STATE OF AMERICAN ENERGY 2018 | HOW NATURAL GAS & OIL ARE POWERING PAST IMPOSSIBLE

**Please join us for the American Petroleum Institute's 2018 State of American Energy luncheon.** As the midterm election year begins we will remind lawmakers, policymakers and the public that America's domestic energy abundance is helping to meet the ever-growing demand for energy, but also how those same resources are the building blocks for many of the products that make our modern society safer, advance the medical arts, and spur creativity and scientific innovation through our **Power Past Impossible** advertising campaign.

From energy that keeps our homes, offices, and schools lit and warm, to the modern fuels that not only power our vehicles but also help to improve our environment, to the modern pharmaceuticals that improve the health and well-being of millions. Power Past Impossible makes the connection between natural gas, oil and their derived products and their fundamental role in our society, which is essential to positively advance the national energy policy discussion.

**RSVP**  
BY DECEMBER 22<sup>ND</sup>

This invitation is non-transferable.

Sincerely,

**JACK N. GERARD**  
President and CEO, API

**When**

TUESDAY, JANUARY 9, 2018

11:30 A.M.-1:00 P.M.
