Description:

In coordination with the Office of Surface Mining Reclamation and Enforcement (OSMRE) and the U.S. Fish and Wildlife Service (FWS), we have prepared the attached recommendation memorandum that describes the preferred option for OSMRE and FWS to comply with the Endangered Species Act (ESA) in a streamlined way that would allow State regulatory authorities and coal companies to obtain incidental take coverage under the ESA for new and existing surface coal mining and reclamation operations. We've also prepared the attached briefing paper that summarizes the plaintiffs' (National Mining Association and Murray Energy Corporation) concerns about the 2016 programmatic biological opinion and the memorandum of understanding between OSMRE and FWS. After you've had an opportunity to read these documents, we suggest scheduling a meeting to discuss the recommendation.
