that hasn't fulfilled it's promise and needs some rethinking. He is spending a significant amount of his own time and his own money to try and help. He is extremely well informed on the issue and has had meetings with Members of Energy and Commerce, with various stakeholders including the environmental, conservation and agriculture communities. The purpose of his requested meeting is to share his concerns and experience with the Secretary and to learn where Interior stands on rethinking the issue. On Thursday, May 18 we have an 11:15 am meeting with Pruitt at the EPA and a 3 PM on the Hill, but will work around your calendar for any other time that works. We can also make Friday morning work if you prefer. Thanks very much for the time and consideration. We appreciate it. -- Tim Constantine Washington DC Direct (b) (6) We aren't representing an company or group, but rather are here because Dr. Jung believes the RFS/ Corn Ethanol issue to be critical to the future well being of the US. In addition to his considerable business success, Dr. Jung is an avid conservationist and outdoorsman and is spending considerable time, money and effort to influence the corn ethanol policy for the best future possible. He has no business interest related to the issue whatsoever. Bio for Jerry Jung Over \$1,000,000,000 of shareholder value created by companies that founded or controlled by Jung. Founded Landfill Energy Systems in 1987. The EPA awarded this alternate energy company a certificate that declared that methane reduction achieved by its power plants was equivalent to taking 800,000 cars off the road. Company was sold in 2008. CEO of Michigan CAT from 1988 to 2011. Market share rose to 60% from 25%. Revenues peaked at \$550,000,000 and employment rose to 880. The business was sold in 2011 .
