(b) (5) The story of this relationship is one of two giants, one an innovative and idealist new comer, and the other an ancient civilization with an industrious and ambitious spirit, that have found themselves sharing the reins of global power in the 21st century. As a result, these two very different nations have been compelled to collaborate and overcome their economic, political, and security differences. What are the primary issues that face the relationship? What has shaped the perceptions one has of the other? And what can the history of U.S.-China Relations tell us of its future? During this presentation, Sean will review the history of U.S.-China Relations from the colonial era to the present in an attempt to answer these questions.

Interms of classification, classified space obviously allows for a little more latitude but unclass is fine if that easy and ready to hand. No problem on that score.

Description:

Mr. Domenech, I am forwarding this meeting invite for your consideration at the recommendation of David Downes. Very Respectfully, Gloria Gloria Freund ODNI IC CWT Lead NIM Africa 703-275-3685 Secure 917-3685 -----Original Appointment----- From: Gloria Freund Sent: Tuesday, June 26, 2018 9:52 AM To: (b)(6)- David Bernhardt 'David_downes@ios.doi.gov'; 'Jean.Williams@USDOJ.gov'; 'Hettenbach, Wayne (ENRD)'; 'Hubbard, David'; 'Bogan, Shanedda L. (ENRD)'; Leventhal, Robert: 'Kobb, Shawn A'; 'Watson, Rowena P'; Magdalena Bajll; 'Medler, James D CIV DIA (US)'; (b)(6)@nga.mil Subject: Invitation: leadership discussion, Transnational Criminal Convergence When: Tuesday, July 10, 2018 9:30 AM-10:30 AM (UTC-05:00) Eastern Time (US & Canada). Where: DNI Liberty Crossing 2, Room 5A425 Sir/Madame, The Director of National Intelligence, National Intelligence Manager for Africa IC CWT lead will host a briefing and discussion focusing findings of recent, innovative IC work on transnational organized criminal convergence; these findings have implications worth consideration by senior leadership on illicit trafficking/Transnational Organized Crime issues at CWT Task Force lead agencies - State, Interior, Justice - as well as the Department of Defense. This study validated substantial transnational criminal overlap through using a structured, data-centric approach and a commodity-agnostic frame, correlating classified holdings to troves of unclassified wildlife seizure law enforcement data. Neither the IC nor DoD typically harvest such data - but this study proved its palpable national security relevance and value. The findings coming out of that correlation are eye-opening for their many documented links to actors and malign activities of high national security interest. The methodology and findings also suggest, and commend further discussion on, how we innovate and strengthen a cross-agency approach to this expansive threat. Jim M: thanks for handling for DASD Alexander/staff Shanedda: thanks for handling for Mr. Wood Shawn, Rowena, Bob L: thanks for seeing to appropriate State participation Very Respectfully, Gloria Gloria Freund ODNI IC CWT Lead NIM Africa 703-275-3685 Secure 917-3685

Description:
Doug, Downey, and Greg, Hello! We haven't had the pleasure of meeting or working together yet, but before I started working for the Aquarium, I used to work for DOI in the Bureau of Safety and Environmental Enforcement. Scientists from New England Aquarium and Mystic Aquarium request an opportunity to brief you and others at DOI on recent scientific findings from the Northeast Canyon and Seamounts National Monument. We also welcome a conversation with leadership at DOI about what additional information might be of value to you in informing future deliberations and decisions about the status of the Monument. Dr. Scott Kraus, Vice-President and Senior Science Advisor of the Anderson Cabot Center for Ocean Life at the New England Aquarium and Dr. Peter Auster, Senior Research Scientist at Mystic Aquarium—Sea Research Foundation are available on Friday, July 13 or Monday, July 16. Would either of these dates work for you and your colleagues? Dr. Kraus and Auster will be accompanied by me and my counterpart at Mystic Aquarium, Katie Cubina, copied here. If these dates don't work, please let us know if there are any alternate dates later in July or August that do. Many thanks for considering this request, and I look forward to hearing back from you soon. Have a very happy 4th of July! Regards, Kelly Kelly A. The meeting is in Room 2478 in Main State. Please have them come to the entrance on 21st Street (Diplomacy Center entrance), which is closest to the meeting room. They should bring their government IDs with them. With government IDs they can proceed straight to the room. The phone is (b) (6) for individuals calling in. From: Layne, Michael Sent: Tuesday, September 11, 2018 10:29 AM To: 'lesia_monson@ios.doi.gov' Cc: Gourley, Julia L (OES) Subject: Arctic Environment Ministers Meeting Briefing Hi Lesia, Jon Harrison asked that I reach out to you to organize a briefing for Stephen Wackowski on the Arctic Environment Ministers Meeting. We are happy to arrange that for him. The full delegation will be: PDAS Judy Garber (HoD) Steve Wachowski (DOI) Jay Heung (Emb Helsinki) Santina Gay (EPA) Gil Castellar (DOI/FWS) We can arrange a briefing together with Santina and Gil if Stephen would like. It might be helpful so that everyone is on the same page. Otherwise we can do a separate briefing if he would prefer that. Also, the details are still in flux. It might be more productive to wait until October 1 when we expect to have more clarity. We are happy to brief, however, whenever it works best for Stephen. Best regards, Mike Mike Layne, Deputy Director Office of Ocean and P Affairs (OES/OPA) U.S. Department of State 202-647-3013; LayneMJ@state.gov

As more details are firmed up, we will share them in this invitation. While this event is not required, we do always appreciate team member participation to demonstrate the DOI team engagement at Delta. As always, please contact Greg or Kerry with any questions-- and remember that adding many more details to this will necessitate a secure conversation as opposed to email or a telephone call. Stephanie Johnson, study director for the National Academies project, will present key findings and lessons learned overthe course of the seven reviews.National Academies of Sciences, Engineering and Medicine’s FourteenYears of Reviews of Everglades Restoration ProgressThe Comprehensive Everglades Restoration Plan (CERP) was approved byCongress in 2000 as a multibillion dollar, multidecadal plan with 68projects to restore the South Florida ecosystem, which includesEverglades, Biscayne Bay, and Big Cypress National Parks, A.R.M.Loxahatchee National Wildlife Refuge, and Miccosukee and Seminole Tribelands. Congress also mandated that an independent scientific reviewpanel provide biennial reports of progress, and since 2004, theNational Academies have convened committees of experts, who volunteertheir time to this endeavor. In addition to reviews of restorationprogress and monitoring, each biennial report examines 1-3 focal issues that the committee judges are impacting restoration progress or arelikely to impact progress in the near future. These reports have hadimportant impacts on the trajectory of the restoration, includingproviding the impetus for the Central Everglades Planning Project. Thecommittee’s seventh report, Progress Toward Restoring the Everglades:The Seventh Biennial Review, 2018, will be publicly released on October17th. Note- 12:00 noon HST time/5:00 pm EST Doug, Really appreciate your help and guidance. One of our clients is interested in expanding their business in the Guam power sector and is looking to do their due diligence as far as the business and regulatory culture in the territory and any guidance you might have as we look at any unique challenges of a mainland business expanding in the territories. We are interested in your thoughts on available federal resources or suggestions of entities or officials in Guam you would suggest would be good starting places for us to explore expanded engagement there. We would love to set up a brief call with you and George Pickart of GE to get your thoughts. Really appreciate your help. Thanks, Michael Zehr Tel: 202-210-6647

2pm - 3pm Meeting w/John Buttarazzi re: Guam

Where: 3110

Calendar: Douglas Domenech

Created by: Shandria Dixon

Who: Douglas Domenech, Nikolao Pula, Basil Ottley, Tanya Joshua, Dwayne Petersen

Description:

Just following up. Guam Water Works has been laboring under an EPA decree to literally clean up its act. It will be a very expensive task that if paid for through conventional public financing will significantly increase government debt and raise water rates for residents. A partial solution may exist by tapping into the value of the airport. A.B. Won Pat Guam International Airport holds significant value and generates cash flow that the Guam Government cannot currently access to address other island needs such as the Water Works. Under FAA rules all revenue generated on the airport must stay on the airport. There is a solution. The FAA Airport Privatization Program allows a government to monetize the value of the facility and apply proceeds for other uses. This is what San Juan did with Luis Muñoz Marín International Airport. In that \$2.6 billion transaction, the Puerto Rico Ports Authority made \$615 million through an upfront payment. A similar deal could likely be structured for Guam (as well as the American Virgin Islands by the way).

Description:

In order to access the conference as a participant, dial the number below and enter the Participant Code: Participant Dial-In: (b) (5) Participant Code: (b) (5) All, Doug Hoelscher and I had a call with the Interagency Group on Insular Affairs (IGIA) from the Interior Department today to review a number of topics that the insular territories (American Samoa, Guam, Northern Mariana Islands, and the Virgin Islands) brought up at their annual meeting in February. Two topics that came up that impact White House Leg Affairs and Treasury are War Claim Payments (an issue that, because of a technical error in legislation, has prevented Treasury from paying wartime claim payments) and an issue related to the Virgin Islands and the JOBS Act (letter attached). Doug Hoelscher would like to set up a conference call to begin working through these two issues. Does 4:00pm on Thursday work for folks for a 30 minute call? Description:

I would like to schedule a meeting to discuss two matters which arose during my recent trip to Guam. 1. Guam approved medical marijuana in 2014 and allowed for home grown marijuana last year. The Governor just approved the Guam Cannabis Industry Act of 2019. The new bill allows for adults 21 or older to possess and grow cannabis while creating a regulated system to buy and sell marijuana. USVI may have a similar law. (b) (5)

Description:

On May 8, I would like to schedule a meeting with the Douglas W.Domenech, the Assistant Secretary for Insular and International Affairs at the U.S. Department of the Interior. In meeting with Sec. Domenech, Mr. Fuerst and I would like to discuss PVCasaPR's San Juan, Puerto Rico manufacturing facility and PVCasaPR capability to export low-cost, hurricane-earthquake resilient housing. While Puerto Rico is not directly in Sec. Domenech's jurisdiction, he will be interested in meeting PVCasaPR's founder, Mr. Fuerst, who moved to Puerto Rico to help the island rebuild ... and who actually is rebuilding Puerto Rico, not merely talking about it. PVCasaPR is among Puerto Rico's best - if not the best - post-Maria, new business recovery stories. One year ago, PVCasaPR refurbished and opened its San Juan manufacturing facility in a HUBZone (see photo and link below). Every work day, approximately 45 employees and independent contractors work at or from PVCasaPR's facility. Primarily, PVCasaPR is in the home construction business (both hands-on construction and house-building kits), but its technologies and methods are adaptable to low-rise warehouse facilities and 3-story walk-ups (using only rebar, no added steel). PVCasaPR has built 20+ houses and currently is in the final stages of negotiating contracts to build another 1200 houses in Puerto Rico. PVCasaPR's house and warehouse structures have been tested and certified to satisfy all U.S. requirements for withstanding hurricanes and earthquakes. PVCasaPR immediately can provide low-cost, hurricane-earthquake resilient, permanent housing to areas where hurricanes/cyclones are a recurring problem, such as the U.S. Virgin Islands' and the U.S. Pacific territories (see attached video of an elevated PVCasaPR project in Guatemala). PVCasaPR's housing kits can be sent anywhere in the world via truck and intermodal container (approx. 16 kits/container) and constructed quickly (i.e. a few days) by the local populations using only low-tech tools. Currently, PVCasaPR's facility has the capacity to build the components for 400 housing kits per month, but on short notice is capable of 800 kits/month. Thank you. Regards, Greg Tosi
